GENERAL RISKS

Investment in non-convertible securities is risky and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under "Risk Factors" and "Material Developments" on page 19 and 199 respectively of this Prospectus. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the non-convertible securities or investor's decision to purchase such securities. This Prospectus has not been and will not be approved by any regulatory authority in India, including the Securities and Exchange Board of India ("SEBI"), the Reserve Bank of India ("RBI"), Registrar of Companies ("RoC") or any stock exchange in India nor do they guarantee the accuracy or adequacy of this document.

ISSUER'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus, contains and will contain all information with regard to our Company and the Issue, which is material in the context of this Issue. The information contained in this Prospectus, is true and correct in all material respects and is not misleading and that the opinions and intentions expressed herein are honestly stated and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading.

CREDIT RATING

The NCDs proposed to be issued pursuant to this Issue have been rated 'CRISIL A/Stable' (pronounced as CRISIL A rating with Stable outlook) by CRISIL Ratings Limited for an amount of up to ₹17,500 Lakhs by way of its letter dated November 24, 2023 (and revalidation letter dated May 21, 2024), and rated 'ICRA A (Stable)' (pronounced as ICRA A rating with a stable outlook by ICRA Limited for an amount of up to ₹40,000 Lakhs by way of its letter dated July 24, 2023 (and revalidation letter dated June 12, 2024) read with rationale dated July 24, 2023. Ratings issued by CRISIL Ratings Limited and ICRA Limited are valid as on the date of this Prospectus and will continue to be valid for the life of the instrument unless withdrawn or reviewed. Instruments with this rating are considered to have an adequate degree of safety regarding timely servicing of financial obligations. Such instruments carry low credit risk. The rating provided by CRISIL Ratings Limited and ICRA Limited may be suspended, withdrawn or revised at any time by the assigning rating agency and should be evaluated independently of any other rating. These ratings are not a recommendation to buy, sell or hold securities and investors should take their own decisions. For the rationale, revalidated letters and press release for these ratings, see "Annexure B-1" and "Annexure B-2" of this Prospectus, on page 660 and 686 respectively of this Prospectus.

Non-compliance with the observations made during any such inspections could lead to penalties, adverse actions or issue of warning letters which may adversely impact our reputation, financial condition and results of operations.
- Our ability to successfully implement our strategy, growth and expansion plans.
- We operate in a highly regulated environment, and changes in laws, regulations, and government policies could adversely affect our business Competition from our existing as well as new competitors.
- Our operations heavily rely on IT systems, and any failures or inadequacies in these systems could disrupt our businessThe outcome of any legal or regulatory proceedings we are or may become a party to;
- Factor affecting the business and reputation of SMC group may have a concurrent adverse effect on our business and results of operations.
- Occurrence of natural calamities or natural disasters affecting the areas in which our Company has operations

For further discussion of factors that could cause our actual results to differ, see “**Risk Factors**” on page 19 of this Prospectus. Certain other additional factors that could cause actual results, performance or achievements to differ materially include, but are not limited to, those discussed under the “**Industry Overview**”, “**Our Business**” and “**Outstanding Litigations and Defaults**” on pages 91, 132 and 266 of this Prospectus respectively.

The forward-looking statements contained in this Prospectus are based on the beliefs of our management, as well as the assumptions made by and information currently available to our management. Although our Company believes that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialize, or if any of our Company’s underlying assumptions prove to be incorrect, our actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to us are expressly qualified in their entirety by reference to these cautionary statements.

By their nature, certain market risk disclosures are only estimate(s) and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company, its Directors, its KMPs and officers, nor any of their respective affiliates or associates or the Lead Manager, have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI NCS Regulations, as amended, our Company and the Lead Manager will ensure that investors are informed of material developments between the date of filing this Prospectus with the RoC and the date of receipt of listing and trading permission being obtained from the Stock Exchange for the NCDs.

CERTAIN CONVENTIONS, USE OF FINANCIAL, INDUSTRY AND MARKET DATA AND CURRENCY PRESENTATION

Investment in NCDs involve a degree of risk and investors should not invest any funds in NCDs unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the issue including the risks involved in it.

Specific attention of investors is invited to statement of risk factors contained under section "**Risk Factors**" on page 19 of this Prospectus. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the NCDs or Investor's decision to purchase such securities.

SECTION II: RISK FACTORS

An investment in this type of security involves a certain degree of risk. The investor should carefully consider all the information contained in this Prospectus, including the risks and uncertainties described below, before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risks that may arise in connection with our business or any decision to purchase, own or dispose of the Debentures. Additional risks, which are currently unknown, if materialises, may in the future have a material adverse effect on our business, financial condition, cash flows and results of operations. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment.

The financial and other related implications of the risks described in this section, have been disclosed to the extent quantifiable as on the date of this Prospectus. This Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. This Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Prospectus. Unless otherwise stated, or unless context requires otherwise, the financial information used in this section is derived from and should be read in conjunction with Financial Information as included in this Prospectus.

INTERNAL RISKS

- 1. We are subject to extensive statutory and regulatory requirements and supervision and operate in a highly regulated environment, which is subject to change, and existing and new laws, regulations and government policies affecting the sectors in which we operate could adversely affect our business, financial condition and results of operations.***

Our Company is registered with SEBI under the Stock Brokers and Sub Brokers Regulations, 1992 and is a member of BSE, NSE, MCX and NCDEX. Our Company is also registered with CDSL and NSDL in the capacity of depository participant. Further, we are also registered with other regulatory agencies including, *inter alia* RBI, IRDAI, Association of Mutual Funds in India, RERA, CERSAI, KYC Registration Agencies and NSDL Database Management Limited, etc. For details of our business activities and registrations with various regulatory authorities, see "***Our Business***" and "***History and Certain Corporate Matters***" on pages 132 and 154, respectively. To undertake some of our business activities, including for the launch of new products, we may need to obtain registrations and approvals under, and comply with, regulations issued by various regulatory authorities, including, SEBI, IRDAI, NSDL, CDSL, BSE, NSE, MCX and NCDEX from time to time. Such regulations include the SEBI Depositories and Participants Regulations, SEBI Stockbrokers Regulations, SEBI Mutual Funds Regulations, AMFI Guidelines, IRDAI Registrations of Corporate Agents Regulations, 2015 and Real Estate (Regulation and Development) Act, 2016. Additionally, we need to ensure compliance with various statutes, such as the SCRA read with the SCRR, the SEBI Act, and various rules, regulations, notifications and circulars issued under such statutes. In addition, our business operations are subject to regulatory limits on brokerage fee rates and net worth requirements imposed by the Stock Exchanges.

We believe that significant regulatory changes in our industry are likely to continue, which is likely to subject industry participants to additional and generally more stringent regulations. The requirements imposed by our regulators are designed to ensure the integrity of the financial markets and to protect investors and other third parties who deal with us and may not always coincide with the interests of our shareholders. Consequently, these regulations may serve to limit our activities and/or increase our costs, including through investor protection, compliance management and market conduct requirements. We may also be adversely affected by changes in the interpretation or enforcement of existing laws and rules by various governmental authorities and self-regulatory organizations.

Though we ensure compliance with applicable law including various acts, rules, regulations and circulars

issued by SEBI and other applicable regulatory authorities relating to our activities including margin trading, we cannot assure you that the Government or the regulatory authorities will not take different interpretations regarding applicability of, or compliance with, the laws and regulatory framework governing our business. We may be unable to obtain, maintain or renew, or comply with the terms of, the regulatory approvals and registrations applicable to our business activities, and this may have adverse consequences for our business operations. In such an event, we may also be subject to regulatory action, including fines, suspension or termination of approvals or registrations, or restrictions on undertaking all or some of our business activities.

Additionally, the laws applicable to our business continue to evolve and may be amended, revised, or replaced in the future by the Government or regulatory authorities, or due to judicial decisions. Due to the nature of business activities undertaken by us, our employees are also required to comply with various regulations, such as SEBI Insider Trading Regulations, SEBI Stock Brokers Regulations, etc. Even though we have established an internal framework to monitor the conduct of our employees, we cannot assure you that none of our employees will violate the provisions of applicable law in the course of their employment with us or that all such violations would be detected by us in a timely manner, or at all. Any violation of applicable laws by our employees related to their employment with us may affect our business operations.

2. *Our Company, Directors, Promoters and Subsidiaries are involved in certain legal and other proceedings. Any adverse outcome in such proceedings may have an adverse effect on our business, results of operations, financial condition and cash flows.*

Certain legal proceedings involving our Company, Directors, Promoters, Group Companies, and Subsidiaries are outstanding at various levels of adjudication before various courts. For details of material legal proceedings that we, our Promoters, our Directors, Group Companies and our Subsidiaries are involved in, see "**Outstanding Litigations and Defaults**" on page 266 of this Prospectus. We cannot assure you that the outcome of these legal proceedings will be favourable, and any adverse decision in any of these proceedings may impact our business and financial condition. The disputed amount involved in certain matters may be large, and an adverse order against us on such matters may impact our financial resources. Litigations against our Company could also consume our financial resources in their defence or prosecution. Further, should any new developments arise, such as changes in Indian law or rulings against us by the regulators, appellate courts or tribunals, we may need to make provisions in our financial statements, which could increase our provisions, expenses and current liabilities. Further, our Company, Subsidiaries and Group Companies are also involved in actions taken by regulatory authorities which are currently pending, including ongoing investigations by the SEBI and Economic Offence Wing. For details, see "**Outstanding Litigations and Defaults**" on page 266 of this Prospectus. A summary of the number of outstanding litigations is set out below:

3. *The operation of our businesses is highly dependent on information technology, and we are subject to risks arising from any failure of, or inadequacies in, our IT systems.*

Our operations rely heavily on the effectiveness of our IT systems and their ability to record and process accurately a large number of transactions on a daily basis and in a timely manner to provide a seamless digital experience to our clients. While we are compliant with the circulars on 'Cyber Security & Cyber Resilience framework for Stock Brokers/ Depository Participants' dated December 3, 2018, October 15, 2019 and June 7, 2022 issued by SEBI, we have recognised and continue to address the need to have sophisticated technology systems in place to meet our clients' requirements. A prolonged disruption of, or failure of, our information processing or communications systems would limit our ability to process transactions. In the last three financial years, there have been few technical disruptions, however, these did not materially impact the operations of our Company. We cannot assure you that a similar or material disruption may not occur in the future, thereby materially affecting our competitiveness, financial condition, cash flows and results of operations.

Our Company recognizes the criticality and need of its business and understands the importance of the availability of its information, information systems and processing facilities. In case of man-made or natural disaster, it is essential that our Company is prepared to re-establish business or services as swiftly and smoothly as possible, thus ensuring minimal loss or disruption. Our system for processing securities transactions is automated and we rely heavily on the ability of our trading system to handle a large number of transactions. While we regularly monitor and upgrade the capacity of our trading system and conduct mock tests in anticipation of high volumes of transactions, we cannot assure you that we will be able to process all trading orders at a time of increased demand, including due to increased market volatility. If we are unable to efficiently process all trading orders received, we may lose clients, become subject to client complaints, litigation or regulatory action, face financial losses and may adversely affect our reputation. Although we back up our business data regularly and have a business continuity and disaster management policy, we cannot assure you that there will not be an unforeseen circumstance or that our disaster recovery planning is adequate for all eventualities.

The securities industry is characterized by rapidly changing technology and the future success of our business will depend in part on our ability to effectively adapt to technological advances and to emerging industry standards and practices on a cost-effective basis. Web platforms and mobile applications are popular among clients due to their convenience and user-friendliness. We rely heavily on technology and rely on our electronic brokerage platform and mobile apps to provide a wide range of brokerage and distribution services. If we are unable to effectively compete on IT-enabled offerings, it could have a

material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

System failures or inadequacy and security breaches in computer systems may adversely affect our business. We face the threat of fraud and cyber-attacks, such as hacking, phishing, trojans and other threats, attempting to exploit our network to disrupt services to customers and/or theft of sensitive internal company data or customer information. This may cause damage to our reputation and adversely impact our business and financial results. Our technology operations are also vulnerable to disruptions from human error, catastrophic events including natural disasters, lack of capacity during peak trading times or times of unusual market volatility, power failure, computer viruses, spam attacks, ransom ware, distributed denial of services attacks, unauthorized access, data leakage and other similar events, and we may not be able to adapt to the evolving technology in the industry. Disruptions such as hacker attacks, frauds, virus or worm infestation of our IT systems, or an internal problem with information protection, such as failure to control access to sensitive systems, could materially interrupt our business operations or cause disclosure or modification of sensitive or confidential information and could harm our business, reputation and prospects.

The proper functioning of our internet-based trading system, order routing system, back-office systems, settlement system, risk management system, financial controls, accounting, client database, client service and other data processing systems, together with the communications networks linking our IT systems with relevant exchanges, banks, depositories, registrar and transfer agents and client interfaces, is critical to our business and our ability to compete effectively. Our business activities would be materially disrupted in the event of a partial or complete failure of any of these IT systems, communication networks or their backup systems and procedures. Please see "*Risk Factors- We face various risks due to our reliance on third-party intermediaries, business associates, vendors and service providers*" on page 33 of this Prospectus.

4. *Any violations or mistakes by our Authorised Persons can lead to severe regulatory penalties, financial losses, and reputational damage, potentially disrupting our operations and eroding client trust.*

Our operations are reliant on the performance and compliance of our branches and authorized persons. Any violations or mistakes committed by our branches and authorized persons can have significant adverse effects on our company. The key risks associated with branches and authorized persons activities include:

Regulatory Non-Compliance: Our branches and authorized persons are required to adhere to stringent regulatory requirements. Any failure to comply with these regulations can result in severe penalties, sanctions, or legal actions against our firm. Regulatory bodies may impose fines, suspend operations, or revoke licenses, severely impacting our business operations and financial stability.

Reputational Damage: Our goodwill and market reputation are critical to maintaining client trust and attracting new business. Any unethical behavior, fraudulent activities, or significant errors by our Authorised Persons can lead to negative publicity, damaging our brand image. Loss of trust can result in client attrition and difficulty in acquiring new clients, thereby affecting our revenue and growth prospects.

Financial Liability: Mistakes or violations by our branches or authorized persons can lead to substantial financial losses. This includes potential compensation claims from affected clients, legal fees, and costs associated with regulatory fines. Additionally, we may face increased insurance premiums or the need to reserve funds to cover potential liabilities, which could strain our financial resources.

Operational Disruptions: Compliance breaches or fraudulent activities can necessitate immediate and extensive internal investigations and audits. This diversion of resources can disrupt our regular business operations, causing delays, increased operational costs, and loss of productivity. Furthermore, the need to implement corrective measures may require significant investments in training, systems, and process enhancements.

Client Trust and Retention: Any breach of compliance or misconduct by our branches and authorized persons can erode client trust. Clients may withdraw their investments, leading to a decrease in assets under management. The loss of high-net-worth individuals or institutional clients can have a pronounced negative impact on our financial performance and market position.

While branches and authorized persons play a crucial role in expanding our reach and servicing clients, their actions can have far-reaching implications on our regulatory standing, reputation, financial health, and operational efficiency. Effective risk management strategies, stringent compliance protocols, and oversight mechanisms are essential to mitigate these risks and safeguard our interests. However, there can be no assurance that such measures will be fully effective in preventing all potential adverse outcomes associated with Authorised Persons' activities.

5. ***Risk Factors Related to Technological Competitiveness and Mobile App Performance***

Our business heavily relies on the robustness, efficiency, and competitiveness of our technological applications and platform, including our mobile app based and web based services and solutions. The financial technology landscape is rapidly evolving, with continuous advancements and innovations. Our ability to remain competitive and attract clients depends significantly on the quality and functionality of our technological offerings. However, several risks are associated with this dependency: The fast-paced nature of technological advancements means that our current mobile apps and platform features may become outdated quickly. If we fail to continuously innovate and upgrade our technology to meet evolving market standards and client expectations, we risk losing our competitive edge.

Competitors with more advanced and user-friendly platforms may attract our clients, leading to a potential loss of market share. Our clients expect seamless, reliable, and efficient mobile applications for their trading activities. Any issues related to the performance, speed, user interface, or security of our apps can significantly impact user satisfaction. Negative user experiences can lead to client attrition, adverse reviews, and a damaged reputation, making it challenging to attract and retain clients. The financial services sector is a prime target for cyberattacks.

Any security breaches, data leaks, or vulnerabilities in our mobile apps and technical platform can result in substantial financial losses, legal liabilities, and regulatory penalties. Ensuring robust security measures requires continuous investment and monitoring, which can strain our resources. As technology evolves, ensuring compatibility and seamless integration with other financial systems and third-party applications becomes increasingly complex. Any failures in integration can disrupt client operations, leading to dissatisfaction and potential loss of business. Staying competitive in the technology space requires significant ongoing investments in research and development, platform enhancements, and regular maintenance. These costs can impact our profitability and financial stability, especially if the investments do not yield the expected returns in terms of client acquisition and retention. The perception of our technological capabilities influences our market position. Competitors continuously improving their platforms can create pressure to match or exceed their offerings. Failure to do so can result in a perception of inferiority, affecting our ability to compete effectively.

6. ***We had negative cash flow from operating, investing and financing activities, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.***

Our Company had negative cash flows from our operating, investing and financing activities in the previous years including for Financial Year 2024. Summary of our Cash Flows from Operating activities, Investing Activities and Financing Activities for financial years ended on March 31, 2024, 2023 and 2022 on Standalone and Consolidated basis is as following, respectively:

The Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. Any operating losses or negative cash flows could adversely affect our results of operations and financial conditions. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

7. Impact of losses by wholly owned subsidiary on our Company and its Financial Health.

Our wholly owned subsidiary, SMC Real Estate Advisors Private Limited, has been experiencing financial difficulties, impacting our overall financial health. In the fiscal year 2024, SMC Real Estate Advisors Private Limited, incurred losses amounting to Rs.598.07 Lakhs and its net worth as on March 31, 2024 is negative by Rs. 1,583.53 Lakhs. These losses may have implications for our Company as we seek to raise funds.

Firstly, the continued financial underperformance of SMC Real Estate Advisors Private Limited directly affects our consolidated financial statements. The losses from this subsidiary reduce our overall profitability and can result in lower net earnings for our company. This deterioration in profitability may make our stock less attractive to potential investors and can adversely affect our stock price.

Secondly, the persistent losses from SMC Real Estate Advisors Private Limited have a negative impact on our company's net worth. The reduction in net worth diminishes our financial stability and could lead to a downgrade in our credit ratings. Lower credit ratings can increase our cost of borrowing and limit our access to favorable financing options, thereby affecting our liquidity and ability to fund future growth initiatives.

Moreover, the financial strain from our subsidiary may necessitate additional capital injections to support its operations and cover its losses. This diversion of resources can strain our financial reserves and limit our ability to invest in other profitable areas of our business. The need to allocate funds to cover the subsidiary's losses may also reduce the dividends payable to our shareholders, potentially leading to dissatisfaction among our investor bases.

Furthermore, the losses incurred by SMC Real Estate Advisors Private Limited could raise concerns about our overall management effectiveness and strategic decision-making. Investors may perceive the ongoing losses as a sign of broader operational inefficiencies, which could undermine their confidence in our ability to manage and turn around underperforming assets.

8. There may be inadvertent discrepancies in our secretarial filings and/ or corporate records. We cannot assure you that no legal proceedings or regulatory actions will be initiated against our Company in the future in relation to any such discrepancies and we will not be subject to any penalty imposed by the competent authority in this regard.

We manage our internal compliance by monitoring and evaluating internal controls and ensuring all relevant statutory and regulatory compliances. However, there can be no assurance that deficiencies in

our internal controls will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all. Accordingly, we cannot assure you that our Company will not be subject to any legal proceedings or regulatory actions, including monetary penalties by statutory authorities on account of any inadvertent discrepancies in our secretarial filings and/or corporate records in the future, which may adversely affect our business, financial condition and reputation.

9. *Our Company and our Subsidiaries are subject to periodic inspections by various statutory and regulatory authorities. Non-compliance with the observations made during any such inspection could lead to penalties, adverse actions or issue of warning letters, which may adversely impact our reputation, financial condition and results of operations.*

Our business and activities are subject to periodic inspection by various authorities, such as SEBI, CDSL, NSDL, BSE, NSE, MCX, NCDEX, MCCIL, MSEI, ICCL and MCXCCL (collectively "**authorities**"). In addition, our Subsidiaries, Moneywise Finvest Limited, being a registered NBFC and SMC Insurance Brokers Private Limited, being an insurance broking company, are subject to periodic inspections by their respective regulators RBI and IRDAI. Though, we endeavor to remain compliant with all applicable regulations, there have been instances in the past of certain lapses and non-compliance. For instance, in the past, SEBI, NSE, BSE, NCDEX have (a) identified certain deficiencies in our operations, (b) made certain observations in relation to our operations during their periodic inspections, and (c) sought certain clarifications on our operations, including as follows:

- Non-maintenance of reconciliation statements;
- reporting incorrect data towards segregation and monitoring of collateral at client level to clearing member/ clearing corporation;
- delayed/ non-settlement of client funds;
- delayed retention statements;
- mapping of multiple clients to single email ids/mobile numbers;
- incorrect daily margin statements;
- KYC details discrepancies.

On the basis findings pursuant to inspections conducted by various authorities, our Company has paid penalties of (i) ₹2500 to MCXCCL because our compliance officer did not have the NISM certificate III-A on continuous basis; (ii) ₹88,000 to NSE for non-reconciliation of securities back-office holdings of clients securities; (iii) ₹3,40,000 to NSE for mapping single email ids/mobile numbers to multiple clients; (iv) ₹9,26,000 to NSE for engaging as principal in a business other than securities, incorrect data in weekly holdings, mapping single email ids/mobile numbers to multiple clients and incorrect data submitted towards weekly monitoring of funds; and (v) ₹1,71,326 to NCL for incorrect reporting under MG 12 for trading member's proprietary margins obligations. For further details, see "**Outstanding Litigations and Defaults - Details of inquiries, inspections or investigations initiated or conducted under the Securities laws, Companies Act, 1956 or the Companies Act, 2013 against our Company and Subsidiaries in the last three years along with Section wise details of prosecutions filed (whether pending or not), fines imposed or compounding of offences against our Company and Material Subsidiaries in the last three years**" on page 285. Additionally, there are certain ongoing inspections being undertaken by the SEBI, NSDL and NSE (alert-based inspections) on our Company. While we attempt to comply with all regulatory provisions, directions or observations applicable to us, including in connection with the inspection reports described above, we could be subject to penalties and restrictions, which may be imposed by various statutory authorities. If we are not able to resolve such deficiencies to the satisfaction of the regulators, our ability to conduct our business may be adversely affected.

Further, as a 'Reporting Entity' under the Prevention of Money Laundering Act, 2022 ("**PMLA**"), our Company must comply with the obligations set out under Chapter IV of the PMLA and the Prevention of Money Laundering (Maintenance of Records) Rules, 2005. Currently, a proceeding has been initiated by the Directorate of Enforcement ("**DOE**") under Sections 3 and 4 of the PMLA, numbered PMLA Special Case No. 1389 of 2021, against Mr. Kapil Wadhawan and others, including allegations related to financial irregularities in investments, particularly ₹41,22,70,00,000 made by Uttar Pradesh Power Corporation Limited (UPPCL) in DHFL fixed deposits. Our Company acted as UPPCL's corporate

broker for ₹7,60,00,00,000 of these investments from March 2017 to June 2017. Though our Company had no involvement in the matter as is alleged in the proceedings, and there is no basis for its continued inclusion in the proceedings we cannot assure you that we will obtain a favourable order in this proceeding. If an adverse order is passed against our Company, we will file an appeal against such adverse order and this exercise may divert the attention of our management to defend such appeal.

For further details please refer "*Outstanding Litigations and Defaults –Litigation filed against our Company – Criminal Proceedings*" on page 267 of this Prospectus

10. *We rely on our broking business for a substantial share of our revenue and profitability. Any reduction in our brokerage fee could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.*

We rely substantially on our broking, distribution, and trading business for our revenue and profitability.

Details of our revenue from broking, distribution, and trading business, both on consolidated and standalone basis:

(data in %)

Particulars	Financial year March 31, 2024	Financial year March 31, 2023	Financial year March 31, 2022
Consolidated	55.78	60.75*	66.85
Standalone	100.00	100.00	100.00

*Restated figures

Our brokerage business depends on number of orders executed and trading volume, which is significantly affected by external factors, such as general economic conditions, macroeconomic and monetary policies, market conditions and fluctuations in interest rates, all of which are beyond our control. Our operating revenue is also affected by the size of our client base, and the frequency at which they do business through us. We earn brokerage income based on, among other things, the number of orders executed, the volume of trades our clients undertake through us. If we fail to maintain and increase our client base or fail to provide better services and products to retain and attract client activity, our brokerage income may be adversely affected.

Our brokerage income levels are heavily influenced by the competitive landscape, characterized by the absence of exclusivity arrangements with clients, the prevalence of clients using multiple brokerages, and standardized online products. In response to increased competition, we may need to lower fees and offer additional services to attract clients. However, any reduction in order volume could adversely affect our revenue, as our fees are based on the number of orders executed. Furthermore, there's no guarantee that we can attract new clients without brokerage reductions, potentially impacting our business, financial stability, and overall performance. Thus, it's crucial to carefully evaluate our strategies to maintain competitiveness while ensuring long-term sustainability and profitability.

In addition, our brokerage business faces various additional risks, including, among others, significant changes in the technological environment, changes in client preference, restrictions or limitations on offering internet-based trading services, operational risks and regulatory changes, any of which could have a material adverse effect on our business, financial condition and results of operations.

11. *Our Company is subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.*

Our Company is subject to certain restrictive covenants under our credit facilities and the documents executed in relation to NCDs issued by us that limit our flexibility in managing our business. There are restrictive covenants in the agreements we have entered into with certain banks and financial institutions for our borrowings. These restrictive covenants require us to maintain certain financial ratios and our existing credit rating and seek the prior permission of these banks and financial institutions/ NCD holders/ Debenture Trustees for various activities, including, among others, (a) any scheme of merger, amalgamation or a buyback, and (b) permit any change in the general nature of business of the Company. Such restrictive covenants may restrict our operations or ability to expand and may adversely affect our business. Although we have received necessary approvals from our lenders for this Issue, these restrictive

covenants may also affect some of the rights of our NCD holders, including the payment of the dividends in case of any default in debt to such lenders. For details of these restrictive covenants, see the section titled "**Financial Indebtedness**" on page 184 of this Prospectus.

12. *Our Promoters, certain of our Directors and Key Management Personnel may be interested in us other than in terms of remuneration and reimbursement of expenses, and this may result in a conflict of interest with us.*

Our promoter, certain of our directors and key management personnel are interested in us, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding, direct and indirect, and our stock options and benefits arising therefrom. We cannot assure you that our promoters, certain of our directors and key management personnel will exercise their rights as shareholders to our benefit and best interest. Further, since our promoters and promoter group hold equity shares in our company and are therefore interested in our company's performance in addition to their remuneration and reimbursement of expenses, it allows them to exercise significant influence over us.

13. *There are operational risks associated with the financial services industry which, if realised, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.*

We face various operational risks related to our business operations in the financial services industry, such as:

- human and systems errors, including in the confirmation, entry or settlement of transactions, due to the complexity and high volume of transactions;
- inadvertent deviations from defined processes and inadvertent errors due to the manual nature of processes;
- delay or failure to timely transfer, pledge or un-pledge securities to and from depository participants;
- failure to establish and maintain an effective controls and compliance oversight by our authorised persons' network;
- failure of technology in our processes, including risk management and settlement processes, causing errors or disrupting our operations;
- inadequate technology infrastructure or inappropriate systems architecture;
- failure to adequately monitor and control authorised persons and personnel at our dealer helpdesks;
- failure to implement sufficient information security, including cyber-security and controls;
- failure to maintain appropriate deposits with exchanges;
- fraud by employees, associates, authorised persons or through our digital and online platforms;
- fraud by authorised persons or personnel at our dealer helpdesks or our employees;
- delay or disruption in timely completion of obligations by market and other intermediaries including banks, exchanges, depositories and other participants;
- an interruption in services by our critical service providers;
- failure to timely report transactions to concerned intermediaries;
- damage to physical assets;
- failure of our complex automated risk management systems due to incorrect or inadequate algorithms;
- authorisation of direct market access system for non-institutional investors by SEBI; and
- inadequate due diligence, including client verification, non-adherence to anti-money laundering guidelines, KYC processes and client needs analysis, in the sales process.

If any of the foregoing were to occur, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also face the risk of regulatory penalties in our brokerage business from the exchanges or regulators for failures of routine operational processes. In the past, we have been, and in the future may be, penalised by the regulators and exchanges for non-compliance with regulatory rules and bye-laws relating to

operational failure, including in connection with cases of operation failure beyond our control. For details, see ***"Risk Factors- Our Company, and our Subsidiaries are subject to periodic inspections by various statutory and regulatory authorities. Non-compliance with the observations made during any such inspections could lead to penalties, adverse actions or issue of warning letters which may adversely impact our reputation, financial condition and results of operations"*** on page 24 of this Prospectus.

We may also offer a broader and more diversified range of products, services or solutions. We may not be able to fully appreciate or identify operational risks related to the new products, services or solutions introduced by us from time to time. Accordingly, any risk management measures or controls implemented by us for such new products, services or solutions may not be adequate and we may be subject to liabilities arising therefrom. Further, any failure to change our risk management measures and controls to our developing business in a timely manner could have a material adverse effect on our business, financial condition, cash flow, results of operations and prospects.

14. *We may fail to detect money laundering and other illegal or improper activities in our business operations on a timely basis, which may have an adverse effect on our reputation, business operations, financial condition and results of operation.*

We are required to comply with applicable anti-money laundering laws and regulations. These laws and regulations require financial institutions to establish sound internal control policies and procedures with respect to anti -money laundering monitoring and reporting activities. Such policies and procedures require us to, among other things, establish or designate an anti-money laundering framework, conduct client identification in accordance with relevant rules, duly preserve client identity information and transaction records and report suspicious transactions to relevant authorities. Since, we handle large volumes of monetary transactions for a large number of clients, the policies and procedures implemented by us for detecting and preventing the use of our brokerage platforms to facilitate money laundering activities may not comprehensively detect or eliminate instances of money laundering.

We are required to implement effective surveillance controls and measures for ensuring that our electronic brokerage platform is not misused by our clients, authorised persons, personnel at our dealer helpdesks or market participants to carry out manipulative trading activities. Failure of the surveillance control and measures implemented by us to detect illegal or improper activities undertaken through our platforms in a timely manner, or at all, could lead to regulatory actions against us and adversely affect our reputation.

If the controls and measures implemented for detecting or eliminating money laundering or other improper or illegal trading activities are considered inadequate under applicable laws and regulations by any regulatory, governmental or judicial authority, we may be subject to penal action, freezing or attachment of our assets, imposition of fines, or both. We cannot assure you that the controls and measures implemented by us are adequate to detect or eliminate every instance of money laundering or illegal trading activities in a timely manner or at all. Any such lapse may adversely affect our reputation, business operations, financial condition and results of operations.

15. *We face competition in our businesses, which may limit our growth and prospects.*

The Indian securities industry is fragmented and typified by low barriers to entry. Accordingly, we face competition from companies seeking to attract our clients' financial assets. We compete with, amongst others, Indian and foreign brokerage houses. We compete on the basis of a number of factors, including execution, depth of product and service offerings, innovation, reputation, price and convenience. In addition, with technology advancement and advent of many of the new age discount stock brokers, younger generation investors are losing interest in traditional and conventional stock brokers. If we are not able to upscale our technology and our products, we may stand to lose to these new age players, thus impacting our number of clients base and thus the margins.

Our competitors may have, amongst others, the following advantages over us:

- substantially greater financial resources;
- ability to charge lower commissions/ brokerages;
- lower cost of capital;
- more diversified operations which allow utilisation of funds from profitable business activities to support business activities with lower, or no profitability;
- longer operating history than us in certain of our businesses;
- well-established network of business associates;
- better technology and advanced infrastructure/applications;
- greater brand recognition among consumers;
- larger retail client base in India; and
- partnerships with various service providers and distribution platforms;

Further, many of our product and service offerings in the brokerage and distribution businesses are easy to replicate. This increases the risk of competition from commercial banks, service providers and distribution platforms to enter the market. Further, any consolidation in the Indian securities industry would also expose us to competitive pressures. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures. Our business, financial condition, cash flows, results of operations and prospects may be materially and adversely affected if we are not able to maintain our market position, sustain our growth, develop new products or target new markets. In addition, competitive pressures and regulatory changes may also lead to downward pressures on our brokerage commission rates, which could also affect our financial condition and results of operations.

Further, we use technology in almost every aspect of our business, including sales, risk management, fraud detection, compliance, client service and settlement. The Indian financial services industry (including securities industry) is undergoing technological and other changes. Our competitors could utilise technology, big data and innovation to simplify and improve the client experience, increase efficiencies, redesign products, improve client targeting, alter business models more effectively than or to effect disruptive changes in the Indian financial services industry. If we do not anticipate, innovate, keep pace with, and adapt to, technological and other changes impacting the Indian financial services industry, it could harm our ability to compete in the market, decrease the attractiveness of our products to clients and materially and adversely affect our business, financial condition and results of operations.

16. We have contingent liabilities, and our profitability could be adversely affected if any of these contingent liabilities crystallizes.

Except as set out below, there were no claims against our Company not acknowledged as debt as on March 31, 2024, 2023 and 2022:

For further details on our contingent liabilities, see "**Financial Information**" on page 184 of this Prospectus. If any of these contingent liabilities materialises, our results of operations and financial condition may be adversely affected.

17. We may extend credit to customers of our brokerage business for dealing in securities and any default by a customer coupled with a downturn in the market could result in substantial losses.

Our revenues are derived from our brokerage business. Our revenues, level of operations and, consequently, our profitability are dependent on favourable capital market conditions, a conducive regulatory and political environment, investor sentiment, price levels of securities and other factors that affect the volume of stock trading in India.

We may allow our customers to trade in excess of the value of the cash and/ or securities deposited with us. Consequently, when there are insufficient funds in a client account on the settlement date, our Company may extend credit to such customer for securities and the customer is charged interest rates on the amount of credit extended. As such, our Company may be exposed to liquidity risks and require short-term funding to meet trade commitments of our customers. In the event of a volatile market or adverse movements in securities or commodities prices, it is possible that customers may not be able to honour their commitments, which may result in losses that they may not be able to support. We also follow internal risk management guidelines on procedures but no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our business, financial condition and results of operations would not be materially adversely affected.

18. We may not be able to sustain our growth or expand our client and business associates' base.

We have experienced growth over the last few years, Between Fiscal 2023 and Fiscal 2024, the number of our active clients increased from 1.85 Lakh clients to 2.04 Lakh clients. Our ability to sustain our growth depends on various factors, including our ability to manage our growth and expand our client and business associate's base. We acquire small regional brokers and turn them into business associates which have resulted in expansion of our client base and enabled penetration into new geographies. While our client base has expanded over the years, there can be no assurance that we will be able to maintain our base of business associates and sustain this growth in the future.

We may not be able to sustain our growth in light of competitive pressure or other factors, such as not being able to implement business strategies and development plans effectively and efficiently. Sustained growth may place significant demands on our administrative, operational and financial resources, which we may be unable to handle. Any slowdown in our growth, whether in absolute terms or relative to industry trends could adversely affect our market position and a loss of our market position could adversely affect our ability to sustain our growth.

Our business is highly competitive, and we need to maintain and attract new clients and business associates in order to maintain or grow our market share. We cannot assure you that we will succeed in further expanding our network due to changes in regulatory policies, difficulties in managing a large number of staff and other unforeseeable reasons. In addition, as a result of competition, we may face increased pressures on declining fee and commission rates and will need to provide better and customized services and products to differentiate ourselves and to retain and attract clients and business associates.

If we are unable to address the needs of our clients and business associates by offering competitive rates, maintaining high quality client service, continuing product innovation and providing value added

services, or if we otherwise fail to meet our clients' and business associates demands or expectations, we may not be able to sustain our historic growth or lose our existing base to our competitors, which may in turn have a material and adverse effect on our business, financial condition, cash flows, results of operations and prospects.

19. *A significant decrease in our liquidity could negatively affect our business and reduce client confidence in us.*

Our liquidity and profitability are dependent upon our timely access to, and costs associated with, raising capital. Our funding requirements historically have been met from a combination of term loans, commercial papers and working capital facilities as well as equity contributions. As a financial services company, we face certain additional regulatory restrictions on our ability to obtain financing from banks, and financial institutions. For further information, see **"Regulations and Policies"** on page 307 of this Prospectus.

Maintaining adequate liquidity is crucial to our brokerage operations, including key functions such as transaction settlement and margin funding and other business activities with substantial cash requirements. We place margins with clearing houses of respective exchanges, which may fluctuate significantly from time to time based on the nature and volume of our clients' trading activity. Although we meet our liquidity needs primarily through cash generated from operating activities, internal accruals and debt financing, we are not permitted to raise debt beyond a specific limit, specifically to fund our margin funding requirements. A reduction in our liquidity could affect our ability to trade on the exchanges, stunt the growth of our business and reduce the confidence of our clients in us, which may result in the loss of client accounts.

We provide broking services across the equity (cash-delivery, intra-day, futures and options), commodity and currency derivatives, for which we offer margin-based products on our brokerage platform, wherein clients are required to deposit the prescribed initial margin for the transaction executed by us on their behalf and thereafter pay the balance amount. Accordingly, if a client fails to pay the balance amount on or before the due date, then it may affect our liquidity. In case of high market volatility or adverse movements in share prices, it is possible that clients may not honour their commitment, and consequently, any inability on our part to pay the margins or honour the pay-in obligation to the exchanges, or both, may be detrimental to our business, reputation and profitability.

We use cash generated from our operating activities and external financing to meet our liquidity or regulatory capital requirements. During periods of disruption in the credit and capital markets or changes in the regulatory environment, potential sources of external financing could be limited and our borrowing costs could increase. External financing may not be available to us on commercially acceptable terms, or at all, due to disruptions in the credit and capital markets, changes in regulations relating to capital raising activities, general market conditions for capital raising activities, and other economic and political conditions outside our control.

Any of the risks highlighted above in relation to a decrease in our liquidity, could have a material adverse effect on our business, results of operation and prospects.

20. *Our ability to assess, monitor and manage risks inherent in our business suffers from the standards of some of our counterparts. Inability to effectively manage our risk management systems can adversely affect our business, financial conditions, and results of operations.*

We are exposed to a variety of risks, including credit risk, market risk, default risk, liquidity risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. We are required to comply with the growing risk management requirements which are likely to be brought forth by SEBI on account of exponential growth in the derivatives segment. Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify the extent and the nature of risks.

We have established a system of risk management and internal controls consisting of a risk management enterprise framework, policies, risk management system tools and procedures that we consider to be

appropriate for our business operations. Our risk assessment methods depend upon the extant regulatory requirements, historical market behaviour and statistics, the evaluation of information regarding financial markets, clients or other relevant matters that are publicly available or otherwise accessible to us. Such information may not be accurate, complete, or properly evaluated. Moreover, the information and experience data that we rely on may quickly become obsolete as a result of market and regulatory developments, and our historical data may not be able to adequately reflect risks that may emerge from time to time. Inaccuracy in estimates of the level of margin to be maintained by our clients with us for the transactions undertaken by them could result in a shortfall in margins deposited by our clients with us. However, due to the inherent limitations in the design and implementation of risk management systems, including internal controls, risk identification and evaluation, effectiveness of risk control and information communication, our risk management systems and mitigation strategies may not be adequate or effective in identifying or mitigating our risk exposure in all market environments or against all types of risks in a timely manner, or at all. Further, we may not be able to completely avoid the occurrence of or timely detect any operational failure.

Regulatory risk is the most prominent in the broking industry. Risk management systems employed at our broking platform will need to ensure, safeguarding of investors and constant upgradation in view of regulations by SEBI, Stock Exchanges, and market movement. Our risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Other risk management methods depend upon an evaluation of information regarding markets, customers, or other matters. This information may not in all cases be accurate, complete, current, or properly evaluated. There can be no assurance that we will successfully implement risk management systems in a timely manner or adapt our risk management systems to customer requirements or evolving market standards and any failure to do so can adversely affect our business, financial conditions and results of operations.

21. *Our financial performance is subject to interest rate risk, and an inability to manage our interest rate risk may have a material adverse effect on our business prospects, financial condition and results of operation.*

Interest rates in India have been volatile in the past. They are highly sensitive and fluctuations thereof are dependent upon many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic as well as international economic and political conditions, inflation and other factors.

Our results of operations, including our interest income from margin funding, are dependent on our ability to manage our interest rate risk. Our finance costs (on a consolidated basis) were ₹15,456.22 lakhs, ₹8,923.73 lakhs, ₹5,752.38 lakhs for the financial years ended March 31, 2024, March 31, 2023, and March 31, 2022, respectively. However, we charge interest at a fixed rate on our financing products, such as margin trade funding. Any volatility in interest rates may adversely affect our business due to, amongst others, reducing the profitability margin of our financing products, or our financing products becoming commercially unattractive. Our net interest income from financing activities and net interest margin would be adversely impacted in case of any increase in interest rates, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds. In the event of a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could adversely impact our interest income from financing activities and net interest margin. Additional risks arising from increasing interest rates, among others, include:

- increase in the rates of interest charged on certain financing products in our product portfolio, which may require us to extend repayment period for our clients or result in higher rates of default by our clients;
- increase in defaults resulting from extension of loan maturities and higher instalments due from borrowers;
- reduction in the volume of loan disbursements as a result of a client's inability to service high interest rate payments; and
- inability to raise low-cost funds as compared to some of our competitors.

Further, interest rates may also affect our clients' investment profile and high interest rates may reduce the attractiveness of equity or equity-linked investments of our clients.

There can be no assurance that we will be able to adequately manage our interest rate risk. If we are unable to effectively manage our interest rate risks, it could have an adverse effect on our business prospects, financial condition and results of operations.

22. *General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.*

Our business is highly dependent on economic and market conditions in India. General economic and political conditions in India, such as macroeconomic and monetary policies, industry-specific trends, mergers and acquisitions activity, legislation and regulations relating to the financial and securities industries, household savings rate, investment in alternative financial instruments, upward and downward trends in the market, business and financial sectors, volatility in security prices, perceived lack of attractiveness of the Indian capital markets, inflation, consumer confidence, currency and interest rate fluctuations, availability of short-term and long-term market funding sources and cost of funding, could affect our business. Global economic and political conditions may also adversely affect the Indian economic conditions.

The total Revenue from Operations of our Company in the recent past, has increased from ₹1,11,693.61 Lakhs in Financial Year 2022 to ₹1,63,849.69 Lakhs in Financial Year 2024. This growth has been largely influenced by general macroeconomic conditions and rising capital markets in India. Any adverse change in the general macroeconomic conditions or in the Indian capital markets may adversely affect our future growth.

23. *We face various risks due to our reliance on third-party intermediaries, business associates and vendors.*

We rely on third parties, such as stock exchanges, clearing houses and other financial intermediaries to facilitate our financial transactions. In addition, we rely on our network of business associates, vendors, personnel at dealer helpdesks and DRAs, as may be applicable, to help distribute our products. We are exposed to various risks related to the business of such third parties, including the following:

- fraud or misconduct, including mis-selling, by such third parties, including authorised persons;
- operational failure of such third parties systems;
- adverse change or termination in our relationship with such third parties;
- failures in legal or regulatory compliance, inadequate due diligence in sales process, or inadequate controls, including KYC checks, by such third parties;
- regulatory changes relating to the operations of such third parties;
- violation of laws and regulations, including those relating to licensing or registration of sales intermediaries, by such third parties; and
- regulatory actions due to improper business practices of such third parties.

Any of the above risks may result in litigation or regulatory action against us, which could have a material adverse effect on our business, reputation, financial condition and results of operations.

In addition, we compete with other financial institutions to attract and retain our network of business associates and personnel at our dealer helpdesks and our DRAs, to help distribute our products and our success depends upon factors such as the amount of sales commissions and fee we pay (including due to regulatory restrictions), the range of our product offerings, our reputation, our perceived stability, our financial strength, the marketing and services we provide to such intermediaries and the strength of our relationships with them. If we are unable to attract or retain our network of business associates and personnel at our dealer helpdesks and our DRAs, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also outsource certain of our operations to third-party service providers, including certain tasks relating to e-waste management, security vigilance and IT services. We cannot assure you that our third-party service providers will comply with regulatory requirements or meet their contractual obligations to us in a timely manner, or at all. Third party service providers or service providers may breach agreements they have with us because of factors beyond our control. They may also terminate or refuse to renew their agreements because of their own financial difficulties or business priorities, potentially at a time that is costly or otherwise inconvenient for us. In addition, if our third-party service providers or providers fail to operate in compliance with regulations or corporate and societal standards, we could suffer reputational harm by association, which would likely cause a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also rely on third parties to provide certain critical trading infrastructure and software. If the third parties upon which we rely cannot expand system capacity to handle increased demand, or if any of their systems otherwise fail to perform or experience interruptions, malfunctions, disruptions in service, slower response times or delays, then we could incur reputational damage, regulatory sanctions, litigation and loss of trading, any of which could materially adversely affect our business, financial condition and results of operations.

In addition, we license certain software and technology from third parties. Any premature termination of our license agreements or the loss of the ability to use such software or technology for any reason would have an adverse impact on our business and operations. Rapid changes in our industry or technology may also result in our licensed technologies being recalled or discontinuation of support for outdated products or services. Any deficiencies in the infrastructure used, or processes adopted, by such third parties could have a material adverse effect on our business, results of operations and prospects.

24. *Our Company's business requires substantial capital and any disruption in the sources of its funding or an increase in its average cost of borrowings could have a material adverse effect on its liquidity and financial condition.*

Our Company's liquidity and ongoing profitability are, to a large extent, dependent upon its timely access to, and the costs associated with, raising capital. Our Company's funding requirements have historically been met through a combination of borrowings such as working capital limits from banks, issuance of commercial papers and non-convertible debentures. Thus, our Company's business growth, liquidity and profitability depends and will continue to depend on its ability to access diversified, relatively stable and low-cost funding sources as well as our Company's financial performance, credit ratings and relationships with lenders. Any adverse developments or changes in applicable laws and regulations which limit our Company's ability to raise funds through term loans, working capital limits from banks, issuance of commercial papers and non-convertible debentures can disrupt its sources of funding, and as a consequence, could have a material adverse effect on our Company's liquidity and financial condition. Our Company's total outstanding borrowing on a consolidated basis, was ₹1,42,079.78, ₹90,764.50 (restated), and ₹46,413.68 as of March 31, 2024, March 31, 2023 and March 31, 2022. There can be no assurance that our Company's business will generate sufficient cash to enable it to service its existing debt or to fund its other liquidity needs. Our Company's ability to borrow funds may also be affected by a variety of factors, including liquidity in the credit markets, the strength of the lenders from which our Company borrows, the amount of eligible collateral and accounting changes that may impact calculations of covenants in our Company's financing agreements. An event of default, a significant negative ratings action by a rating agency, an adverse action by a regulatory authority or a general deterioration in prevailing economic conditions that constricts the availability of credit may increase our Company's cost of funds and make it difficult for our Company to access financing in a cost-effective manner. A disruption in sources of funds or increase in cost of funds as a result of any of these factors may have a material adverse effect on our Company's liquidity and financial condition.

25. *We face certain risks related to our distribution business.*

We distribute financial products issued by third-party institutions, through our electronic brokerage platform and mobile apps, physical distribution network, business associates and personnel at our dealer

helpdesks and our DRAs. The structure of some third-party products that we distribute and services that we refer clients to may be complex and involve various risks, including credit risks, interest risks, liquidity risks and other risks.

Although as a third-party distributor, we are not directly liable for any investment loss from, or default of, the products we distribute to our clients, we may be subject to client complaints, litigation and regulatory investigation, which could have an adverse effect on our reputation and business. For example, we may not be able to identify and quantify the risks of these products, fail to identify fraudulent, inaccurate or misleading information from the third -party provider, and our sales employees may fail to disclose such risks to our clients, in which case, our clients may invest in financial products that are too risky for their risk tolerance and investment preference, and may suffer a significant loss. This may also subject us to client complaints and litigation and negatively affect our reputation, client relationships, results of operations and business prospects. Although there have been no client complaints and litigation filed against our Company, we cannot assure that such client complaints or litigations will not be filed in the future.

We face certain other risks in relation to our distribution business, including:

- Decrease in distribution commissions which are generally set by the third-party providers whose products and services we distribute;
- Our distribution arrangement with AMCs can be terminated without notice, or due to failure on our part to comply/ perform;
- Regulatory changes affecting distribution arrangements, including commission levels;
- The clawback of payments from the third-party providers, which is permitted in a majority of our distribution agreements under certain situations, including returns or redemption of certain products by the clients;
- Credit risk related to the third-party providers;
- Changing client preferences with respect to products that we distribute;
- Any adverse change in the relationship with a third-party provider; and
- Transition of clients to purchase products directly from such third-party providers.

Any of the above risks could have a material adverse effect on our business, financial condition and results of operations.

26. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

The amount of future dividend payments by our Company, if any, will depend upon a number of factors, including but not limited to our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing agreements our Company may enter into to finance our fund requirements for our business activities. There can be no assurance that we will be able to pay dividends in the future. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders.

27. *Our business is dependent on relationships with our clients established through, amongst other our branches and through franchisee network. Closure of our branches or loss of our key branch personnel may lead to damage to these relationships and decline in our revenue and profits.*

Our business is dependent on relationships with our clients established through, amongst others, our branches. Closure of branches or loss of our key branch personnel may lead to damage to these relationships and a decline in our revenue and profits. Our business is dependent on the key branch personnel who directly manage client relationships. We encourage dedicated branch personnel to service specific clients since we believe that this leads to long-term client relationships, a trust-based business environment and, over time, better cross-selling opportunities. While no branch manager or operating

group of managers contributes a meaningful percentage of our business, our business may suffer materially if a substantial number of branch managers either become ineffective or leave our Company.

28. *We may be subject to claims with respect to our intellectual property and our efforts to protect our intellectual property may not be sufficient.*

We have registered various trademarks associated with our business, which we regard as important to our success. As on the date of this Prospectus, Our Company has 29 trademarks and 2 copyrights to its name. Out of these 29, we have been assigned 25 trademarks, vide a deed for assignment of trademarks pursuant to which our Company has obtained ownership rights to the extent of 60%. Also, post merger of SAM Global Securities Limited with our Company, our Company's ownership in the intellectual property rights has increased to 80%. The remaining interest is owned by two of our Promoters, Subhash Chand Aggarwal and Mahesh C Gupta.

While our trademarks are registered, third parties may copy or otherwise infringe on our rights, or we may also be susceptible to claims from third parties asserting infringement and other related claims. Any of the foregoing could have an adverse effect on our branding, business, results of operations and financial condition.

29. *We face additional risks as we expand our product and service offerings and grow our business.*

We will continue to expand our product offerings and business as permitted by relevant regulatory authorities and market opportunities. New product offerings in our business are required to be compliant with the complex regulatory requirements and trading validation requirements of the exchanges. Failure to consider, identify and provide for all additional risks may result in adverse financial impact on our company. In the last few years, we have introduced various new products and services. For further details, see "**Our Business**" on page 132 of this Prospectus.

These activities may expose us to new and increasingly challenging risks, including, but not limited to:

- We may not be successful in enhancing our risk management capabilities and its systems to identify and mitigate the risks associated with these new products, services and businesses;
- We may be subject to stricter regulatory scrutiny, and increased credit, market, compliance and operational risks;
- We may be unable to obtain regulatory approvals for certain new products in a timely manner, or at all;
- We may have insufficient experience or expertise in offering new products and services and dealing with new counterparties and client;
- We may be unable to hire additional qualified personnel to support the offering of a broader range of products and services;
- Our new products and services may not be accepted by clients or meet our profitability expectations; or
- We may be unable to obtain sufficient financing from internal and external sources to support our business expansion.

If we are unable to achieve the intended results with respect to our offering of new products and services, or manage the growth of our business, our business, financial condition, cash flows, results of operations and prospects could be materially adversely affected.

30. *Our Promoters and Promoter Group have significant control over us and have the ability to direct our business and affairs; their interests may conflict with the interests of the shareholders.*

As of March 31, 2024, our promoters and promoter group held 67.28% of our issued and outstanding equity shares. The promoters have the ability to control our business, including matters relating to any sale of all or substantially all of our assets, timing and distribution of dividends, election of our officers and directors and change of control transactions. The promoters' control could delay, defer or prevent a change in control of the company, impede a merger, consolidation, takeover or other business combination involving our company, or discourage a potential acquirer from making a tender offer or

otherwise attempting to obtain control of our company even if it is in the company's best interest. The promoters and members of the promoter group may influence the material policies of our company in a manner that could conflict with the interests of our other shareholders.

31. ***We do not own all our branch offices. Any termination or failure by us to renew the lease agreements in a favorable and timely manner, or at all, could adversely affect our business and results of operations. Moreover, many of the lease, and leave and license agreements entered into by us may not be duly registered or adequately stamped.***

As on March 31, 2024, we have 188 branch offices located PAN India. Majority of our branches are located on leased or licensed premises. The lease agreements can be terminated, and any such termination could result in any of our branches being shifted or shut down. While we have not faced any termination of lease except in the ordinary course by our lessors, if these lease and license agreements are not renewed or not renewed on terms favorable to us, we may suffer a disruption in our operations or increased costs, or both, which may affect our business and results of operations. Further, our lease and license agreements are required to be adequately stamped and duly registered. Unless such documents are adequately stamped or duly registered, such documents may be rendered inadmissible as evidence in a court in India or may not be authenticated by any public officer and the same may attract penalty as prescribed under applicable law or may impact our ability to enforce these agreements legally, which may result in an adverse effect on the continuance of our operations and business. For information in relation to our premises, see "***Our Business –Property***" on page 152 of this Prospectus.

32. ***Statistical and Industry data included in this Prospectus has been derived from the CareEdge report commissioned by us for such purpose. The CareEdge report is not exhaustive and is based on certain assumptions, parameters and conditions.***

Certain information regarding the industry and the market in which the company operates, included in this prospectus has been derived from the report titled "Research Report on Financial Services" dated June 12, 2024 ("**CareEdge**") prepared by Care Analytics And Advisory Private Limited appointed and exclusively commissioned by our company pursuant to letter dated December 05, 2024 at an agreed fees to be paid by our company. The report is a paid report and is subject to various limitations and based upon certain assumptions, parameters and conditions that are subjective in nature. It also uses certain methodologies for market sizing and forecasting.

We have not independently verified the industry report, and therefore, cannot confirm the statistics therein, which may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon.

You should consult your own advisors and undertake an independent assessment of information in this prospectus based on, or derived from, the care report before making any investment decision regarding the issue.

33. ***We have in the past entered into related party transactions and may continue to do so in the future, and there can be no assurance that we will achieve more favourable terms if such transactions are not entered into with related parties.***

We have entered into various transactions with related parties, each of which have been undertaken on an arms' length basis. We may also, from time to time, enter into related party transactions in the future. To the extent we may extend loans or advances to related parties, or provide guarantees or security, we may face risks in relation to default by such related parties or potential non-recovery. We cannot assure you that we will be able to achieve more favourable terms for such transactions if they are entered into with parties that are not related parties. For more details on Related Party Transactions and the arithmetic

aggregated absolute total of transactions during the years ended March 31, 2024, March 31, 2023 and March 31, 2022, please see "**Related Party Transactions**" on page 177 of this Prospectus.

Such related party transactions in the future or any other future transactions may potentially involve conflicts of interest which may be detrimental to the interest of our company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects.

34. ***We may introduce new financial products for our customers, and we cannot assure you that such products will be successful or profitable in the future.***

We may introduce new or expand our existing range of financial products and services which would require us to incur substantial costs. We cannot guarantee that such new products and services will be successful once offered due to several factors including, *inter alia*, general economic conditions, a failure to understand customer demand and market requirements, failure to understand the regulatory and statutory requirements for such products or lack of management focus on these new products. If we fail to develop and launch new products and services successfully to meet demands or provide competition to our peers, we may lose a part or all of the costs incurred in development and promotion or discontinuation of such products and services or fail to gain/ retain customers which could in turn adversely affect our business and results of operations.

35. ***Our operations could be adversely affected by increased wage demands by our employees or any other kind of disputes with our employees.***

We have not experienced any material employee unrest in the recent past, however we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any employee unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations. Such employee actions are difficult or impossible for us to predict or control and any such event could adversely affect our business, results of operations and financial condition.

36. ***The objects of the Issue have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control.***

We intend to use the net proceeds of the issue for the purpose of working capital requirement and general corporate purposes, as described in "**Objects of the Issue**" on page 72 of this Prospectus. At this stage, we cannot determine with any certainty if we would require the net proceeds to fund any other expenditure or any exigencies arising out of changes in our competitive environment, business conditions, economic conditions or other factors beyond our control. Our funding requirements and deployment of the net proceeds are based on internal management estimates, calculation of projected working capital, and current market conditions and have not been appraised by any bank or financial institution or other independent agency. It is subject to amendment due to changes in external circumstances, costs, other financial condition or business strategies. We operate in a highly competitive and dynamic industry and may need to revise our estimates from time to time based on changes in external circumstances or costs, or changes in other financial conditions, business or strategy. This may entail rescheduling, revising or cancelling planned expenditure and funding requirements at our discretion. For details, see "**Objects of the Issue**" on page 72 of this prospectus. Additionally, various risks and uncertainties, including those set forth in this "**Risk Factors**" on page 19 of this prospectus., may limit or delay our efforts to use the net proceeds to achieve profitable growth.

37. ***We face substantial legal and operational risks in safeguarding personal information.***

Our businesses are subject to complex and evolving laws and regulations, governing the privacy and protection of personal information of individuals. The protected parties include: (i) our business

associates; (ii) our clients; (iii) our employees; and (iv) employees of our intermediaries, counterparties, vendors and other third parties. Ensuring that our collection, use, transfer and storage of personal information complies with all applicable laws and regulations in India may result in (i) increasing our operating costs; (ii) affecting the development of new products or services; (iii) demanding significant oversight by our management; and (iv) requiring us to structure our businesses, operations and systems in less efficient ways. Furthermore, we cannot ensure that all of our clients, intermediaries, vendors, counterparties and other third parties have appropriate controls in place to protect the confidentiality of the information exchanged between them and us, particularly where information is transmitted by electronic means.

We could be exposed to litigation or regulatory fines, penalties or other sanctions if personal, confidential or proprietary information of clients, intermediaries, employees or other third parties were to be mishandled or misused, such as situations where such information is erroneously provided to parties who are not permitted to have the information; or intercepted or otherwise compromised by third parties. The acquisition and secure processing, transmission and storage of sensitive, personal, confidential and proprietary information are critical elements of our operations, including our trading, clearing and settlement, and research businesses. We are exposed to significant risks related to data protection and data security due to, among others, our electronic brokerage platform involving extensive data transmission and processing, our reliance on technologies and outsourced employees for some of the key components of our IT systems and their maintenance, and our registration and integration with KYC-databases like Unique Identification Authority of India ("UIDAI") and KYC registration agencies like central registry of securitisation asset reconstruction and security interest. For more information, see "**Regulations and Policies**" on page 307 of this Prospectus.

Our information security, including the security of our IT systems, is managed by us. We rely on our in-house security systems and employees, and those of certain third-party vendors and service providers in conducting our operations. Those technologies, systems and networks may become the target of cyber-attacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss or destruction of our or our clients' confidential, proprietary and other information, identity theft or disruptions of and errors within our systems. Data security breaches may also result from fraud, other misconduct, or lack of adequate safeguards by our employees, third-party vendors, business associates, and clients, clerical and recordkeeping errors or other unintentional accidents caused by any of these parties, all of which could harm our reputation and subject us to regulatory action or claims for damage. We cannot assure you that our existing security measures will prevent all security breaches, intrusions or attacks. A party, whether internal or external, that is able to circumvent our security systems could have access to confidential information or cause significant disruptions to our systems. Security breaches or attacks could result in our competitors obtaining strategically important information about us and give them a competitive advantage over us, cause reputational harm or lead to regulatory sanctions, litigation or loss of business.

We may need to expend significant resources to protect against security breaches, intrusions, attacks or other threats or to address problems including reputational harm and litigation, caused by breaches. Hackers are increasingly using powerful new tactics including evasive applications, proxies, tunnelling, encryption techniques, vulnerability exploits, buffer overflows, denial of service attacks, or distributed denial of service attacks, botnets and port scans. If we are unable to avert an attack for any significant period, we could sustain substantial revenue loss from lost sales due to the downtime of critical systems. We may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyber-attacks. Moreover, we may not be able to immediately detect that such an attack has been launched, if, for example, unauthorized access to our systems was obtained without our knowledge in preparation for an attack contemplated to commence in the future. Cyber-attacks may target us, our clients, our distribution partners, banks, depositories, exchanges, clearing houses, delivery services, e-commerce in general or the communication infrastructure on which we depend.

38. *We face risks attributable to derivatives trading by clients and possible inadequacy of risk management systems and policies which may affect our financial condition.*

We offer our clients the facility to trade in derivative instruments in the securities, currency and commodities market as is currently permitted in India, GIFT City and Dubai. Since by their very nature,

these derivative instruments involve leveraged positions on the underlying assets, these are riskier to deal with, as compared to the other financial instruments and as such, investors and the market intermediaries are exposed to a greater risk in dealing with such instruments. We are exposed to a greater risk since we deal in such instruments on behalf of our clients and may face financial losses if we fail to manage prudently the risk of our clients' dealing in derivative instruments.

39. *The financing industry is becoming increasingly competitive, which creates significant pricing pressures for us to retain existing customers and solicit new business. Our growth will depend on our ability to compete effectively in this environment.*

Our business operates in a highly competitive market, and we face significant competition from other players in the financing industry. Many of our competitors are large institutions, which may have a larger customer base, funding sources, branch networks and capital base compared to us. Some of our competitors may be more flexible and better positioned to take advantage of market opportunities. This competition is likely to further intensify as a result of securitization and regulatory changes. Our future success will depend, to a large extent, on our ability to respond in a timely and effective manner to these competitive pressures.

Our credit business competes based on a number of factors, including cost effective sources of funding, successful implementation of new technologies and securitization branches to manage operational costs. Loans are becoming increasingly securitization and terms such as variable (or floating) rate interest options, lower processing fees and monthly reset periods are becoming increasingly common in the Indian financial sector, thereby increasing competition.

Our insurance broking business competes for business based on various factors, including product features, price, coverage offered, quality of customer service, distribution network, relationships with agents, bancassurance partners and other intermediaries, brand recognition, size of operations, financial strength and credit ratings. In addition, life insurance products also compete with certain other financial services products which may not be exactly comparable but provide slightly different alternatives to the customers. Some of our competitors may offer higher commissions or more attractive rewards to agents and other distribution intermediaries or offer similar insurance products at lower pricing.

If we are unable to effectively respond to these various competitive pressures, it could result in a decrease of market share, decrease in our margins and spreads, reduced customer base, increase in pricing of our products, increase in operating expenses, as well as higher attrition rates among management and sales staff, lower growth rates, or even losses, which could have material adverse effect on our business, results of operations, cash flows and financial condition.

40. *High levels of customer defaults and the resultant non-performing assets could adversely affect our business, financial condition, results of operations and future financial performance.*

Our credit business involves lending money and accordingly, we are subject to risks of customer default, which includes default or delays in repayment of principal and/or interest on the loans we provide to customers. Customers may default on their obligations as a result of various factors, including certain external factors, which may not be within our control such as developments in the Indian economy and the real estate market, movements in global markets, changes in interest rates, changes in regulations, government policies. Any negative trends or financial difficulties affecting our customers could increase the risk of their default. Our customers could also be adversely affected by factors such as, bankruptcy, lack of liquidity, lack of business and operational failure. If our customers fail to repay loans in a timely manner or at all, then our results of operations, cash flows and financial condition will be adversely impacted. If we are not able to successfully manage the risks associated with lending to these customers, then it may become difficult for us to make recoveries on these loans. We may also experience higher delinquency rates due to prolonged adverse economic conditions or a sharp increase in interest rates. Any increase in delinquency rates could result in a reduction in our total interest income (i.e., our accrued interest income from loans) and as a result, lower revenue from our operations, while increasing our costs due to increased expenses associated with the servicing and collection of delinquent loans. We may also be required to make loss provisions in respect of loans to such customers in accordance with applicable regulations and, in certain cases, may be required to write off such loans.

- 41. *We may not be able to recover the full value of collateral or amounts sufficient to cover the outstanding amounts due under defaulted loans on a timely basis or at all, or the value of collateral may decrease, which could adversely affect our results of operations, cash flows and financial condition***

The value of collateral that we take for loans given by us is dependent on various factors, including (i) prevailing market conditions, (ii) the general economic and political conditions in India, (iii) growth of the stock markets and real estate sector in India and the areas in which we operate, (iv) any change in statutory and/or regulatory requirements, and (v) the credit profile of our borrower.

Delays in recovery, bankruptcy and foreclosure proceedings, defects in the title and delays in obtaining regulatory approvals for the enforcement of such collaterals may affect the valuation of the collateral. As a result, we may not be able to recover the full value of the collateral for the loans provided by our customers within the expected timeframe or at all. Further, legal proceedings may have to be initiated by us in order to recover overdue payments on loans and as a consequence, the money and time spent on initiating legal proceedings may adversely affect our cash flow.

The value of the security provided by the borrowers to us may be subject to a reduction in value on account of various reasons. While our customers may provide alternative security to cover the shortfall, the realizable value of the security for the loans provided by us in the event of liquidation may continue to be lower than the combined amount of the outstanding principal amount, interest and other amounts recoverable from the customers.

Any default in the repayment of outstanding credit obligations by our customers may also expose us to losses. A failure or delay recovering the loan value from sale of collateral security could expose us to potential losses. Any such losses could adversely affect our results of operations, cash flows and financial condition. Furthermore, the process of litigation to enforce our legal rights against defaulting customers in India is generally a slow and potentially expensive process. Accordingly, it may be difficult for us to recover amounts owed by defaulting customers in a timely manner or at all.

- 42. *We extend margin funding loans, or loans against shares, to our clients, and any default by a client coupled with a downturn in the stock markets could result in substantial losses for us***

We extend “loans against shares”, which are secured by liquid, marketable securities at appropriate or pre-determined margin levels. In the event of a volatile stock market or adverse movements in stock prices, the collateral securing the loans may have decreased significantly in value, resulting in losses which we may not be able to support. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. There is little financial information available about the creditworthiness of our customers. It is therefore difficult to carry out precise credit risk analysis on our clients. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio monitoring, which include the quality of collateral provided by the client and pre-determined margin call thresholds, no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our financial condition and results of operations would not be adversely affected.

- 43. *We operate in businesses which are subject to extensive regulatory requirements and any failure to comply with any of such regulations could subject us to penalties or sanctions.***

Our businesses are subject to extensive regulation by the SEBI, the FMC, the RBI and the IRDA and other governmental regulatory authorities. We are also regulated by industry self-regulatory organisations, stock and commodities exchanges. The regulatory environment in which we operate is also subject to change and we may be adversely affected as a result of new or revised legislation, or regulations imposed by the SEBI, other governmental regulatory authorities or self-regulatory organizations. We are also subjected to periodic reviews, requests for submission of information, audit and inspections from various regulatory agencies. Non-compliance with any of these regulations and/or adverse findings may expose us to various actions by the respective authorities which may adversely affect our business operations and financial condition.

We are also subject to changes in Indian law, as well as to changes in regulations and accounting principles. There can be no assurance that the laws governing the Indian financial services sector will not change in the future or that such changes would not adversely affect our business and future financial performance. We face the risk of significant intervention by regulatory authorities in all jurisdictions in which we conduct our business. Among other things, we could be fined, prohibited from engaging in some of our business activities or subject to limitations or conditions on our business activities.

Furthermore, we are required to incur substantial costs to monitor compliance and comply with such regulations. If we are found to have violated an applicable regulation, administrative or judicial proceedings may be initiated against us that may result in censures, fines, trading bans, deregistration or suspension of our business licenses, the suspension or disqualification of our officers or employees, or other adverse consequences. We could also be subjected to constraints or conditions on operating our business activities and may incur fines, receive regulatory cautions or show cause notices and be barred from engaging in certain business activities. The imposition of any of these or other penalties or restrictions could have a material adverse effect on our business, reputation, financial condition and results of operations.

44. *Our risk management policies and procedures may leave us exposed to unidentified or unanticipated risk which could adversely affect our business and results of operations.*

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. Management of operational, legal or regulatory risk requires, among other things, policies and procedures properly to record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective. Our future success will depend, in part, on our ability to respond to new technological advances and emerging finance sector standards and practices on a cost-effective and timely manner. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will be able to successfully implement new technologies or adapt its transaction processing systems to customer requirements or emerging market standards.

Additionally, our risk management strategies and techniques may not be fully effective in mitigating our risk exposure in all market environments or against all types of risk. We are also exposed to the risk that third parties that owe us money, securities or other assets will not perform their obligations. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure, breach of contract and other reasons. As a clearing and trading member, we settle our constituents' positions and could be held responsible for the defaults or misconduct of our constituents. Although we regularly review credit exposures to specific clients and counterparties that we believe may present credit concerns, default risk may arise from events or circumstances that are difficult to detect or foresee. In addition, concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions, which in turn could adversely affect us. Also, risk management policies and procedures that we utilize with respect to investing our own funds or committing our capital with respect to investment banking, trading activities and investment advisory services activities may not protect us or mitigate our risks from those activities. If any of the variety of instruments, processes and strategies we utilize to manage our exposure to various types of risk are not effective, our business and results of operations could be adversely affected.

45. *Our business requires us to obtain and renew certain licenses and permits from government and regulatory authorities and the failure to obtain or renew them in a timely manner may adversely affect our business operations.*

Our business require us to obtain and renew from time to time, certain approvals, licenses, registrations

and permits, some of which have expired and for which we have either made or are in the process of making an application for obtaining approval or its renewal. In addition, we require certain approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by authorities such as the SEBI, the RBI, the IRDA, the Stock Exchanges and certain other regulatory and government authorities, for operating our business. In particular, we are required to obtain a certificate of registration for carrying on certain of our business activities from SEBI and other such regulatory authorities that are subject to numerous conditions. If we fail to maintain such registrations and licenses or comply with applicable conditions, our certificate of registration for carrying on a particular activity may be suspended and/or cancelled, and we will not then be able to carry on such activity. This could materially and adversely affect our business, financial condition and results of operations.

46. *Downturns or disruptions in the financial markets could reduce transaction volumes, which may adversely affect our results of operations.*

Our businesses are materially affected by conditions in the domestic and global financial markets and economic conditions in India and throughout the world. For instance, revenue generated by our broking, investment banking and advisory business is directly related to the volume and value of the transactions in which we are involved. During periods of unfavourable market or economic conditions, the volume and value of primary and secondary market transactions may decrease, thereby reducing the demand for our broking, investment banking and advisory services and increasing price competition among financial services companies seeking such engagements. A market downturn would likely lead to a decline in the volume of transactions that we execute for our customers. Any such decline in transaction volumes would lead to a decline in our revenues received from brokerage and commissions. Our results of operations would be adversely affected by any reduction in the volume or value of broking and investment banking transactions.

Many factors or events could lead to a downturn in the financial markets including war, acts of terrorism, natural catastrophes and sudden changes in economic and financial policies. These types of events could affect confidence in the financial markets and impair our ability to function effectively. Substantial portion of our revenues in recent years have been derived from capital markets activities, and although we continue to diversify our revenue sources, we expect this business to continue to account for a large portion of our Revenue from Operations in the foreseeable future. Any downturn or disruption in the securities markets and the capital markets specifically would have a material adverse effect on our results of operations. Even in the absence of a market downturn, we are exposed to substantial risk of loss due to market volatility. Any such future volatility may have an adverse effect on market-sentiment, and hence could adversely impact our business, prospects, financial condition and results of operations.

47. *We could be subject to claims by clients or actions by regulators or both for alleged mis-selling.*

We sell third-party distribution products through employees as well as intermediaries including business associates, personnel at our dealer helpdesks and DRAs, as the case may be. Our employees and intermediaries aid our clients in choosing the correct product, explaining the benefits of such product, disclosing product features and advising clients on whether to continue with a particular product or change products.

Under certain circumstances, the above processes may be considered inadequate or there may be misconduct on part of our employees or intermediaries or both. Such misconduct could include activities such as making non-compliant or fraudulent promises of high returns on investments and recommending inappropriate products or fund management strategies. Any case of mis-selling, or recurring cases of mis-selling, could result in claims and fines against us and could have a material adverse effect on our business, financial condition, cash flows, results of operations and reputation.

It is also possible that a third party aggregates a number of individual complaints against us with the intention of obtaining increased negotiating power. Further, persons have in the past misrepresented, and in the future may misrepresent, themselves as our authorised intermediaries to defraud clients. Such aggrieved clients have filed and, in the future, may file complaints against us. This could result in

significant financial losses as well as loss of our reputation.

- 48. *We face reputational risks in respect of the third-party products and any non-performance by these products could adversely affect our reputation and our business.***

We distribute financial products and services of third parties including mutual fund schemes and primary market equities. Whilst we are not contractually liable for the performance of such third parties and their products, in the event of any deficiency in service by such third party and/or non-performance of some of their products, our customers who avail of such products may incur losses. We may be subject to reputational risks in such cases which could adversely affect our business and results of operations.

- 49. *Direct investment in mutual funds by our existing as well as potential clients will have an adverse impact on our revenue from mutual fund distribution.***

While we commenced the mutual fund distribution business with a business model based on upfront commission, given the larger proportion of equity mutual funds historically distributed by us, we moved to a trail commission model, which has provided us with a recurring commission based on the performance of such funds in the market. With growing technology and increase in the ease of investments in such funds, our existing, as well as potential clients may not see significance in choosing to make their investments through us, and may choose to invest in such funds directly, thereby reducing or eliminating our involvement in the process of investments. In the event that such existing or potential clients choose to invest in such funds directly, our growth may reduce, which would have an adverse impact on our business and results of operations.

- 50. *We face risks associated with potential acquisitions, investments, strategic partnerships or other ventures that could adversely affect the results of operations.***

We may acquire or make investments in complementary businesses, technology, services or products or enter into strategic partnerships with parties who can provide access to those assets, if appropriate opportunities arise. The general trend towards consolidation in the financial services industry increases the importance of our ability to successfully complete such acquisitions and investments. We may not identify suitable acquisition, investment or strategic partnerships, or if we do identify such opportunities, we may not complete those transactions on commercially acceptable terms, or at all. If we acquire another company, we could have difficulty in assimilating that company's personnel, operations, technology and software. In addition, the key personnel of the acquired company may decide not to work for us. If we make other types of acquisitions, we could have difficulty in integrating the acquired products, services or technologies into our operations. These difficulties could disrupt our ongoing business, distract our management and employees and increase our expenses.

- 51. *We depend on the accuracy and completeness of information about clients and counterparties for our business. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.***

We significantly rely on information furnished to us by, or on behalf of, clients (including in relation to their financial transactions and past credit history) for various aspects of our business operations, such as new client enrolment, appointing new business associates and servicing our clients. We may also rely on certain representations from our clients as to the accuracy and completeness of the information provided by them. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent such activities or detect inaccuracies in such information in a timely manner, or at all, which may expose us to regulatory action or other risks, and may adversely affect our reputation, business prospects, financial condition and results of operations.

Difficulties in assessing credit risks associated with our day-to-day lending operations may lead to an increase in the level of our non-performing and restructured assets, which could materially and adversely affect our business prospects, financial condition and results of operations.

- 52. *We may not be able to sustain effective implementation of our business and growth strategies and any such failure could adversely affect our business and results of operations.***

The success of our business will depend greatly on our ability to effectively implement our business and growth strategies. We may not be able to execute our strategies in the future. Further, our growth strategies could place significant demand on our management team and other resources and would require us to continuously develop and improve our operational, financial and other controls, none of which can be assured. Any failure on our part to scale up our infrastructure and management could cause disruptions to our business and could be detrimental to our long-term business outlook.

- 53. *We are highly dependent on our management team, key managerial personnel and Relationship Managers. Any loss of such team members or the inability to attract or retain management personnel may have material adverse effect on our business performance.***

Our business and the implementation of our strategy are dependent upon our management team and key managerial personnel, who oversee our day-to-day operations, strategy and growth of our business and also on our Relationship Managers, who are integral for our Company to manage existing client relationships as well as establish new client relationships both on the broking and distribution business. If one or more members of our management team and key managerial personnel are unable or unwilling to continue in their present positions, such persons would be difficult to replace and our business, prospects and results of operations could have a material adverse effect.

Competition in our industry for skilled management and efficient employees is high, and we cannot assure that members of our management team, key managerial personnel or high performing Relationship Managers will not leave our Company and join our competitors, and that we will be able to find suitable replacements for them, in a timely manner or at all. This could result in an increase in our expenses, a decline in performance of our business, or damage to our reputation. In addition, we may need to increase employee compensation levels in order to retain our existing team and attract any additional personnel we may require.

Our success in expanding our business will also depend, in part, on our ability to attract, retain and motivate mid-to senior management personnel and trained and skilled employees, to maintain a high standard of client service. We may be unable to successfully manage our personnel needs which could adversely affect our business prospects and results of operations. These risks could be heightened to the extent we invest in businesses or geographical regions in which we have limited experience. If we are not able to address these risks, our business, results of operations and financial condition, cash flows could be materially adversely affected.

- 54. *Any factor affecting the business and reputation of SMC group may have a concurrent adverse effect on our business and results of operations.***

In the event SMC group's goodwill is impacted the same may have an indirect impact on our business and results of operations. We operate in a competitive environment, and we believe that our brand recognition is a competitive advantage to us. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and operations.

Any disassociation of our Company from the SMC group and/or our inability to have access to the infrastructure provided by other companies in the SMC group could adversely affect our ability to attract customers and to expand our business, which in turn could adversely affect our goodwill, operations and profitability.

- 55. *Credit risks in our day-to-day operations may expose us to significant losses.***

We may suffer significant losses from credit exposure from our clients and counterparties. Our brokerage business is subject to the risk that a client or counterparty may fail to fulfil its obligations or that the value of any collateral held by us to secure the obligations might become inadequate.

We are exposed to limited credit risk arising out of receivables relating to sales of securities which the clients have traded but are not yet settled. However, in case of default in payments by clients, the securities traded will get transferred to the Client Unpaid Securities Pledgee Account as required under applicable law, and we square off and settle positions in client accounts through a trading system as per our risk management policies. We are dependent on a number of parties like brokers, exchanges, banks, registrars and clearing houses and other intermediaries for our transaction execution or for our day-to-day operations, or both.

If any of these counterparties do not perform their obligations due to bankruptcy, lack of liquidity, downturns in the economy, operational failure, fraud or other reasons, and any collateral or security they provide proves inadequate to cover their obligations at the time of the default, we could suffer significant losses and it would have an adverse effect on our financial condition, cash flows, results of operations and cash flows. We are also subject to the risk that our rights against these counterparties may not be enforceable in all circumstances. Further, we are also responsible for contracts entered into by us on behalf of our client.

56. *Under performance of investment products in respect of which we provide asset management services and competition from existing and new markets participants, could lead to a loss of investors, reduction in AUM and adversely affect results of operations and reputation of our Company.*

The investment products in respect of which we provide asset management services may not outperform either their relevant benchmarks, or similar investment products provided by our competitors. The investments held by the mutual funds for which we provide asset management services may be illiquid or volatile, which may result in losses. Many other investments, including in particular investments in equity, are subject to potential capital losses. Other than our investment strategies, the performance of such investment products will depend on a number of factors, the majority of which are outside our control and include market, economic and other conditions. Further, certain of our investment management contracts contain restrictions relating to our investment policies. Such restrictions may prevent us from implementing what maybe the best investment strategies, which could restrict the performance of the investments.

Further, we also face significant competition from companies seeking to attract investors' financial assets, including traditional and online brokerage firms, other mutual fund companies and financial institutions. Our competitors may offer a wide range of financial products and services, at lower investment management fee, with a wider distribution network. Our competitors may receive investor referrals from their affiliates and other departments that provide other financial services. In addition, we rely on our own branches or depend on our business associates, which may require higher investment and operating expenses as compared to our peers. This may adversely affect our market share and the ability to grow our business.

Increased competition and underperformance of investment products may result either in a decrease in AUM market share or force us to reduce our management fees so as to preserve such market share, either of which would decrease our revenue from operations.

57. *We rely on the Indian exchanges for a major portion of our business.*

Our brokerage business relies on the Indian exchanges, such as BSE, MCX, ICEX and NCDEX, and the clearing corporations to execute and settle all our clients' transactions. Our electronic brokerage platform and our systems for brokerage clients are connected to the exchanges and all orders placed by our clients are fulfilled through the exchanges. Any disruption in the functioning of the exchanges or a disruption to our connection with the exchanges could have a material adverse effect on our business and results of operations.

To use the services of the exchanges, we are required to be registered as their members. This registration subjects us to various stock exchange regulations and periodic inspections by such exchanges. We cannot assure you that we will be able to strictly comply with such regulations or that such inspections would not find any violations by us. Failure to comply with such regulations could lead to fines, penalties, suspension of our registrations, and in extreme circumstances, termination of our registration. If our

registration with the exchanges is terminated, we will be unable to provide brokerage services, which will have a material adverse effect on our business, financial condition and results of operations. In addition, our business operations are subject to regulatory limits on brokerage fee rates and net worth requirements imposed by exchanges.

58. *Our insurance coverage may not adequately protect us against losses.*

We maintain insurance coverage that we believe is adequate for our operations. We have insurance policies providing coverage for our property against losses from fire, burglary and certain other risks. We also maintain a separate stockbroker indemnity insurance. While we have obtained stockbroker indemnity insurance as required under the guidelines of the various stock exchanges, we cannot assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

RISKS RELATING TO THE ISSUE AND THE NCDs

59. *Changes in interest rate may affect the price of our NCDs. Any increase in rate of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.*

All securities where a fixed rate of interest is offered, such as our NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates.

Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

60. *There may be no active market for the NCDs on the retail debt market/capital market segment of the Stock Exchanges. As a result, the liquidity and market prices of the NCDs may fail to develop and may accordingly be adversely affected.*

There can be no assurance that an active market for the NCDs will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors, inter alia, including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market for listed debt securities, (iii) general economic conditions, (iv) limited or sporadic trading; and (v) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

61. *Credit ratings may not reflect all risks. Any downgrading in credit rating of our NCDs may adversely affect the value of NCDs and thus our ability to raise further debts.*

The NCDs proposed to be issued have been rated "CRISIL A/Stable" by CRISIL Ratings Limited vide their rating letter dated November 24, 2023, revalidated vide letter dated May 21, 2024 with rating rationale and "ICRA A/Stable" ICRA Limited vide their rating letters dated July 24, 2023, revalidated vide letter dated June 12, 2024. Instruments with this rating indicate adequate degree of safety regarding timely servicing of financial obligations. Such instruments carry low credit risk. Credit rating may not reflect the potential impact of all risks related to structure, market, additional factors discussed here, and other factors that may affect the value of the NCDs.

The rating provided by CRISIL may be suspended, withdrawn or revised at any time and should be evaluated independently of any other rating. Ratings are not a recommendation to buy, sell or hold securities and investors should take their own decisions. Please refer to "**Annexure B-1**" on page 660 for

rating letters and rationale for the above rating.

62. *Security on our NCDs may rank pari passu with our Company's secured indebtedness in the future.*

As of March 31, 2024, our Company's secured debt was ₹64,249.82 Lakhs. While the security on our NCDs is by way of a pari passu charge by way of hypothecation over the Trade Receivables and MTF of the Company as of the date of this Prospectus, the terms of the NCDs do not prevent our Company from incurring additional debt subject to maintenance of minimum security cover. In the event that we incur additional debt in the future, which is secured against our assets, the NCDs may rank pari passu to the future indebtedness and other secured liabilities and obligations of our Company.

63. *You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and the interest thereon in connection with the NCDs. Failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.*

Our ability to pay interest on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and the interest thereon in a timely manner or at all.

Although our Company will create appropriate security in favour of the Debenture Trustee for the NCD holders on the assets adequate to ensure 110% security cover for the NCDs at the time of allotment of NCDs, which shall be free from any encumbrances, any decrease in assets provided as security in future might result in Company not meeting the security cover stipulated as per the respective term sheet. This can adversely affect ability of our Company to meet its payment obligations. Further, the realisable value of the assets charged as security, when liquidated, may be lower than the outstanding principal and interest thereon in connection with the NCDs.

While the debenture is secured against a charge at least 110% of the outstanding principal and interest thereon in favour of Debenture Trustee, and it is the duty of the Debenture Trustee to monitor that the security is maintained, however, the possibility of recovery of 100.00% of the amount shall depend on the market scenario prevalent at the time of enforcement of the security.

A failure or delay to recover the expected value from a sale or disposition of the assets charged as security in connection with the NCDs could expose you to a potential loss.

The rights over the security provided will not be granted directly to holders of the NCDs.

The rights over the security securing the obligations of our Company under the NCDs and the Trust Deed will not be granted directly to the NCD holders but will be granted only in favour of the Debenture Trustee. As a consequence, NCD holders will not have direct security and will not be entitled to take enforcement action in respect of the security for the NCDs, except through the Debenture Trustee.

You may be subject to taxes arising on the sale of the NCDs.

Sale of NCDs by any holder may give rise to tax liability, as disclosed in "*Statement of Possible Tax Benefits*" on page 79.

64. *Payments to be made on the NCDs will be subordinated to certain tax and other liabilities preferred by law. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.*

The NCDs will be subordinated to certain liabilities preferred by law such as the claims of the Government on account of taxes, and certain liabilities incurred in the ordinary course of our business. In particular, in the event of bankruptcy, liquidation or winding-up, our Company's assets will be available to pay obligations on the NCDs only after all of those liabilities that rank senior to these NCDs

have been paid as per section 327 of the Companies Act, 2013. In the event of bankruptcy, liquidation or winding-up, there may not be sufficient assets remaining to pay amounts due on the NCDs.

65. *There may be a delay in making refund/ unblocking of funds to Applicants.*

We cannot assure you that the monies refundable to you, on account of (i) withdrawal of your applications, (ii) our failure to receive minimum subscription in connection with the Base Issue Size, (iii) withdrawal of the Issue, or (iv) failure to obtain the final approval from the BSE for listing of the NCDs, will be refunded to you in a timely manner. We, however, shall refund / unblock such monies, with the interest due and payable thereon (in case of any delays) as prescribed under applicable statutory and/or regulatory provisions.

66. *There may be delays in receipt of or refusal of request to list in any stock exchange in India or abroad.*

While none of our securities or debt instruments have been denied permission to list in any stock exchange in India or abroad during last three financial years and current financial year, any such refusal in future might adversely affect tradability as well as price of then existing other listed securities or debt instruments.

67. *Our Company, being a listed company is not required to maintain a debenture redemption reserve ("DRR").*

Our NCDs are proposed to be listed on BSE Limited. Pursuant to a MCA notification dated August 16, 2019 amending Section 71 of the Companies Act, 2013 and Rule 18 (7) of the Companies (Share Capital and Debentures) Rules, 2014, a listed company is not required to maintain DRR for debentures issued through a public issue. Hence, investors shall not have the benefit of reserve funds to cover the re-payment of the principal and interest on the NCDs. However, in accordance with section 71 of the Companies Act, 2013, read with Rule 18 of Companies (Share Capital and Debentures) Rules, 2014, as amended, we shall on or before the 30th day of April of each year, deposit or invest, as the case may be, a sum which shall not be less than and which shall not any time fall below 15% of the amount of its debentures maturing during the year ending on the 31st day of March, of the next year, following any one or more of the following methods: (a) in deposits with any scheduled bank, free from charge or lien (b) in unencumbered securities of the Central Government or of any State Government; (c) in unencumbered securities mentioned in clauses (a) to (d) and (ee) of Section 20 of the Indian Trusts Act, 1882; (d) in unencumbered bonds issued by any other company which is notified under clause (f) of Section 20 of the Indian Trusts Act, 1882. The amount deposited or invested, as the case may be, shall not be utilized for any purpose other than for the debentures maturing during the year referred to above, provided that the amount remaining deposited or invested, as the case may be, shall not at any time fall below 15% of the amount of debentures maturing during the 31st day of March of that year. If we do not generate adequate profits, we may not be able to deposit or invest the prescribed percentage of the amount of the NCDs maturing the subsequent year.

RISKS RELATING TO INDIA

68. *Changing laws, rules and regulations and legal uncertainties, including adverse application or interpretation of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Our business, results of operations and prospects may be adversely impacted, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. Any political instability in the regions in which we operate, such as corruption, scandals and protests against certain economic reforms, which have occurred in the past, could slow the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India

could change as well.

We cannot predict whether any amendments made pursuant to the Finance Act would have an adverse effect on our business, financial condition and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

The GoI may implement new laws or other regulations and policies that could affect the financial services industry, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the GoI and other regulatory bodies, or impose onerous requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Furthermore, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Any changes to such laws, may adversely affect our future business, prospects, financial condition, cash flows and results of operations.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations and cash flows. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects.

69. *Political, economic or any other factors beyond our control may have an adverse effect on our business and results of operations.*

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Adverse economic developments, such as rising fiscal or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition, cash flows and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

As a result, we are dependent on prevailing economic conditions in India and our results of operations and cash flows are affected by factors influencing the Indian economy. The following external risks may have an adverse impact on our business and results of operations, should any of them materialize:

- increase in interest rates may adversely affect our access to capital and increase our borrowing costs, which may constrain our ability to grow our business and operate profitably;
- political instability, resulting from a change in government or economic and fiscal policies, may adversely affect economic conditions in India. In recent years, India has implemented various economic and political reforms in relation to land acquisition policies and trade barriers have led to increased incidents of social unrest in India over which we have no control;
- instability in other countries and adverse changes in geopolitical situations;
- change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- strikes, lock-outs, work stoppages or increased wage demands by employees, suppliers or other service providers;
- civil unrest, acts of violence, terrorist attacks, regional conflicts or war;

- India has experienced epidemics and natural calamities such as earthquakes, tsunamis, floods and drought in recent years, instability in the financial markets and volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- epidemics or any other public health emergency in India or in countries in the region or globally, including in India's various neighboring countries;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy; macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins;
- contagious diseases such as the COVID-19 pandemic, the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine. A worsening of the current COVID-19 pandemic or any similar future outbreaks of COVID-19, avian or swine influenza or a similar contagious disease could adversely affect the Indian economy and economic activity in the region;
- downgrading of India's sovereign debt rating by rating agencies; and
- international business practices that may conflict with other customs or legal requirements to which we are subject to, including anti-bribery and anti-corruption laws; being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, cash flows and financial conditions. Our performance and the growth of our business depend on the overall performance of the Indian economy as well as the economies of the regional markets in which we operate. Moreover, we are dependent on the various policies, initiatives and schemes proposed or implemented in India, however, there can be no assurance that such policies, initiatives and schemes will yield the desired results or benefits which we anticipate and rely upon for our growth.

70. *It may not be possible for investors to enforce any judgment obtained outside India against us or our management, except by way of a lawsuit in India.*

A majority of our directors and executive officers are residents of India and most of our assets are located in India. As a result, it may not be possible for investors to effect service of process on us or such persons in jurisdictions outside of India, or to enforce against them judgments obtained in courts outside of India predicated upon civil liabilities on us or such directors and executive officers under laws other than Indian Law.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Section 44A of the Code of Civil Procedure, 1908 (the "Civil Code") provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the CPC is applicable only to monetary decrees not being of the same nature as amounts payable in respect of taxes, other charges of a like nature or of a fine or other penalty. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, such as the United Kingdom, Singapore, UAE and Hong Kong, among others, have been declared by the Government to be reciprocating territories for the purposes of Section 44 A of the Civil Code; however, no reciprocity has been established with the United States. A judgment of a court of a country which is not a reciprocating territory may be enforced in India only by a suit on the judgment under Section 13 of the Civil Code, and not by proceedings in execution. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India.

It is unlikely that a court in India would award damages on the same basis as a foreign court if an action was brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment

if that court were of the view that the amount of damages awarded was excessive or inconsistent with public policy or Indian practice. It is uncertain as to whether an Indian court would enforce foreign judgments that would contravene or violate Indian law.

However, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI under the Indian Foreign Exchange Management Act, 1999, to execute such a judgment or to repatriate any amount recovered. Any judgment in a foreign currency would be converted into Indian Rupees on the date of the judgment and not on the date of the payment. We cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays. Any volatility in exchange rates may lead to a decline in India's foreign exchange reserves and may affect liquidity and interest rates in the Indian economy, which could adversely impact us.

Foreign inflows into India have remained extremely volatile responding to concerns about the domestic macroeconomic landscape and changes in the global risk environment. The widening current account deficit has been attributed largely to the surge in gold and oil imports. Further, increased volatility in foreign flows may also affect monetary policy decision making.

71. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue. In recent years, India has experienced consistently high inflation, which has increased interest rates and increased costs to our business, including finance costs as well as costs of salaries and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Further, high inflation leading to higher interest rates may also lead to a slowdown in the economy and adversely impact credit demand and growth. Consequently, we may also be affected and fall short of business growth and profitability.

While the Government of India through the RBI has previously initiated economic measures to combat high inflation rates, it is unclear whether these measures will remain in effect, and there can be no assurance that Indian inflation levels will not rise in the future. As a result, high inflation in India could have a material adverse effect on our financial condition and results of operations.

72. *Any downgrade of India's debt rating by an independent agency may have a negative impact on our business.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business, financial condition and our ability to obtain financing for capital expenditures.

73. *Our ability to raise foreign debt capital may be constrained by Indian law.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

Impersonation

As a matter of abundant precaution, attention of the investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013, relating to punishment for fictitious applications. Section 38(1) of the Companies Act, 2013 provides that:

"Any person who –

- (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447."*

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹10 Lakh or 1.00% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹10 Lakh or 1.00% of the turnover of our Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹50 Lakh or with both.

Minimum subscription

In terms of the SEBI NCS Regulations for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size in this case being ₹5,625 Lakhs. If our Company does not receive the minimum subscription of 75% of the Base Issue Size being ₹5,625 Lakhs, prior to the Issue Closing Date, the entire Application Amount shall be unblocked in the relevant ASBA Accounts of the Applicants within eight Working Days from the Issue Closing Date. In the event there is delay in unblocking of funds, our Company shall be liable to pay interest at the rate of 15 % per annum for the delayed period.

Under Section 39(3) of the Companies Act, 2013 read with Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription was remitted. Our Company and/or Registrar will follow the guidelines prescribed by SEBI in this

regard included in the SEBI Master Circular.

OBJECTS OF THE ISSUE

Issue Proceeds

Our Company has filed this Prospectus for a public issue of secured, rated, listed, redeemable, non-convertible debentures of face value of ₹ 1,000 each, for an amount aggregating up to ₹ 7,500 Lakhs (“**Base Issue Price**”) with an option to retain oversubscription up to ₹ 7,500 Lakhs (“**Green Shoe Option**”) aggregating up to 15,00,000 NCDs for an amount up to ₹ 15,000 Lakhs (“**Issue Size**” or “**Issue Limit**”).

The Issue is being made pursuant to the provisions of the SEBI NCS Regulations and the Companies Act and the rules made there under. Our Company proposes to utilize the proceeds raised through the Issue, after deducting the Issue related expenses to the extent payable by our Company (“**Net Proceeds**”) towards funding the objects listed under this section.

The details of the proceeds of the Issue are summarized below:

Particulars	Amount (in ₹ Lakhs)
Gross Proceeds of the Issue	15,000.00
Less: Issue related expenses *	341.75
Net Proceeds	14,658.25

(*) The above Issue related expenses are indicative and are subject to change depending on the actual level of subscription to the Issue, the number of allottees, market conditions and other relevant factors.

Requirement of Funds and Utilization of Net Proceeds

The following table details the objects of the Issue (hereinafter collectively referred to as “**Objects**”) and the amount proposed to be financed from the Net Proceeds:

S. No.	Objects of the Issue	Percentage of amount proposed to be financed from Net Proceeds
1.	To meet the working capital requirements.	At least 75%
2.	General corporate purposes*	Maximum up to 25%
	TOTAL	100%

(*) The Net Proceeds will be first utilized towards the Objects mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the amount raised and allotted in the Issue, in compliance with the SEBI NCS Regulations.

The main objects clause of the Memorandum of Association of our Company permits our Company to undertake its existing activities as well as the activities for which the funds are being raised through this Issue.

The fund requirements mentioned above are based on the internal management estimates of our Company, calculation of projected working capital, and current market conditions have not been verified by the Lead Manager or appraised by any bank, financial institution or any other independent agency. These fund requirements are based on the current circumstances of our business and our Company may have to revise its estimates, from time to time, on account of various factors beyond our control, such as market conditions, competition, costs of providing service and interest or exchange rate fluctuations and regulatory/legal environment governing our Company or changes in other financial conditions, business, or strategy. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. Further, subject to applicable laws, in the event of any increase in the actual utilization of funds earmarked for the Net Proceeds, such additional funds will be met by way of means available to us, including from internal accruals. For details on risks involved, see “**Risk Factors – The objects of the Issue have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control**” on page 38.

Details of the utilization and deployment of Net Proceeds

1. To meet Working capital requirements

STATEMENT OF POSSIBLE TAX BENEFITS UNDER THE INCOME TAX ACT, 1961 (“IT ACT”) AVAILABLE TO THE DEBENTURE HOLDERS UNDER THE APPLICABLE INCOME-TAX LAWS IN INDIA.

The following tax benefits will be available to the debenture holders of the Company (“**Debenture Holder**”) as per the existing provisions of law. The tax benefits are given as per the prevailing tax laws under the provisions of the IT Act, as on date, taking into account the amendments made by the Finance Act, 2023, and may vary from time to time in accordance with amendments to the law or enactments thereto. The Debenture Holder is advised to consider the tax implications in respect of subscription to the Debentures after consulting their tax advisor as alternate views are possible.

Taxability under the IT Act

Section 50AA of the IT Act

The Finance Act, 2023 has inserted section 50AA to the IT Act to provide for a special provision for computation of capital gains in case of Market Linked Debenture (MLD). For the purposes of the said section, MLD have been defined in the Explanation thereto to mean a security by whatever name called, which has an underlying principal component in the form of a debt security and where the returns are linked to the market returns on other underlying securities or indices, and includes any security classified or regulated as a MLD by the Securities and Exchange Board of India.

Based on the definition, MLD has the following essential features:

- It is a security in the nature of debt;
- It has an underlying principal component;
- Returns with respect to such security are linked to market returns on other underlying securities or indices;
- And, by way of extension, it is also provided that any security classified or regulated by SEBI as an MLD, shall for the purposes of section 50AA of the IT Act, be deemed to be an MLD.

The Non-Convertible Debentures (NCDs) issued/ proposed to be issued by the issuer creates a borrower-lender relationship between the issuer and subscriber and to that extent, such NCDs constitute a security in the nature of debt. Further, such NCDs, by their very nature, have a principal component (which is the price at which the subscriber subscribes to such NCDs).

However, the returns with respect to such NCDs (excess of redemption value over the principal component) is a fixed return and is not linked to any market return or underlying security or indices.

Given the same, the NCDs issued by the issuer do not satisfy the first limb of the definition of MLD as provided in the Explanation to section 50AA of the IT Act and thus, such NCDs should not constitute an MLD for the purposes of section 50AA of the IT Act.

The second limb of the definition of MLD which deems any security classified or regulated by SEBI as an MLD, to be an MLD for the purposes of section 50AA of the IT Act, is an independent limb and need to be construed as such. We have been given to understand that, at present, the NCD issued/ proposed to be issued by the issuer is neither classified nor regulated by the SEBI as an MLD and accordingly, the NCDs issued by the issuer should not constitute an MLD for the purposes of section 50AA of the IT Act. However, the said fact-pattern would have to be re-visited in light of any amendment in the law as may be notified by SEBI in future.

A. Common provision applicable to both Resident and Non-Resident debenture holders:

1. Determination of head of income for the purpose of assessability:

The returns received by the investors from the Non-Convertible Debentures ('NCD') in the form of 'interest' and gains on transfer of the NCD, may be characterized under the following broad heads of income for the purposes of taxation under the IT Act:

- Profits and gains of business or profession ('PGBP');
- Capital gains ('CG'); and
- Income from other sources ('IFOS').

For determining the appropriate head of income (as mentioned above) vis-à-vis the income or loss earned on/ from the NCD, it will be pertinent to analyse whether the NCD are held as 'Investments' i.e. capital asset or as 'Stock-in-trade'.

If the NCDs are held as 'Stock-in-trade', interest income as well as gain or loss on its transfer will be taxable under the head PGBP, whereas, if the NCD are held as 'Investments', then the interest income will be taxable under the head IFOS and any gain or loss on its transfer will be assessed to tax under the head CG.

As per Section 2(14)(b) of the IT Act, any securities held by FIIs which has invested in such securities in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992, shall be treated as capital assets. Accordingly, any gains arising from transfer of such securities shall be chargeable to tax in the hands of FIIs as capital gains and classification as "Stock in trade" shall not apply.

The investors may obtain specific advice from their tax advisors regarding the above classification and tax treatment.

2. Taxation of Interest and Gain/ loss on transfer of debentures:

Taxation of Interest

Income by way of interest received on NCD held as 'Investments' (i.e. capital asset) will be charged to tax under the head IFOS at the rates applicable to the investor after deduction of expenses, if any, allowable under section 57 of the IT Act. These are essentially expenses (not being in the nature of capital expenditure) laid out or expended wholly and exclusively for the purpose of earning the interest income. In case of NCD held as 'Stock-in-trade', interest received thereon will be charged to tax under the head PGBP. Further, any expenditure specifically laid out or expended wholly and exclusively for the purpose of earning such interest income shall be allowed as deduction.

Taxation of gain or loss on transfer

a) Taxable under the head Business Income

Depending on the particular facts of each case, the NCD may, in certain cases, be regarded to be in the nature of 'Stock-in-trade' and, accordingly, the gains from the transfer of such NCD should be considered to be in the nature of business income and hence chargeable to tax under the head PGBP.

In such a scenario, the gains from the business of investing in the NCD may be chargeable to tax on a 'net' basis (i.e. net of allowable deductions for expenses/allowances under Chapter IV – Part D of the IT Act).

Based on section 145 of the IT Act, the timing of charging any income to tax would depend on the method of accounting followed by the taxpayer consistently (i.e. cash or mercantile).

Investors should obtain specific advice from their tax advisors regarding the manner of computing business income, the deductions available therefrom and the tax to be paid thereon.

b) Taxable under the head Capital Gains

As discussed above, based on the particular facts of each case, the NCD may, in certain cases, be regarded to be held as 'Investments' in which case the gains or loss from the transfer of such NCD should be chargeable to tax under the head CG.

In such a scenario, the gains / loss from the transfer of such NCD may be chargeable to tax on a 'net' basis (i.e. net of acquisition cost of NCD, expenditure incurred in relation to transfer of NCD).

3. Period of holding and Capital gain – long term & short term:

Under Section 2(29AA) read with section 2(42A) of the IT Act, listed Debentures held as Capital Asset as defined under section 2(14) of the IT Act is treated as long term capital asset if it is held for more than 12 Months. Debentures held as capital asset for a period of 12 Months or less will be treated as short term capital asset.

4. Computation of capital gains and tax thereon

Capital gains is computed after reducing from the consideration received for the transfer of the capital asset ['full value of consideration (FVC)], the cost of acquisition (CoA) of such asset and the expenses incurred wholly and exclusively in connection with the transfer. The capital gains so computed will be chargeable to tax at the rates as detailed in the ensuing paragraphs.

5. Set off of capital losses

- As per section 70 of the IT Act, Short Term Capital Loss ("STCL") computed for the given year is allowed to be set off against STCG as well as LTCG computed for the said year. The balance loss, which is not set off, is allowed to be carried forward for subsequent eight assessment years, for being set off against subsequent years' STCG as well as LTCG, in terms of section 74 of the IT Act.
- Long Term Capital Loss computed for a given year is allowed to be set off only against the LTCG, in terms of section 70 of the IT Act. The balance loss, which is not set off, is allowed to be carried forward for subsequent eight assessment years for being set off only against subsequent years' LTCG, in terms of section 74 of the IT Act.
- As per section 70 of the IT Act, business loss from one source (other than loss on speculation business) for a given year is allowed to be set off against business income from another source. Further, as per section 71 of the IT Act, business loss (other than loss on speculation business) for a given year is allowed to be set-off against income from other heads (except Salaries).
- Balance business loss (other than loss on speculation business), which is not set-off is allowed to be carried forward for subsequent eight assessment years for being set off only against subsequent years' non-speculative business income, as per section 72.

B. Tax benefits available to Resident NCD holders:

- Interest on NCD received by resident NCD holders would form part of their total income and be subject to tax at the applicable rates of tax in accordance with and subject to the provisions of the IT Act.
- Capital gains on transfer of NCD shall be computed by deducting from the FVC, expenditure incurred wholly and exclusively in connection with the transfer and the CoA of the NCD.
- Long Term Capital Gain will be chargeable to tax under Section 112 of the IT Act at the rate of 20% (plus applicable surcharge and education cess). However, in the case of listed debentures, as per first proviso to section 112(1) of the IT Act, tax payable is only 10% (plus applicable surcharge and education cess). No indexation benefit is available for debentures. Hence, the tax payable on long term capital gains

on transfer of NCD will be 10% (plus applicable surcharge and education cess) and the capital gains have to be computed without indexation.

- In case of an individual or HUF, being a resident, where the total income as reduced by such long-term capital gains is below the maximum amount which is not chargeable to income-tax, then, such long-term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.
- Listed Debentures held as capital asset under Section 2(14) of the IT Act for a period of not more than 12 months would be treated as short term capital asset under Section 2(42A) of the IT Act. Short Term Capital Gains on transfer of NCD will be taxed at the normal rates of tax in accordance with the provisions of the IT Act. The provisions relating to maximum amount not chargeable to tax would apply to short term capital gains.

C. Tax benefits available to Non-Resident NCD holders:

A non-resident Indian has an option to be governed by Chapter XII-A of the IT Act, subject to the provisions contained therein which are given in brief as under:

- As per section 115C(e) of the IT Act, the term "non-resident Indian" means an individual, being a citizen of India or a person of Indian origin who is not a "resident". A person shall be deemed to be of Indian origin if he, or either of his parents or any of his grand-parents, was born in undivided India.
- As per Section 115E of the IT Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20%, whereas long term capital gains on transfer of such Debentures will be taxable at 10% of such capital gains without indexation of cost of acquisition. Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.
- Under section 115F of the IT Act, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to in convertible foreign exchange will be exempt from capital gain tax if the whole of the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any saving certificates referred to in section 10(4B) of the IT Act in accordance with and subject to the provisions contained therein.
- As per Section 115G of the IT Act, it shall not be necessary for a non-resident Indian to file a return of income under Section 139(1) of the IT Act, if his total income consists only of investment income as defined under Section 115C and/or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII- B of the IT Act in accordance with and subject to the provisions contained therein.
- Under Section 115H of the I.T. Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under Section 139 for the assessment year for which he is assessable as a resident, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion (otherwise than by transfer) into money of such assets.
- As per Section 115D (1) of the IT Act no deduction in respect of any expenditure or allowance shall be allowed under any provisions of the IT Act in the computation of income of a non-resident Indian under Chapter XII – A of the IT Act.

In accordance with and subject to the provisions of Section 115-I of the IT Act, a Non-Resident Indian may opt not to be governed by the provisions of Chapter XII – A of the IT Act.

- Long Term capital gains on transfer of listed debentures would be subject to tax at the rate of 10% computed without indexation.
- Interest income and Short – term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months preceding the date of transfer, would be taxed at the normal rates of tax in accordance with and subject to the provisions of the IT Act.
- Without prejudice to the fact that the NCDs to be issued by the issuer are not MLD (as has been concluded at the outset), where, for whatsoever reasons, the NCDs are treated as MLDs, then in such cases, as per the amendment by the FA, 2023, the capital gains arising on transfer or redemption or maturity of such NCDs shall be deemed to be capital gains arising from transfer of a short-term capital asset. Further, in computing the capital gains, no deduction shall be allowed for Securities Transaction Tax (STT) paid, if any.
- Where debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the IT Act.
- Under Section 195 of the IT Act, the applicable rate of tax deduction at source is 20% on investment income and 10% on any long-term capital gains as per Section 115E, and 30% for Short Term Capital Gains if the payee debenture Holder is a Non-Resident Indian.
- As per Section 90(2) of the IT Act read with the Circular No. 728 dated October 30, 1995 issued by the Central Board of Direct Taxes, in the case of a remittance to a country with which a Double Tax Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate (TRC), is a mandatory condition for availing benefits under any DTAA. If the tax residency certificate does not contain the prescribed particulars as per CBDT Notification 57/2013 dated August 1, 2013, a self-declaration in Form 10F would need to be provided by the assessee along with TRC.

D. Tax benefits available to Foreign Institutional Investors ('FII's) or Foreign Portfolio Investors ('FPI's):

- In accordance with and subject to the provisions of Section 115AD of the IT Act, long term capital gains on transfer of debentures by FIIs are taxable at 10% (plus applicable surcharge and cess) and short-term capital gains are taxable at 30% (plus applicable surcharge and cess). The benefit of cost indexation will not be available. Further, benefit of provisions of the first proviso of Section 48 of the IT Act will not apply.
- Interest on NCD may be eligible for concessional tax rate of 5% (plus applicable surcharge and health and education cess) for interest referred under Section 194LD.
- Further, in case where section 194LD is not applicable, the interest income earned by FIIs/FPIs should be chargeable to tax at the rate of 20% under section 115AD of the IT Act. Tax shall be deducted u/s. 196D of the IT Act on such income at 20%. Where DTAA is applicable to the payee, the rate of tax deduction shall be lower of rate as per DTAA or 20%, subject to the conditions prescribed therein.
- Section 194LD in the IT Act provides for lower rate of withholding tax at the rate of 5% on payment by way of interest paid by an Indian Company to FIIs and Qualified Foreign Investor in respect of rupee denominated bond of an Indian Company between June 1, 2013 and July 1, 2023 provided such rate does not exceed the rate as may be notified by the Government.

- In accordance with and subject to the provisions of Section 196D(2) of the IT Act, no deduction of tax at source is applicable in respect of capital gains arising on the transfer of debentures by FIIs referred to in section 115AD.
- The CBDT has issued a Notification No. 9 dated 22 January 2014 which provides that Foreign Portfolio Investors (FPI) registered under SEBI (Foreign Portfolio Investors) Regulations, 2014 shall be treated as FII for the purpose of Section 115AD of the IT Act.

E. Tax benefits available to Mutual Fund

All mutual funds registered under Securities and Exchange Board of India or set up by public sector banks or public financial institutions or authorized by the Reserve Bank of India are exempt from tax on all their income, including income from investment in Debentures under the provisions of Section 10(23D) of the IT Act in accordance with the provisions contained therein. Further, as per the provisions of section 196 of the IT Act, no deduction of tax shall be made by any person from any sums payable to mutual funds specified under Section 10(23D) of the IT Act, where such sum is payable to it by way of interest or dividend in respect of any securities or shares owned by it or in which it has full beneficial interest, or any other income accruing or arising to it.

F. Tax benefits available to Specified Fund (“Specified fund as defined under section 10 (4D) of the IT Act

The income of Specified Funds is taxable for the year beginning April 1, 2020, to the extent attributable to units held by non-resident (not being a permanent establishment of a non-resident in India), and in accordance with and subject to the provisions of Section 115AD of the IT Act, as under:

- a. The interest income earned are chargeable to tax at the rate of 10%;
- b. long term capital gains on transfer of debentures to the specified extent are taxable at 10% (benefit of provisions of the first proviso of section 48 of the IT Act will not apply); and
- c. Short-term capital gains are taxable at 30%.

Further, where any income in respect of NCD is payable to Specified Funds, tax shall be deducted at the rate of 10% on the income other than exempt under section 10(4D) with effect from November 1, 2020 as per Section 196D of the IT Act.

The income tax deducted shall be increased by applicable surcharge and health and education cess.

G. Withholding taxes on Purchase of Goods

As per section 194Q of the IT Act, any sum payable by a buyer for purchase of goods of the value exceeding Rs. 50 Lakhs shall be liable to withhold tax at the rate of 0.1 percent.

Buyer means a person whose total sales, turnover or gross receipts from the business carried on by him exceeds Rs. 10 crores in the financial year immediately preceding the financial year in which the purchase is carried out. Further, TDS shall not be applicable where: -

- Tax is deductible under any of the provisions of the IT Act; or
- Tax is collectible under the provisions of section 206C of the IT Act other than a transaction to which section 206C(1H) of the IT Act applies.

The CBDT has issued Circular No 13 of 2021 dated June 30, 2021 laying down guidelines under section 194Q of the IT Act. It inter alia provides that TDS under section 194Q of the IT Act shall not apply to transaction in securities and commodities which are traded through recognized stock exchanges or cleared and settled by the recognized clearing corporation (including exchanges or corporation located in IFSC).

Given that the Circular does not provide clarity in respect of shares/ securities traded off-market, it is advisable that the subscribers obtain specific advice from their tax advisors regarding applicability of these provisions.

Further, the CBDT has also inter alia clarified that the section 194Q of the IT Act shall not apply to a non-resident buyer, whose purchase of goods from a seller, resident in India, is not effectively connected with the permanent establishment of such non-resident in India.

For this purpose, 'permanent establishment' shall mean to include a fixed place of business through which the business of the enterprise is wholly or partly carried on.

H. Documents required in cases of lower/ non-deduction of TDS due to exemption available

- a) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the IT Act; and that a valid certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest;
- b) When the resident Debenture Holder with Permanent Account Number ('PAN') (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the IT Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However, under section 197A(1B) of the IT Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in section 194, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax;
- c) Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on the estimated total income of the year concerned will be NIL; and
- d) In all other situations, tax would be deducted at source as per prevailing provisions of the IT Act. Please find below the class of resident investors and respective documents that would be required for granting TDS exemption:

I. Exemption under Sections 54EC and 54F of the I.T. Act

- Under Section 54EC of the I.T. Act, long term capital gains arising to the debenture holders on transfer of their debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in certain notified bonds within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified bonds are transferred or converted into money within a period of three years from their date of acquisition, the amount of capital gains exempted earlier would become chargeable to tax as long term capital gains in the year in which the bonds are transferred or converted into money. However, the exemption is subject to a aggregate limit of investment of Rs 50 lacs during any financial year in the notified bonds. Where the benefit of Section 54EC of the I.T. Act has been availed of on investments in the notified bonds, a deduction from the income with reference to such cost shall not be allowed under Section 80 C of the I.T. Act.
- As per the provisions of Section 54F of the I.T. Act, any long-term capital gains on transfer of a long term capital asset (not being residential house) arising to a Debenture Holder who is an individual or Hindu Undivided Family, is exempt from tax if the entire net sales consideration is utilized, within a period of one year before, or two years after the date of transfer, in purchase of a new residential house, or for construction of residential house within three years from the date of transfer. If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis. This exemption is available, subject to the condition that the Debenture Holder does not own more than one residential house at the time of such transfer. If the residential house in which the investment has been made is transferred within a period of three years from the date of its purchase or construction, the amount of capital gains tax exempted earlier would become chargeable to tax as long term capital gains in the year in which such residential house is transferred. Similarly, if the Debenture Holder purchases within a period of two years or constructs within a period of three years after the date of transfer of capital asset, another residential house (other than the new residential house referred above), then the original exemption will be taxed as capital gains in the year in which the additional residential house is acquired.
- As per provisions of Section 54 EE inserted by the Finance Act, 2016, long term capital gains arising to Debenture Holders on transfer of their debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in certain notified units within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified units are transferred within three years from their date of acquisition, the amount of capital gain exempted earlier would become chargeable to tax as long term capital gains in the year in which units are transferred. Further, in case where loan or advance on the security of such notified units is availed, such notified units shall be deemed to have been transferred on the date on which such loan or advance is taken. However, the amount of exemption with respect to the investment made in the aforesaid notified units during the financial year in which such debentures are transferred and the subsequent financial year, should not exceed Rs 50 lacs.

J. Debentures received as gift without consideration or inadequate consideration.

As per section 56(2)(x) of the IT Act, except in cases which are specifically exempted under this clause (such as gift received from relative as defined under the section), where the debentures are received without consideration where the aggregate market value of all gifts received exceeds Rs. 50,000/- the aggregate market value of the debentures shall be taxable as income in the hands of the recipient. Similarly, if debentures are received for inadequate consideration, the shortfall in the consideration will be treated as income of the recipient subject to the provisions contained in section 56(2)(x) of the IT Act. There is no gift tax for the Donor of the Debentures.

Rule 11UA of the Income-tax Rules, 1962 provides for the method for determination of the FMV of various properties (including shares).

K. Requirement to furnish PAN under the IT Act

1. SEC. 139A (5A):

Section 139A (5A) requires every person from whom income tax has been deducted at source under chapter XVII – B of the IT Act to furnish his PAN to the person responsible for deduction of tax at source.

2. SEC. 206AA:

- a) Section 206AA of the IT Act requires every person entitled to receive any sum, on which tax is deductible under Chapter XVIIB ('deductee') to furnish his PAN to the deductor, failing which tax shall be deducted at the higher of the following rates:
 - (i) at the rate specified in the relevant provision of the IT Act; or
 - (ii) at the rate or rates in force; or
 - (iii) at the rate of twenty per cent.
- b) Section 206AA of the IT Act provides that the provisions shall not apply to non-residents in respect of payment of interest on long-term bonds as referred to in section 194LC and any other payment subject to such conditions as may be prescribed.
- c) Further, as per Rule 37BC of the Income-tax Rules, 1962 ('the Rules'), the provisions of section 206AA shall not apply to non-residents where the non-residents provide the following information to the payer of such income:
 - Name, email-id, contact number;
 - Address in the country or specified territory outside India of which the deductee is a resident;
 - A certificate of his being resident in any country or specified territory outside India from the government of the other country or specified territory if the law of that country or specified territory provides for issuance of such certificate;
 - Tax Identification Number of the deductee in the country or specified territory of his residence and in a case, no such number is available, then a unique number on the basis of which the deductee is identified by the Government of that country or the specified territory of which he claims to be a resident.
- d) Where an incorrect PAN is provided, it will be regarded as non-furnishing of PAN and TDS shall be deducted as mentioned above, apart from any other penal consequences that may ensue.

3. SEC. 206AB

Further, as per section 206AB of the IT Act, with effect from 1 July 2021, payments made to specified persons will be subject to TDS at rate which is higher of the following:

- twice the rate specified in the relevant provision of the IT Act; or
- twice the rate or rates in force; or
- the rate of 5%

In cases, where both section 206AA and section 206AB of the IT Act are applicable, taxes shall be deducted at higher of the rate prescribed under both the sections.

For the purpose of section 206AB of the IT Act, specified person means any person-

- Who has not filed an income-tax return for the AY relevant to the previous year immediately preceding the previous year in which tax is required to be deducted, and the prescribed time limit to file the income-tax return has expired;

- The aggregate amount of TDS is INR 50,000 or more in each of the two previous years.

But other than a non-resident who does not have a permanent establishment in India. Further, FA, 2023 has carved-out from the definition of ‘specified person’ under section 206AB of the IT Act, a person who is not required to file/ furnish a return of income and who, in that behalf, is notified by the Central Government vide the Official Gazette.

L. General Anti Avoidance Rules (“GAAR”)

The General Anti Avoidance Rule (“GAAR”) was introduced in the IT Act by the Finance Act, 2012. The Finance Act, 2015 made the provisions of GAAR applicable prospectively from 1 April 2017. Further, income accruing, arising, deemed to accrue or arise or received or deemed to be received by any person from transfer of investments made up to 31 March 2017 would be protected from the applicability of GAAR.

1. Economic Outlook

1.1. Global Economy

Global growth, which stood at 3.2% in CY23, is anticipated to maintain this rate throughout CY24 and CY25. The CY24 forecast has been adjusted upwards by 0.1 percentage point compared to the January 2024 World Economic Outlook (WEO) Update, and by 0.3 percentage point compared to the October 2023 WEO. Despite this, the expansion remains historically low, attributed to factors including sustained high borrowing costs, reduced fiscal support, lingering effects of the COVID-19 pandemic and Russia’s Ukraine invasion, sluggish productivity growth, and heightened geo-economics fragmentation.

Advanced Economies Group

Advanced economies are expected to experience a gradual increase in growth, climbing from 1.6 % in CY23 to 1.7% in CY24 and further to 1.8% in CY25. The projection for CY24 has been adjusted upwards by 0.2 percentage points compared to the January CY24 WEO Update, while the forecast for CY25 remains unchanged. This adjustment primarily reflects a revision in US growth, compensating for a slight downward revision in the euro area for CY25.

The **United States** is expected to see growth rise to 2.7% in CY24, followed by a slight slowdown to 1.9% in CY25. This deceleration is attributed to gradual fiscal tightening and labor market softening, which dampen aggregate demand. The CY24 projection has been revised upward by 0.6 percentage points since the January CY24 WEO Update. This revision primarily reflects carryover effects from stronger-than-expected growth in the fourth quarter of CY23, with some of this momentum expected to continue into CY24.

The **Euro Area's** growth is anticipated to rebound from its sluggish rate of 0.4% in CY23, mainly influenced by significant exposure to the conflict in Ukraine. Projections indicate an increase to 0.8% in CY24 and further to 1.5% in CY25. This recovery is driven by stronger household consumption, as the impact of elevated energy prices diminishes and declining inflation bolsters real income growth. Despite a downward revision of 0.3 percentage points for Germany in both CY24 and CY25 due to persistent weak consumer sentiment, this adjustment is largely balanced by upgrades for several smaller economies, including Belgium and Portugal.

Emerging Market and Developing Economies Group

Emerging market and developing economies are forecasted to maintain stable growth at 4.2% in both CY24 and CY25. While there's a slowdown expected in emerging and developing Asia, this is counterbalanced by increasing growth in economies across the Middle East, Central Asia, and sub-Saharan Africa. Low-income developing countries are anticipated to experience a gradual growth uptick, starting at 4.0% in CY23 and climbing to 4.7% in CY24 and 5.2% in CY25, as certain constraints on near-term growth begin to ease.

The economic forecast for emerging and developing Asia reveals a modest deceleration in growth, with projections indicating a decline from 5.6% in CY23 to 5.2% in CY24 and 4.9% in CY25. **China's** trajectory reflects a slowdown, transitioning from 5.2% in CY23 to 4.6% in CY24 and 4.1% in CY25 due to fading post-pandemic stimuli and ongoing property sector challenges. In contrast, **India's** growth remains robust, with anticipated rates of 6.8% in CY24 and 6.5% in CY25, bolstered by resilient domestic demand and a burgeoning working-age populace.

The **Indonesian** economy is expected to register growth of 5.0% in CY24 and 5.1% in CY25 with a strong domestic demand, a healthy export performance, policy measures, and normalization in commodity prices. In CY22, **Saudi Arabia's** growth slowed at -0.8% in CY23 attributed to lower oil production. CY24 is predicted to see a revamp in the growth rates to 2.6% on account of Vision 2030 reforms that helped advance the country's economic diversification agenda, including through reduced reliance on oil. Going forward, GDP is expected to grow at 6.0% and 4.0% in CY25 and CY26, respectively. On the other hand, **Brazil's** growth is projected to ease to 2.2% in CY24, driven by fiscal consolidation, the lingering impact of tight monetary policies, and reduced contributions from the agricultural sector.

Despite the turmoil in the last 2-3 years, India bears good tidings to become a USD 5 trillion economy by CY27. According to the IMF dataset on Gross Domestic Product (GDP) at current prices, the nominal GDP has been estimated to be at USD 3.6 trillion for CY23 and is projected to reach USD 5.3 trillion by CY27 and USD 6.4 trillion by CY29. India's expected GDP growth rate for coming years is almost

double compared to the world economy.

Besides, India stands out as the fastest-growing economy among the major economies. The country is expected to grow at more than 6.5% in the period of CY24-CY29, outshining China's growth rate. By CY27, the Indian economy is estimated to emerge as the third-largest economy globally, hopping over Japan and Germany. Currently, it is the third-largest economy globally in terms of Purchasing Power Parity (PPP) with a ~7.6% share in the global economy, with China [~18.7%] on the top followed by the United States [~15.6%]. Purchasing Power Parity is an economic performance indicator denoting the relative price of an average basket of goods and services that a household needs for livelihood in each country.

Despite Covid-19's impact, high inflationary environment and interest rates globally, and the geopolitical tensions in Europe, India has been a major contributor to world economic growth. India is increasingly becoming an open economy as well through growing foreign trade. Despite the global inflation and uncertainties, Indian economy continues to show resilience. This resilience is mainly supported stable financial sector backed by well-capitalized banks and export of services in trade balance. With this, the growth of Indian economy is expected to fare better than other economies majorly on account of strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners.

1.2. **Indian Economic Outlook**

1.2.1. **GDP Growth and Outlook**

Resilience to External Shocks remains Critical for Near-Term Outlook

India's real GDP grew by 7.0% in FY23 and stood at ~Rs. 161 trillion despite the pandemic in previous years and geopolitical Russia-Ukraine spillovers. In Q1FY24, the economic growth accelerated to 8.2%. The manufacturing sector maintained an encouraging pace of growth, given the favorable demand conditions and lower input prices. The growth was supplemented by a supportive base alongside robust services and construction activities. This momentum remained in the range in the Q2FY24 with GDP growth at 8.1%, mainly supported by acceleration in investments. However, private consumption growth was muted due to weak rural demand and some moderation in urban demand amid elevated inflationary pressures in Q2FY24.

India's GDP at constant prices surged to Rs. 43.72 trillion in Q3FY24 from Rs. 40.35 trillion in Q3FY23, marking an 8.4% growth rate. This upswing was fueled by robust performances in construction, mining & quarrying, and manufacturing sectors and investment drove the GDP growth, while both private and government consumption remained subdued. In 9MFY24, GDP surged by 8.2% to Rs. 126 trillion compared to 7.3% in the previous year largely due to increase in investments and growth in domestic demand (investment growth increased 10.6% y-o-y while private consumption was 3.5% higher).

Real GDP in the year FY24 is estimated to grow at 7.6% at Rs. 172.90 trillion as per second advance estimate of the Ministry of Statistics and Programme Implementation. It is expected that domestic demand, especially investment, to be the main driver of growth in India, amid sustained levels of business and consumer confidence.

GDP Growth Outlook

- Driven by resilience in urban demand and the front loading of the government's capital expenditure, the H1FY24 witnessed a strong growth. Thereafter Q3 was propelled by strong performances in sectors like construction, mining & quarrying, and manufacturing.
- The recent announcements of various relief measures such as LPG price reduction and extension of Pradhan Mantri Garib Kalyan Anna Yojna (PMGKAY) are expected to provide some cushion and so far, investment demand has remained robust. However, there could be some moderation in H2FY24 as both the government and private sector may restrain their capital spending ahead of the general elections. Despite some expected moderation in the H2FY24, India's overall GDP

growth for FY24 is expected to remain on a firm footing. In terms of fiscal deficit for the year, the Finance Ministry has estimated it to be at 5.1% of GDP.

- Strong credit growth, resilient financial markets, and the government's continual push for capital spending and infrastructure are likely to create a compatible environment for investments. In the Interim Budget 2024-25, significant emphasis is placed on infrastructure development with an increased capital expenditure outlay of Rs. 11,11,111 crores, amounting to 3.4% of the GDP.
- External demand is likely to remain subdued with a slowdown in global activities, thereby indicating adverse implications for exports. Additionally, heightened inflationary pressures and resultant policy tightening may pose a risk to the growth potential.

Prior to the Interim Budget, in December 2023, the RBI in its bi-monthly monetary policy meeting estimated a real GDP growth of 7% y-o-y for FY24 comparatively lower from MoSPI's estimate of 7.6%.

Table 2: RBI's GDP Growth Outlook (Y-o-Y %)

1.3. Gross Value Added (GVA)

Gross Value Added (GVA) is the measure of the value of goods and services produced in an economy. GVA gives a picture of the supply side whereas GDP represents consumption.

Industry and Services sector leading the recovery charge

- The gap between GDP and GVA growth turned positive in FY22 (after a gap of two years) due to robust tax collections. Of the three major sector heads, the service sector has been the fastest-growing sector in the last 5 years.
- The **agriculture sector** was holding growth momentum till FY18. In FY19, the acreage for the rabi crop was marginally lower than the previous year which affected the agricultural performance. Whereas FY20 witnessed growth on account of improved production. During the pandemic-impacted period of FY21, the agriculture sector was largely insulated as timely and proactive exemptions from COVID-induced lockdowns to the sector facilitated uninterrupted harvesting of rabi crops and sowing of kharif crops. However, supply chain disruptions impacted the flow of agricultural goods leading to high food inflation and adverse initial impact on some major agricultural exports. However, performance remained steady in FY22.

In FY23, the agriculture sector performed well despite weather-related disruptions, such as uneven monsoon and unseasonal rainfall, impacting yields of some major crops and clocked a growth of 4% y-o-y, garnering Rs. 22.3 trillion.

In Q1FY24, this sector expanded at a slower pace of 3.5% y-o-y growth compared to y-o-y growth a quarter ago. This further stumbled to 1.2% in Q2FY24. Further, it experienced contraction of 0.8% in Q3, leading to expectations of a modest 0.7% rise for the full year, contrasting sharply with the 4.7% growth recorded in FY23. In the Interim Budget 2024-25, the government plans to boost private and public investment in post-harvest activities and expand the application of Nano-DAP across agro-climatic zones. Strategies for self-reliance in oilseeds and dairy development are to be formulated, alongside ramping up the Pradhan Mantri Matsya Sampada Yojana and establishing Integrated Aquaparks. Allocation for PM-Formalisation of Micro Food Processing Enterprises scheme has increased from Rs. 639 in FY24 to Rs. 880

crores in FY25.

Going forward, rising bank credit to the sector and increased exports will be the drivers for the agriculture sector. However, a deficient rainfall may have impact on the reservoir level, weighing on prospects of Kharif sowing. Considering these factors, the agriculture sector is estimated to attain Rs. 22.7 trillion and mark 1.8% y-o-y growth for complete FY24.

- The **industrial sector** witnessed a CAGR of 4.7% for the period FY16 to FY19. From March 2020 onwards, the nationwide lockdown due to the pandemic significantly impacted industrial activities. In FY20 and FY21, this sector felt turbulence due to the pandemic and recorded a decline of 1.4% and 0.9%, respectively, on a y-o-y basis. With the opening up of the economy and resumption of industrial activities, it registered 11.6% y-o-y growth in FY22, albeit on a lower base.

The industrial output in FY23 grew by 4.4% with estimated value Rs. 45.2 trillion owing to a rebound in manufacturing activities and healthy growth in the construction sector.

The industrial sector grew by 5.5% in Q1FY24, while Q2FY24 growth was up by 13.2% owing to positive business optimism and strong growth in new orders supported manufacturing output. The industrial growth was mainly supported by sustained momentum in the manufacturing and construction sectors. Within manufacturing, industries such as pharma, motor vehicles, metals, petroleum and pharma witnessed higher production growth during the quarter. The construction sector (13% growth in Q2FY24) benefited from poor rainfall during August and September and higher implementation of infrastructure projects. This was reflected in robust cement and steel production and power demand in Q2FY24. Overall, H1FY24 picked up by 9.3% with manufacturing and construction activities witnessing significant acceleration. In Q3FY24, growth rate slowed down to 10.4%.

India's industrial sector is experiencing strong growth, driven by significant expansion in manufacturing, mining, and construction. This growth is supported by positive business sentiment, declining commodity prices, beneficial government policies like production-linked incentive schemes, and efforts to boost infrastructure development. These factors collectively contribute to the sustained buoyancy in industrial growth due to which the industrial growth is estimated at 7.9% on y-o-y basis registering the value of Rs. 48.9 trillion in FY24.

- The **Services sector** recorded a CAGR of 7.1% for the period FY16 to FY20, which was led by trade, hotels, transport, communication, and services related to broadcasting, finance, real estate, and professional services. This sector was the hardest hit by the pandemic and registered an 8.2% y-o-y decline in FY21. The easing of restrictions aided a fast rebound in this sector, with 8.8% y-o-y growth witnessed in FY22.

Overall, in FY23, benefitting from the pent-up demand, the service sector was valued at Rs. 20.6 trillion and registered growth of 9.5% y-o-y.

In Q1FY24, the services sector growth jumped to 10.3%. Within services, there was a broad-based improvement in growth across different sub-sectors. However, the sharpest jump was seen in financial, real estate, and professional services. Trade, hotels, and transport sub-sectors expanded at a healthy pace gaining from strength in discretionary demand. The service sector growth in Q2FY24 moderated to 5.8% partly due to the normalization of base effect and some possible dilution in discretionary demand. Considering these factors, service sector marked 8% growth in H1FY24. In Q3FY24 growth slowed to 6.7% compared to 9.7% last year in the same quarter.

With this performance, steady growth in various service sector indicators like air passenger traffic, port cargo traffic, GST collections, and retail credit are expected to support the services sector. With this, the growth of service sector is estimated at Rs. 86.2 trillion registering 7.7% growth in FY24 overall.

1.4. Investment Trend in Infrastructure

Gross Fixed Capital Formation (GFCF), which is a measure of the net increase in physical assets, witnessed an improvement in FY22. As a proportion of GDP, it is estimated to be at 32.7%, which is the second-highest level in 7 years (since FY15). In FY23, the ratio of investment (GFCF) to GDP climbed up to its highest in the last decade at 34%. Continuing in its growth trend, this ratio is expected to reach 34.9% in FY24.

Overall, the support of public investment in infrastructure is likely to gain traction due to initiatives such as Atmanirbhar Bharat, Make in India, and Production-linked Incentive (PLI) scheme announced across various sectors.

1.5. Industrial Growth

Improved Core and Capital Goods Sectors helped IIP Growth Momentum

The Index of Industrial Production (IIP) is an index to track manufacturing activity in an economy. On a cumulative basis, IIP grew by 11.4% y-o-y in FY22 post declining by 0.8% y-o-y and 8.4% y-o-y, respectively, in FY20 and FY21. This high growth was mainly backed by a low base of FY21. FY22 IIP

was higher when compared with the pre-pandemic level of FY20, indicating that while economic recovery was underway.

During FY23, the industrial output recorded a growth of 5.1% y-o-y supported by a favorable base and a rebound in economic activities. The period April 2023 – February 2024, industrial output grew by 5.9% compared to the 5.6% growth in the corresponding period last year. For the month of February 2024, the IIP growth slowed down to 5.7% compared to the last year's 6%, primarily on account of a normalization of base.

So far in the current fiscal, while the infrastructure-related sectors have been doing well, slowing global growth and unrest in the Middle-East have posed a challenge for industrial activity. Though the continued moderation in inflationary pressure offers some comfort, pain points in the form of elevated prices of select food items continue to persist.

1.6. Consumer Price Index

India's consumer price index (CPI), which tracks retail price inflation, stood at an average of 5.5% in FY22 which was within RBI's targeted tolerance band of 6%. However, consumer inflation started to upswing from October 2021 onwards and reached a tolerance level of 6% in January 2022. Following this, CPI reached 6.9% in March 2022.

CPI remained elevated at an average of 6.7% in FY23, above the RBI's tolerance level. However, there was some respite toward the end of the fiscal wherein the retail inflation stood at 5.7% in March 2023, tracing back to the RBI's tolerance band. Apart from a favorable base effect, the relief in retail inflation came from a moderation in food inflation.

In FY24, the CPI moderated for two consecutive months to 4.7% in April 2023 and 4.3% in May 2023. This trend snapped in June 2023 with CPI rising to 4.9%. In July 2023, the CPI had reached its highest point at 7.4%, this was largely due to increase in food prices. The notable surge in vegetable prices and in other food categories such as cereals, pulses, spices, and milk have driven this increase. In August 2023, the food inflation witnessed some moderation owing to government's active intervention. This was further moderated for second consecutive month in September 2023 to 5%, led by a sharp correction in vegetables prices and lower LPG prices. Helped by deflation in the fuel and light category, the retail inflation in October 2023 softened at 4.9%. This trend reversed in November 2023 due to spike in certain vegetable prices as well as sticky inflation in non-perishable food items such as cereals, pulses and spices and the CPI rose to 5.6%. In the month of December 2023, elevated food prices and an unfavourable base drove headline inflation to a four-month peak of 5.7%. However in the month of January and February, food prices softened and the inflation was reported at 5.1% for both the months. March witnessed further softening of prices registering 4.9% growth. For the full Financial year 2024 inflation moderated to 5.4% which are within the boundaries set of 2% to 6% by the RBI.

While the consistent decrease in core inflation due to falling commodity prices and diminishing demand-side pressures is encouraging, the ongoing high food inflation due to rising mercury levels could pose a significant risk worth monitoring. Despite these concerns, the favourable base effect throughout Q4FY24 and the expected easing of food price pressures and Government's support could help mitigate inflation risks.

Chart 4: Retail Price Inflation in terms of index and Y-o-Y Growth in % (Base: 2011-12=100)

The CPI is primarily factored in by RBI while preparing their bi-monthly monetary policy. At the bi-monthly meeting held in December 2023, RBI projected inflation at 5.4% for FY24 with inflation during Q3FY24 at 5.6%, Q4FY24 at 5.2%, while for FY25 it is pegged at 4.5% and in Q1FY25 at 5.0%, Q2FY25 at 4.0%, Q3FY25 at 4.6% and Q4FY25 at 4.7%.

The RBI has increased the repo rates with the rise in inflation in the past year from 4% in April 2022 to 6.5% in January 2023. Considering the current inflation situation, RBI has kept the repo rate unchanged at 6.5% in the last five meetings of the Monetary Policy Committee.

Chart 5: RBI historical Repo Rate

Source: RBI

In a meeting held in February 2024, RBI also maintained the liquidity adjustment facility (LAF) corridor by adjusting the standing deposit facility (SDF) rate of 6.25% as the floor and the marginal standing facility (MSF) at the upper end of the band at 6.75%.

Further, the central bank continued to remain focused on the withdrawal of its accommodative stance. With domestic economic activities gaining traction, RBI has shifted gears to prioritize controlling

inflation. While RBI has paused on the policy rate front, it has also strongly reiterated its commitment to bringing down inflation close to its medium-term target of 4%. Given the uncertain global environment and lingering risks to inflation, the Central Bank has kept the window open for further monetary policy tightening in the future, if required.

1.6.1. Overview on Key Demographic Parameters

- **Population growth and Urbanization**

The trajectory of economic growth of India and private consumption is driven by socio-economic factors such as demographics and urbanization. According to the world bank, India's population in 2022 surpassed 1.42 billion slightly higher than China's population 1.41 billion and became the most populous country in the world.

Age Dependency Ratio is the ratio of dependents to the working age population, i.e., 15 to 64 years, wherein dependents are population younger than 15 and older than 64. This ratio has been on a declining trend. It was as high as 76% in 1982, which has reduced to 47% in 2022. Declining dependency means the country has an improving share of working-age population generating income, which is a good sign for the economy.

Chart 6: Trend of India Population vis-à-vis dependency ratio

Source: World Bank Database

With an average age of 29, India has one of the youngest populations globally. With vast resources of young citizens entering the workforce every year, it is expected to create a 'demographic dividend'. India is home to a fifth of the world's youth demographic and this population advantage will play a critical role in economic growth.

- ### Urbanization

The urban population is significantly growing in India. The urban population in India is estimated to have increased from 403 million (31.6% of total population) in 2012 to 508 million (35.9% of total population) in the year 2022. People living in Tier-2 and Tier-3 cities have greater purchasing power.

- ### Increasing Per Capita Disposable Income

Gross National Disposable Income (GNDI) is a measure of the income available to the nation for final consumption and gross savings. Between the period FY14 to FY24, per capita GNDI at current prices registered a CAGR of 8.77%. More disposable income drives more consumption, thereby driving economic growth.

The chart below depicts the trend of per capita GNDI in the past decade:

- ### Increase in Consumer Spending

With increase in disposable income, there has been a gradual change in consumer spending behaviour as well. Private Final Consumption Expenditure (PFCE) which is measure of consumer spending has also showcased significant growth in the past decade at a CAGR of 9.6%. Following chart depicts the trend of per capita PFCE at current prices:

1.6.2. Concluding Remarks

The major headwinds to global economic growth are escalating geopolitical tensions, volatile global commodity prices, and a shortage of key inputs. Despite the global economic growth uncertainties, the Indian economy is relatively better placed in terms of GDP growth compared to other emerging economies. According to IMF's forecast, it is expected to be 6.8% in CY24 compared to the world GDP growth projection of 3.2%. The bright spots for the economy are continued healthy domestic demand, support from the government towards capital expenditure, moderating inflation, investments in technology and improving business confidence.

Likewise, several high-frequency growth indicators including the purchasing managers index, auto sales, bank credit, and GST collections have shown improvement in FY23. Moreover, normalizing the employment situation after the opening up of the economy is expected to improve and provide support to consumption expenditure.

The India Meteorological Department (IMD) has made a significant forecast, predicting "above normal" rainfall for the upcoming monsoon season, marking the first time in a decade that such an optimistic outlook has been declared at the initial stage. This forecast, coupled with an anticipated eight-year-high rainfall, offers promising prospects for the agrarian economy and inflation. The weakening of El Nino to a neutral stage in the early monsoon season, followed by the likely development of La Nina conditions in the later part, adds to the positive outlook. El Nino typically leads to suppressed rainfall during the Indian monsoon, whereas La Nina tends to enhance rainfall activity. IMD's more optimistic prediction is expected to bolster agricultural growth and incomes, while also potentially alleviating stubborn food inflation pressures.

At the same time, public investment is expected to exhibit healthy growth as the government has allocated a strong capital expenditure of about Rs. 11.11 lakh crores for FY25. The private sector's intent to invest is also showing improvement as per the data announced on new project investments. However, volatile commodity prices and economic uncertainties emanating from global turbulence may slow down the improvement in private CapEx and investment cycle.

2. Overview of Non-Banking Financial Company

2.1. Non-Banking Financial Company Overview

Non-banking financial institutions (NBFIs) encompass a heterogeneous group of financial intermediaries. Those under the regulatory purview of the Reserve Bank comprise:

- All-India Financial Institutions (AIFIs) that include the National Bank for Agriculture and Rural Development (NABARD), the Export-Import Bank of India (EXIM Bank), the Small Industries Development Bank of India (SIDBI), and the National Housing Bank (NHB) are apex financial institutions that play an important role in meeting the long-term funding requirements of agriculture and the rural sector, foreign trade, small industries, housing finance companies (HFCs), NBFCs, Micro Finance Institutions (MFIs), and other specialised segments and institutions.
- Non-banking financial companies (NBFCs) are government/public/private limited companies that specialise in delivering credit to a wide variety of specific segments, ranging from infrastructure to consumer durables and vehicle financing. Housing finance companies (HFCs) extend housing finance to individuals, cooperative societies, and corporate bodies and lease commercial and residential premises to support housing activity in the country.
- Primary dealers (PDs) came into existence in 1995 and act as market makers in the government securities (G-secs) market, besides ensuring subscription to primary issuances.

Non-Banking Financial Companies (NBFCs) play an important role in the Indian financial system by complementing and competing with banks and bringing efficiency and diversity into financial intermediation. NBFCs have evolved considerably in terms of operations, heterogeneity, asset quality and profitability, and regulatory architecture.

2.2. Classification of NBFCs

NBFCs can be classified on the basis of –

- a) asset/liability structures
- b) systemic importance
- c) the activities they undertake

In terms of liability structures, NBFCs are subdivided into deposit-taking NBFCs (NBFCs-D), which accept and hold public deposits and non-deposit-taking NBFCs (NBFCs-ND), which source their funding from markets and banks. Among non-deposit-taking NBFCs, those with an asset size of Rs. 5

billion or more are classified as non-deposit taking systemically important NBFCs (NBFCs- ND-SI).

Since NBFCs cater to niche areas, they are also categorised on the basis of the activities they undertake. Till February 21, 2019, NBFCs were divided into 12 categories. Thereafter, these categories were harmonised in order to provide NBFCs with greater operational flexibility. As a result, asset finance companies (AFCs), loan companies (LCs), and investment companies (ICs) were merged into a new category called Investment and Credit Companies (NBFC-ICC). At present, there are 11 categories of NBFCs in the activity-based classification.

Table 4: Types of NBFCs

Type of NBFC	Activity
NBFC-Investment and Credit Company (NBFC-ICC)	Lending and Investment.
NBFC-Infrastructure Finance Company (NBFC-IFC)	Financing of Infrastructure Sector.
Core Investment Company (CIC)	Investment in equity shares, preference shares, debt, or loans of group companies.
NBFC-Infrastructure Debt Fund (NBFC-IDF)	Facilitation of flow of long-term debt only into post commencement operations in infrastructure projects which have completed at least one year of satisfactory performance.
NBFC-Micro Finance Institution (NBFC-MFI)	Providing collateral free small ticket loans to low income households.
NBFC-Factors	Acquisition of receivables of an assignor or extending loans against the security interest of the receivables at a discount.
NBFC-Non-Operative Financial Holding Company (NBFC-NOFHC)	Facilitation of promoters/ promoter groups in setting up new banks.
NBFC-Mortgage Guarantee Company (NBFC-MGC)	Undertaking of mortgage guarantee business.
NBFC-Account Aggregator (NBFAAA)	Collecting and providing a customer's financial information in a consolidated, organised, and retrievable manner to the customer or others as specified by the customer.
NBFC-Peer to Peer Lending Platform (NBFC-P2P)	Providing an online platform to bring lenders and borrowers together to help mobilise funds.
Housing Finance Company (HFC)	Financing for purchase/ construction/ reconstruction/ renovation/ repairs of residential dwelling units.

2.3. Trends in Banks and NBFCs Credit in India

Chart 12: Credit Deployed by SCBs

Source: RBI, CareEdge Research
Note: Data are provisional

Scheduled commercial banks (SCBs) witnessed a robust growth of 20% y-o-y in Dec'23 compared to 15.4% y-o-y in Mar'23. The continued growth in bank credit can be attributed to strong growth in the retail sector with increased demand for vehicle loans and unsecured personal loans segments such as credit cards and consumer durables. SCBs continue to witness increased traction in credit toward services segment, especially in the Non-Banking Financial Companies (NBFCs). Additionally, HDFC (merger) has also significantly supported credit growth in FY24.

Chart 13: Gross Credit Deployed by NBFCs

Source: RBI, CareEdge Research

Note: Data are provisional

As of Sep-23, the credit growth rate has seen an uptick of 25.8% y-o-y and reached Rs. 36.9 Trillion. The upward growth trajectory of NBFC credit indicates its importance in India's Financial System. This growth is mainly attributed to the increasing demand for unsecured loans, retail credit mainly vehicle and housing loans and the growing demand for MSME Loans has also supported growth in credit.

2.4. Sectoral Distribution of NBFCs' Credit

Chart 14: Sectoral Distribution of NBFCs' credit

Source: RBI, CareEdge Research

Note: Industry includes credit to micro, small, medium and large enterprises;

Retail loans are personal loans for housing loans, consumer durables, auto loans, and other personal loans;

Services include credit towards commercial real-estate, retail trade and other such loans

Others include credit deployed towards agriculture and allied activities and other non-food credit

The industry sector has remained the largest recipient of credit extended by NBFCs followed by retail loans, services, other non-food credit, and agriculture & allied activities. NBFCs growth in credit deployed towards industry is mainly attributable to increase in infrastructure lending by large government-owned NBFCs. Furthermore, NBFCs have steadily expanded their micro, small and medium enterprises (MSMEs) portfolio, addressing the credit needs of the sector and contributing to overall financial inclusion and economic growth. As of Sep-23, industry credit contributed Rs. 13.5 Trillion, indicating around 20.6% y-o-y growth in NBFCs' credit to industry, as per the RBI.

While NBFCs' credit to the industry is growing, their credit to services has declined marginally mainly due to declining credit to the commercial real estate sector, transport operators. As of Sep-23, as per data published by RBI, credit deployed to the service sector has reached around Rs. 4.9 Trillion indicating 21.6% y-o-y growth in NBFC credit deployed towards service sector.

Retail loans comprise housing loans, vehicle loans, loans against gold, consumer durables loans, and other such personal loans. Over the last couple of years, NBFCs have shifted their focus to retail lending in order to grow their business. There has been significant ramp-up in demand for retail credit as more and more consumers are getting comfortable with borrowing funds to meet their changing lifestyle needs.

The growth in NBFCs unsecured retail lending has outpaced the growth in NBFCs aggregate gross credit deployed. As of Sep-23, retail loans reached 11.9 Trillion forming over a third of NBFCs gross credit deployed. Furthermore, in terms of delinquencies retail loans have lower delinquencies when compared to MSME/corporate lending, another major factor for the NBFCs increased focus towards retail lending.

2.5. Asset Quality of NBFCs

Chart 15: Asset Quality of NBFCs

Source: RBI, CareEdge Research

The asset quality of NBFCs has seen continued improvement on account of strong balance sheets, an increase in provisions and improved collection efficiency. Additionally, restructuring of their loan book and NPA write-offs have also aided the improvement in the asset quality of NBFCs. As of Sep-23, the GNPA of NBFCs is expected to have improved to 4.2% from an earlier 4.6% in Mar-23. NBFCs net non-performing assets is also expected to have improved to 1.6% as of Sep-23 over 1.7% as of Mar-23.

Going forward asset quality is expected to remain in check owing to increased provisions, the decline in fresh slippages and restructuring of the loan book.

2.6. Capital Adequacy of NBFCs

Over the years, NBFCs' CRARs have improved on account of the increasing level of Tier-I capital, retained earnings, and moderation in NPA. NBFCs are well capitalised, with their capital-to-risk-weighted asset ratio (CRAR) well above the stipulated level of 15%.

Chart 16: Capital to Risk Weighted Assets Ratio (CRAR)

Source: RBI, CareEdge Research

2.7. Key Growth Drivers

Last Mile Financing and Unbanked Population

NBFCs have a strong presence in the unorganized and under-served areas where banks may not have a strong foothold. This is attributed to the lack of necessary bank infrastructure in these areas and an aversion on the part of banks to disburse loans to smaller companies. Further, the ease of internet access and affordable data packs have contributed to increased spending and demand for retail credit from these areas alongside raising the potential consumer base of NBFCs.

Growing Focus on Informal Customer Base

Traditional banks may not be very keen on lending to retail borrowers from semi-urban and rural areas or small companies with weaker credit scores and lack of documentation, as compared to larger borrowers. However, in terms of volume, the number of potential customers in this category is higher and NBFCs have created a niche segment by having customized credit assessment methods based on cash flow assessment and field verification. This gives NBFCs an opportunity to extend credit to the financially weaker set of customers, a growing customer base in the informal customer segment, further opening up avenues for NBFCs' growth.

Technological Adoption and Co-Lending Arrangements

NBFCs deploy technological solutions to develop innovative products and lower operational costs. Since NBFCs are fairly new in the financial landscape in comparison to most banks, they are more agile and better positioned to leverage technology to enhance their reach while increasing efficiency.

Additionally, NBFCs partner with various alternative financiers and commercial banks, enabling them to diversify their income avenues and reach their targeted customer base through different channels. Accordingly, bank collaborations with other NBFCs help make credit accessible to the under-banked and un-banked population.

Shifting Buying Behaviour

Over the years, there have been significant changes in the perception of consumers toward borrowing. With the need to improve lifestyle, there is an increasing inclination toward borrowing to attain a certain standard of living people. This is prominent among the younger population. Accordingly, banks and NBFCs have seen significant traction in demand for personal loans over the last decade, indicating increased awareness about credit and shift in perception towards borrowing.

Rising Demand from Retail Customers

Retail borrowers accounted for around 30% of total credit disbursed by NBFCs as of FY23 ended Mar-23, according to the data published by the RBI. The retail segment has shown consistent growth in credit demand throughout the pandemic alongside being a significant chunk of the customer base of NBFCs. Going forward, CareEdge believes that the demand for consumer durables, consumption of services, home loans and gold loans are likely to support the growth in retail demand and, consequently, aid in the new business of NBFCs.

2.8. Outlook

CareEdge expects NBFCs to grow between 12%-15% y-o-y in FY25. This growth is expected to be driven by strong demand for retail loans, particularly consumer durable loans, unsecured personal and consumption loans, unsecured small enterprise loans, and microfinance loans.

CareEdge believes that NBFCs are shifting their focus towards retail financing, which is anticipated to show a healthy growth with a pick-up in economic activity and increased penetration of financial institutions providing convenient financing options to borrowers. The retail segment comprises vehicle loans, consumer durable loans, advances against golds, real estate loans and other such individual loans.

The retail segment is likely to significantly contribute to NBFCs' growth, especially in case of housing loans and vehicle loans. These segments are likely to continue their growth momentum on the back of steady demand. Growth in vehicle segment is anticipated to see growth on the back of automotive industry's growth. In the near term, the growth is likely to be supported by investments from the PLI scheme, new launches of vehicles, and a strong order book. Also, enhancement in India's manufacturing capabilities will further help to support the vehicle industry demand over the long term.

Gold loans are a highly secured and liquid asset class that generates high returns with minimal credit losses and encourages financial institutions to extend their credit towards gold loans. CareEdge believes that with the rise in the price of gold amidst geopolitical unrest, a large geographic reach and the fast turnaround time on loan application, the demand for gold loans to fund the working capital of micro enterprises and an individual's personal requirements will grow.

CareEdge believes that real estate financing will grow with the sustained demand for affordable housing. However, the rising borrowing costs, stiff competition from banks, hike in interest rates, high property prices and moderation in home affordability will continue to be key monitorable for the real estate finance segment as a whole.

3. Indian Capital Market

3.1. Index Movement

The role of capital markets is to act as a platform between buyers and suppliers engaging in trading of financial securities such as stocks, bonds and various other securities. Capital markets help in mobilization of resources and allocation of funds. The capital markets aid in providing long term funds to the corporate sector by channelizing savings and investments between individuals who have capital and entities in need of funds.

Chart 17: Index Movement

Source: NSE, BSE, CareEdge Research

The Indian capital markets have been on a steady growth trajectory since May 2020. The Government's decision to impose a nationwide lockdown impacted the markets and subsequently, both Nifty and Sensex crashed to multi-year lows. However, investors tried to use the temporary weakness in the market to build their portfolios. This, coupled with a sharp cut in bank deposits, drew more investor participation in equities, which resulted in the indices witnessing a return to growth as early as May 2020. Currently, (Mar'24) the indices continue to show an upward growth trend supported by high valuations of companies, declining inflationary pressures, increase entry of retail investors.

Table 5: Nifty movement

Date	Nifty Closing	Change (y-o-y)

3.2. Performance of NSE Indices

Chart 18: Yearly returns of NSE indices as of April 2024

Source: NSE, CareEdge Research

The yearly returns of these select NSE indices showed significant increase returns as on Mar'24. Nifty realty and PSE sector-related indices continuing to show substantial one-year returns at 119.5% and 117.6% respectively which is the highest returns among other select indices. As of 30th April 2024, the above select indices continue to indicate positive one-year returns.

3.3. Capital Raised by Listed Companies through Qualified Institutional Placements (QIPs)

Table 6: Capital raised by listed companies through QIPs

Year	Total No. of issues	Amount (Rs. Billion)
2019-20	14	544
2020-21	31	787
2021-22	29	314
2022-23	11	82
2023-24	61	690

Source: SEBI, CareEdge Research

Qualified institutional placements are directly linked to markets and the volatility in markets significantly impacts market transactions. During FY23 with rising global headwinds, there was a sharp increase in volatility backed by tightening monetary policy to keep inflation in check. However, the situation has significantly improved in FY24 especially with declining inflationary pressures, attractive valuation of stocks, and boost in economic growth.

Table 7: Public issue and private placement of Debt & Equity

Year	Total No. of issues	Amount (Rs. Billion)
2020-21	96	1207.1
2021-22	192	1,505
2022-23	276	752
2023-24	385	1,023

Source: SEBI, CareEdge Research

During FY24, along with the number of issues and value terms public issue and private placement of debt & equity witnessed positive growth over FY23. As of FY24, total amount mobilized through public issues and private placement of both debt and equity indicates 40% increase in the amount mobilized and nearly 39.5% increase in number of issues over FY23.

3.4. Primary Market Trends (Public & Rights Issues)

Table 8: Trends in primary market

Source: SEBI, CareEdge Research

Notes: 1. Equity public issues also includes issues listed on SME platform.

2. Data of equity is being prepared based on the listing date.

3. The data of Debt is being prepared based on closing date.

For FY24, the number of total equity issues increased to 340 issues from an earlier 238 issues in FY23 and in terms of value equity issues witnessed nearly 18.5% y-o-y growth. This growth can be attributed to favorable market conditions in the second half of FY24, economic growth and decline in uncertainty global inflationary pressures.

During FY24, while the number of issues witnessed positive growth over FY23, in value terms public issue through debt witnessed a growth of 108% y-o-y growth. As of Mar'24, total amount mobilized through public issues and private placement of both debt and equity indicates 29% increase in the amount mobilized and nearly 41.5s% increase in number of issues over Mar'23.

During FY24, at NSE, 83,338 trades were registered with a traded value of Rs. 11,13,679 crores indicating 11.3% surge in traded value during previous financial year.

4. Indian Wealth Management Industry Overview

Wealth management globally plays a vital role in Corporate Advisory. It's important to have a broad understanding of different businesses to advise any corporate operating within a specific industry. While advisory services include strategic financial planning, short and long-term investments through different assets, hedge funds, due diligence, mergers and acquisitions (M&A), private equity and more, risk management is also offered as advisory service.

Wealth management is also extended to the corporate employees through corporate employee benefit programmes. Depository and trustee services are tailor made and designed for corporate promoters, to provide insightful information on ensuring compliance on fund documentation, regulatory requirements and scheme particulars. In addition to this, promoter funding assistance plays a vital role while raising funds for business.

Wealth Management space in India is highly competitive with large number of domestic players in each segment except UHNI segment which is dominated by global players. Change in investor attitude has led to financialization of savings with both MF AUM and folios growing at around 19% CAGR.

Note: Financial wealth includes investments in assets class such as bonds, insurance, stocks and cash and bank deposits

Given India's long-term economic prospects, positive demographics, rising income levels, and current low penetration, Indian Wealth Management market is on a steady upward trajectory. While India's wealthy individuals are less in comparison with established markets, the country's wealth is expected to expand rapidly in the future. The key factors for growth in wealth management business in India are large and young mass affluent segment, an increase in wealth of global Indians', the Indian government's push to regulate illegal channels of funds and tightening of capital market regulations.

The demographic difference presents an opportunity to create new products to address the needs of a young population and leverage new technologies, such as social and software-based investing applications as a key differentiator. Indian wealth management industry is largely focused on the urban segment, leaving untapped majority of Indian population. One of the key factors for advisors is to develop trust with the potential investors where advisors constantly need to build its brand, focus on overcoming trust barriers, invest in technology and focus on transparency and compliance.

With increase in start-ups, rising income levels and friendly macro factors with ease of doing business, young HNI population in India is expected to rise. There is a big opportunity for a wealth management firm to tap into an underpenetrated market with huge upside growth potential for wealth managers.

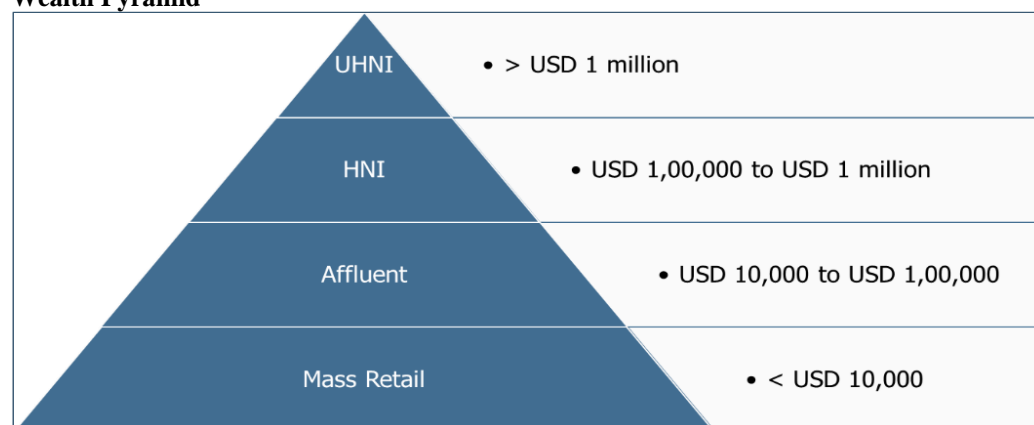

There is steady growth in number of client's interest towards:

- 1) Access to Mutual Fund / Other financial Product Distribution
- 2) Financial Planning (specific short term and long-term goals) Advice
- 3) Tax Planning Advice
- 4) Estate Planning Advice
- 5) Wealth Management Advice

The Indian Wealth Management market is on a sustained path of growth, given India's long-term economic prospects, positive demographics, rising income levels and current low penetration.

Based on the investment corpus available with the individuals, CareEdge Research has grouped individuals in following four categories

Wealth Pyramid

Source: CareEdge Research

The first three segments of the wealth pyramid namely ultra-high net worth individuals (UHNI), high net-worth individuals (HNI) and affluent contribute to more than 80% of India's wealth. A large base of low-wealth holders underpins higher tiers occupied by progressively fewer adults. The inequality has also increased due to the rise in the value of financial assets during the Covid-19 pandemic. Over the years, there has been significant ramp-up in the affluent segment supported by the emerging economy and expansion of middle-class population.

4.1. Size and growth of HNIs in India

High net-worth individual (HNI) is someone with a net worth of USD 1 million or more, including their primary residence, while Ultra HNI is someone who has a net worth of USD 30 million or more across financial and physical assets. India has one of the world's fastest growing HNI population both in terms of the number of individuals and the wealth levels.

Chart 21: HNII and Ultra HNIs Population in India

Source: Industry Sources, CareEdge Research, Data are provisional

Note: P indicates that the data projected

In 2022, the UHNI population grew by around 5% CAGR over 2017. The number of UHNIs in India increased exponentially and reached around 12 thousand in 2022. By 2027, HNI population is projected to grow at a CAGR of 6.5% over 2022.

In the medium to long term, UHNI, HNI and affluents segment are likely to see tremendous growth on the back of growth in Indian economic, rising affluence and financialization of assets. India's HNI population is expected to grow more than double by 2027 over 2022, making it one of the world's fastest-growing wealth markets.

4.2. Key trends of the wealth management industry in India

- **Need for Advisory**

Financial markets have become complex due to a wide variety of investments options available in the market today. Investors are often confused as to which products to invest in and how to determine the suitability of the investment based on their risk-return profile. As a result, the demand for an unbiased wealth manager who guide them appropriately has increased significantly. Investors value holistic advice on how to achieve multiple, often conflicting, financial goals using a range of investment techniques and funding strategies.

While this means new opportunities for the wealth managers, excessive competition has also posed new challenges to sustain, grow, and strive in the market. This is a challenging macro environment for investors and their advisors to find the right return-risk combination. Increasing regulatory burdens and rising costs of risk pose new challenges to wealth management firms.

- **Goal Based Planning over Wealth maximization**

Investors are becoming increasingly aware of milestone-based planning and want to plan ahead for them. These goals can be short-term, such as purchasing the latest phone or taking a vacation, or long-term, such as a child's education, retirement, and so on. In order to keep up with the changing investor behaviour, wealth managers are rethinking their wealth management strategies beyond wealth maximisation and offer financial planning solutions that cater investor's goals.

- **Digitization of Wealth Management**

Investors have been exposed to the world of technology thanks to the rise of smartphones and internet access. Investors are increasingly gravitating towards platforms with simple user interfaces that allow them to make investments with the swipe of a finger. The need for wealth management infrastructure to be digitalized has never been greater. Digital wealth management is more than just providing digital channels for transacting. It also includes employing technology to provide higher value, professional service, and an improved investment experience for customers, all while remaining objective.

The rise of digitalization has also given rise to robo-advisors, which are automated, Algo-based systems that provide wealth management advice. These user-friendly platforms have made the whole investment process accessible and affordable to a large section of people, thus bringing science and human combination in advisory models.

Big data and advanced analytics are transforming the industry with new ways to engage with new clients, manage client relationships and manage risks. Collaborating with wealth tech providers can help the traditional wealth advisory firms expand their capabilities and enhance digitalization faster and in a cost-effective manner.

4.3. Key growth drivers of wealth management industry

- **Increasing Penetration of Mutual Fund Market in India**

India continues to be underpenetrated with a mutual fund penetration rate (the ratio of period ending mutual fund AUM to GDP) expected to have reached nearly 31% as of Mar-24, as compared to global average of 70-80%. India accounts for less than 2% of the global mutual fund industry, representing a significant growth opportunity.

Average Assets managed by the Indian mutual fund industry have grown from Rs. 22.9 trillion in Mar-20 to Rs. 54.7 trillion as of Mar-24, thereby indicating around 25% CAGR over assets in Mar-20. The size of average assets under management indicates that there continues to be a huge untapped potential of the mutual funds in India.

There is lack of healthy participation from investors in B30 (beyond top 30) locations. Recently, the mutual fund sector is witnessing rising activity from B30 locations, especially in the equity segment due to improved distribution and regulatory changes in fee structure. Due to increasing mobile phone penetration and increasing wealth managers integration towards technology to service transparent and systematic products in an efficient manner helps to develop informed customers and enables distributors to penetrate deeper to serve clients across the wealth management space.

Investors – Overall Composition

Chart 22: Investors – Overall Composition – Mar-24

Source-AMFI, CareEdge Research

Individual assets are primarily distributor-driven. Distribution channel accounted for 73% of total mutual fund assets under management (AUM) as of Mar'24, of which 54% belongs to the top 30 cities. Direct investments amount to 27% of individual assets, of which 6% of individual assets were from B30 and 21% of individual assets were from T30.

- **Increase in Retail participation and mass affluent**

Chart 23: Growth in B30 and T30 Assets (Rs. Lakh crores)

Source-AMFI, CareEdge Research

The wealth managed by portfolio managers (including assets under advisory) in India is about Rs. 45 trillion as of Mar'24. The increased penetration of wealth management companies into Tier II and III cities will also help to drive the growth, given more than 40% of the UHNIs live in non-Metro cities, where currently wealth is majorly managed by IFAs and Chartered Accountants.

The top five states, Maharashtra, New Delhi, Karnataka, Gujarat, and West Bengal contributed to around 68% of the AUM of mutual funds as of Mar'24. Of which, Maharashtra and New Delhi attributed to nearly 50% of the AUM. However, with rising income levels and a growing affluent middle class, Retail investors are becoming more inclined towards equities as an investment option over the traditional preference of savings towards physical assets, especially from B30 cities.

Around 18% of the assets of the mutual fund industry came from B30 locations. Assets from B30 locations increased by 1.2% to Rs. 9.8 trillion as of Mar'24 over Feb'24 and represented an increase of 44% y-o-y over Mar'23.

Investors from B30 locations are attracted towards equity as compared to T30 where the debt portion is higher due to large participation from institutional investors. As of Mar'24, 84% of the assets from B30 locations are in equity schemes as compared to 79% from B30 locations in Mar'23.

Increase in folios

Chart 24: Increase in Investors Accounts

Source-AMFI, CareEdge Research

Retail investors' preference is becoming more mature as they get more informed regarding equities potential and risk associated with investing in it. Over the years, there has been an increase in investor accounts, as of Mar'24 investor accounts reached to 177 million from 87 million as of Mar'20. The increasing penetration of mutual funds products is driven by the rising number of folios and participation from mass affluent segments.

Individual investor's component of the total number of folios in the industry has been steadily increasing over the period of years where mass affluent retail investors are spearheading the growth rate. The individual investors hold a relatively higher share of 60.5% of the industry assets as of Mar'24, compared with 58.1% in Mar'23.

Increasing Share of Equity based Fund in Asset class over the years

The proportionate share of equity-oriented schemes nearly 58% of the industry assets as of Mar'24, up from 39.7% in Mar'20. Among other categories, there is significant increase in ETF (Others) market share from 6.8% as of Mar'20 to 12.9% as of Mar'24.

Source-AMFI, CareEdge Research

An Uptick in passive investing: The shift towards passive investing is increasing as they are cost effective when compared to actively managed funds. Investors have a wide range of options to choose from the available type of passive investment options in the market such as Alternative Investment Funds (AIFs), Portfolio Management Services (PMS) and Exchange-traded funds (ETFs).

Diversification: Investors understand the need and importance of investing in different asset classes which helps them diversify their portfolio of investments. This, diversification also helps in minimization of risk while earning better returns. As a result, it will lead to potential growth in investment management.

4.4. Outlook for Wealth Management Industry

The Indian wealth management industry witnessed a structural shift over the past few years on account of changing demographics, increase in the number of millennials focusing on investing, and increased penetration of digitization. The pandemic-led 2021 accelerated the shift from traditional investing

avenues such as bank deposits to equities.

The increase in focus on wealth management comes as investors are more aware and attuned to current events and are actively planning their finances to meet their financial goals or to plan for the difficult times. Additionally, there is a growing trend towards achieving financial self-reliance for meeting discretionary spends and maintaining lifestyle.

Indian household savings have also been witnessing some considerable structural shifts of late.

Households in India have historically been quite risk-averse and wary of investing their savings into volatile or uncertain return-based assets. A pursuit of safe bets has always driven India towards making investments in assets like gold which are considered to have limited downside risk. This pattern is has changed over time, especially since demonetization in November 2016. Also, the country has seen a major shift in attitude from capital preservation to wealth creation from FY17.

In FY24, the growth of the wealth management industry is likely to be stable on account of growing engagement of millennials towards investing coupled with higher disposable income, increased savings and uplift in confidence among retail investors.

Furthermore, increase in start-ups, rising income levels and friendly macro factors with ease of doing business will drive the growth of the young HNI population in India, this is likely to create huge opportunity for a wealth management firms to tap into an underpenetrated market with huge upside growth potential for wealth managers. CareEdge Research expects the following trend to drive the growth of the wealth management industry.

Need for reliable advice – The complexity of the financial markets can be a deterrent due to the many investment options at hand. A lay investor is likely to face headwinds due to the inability to understand the suitability of options with his/her own risk appetite and goals. This gives rise to need of a knowledgeable and reliable wealth manager who can guide the investor through many goals using different investment and funding strategies.

Increase in wealth advisory platforms – The advent of the internet and rise in smartphone penetration has opened up newer wealth advisory platforms for investors. This has resulted in investors accessing platforms having easy-to-use interfaces where investments are made at the click of the finger.

Digital wealth management also includes using technology to offer more value, better services and enhance the customer's investor experience. Wealth advisory platforms also make the investment process accessible and affordable to a large section of people, thus increasing the reach of the wealth management industry.

Financial planning to achieve goals – Investors today are focusing on milestone-based planning and want to invest for them adequately. These investment goals can be short-term and related to purchases or longer-term goals such as education or retirement. Wealth managers need to rethink their strategies to not only focus on wealth maximization but also on financial planning solutions covering the different timelines.

Shift from traditional asset classes – Retail investors are moving beyond traditional asset classes like fixed deposits due to their sub-optimal real returns. They are looking for access to asset classes and investment strategies deployed by HNIs and want to explore alternative assets. Wealth managers are therefore offering products beyond those that are conventional in nature to attract greater participation from this stratum of clientele. Additionally, wealth management is moving from being a one-product-fits-all to more customized advisory based on the risk appetite, goals and time horizons of the customers.

In sum, a change in the perception of investing of customers, increased participation of millennials in investing and newer developments in technology will aid the growth of the wealth management industry, going forward.

5. Stock Broking

5.1. Introduction to Stock Broking Industry

Indian stock broking industry is the oldest trading industry that has been around even before the establishment of the Bombay Stock Exchange (BSE) in 1875. Despite passing through several changes in the post-liberalization period, the industry has found its way towards sustainable growth. It has undergone developments over several years in terms of yields, products and customer services. In the initial phase, Indian brokers were to be divided into two categories – bank-led brokers and nonbank-led brokers. The majority of these brokerages were full-service brokers with services spanning from providing a platform for trading, settlement services, investment advisory (research), investment banking and wealth management.

With the progress made in the broking sector, the trading process, which used to be cumbersome and expensive, has transformed for the better. Anyone with a mobile device and internet connection can now open a broking account and trade without any human interface. Technology has also significantly brought down the cost of conducting business as players need not open branches or recruit sales personnel. This has helped brokerage firms to remain extremely profitable despite a sharp reduction in fees charged. In the current market scenario, pricing has ceased to be a differentiator with consumers increasingly choosing brokerages based on the quality of their service and conveniences they offer.

Chart 25: Size of Stock Broking Industry - Total Income

Source: CareEdge Research Estimates

The Indian broking industry is very fragmented with a large number of participants. There are over 126 stockbrokers registered with the National Stock Exchange (NSE) as of 30th April 2024. There are 1,240 trading members in the equity segment registered with BSE as of 22nd May 2024. Many of them may be propriety desks. Still, a large number of brokers offer trading services to customers. The stock brokerage industry in India managed to earn an income of more than Rs. 350 billion in FY23. CareEdge estimates that in FY24 the industry's total income is likely to have reached around Rs. 430 billion.

Further, capital markets-related entities have benefitted in the last few years, as equity markets have given investors healthy returns. Corporations are also tapping into the growth of capital markets by raising capital through equity and debt issuances.

Moreover, with the increasing importance of technology, customers are provided more and more means to access information and make active decisions based on the fast-paced information availability. The systems are ever-evolving and have become quick and robust. In order to stay relevant and increase the market share, many brokers have heavily invested in infrastructure. Their IT systems have transformed from legacy systems to modern-day agile, adaptive and lean architectures. The stock market industry is likely to see further development in terms of market participants as well as the quantum of trade value.

5.2. Services Provided by Stock Broking Companies

1. Broking Services

A broker is an individual or firm that acts as an intermediary between an investor and a securities exchange. Because securities exchanges only accept orders from individuals or firms who are members of that exchange, individual traders and investors need the services of exchange members. Brokers provide that service and are compensated in various ways, either through commissions, fees or through being paid by the exchange itself. Investors trade in equity in the cash-delivery, cash-intraday, futures and options, and indices-derivatives segments through various order types, including market orders, stop-loss orders, and valid-till-cancelled orders.

- i) **Products:** The broking business primarily comprises broking services that offer retail clients trading in equities, equity derivatives, commodities and currency derivatives. The products for broking services for clients to trade in are as follows:
 - Equities: Stocks listed on BSE and NSE.
 - Equity Derivatives: Futures and options related to indices and stocks listed on the Stock Exchanges.
 - Currency: Derivatives and futures and options in U.S. Dollars, Euros, British Pounds, and the Japanese Yen.
 - Commodities: Commodities futures and options listed on MCX and NCDEX.
- ii) **Client Acquisition:** The broking business is anchored by a retail client. Acquisition of clients is done either directly by the broking firm itself or through its exclusive Authorised Persons network. This may be done through organic leads, paid leads or dedicated sales teams through both online and offline channels.
- iii) **Platforms:** Broking services are provided through various web, digital and exe. platforms. Almost all broking companies have their websites on which clients do trading on the stock market. Nowadays, mobile applications have also become a necessary platform for all brokers as people prefer trading in stock through their smartphones.

2. Research Services

Broking companies have a dedicated research team that publishes research reports on a daily, weekly and monthly basis for their clients, to enable them to make informed investment decisions across equity, commodity and currency segments.

3. Investment Advisory

Brokers provide investment advisory services to their retail clients with customized investment recommendations that assist their clients in achieving their investment goals across various investment avenues such as equities, debt, currency, commodities, derivatives, mutual funds and insurance products.

4. Investor Education

The website of various broking companies is a knowledge centre that aims to empower investors, including their clients, with an understanding in respect of trading and investments products.

5. Other Financial Services: In addition to broking and advisory services, various brokers also provide the following financial services that enable their clients to achieve their financial goals:

- **Margin Trading Facility:** They provide a margin trading facility to the clients for leveraging their eligible collaterals by funding their requirements on the cash delivery segment of equities. Such funding is subject to exposure against margins that are mandated by the stock exchanges, with the securities forming a part of the collateral for such funding.
- **Distribution:** They undertake the distribution of third-party financial products such as mutual funds, and health and life insurance products, according to their clients' requirements. Such distribution is undertaken through both offline channels and digital platforms.
- **Loans against shares:** Few broking companies, which are registered as NBFC, provide loans against shares to their retail clients.

5.3. Digital Trading Platforms provide Brokerages with Enhanced Scalability

With the domestic brokerage industry evolving, various brokers distinguish themselves from others in terms of their service offering to the customers including lower fees, lower maintenance charges, faster turnaround times for account opening, better security features, faster access to systems, etc.

In addition, the evolution of technology has helped them further penetrate their target customer segment faster. It offers the ease of scalability, which reduces their operating cost per customer and improves their profitability. Facilities supplementing mobile-based trading, such as live TV, advanced research reports, push notifications, enhanced price discovery settings, etc., help enhance the user experience for their customers helping them with better retention.

With the advent of modern platforms, brokers have put in place infrastructure that lowers the variable operating cost per customer considerably due to its scalable nature. The same platforms that cater to existing clientele can scale up to accommodate multiple new users. This helps them price their offerings lower and, in many cases, charge fixed transaction-based fees or even charge no fee for delivery-based transactions.

5.4. Various Services offered to a Diverse Set of Customers

These brokerages further offer services to either individuals or even institutions, which usually perform high-value transactions, requiring higher technical support such as high-frequency data, algorithm implementation, and testing capabilities, co-locations, trade automation, etc., which, with the better infrastructural setup, becomes easier to implement and offer.

Table 12: Key Differences between Institutional and Retail Broking

Parameter	Institutional broking	Retail broking
Number of investors	Low	High
Average ticket size	High	Low to moderate
Brokerage fee	About 20-30 bps lower than retail	Rates depend on volumes and customer's relationship with the broker
Type of trades	Mostly block trades	Small to moderate quantities
Technical support	Requires high technical support, systems like algorithmic trading, co-locations, automation of trades, etc.	Requires low to moderate technical support; some retail investors also engage in facilities such as algorithmic trading, etc.
Industry analysis	Requires high level of industry and company analysis	May or may not require company analysis
Frequency of trades	Low	High to low
Bargaining power with brokerage house	High	Low

As per data published by NSE, majority of the above-mentioned trading members have more than 30% complaint resolving ratio as of 30th April 2024. High complaint resolving ratio indicates that trading members are efficiently redressing the grievances of their clients.

5.7. Value-Added Service

To position themselves better, brokers often offer enhanced graphical user interfaces with modern charting techniques, strategy-building tools to trade in derivatives, offer margin and credit facilities, high-frequency data feed, etc. These modern-day facilities require significant infrastructure and technological capability in which these players have actively invested.

While players have scaled up their technology infrastructure significantly, additional expenses, such as manpower, branches, and costs associated with scaling up in newer geographies, etc., have come down because of the digitalization of their operations and this has encouraged several broking entities to ramp up their technology investments to survive in the market.

Additionally, stock brokers also guide their clients in making informed decisions by providing research and analysis on different securities, including stocks, bonds, and mutual funds. Stock brokers can also manage investment portfolios on behalf of their clients.

5.8. Key growth Drivers

Low Broking Charges and the Advent of Technology-Abundant Players

The entry of discount brokers and foreign banks has led to increased competition in the market. This has led to broking firms lowering their brokerage charges which has made broking cost effective for clients. Low brokerage charges of brokerage firms have primarily driven the number of clients in stock broking firms.

Brokers that have technological infrastructure offer more convenient and quick services like the use of online demat accounts. With the rising mobile and internet penetration of clients, online transactions have increased significantly. This has further eliminated the paperwork and streamlined the process. With the brokerage process becoming quicker and more efficient, the brokerage cost has declined, leading to declined brokerage charges of customers.

Surging Demand for Financial Products

With the increased financial literacy and awareness about bank accounts and financial planning, the demand for financial products has seen a surge as people move away from traditional ways of saving, shifting to saving through financial assets. This shift will also contribute to the stock broking industry growth.

Increase in Trade volumes

Rapid advances in technology have reduced both transaction time and costs. At the same time, brokers have been able to improve their reach and increase penetration by investing in online trading platforms. Technological advancements along with a rapid increase in smartphone penetration have resulted in an increase in the trade volume for the stockbroking business.

During FY24, the turnover of index futures dipped by 22.10% over FY23, while the turnover of stock futures grew by nearly 33.75% over FY23 reaching around Rs. 255.47 lakh crores.

During FY24, the turnover of index options grew by nearly 26.14% y-o-y reaching around Rs. 138.2 lakh crores while the turnover of stock options also grew by around 47.73% y-o-y reaching around Rs. 13.8 lakh crores.

Commodity Derivatives

Commodity Derivatives markets are a good source of critical information and indicators of market sentiments. Since commodities are frequently used as input in the production of goods or services, uncertainty and volatility in commodity prices and raw materials make the business environment erratic, unpredictable, and subject to unforeseeable risks.

Table 16: Commodity Derivatives Segment

Year	Commodity Futures	
	No. of contracts	Turnover (Rs. Crores)
FY24	1,11,228	5,429
FY23	267	14
FY22	31,059	2,273
FY21	56,083	5,484
FY20	1,45,554	6,362

Source: NSE, CareEdge Research

For the past three financial years, the commodity futures segment saw de-growth on account of muted demand for specific commodities such as copper, soybean, zinc, nickel, aluminium, and others, alongside commodity prices amid inflation and the impact of the ongoing geopolitical tensions in the second half of FY22. This has trend has continued during FY23 as the commodity prices have surged and the

uncertainty surrounding the geo-political tensions between countries has significantly impacted the overall stability of the global economy.

During the FY24, the commodity futures segment saw a significant surge in the number of contracts and turnover value as compared to the previous year. This growth is supported by moderation in commodity prices of specific commodities such as copper, soybean, and wheat compared to FY23.

2) Currency Future

A currency future, also known as FX future, is a futures contract to exchange one currency for another at a specified date in the future at a price (exchange rate) that is fixed on the purchase date.

Table 17: CD Segment

Year	Currency Futures		Currency Options		
	No. of contracts	Turnover	No. of contracts	Notional Turnover	Premium Turnover
FY24	85,19,02,719	72,01,742	3,37,03,18,509	2,79,42,296	30,405

3) Interest Rate Futures

An Interest Rate Futures contract is "an agreement to buy or sell a debt instrument at a specified future date at a price that is fixed today." The underlying security for Interest Rate Futures is either a Government Bond or a T-Bill. Exchange-traded Interest Rate Futures on NSE are standardized contracts based on 6-year, 10-year and 13-year Government of India Security (NBF II) and 91-day Government of India Treasury Bill (91D TB). All futures contracts available for trading on the NSE are cash-settled.

Table 18: Interest Rate Derivatives

Year	Volume	Turnover (Rs. Crores)
FY24	14,71,765	29,571
FY23	13,70,182	26,296
FY22	13,53,692	26,357
FY21	48,00,806	97,391
FY20	1,77,27,915	3,60,818

Source: NSE, CareEdge Research

The volume of trades in the interest rate derivatives segment had been on a declining trend for three financial years ending FY22, the decline was on account of fluctuations in interest rates that subsequently led to a decline in turnover. During FY24, although the volume of contracts witnessed marginal improvement, the turnover almost remained flat. During FY24, the interest rate derivatives segment saw growth of 12.45% over FY23, this is mainly on account of RBI's decision to pause interest rate hikes in order to curb inflationary pressures.

5.9. Major Challenges

Lower Broking Margins

There is tremendous competition for Indian Full-service Brokers from Discount Brokers and Foreign Banks. Discount brokers give a maximum of Rs.20 trade for execution, which puts significant price pressure on full-service brokers. The broking margins are so slim that the companies struggle to meet their fixed costs with any variable volume revenue models in the industry. This puts a lot of pressure on brokers to encourage "churning" or over-trading, which makes retail investors lose money in the long run.

The easiest way for a retail investor to make money is to stay invested in a well-diversified basket of good-quality stocks over a long period. However, foreign banks spoil the party further by bringing a large volume of overseas clients, who trade a large number of Indian shares and move the price up or down at their own whims and fancies.

Lower Retail Investor Participation

The traditional investment preference of Indians in real assets like gold or real estate has not helped the industry as a whole. After several investor awareness sessions are held by brokers/NSE, people are gradually warming up to the idea of equity investing. However, the pace of people adopting financial assets is still low.

The past scams, lack of understanding of volatility, and the cultural obsession with gold land have not helped fellow Indians in taking a meaningful pie of shares. Finally, the unfortunate reality is that foreign investors are harboring India's growth story (and rising stock market) due to the lack of Indian retail participants.

Increasing Costs and Additional Investments

Stock markets are always evolving. They add newer products and technologies and provide newer opportunities to trade. Brokerages need to invest in newer technologies trading platforms and algorithms continuously or risk-losing trading clients. For example, the addition of commodity or currency segments involves additional expenses for brokers to enable the trading and settlement infrastructure for the new products.

Likewise, the adoption of mobile technologies involves investment in applications and portfolio management systems which further increase costs. Besides, brokers need to pay their staff exchange memberships and other infrastructure in order to make a profit.

5.10. Way Forward

Brokerage firms in India have seen the opportunity for hassle-free trading using design and technology to reduce costs for their customers. Low-cost trading, deeper penetration of smartphones, faster internet, and simplification of trading applications will make it possible for an increasing percentage of people across age groups to trade with ease. Technology-based firms in the financial services space have empowered customers with tools and insights for savvier investment decisions.

The Indian stock broking industry is expected to clock healthy growth on an aggregate basis, small-and-mid-sized brokerage companies are expected to face greater operational and funding challenges, which could have a bearing on their performance in terms of growth and profitability. CareEdge estimates the total income of the stock broking industry is likely to have reached around Rs. 430 billion in FY24. Also, as per our research, the total income of the stock broking industry is likely to get close to or cross 1,000 billion by 2030.

This growth is likely to be influenced by the ongoing geo-political tensions between Russia-Ukraine, which have impacted various sectors such as the oil, automobile, edible oil, and agriculture sectors apart from the financial market. Further, the rise in interest rates by central banks of various countries to combat inflation is likely to affect investor sentiments, thereby further impacting the growth of the stock market industry.

Furthermore, new client additions in the industry are expected to remain healthy supported by the largely untapped market in the retail segment, coupled with favorable demographics, rising financial literacy, and increasing smartphone/internet penetration. The trend of consolidation is expected to continue with smaller broking players ceding market share to more established broking entities.

Moreover, with increased awareness about investing, a shift in attitude towards growing wealth over preserving wealth and advancement in technologies and large trading volumes, the domestic brokerage

industry will display good growth in coming years.

6. Insurance Broking Industry in India

Insurance brokers act as an intermediary for insurers and insuree. They act as advisors, assessing your insurance needs, recommending policies from their partner insurers, and potentially negotiating premiums on customer's behalf. These are namely of two types Traditional insurance brokers and Fintech insurance aggregators. Traditional brokers are licensed intermediaries who connect insurance companies (insurers) with potential customers (insuree). They assess the needs of insuree, recommend policies from various insurers, help negotiate premiums, and assist with claims filing. Further, traditional brokers relay on physical interactions, have limited product range based on insurer partnerships and can be potentially biased towards companies offering higher commissions.

Unlike traditional brokers Fintech insurance aggregators are online platforms that leverage technology to streamline insurance buying. They aggregate plans from multiple insurers, allowing for comparison on features, price, and coverage terms. This transparency empowers customers to make informed decisions based on their specific needs and budget. They may also offer policy recommendations, allow direct purchase of insurance and provide claim assistance.

Further, Fintech aggregators have streamlined the insurance buying process by making it possible to purchase policies directly online. This eliminates the need for multiple visits to insurer offices or broker agencies, saving customers valuable time and effort. Fintech aggregators have the ability to offer 24/7 access to information and often support. These enhanced customer service can attract customers who are looking for information regarding insurance offerings outside of regular business hours or prefer the convenience of online self-service options.

Prior to the entry of fintech's insurance was perceived as a complex product requiring the guidance of an agent to navigate the intricacies of different policy options and understand the often-convoluted wording. However, with rise in fintech's customers are becoming increasingly aware and shifting their focus towards fintech aggregators and their insurance offerings. This shift is largely driven by the ability of fintech platforms to provide comparison, price competition, standardized products, customer service and claim settlement records.

In terms of sources of income both traditional brokers and fintech aggregators generate income primarily through commissions earned from insurers for policies sold. These commissions are typically a percentage of the premium amount. Some aggregators may also offer additional fee-based services for premium features, such as advanced financial planning or personalized consultations tailored to an individual's unique financial situation.

7. Insurance Industry in India

7.1. Introduction to Insurance Industry

The insurance industry seeks to protect a country's people, assets and businesses. Hence, the business of insurance has always been closely linked to a country's business performance and asset ownership.

Life insurance protects the livelihoods of people and future earnings and has a direct correlation with the earnings of people, their business performance and net worth. General insurance protects assets and businesses and their valuation as well as overall economic activity. Hence, a popular way of measuring insurance penetration is to benchmark it with the GDP of a country.

The insurance industry directs pooled funds towards those who need them the most and acts as a massive investor in infrastructure and government bonds, thus indirectly funding large-scale government and private projects. The industry also generates large-scale employment by employing people as agents, distributors and service providers, and thus plays a fundamental role in strengthening the country's economy. In FY18, the life insurance industry recorded a premium income of Rs. 4.6 lakh crores, which increased by around 70% to Rs. 7.83 lakh crores in FY23. The non-life insurance industry collected gross direct premiums worth Rs. 1.53 lakh crores in FY18, which in FY23 grew to Rs. 2.60 lakh crores.

Currently, the insurance penetration in India has been steadily increasing, with life insurance penetration driving the growth of insurance industry. India's insurance industry is still under penetrated and there is significant market opportunity in this segment. India is poised to emerge as one of the fastest-growing insurance markets in the coming decade.

7.2. Life Insurance Industry in India

Life insurance is one of the fastest growing sectors in India since 2000. Parliament on March 22 passed the Insurance Amendment Bill 2021 to increase the foreign direct investment (FDI) limit in the insurance sector to 74% from 49%. As of Mar-24, there were total of 24 players in Life Insurance Sector off which LIC of India is the only public sector company. LIC of India is the largest player in India having market share of 61% as of Mar-24 (based on first-year premium).

First Year Premium of life insurers declined by 12.6% to Rs 52,081 crore in Mar-23. On the other hand, the premiums increased by 15.6% to Rs 60,214 crore in Mar-24. In FY23, life insurance companies exhibited significant top-line growth, attributable to factors such as it being the first full year unencumbered by Covid-related constraints, an increase in the non-participating (non-par) segment during the last quarter of FY23, along with a rise in term policies (protection plans). After this strong growth in FY23, the industry has witnessed a slowdown over FY24. The fall in performance can be attributed to customers purchasing insurance policies, prior to the implementation of budgetary changes and deceleration in group business. The life insurance enterprises have been strategically adjusting their policy portfolio to promote growth, albeit at a more measured pace in FY24. Further, the companies would have to increase the operating tempo as they would have to sell more policies to generate similar premiums as high-value policies become unattractive due to the new tax regime.

7.2.1. Movement of Monthly New Business Premium (Rs. Crores)

Month	FY22	FY23	FY24	FY23 vs. FY22	FY24 vs. FY23

March	59,609	52,081	60,214	-12.60%	15.6%

Source – IRDAI, Life Insurance Council, CareEdge Research

FY24 new business premiums of life insurers grew by a modest 2.0% compared to a growth of 17.9% in FY23. The flattish y-o-y growth can be attributed to the introduction of the new tax regime, flat group premiums, and the significant momentum experienced in March 2023. While private insurance companies have maintained growth and have continued to play a mitigating role by counteracting the dip in LIC premiums, their pace has been subdued compared to the prior year. Meanwhile, for two years (FY22-FY24), private companies grew at a CAGR of 16% compared to the 5.8% growth reported by LIC and 9.7% by the industry.

Source – IRDAI, Life Insurance Council, CareEdge Research

Private companies have reported muted growth for March 2024 given the significant activity reported in March 2023, which grew as the tax savings on high value policies were being phased out. For FY24, private companies have continued their growth compared to LIC's fall. The marginal aggregate increase can be attributed to higher momentum in March 2024, reduced single premiums, primarily LIC and changes in the tax regime.

7.4. Movement in Premium Type of Life Insurance Companies

(Rs. Crores)					
Premium Type	FY22	FY23	FY24	FY23 Growth	FY24 Growth

Non-Single	97,421.2	1,14,492.0	1,20,294.3	17.55%	5.1%

Source – IRDAI, Life Insurance Council, CareEdge Research

For FY24, the non-single premiums rose by 5.1% compared to the 17.55% reported in FY23, while single premiums rose by a just 0.6% FY24 compared to the 18.1% in FY23. Single premiums continue to account for a substantial portion of the overall first-year premiums.

The private sector has a larger share in the non-single sub-segment (mainly individual premiums), while LIC continues to dominate the single premium sub-segment, especially the group business. Pension plans, General Annuity and Group Gratuity Schemes account for a significant chunk of the group while General annuity plans dominate individual single premiums.

7.5. General Insurance Industry in India

The insurance segment in India is divided into two categories – life insurance and general insurance. While life insurance policies cover the financial loss suffered due to loss of life, general insurance policies cover the financial loss suffered due to the loss of an asset. General insurance, therefore, covers

the loss of economic value of assets or the financial loss suffered due to specific contingencies. General insurance has different types of plans, each of which is designed to cover specific risks related to health, motor, fire, travel or any assets etc.

As of Mar-23, there were total of 31 players in general insurance sector off which there are 24 general insurers, 5 health insurers and 2 specialized insurers. For FY24, General Insurance industry recorded growth of 12.8% y-o-y over FY23, there by crossing Rs. 2.8 lakh crores gross direct premium underwritten.

7.5.1. Movement in Segment Premium (Rs. Crores)

For FY24, Health, Motor, Fire, Engineering, Aviation have shown growth compared over FY23.

- The health segment has been the primary contributor of the non-life insurance industry since the beginning of the Covid-19 pandemic. This has resulted in the segment increasing its market share from 35.3% in FY23 to over 37.6% in FY24.
- The Aviation segment has grown by 18.4% for FY24 reaching Rs. 889 Crores.
- In addition, the overseas medical has been on a growth trajectory as international air travel has increased.
- The Motor insurance segment has continued to pick-up in FY24, showing a growth rate of 12.9% reaching Rs. 91781 crores. This growth is on account of low base, increase in Motor third party rates and increase in sales of vehicles.

Note: YTD includes period from April – October

- General Insurers' witnessed a growth of 12.8% as compared to last year. This growth is majorly driven by the Aviation, group health and motor segments.
- For FY24, while the Standalone Private Health Insurers (SAHI) continued their growth path the growth rate was similar in the current year as compared to previous year.
- The Specialized PSU Insurers saw a degrowth of approx. 29.3%, the slowdown was on account of the normalized growth in the government and retail health schemes in the current year, while previous year, the same had posted decent growth.

7.6. Outlook

Insurance demand is positively correlated with economic growth and grows at a multiple to the GDP. CareEdge expects in the near term the growth of life insurers is likely to be supported by the expansion of non-par business, increase in term policies (Protection plans) while the demand for Annuity is expected to continue in the near term coupled with cost management. Further, the long-term growth of the life insurance segment is expected to be driven on account of the low insurance penetration and increased insurance requirements. The growth can also be driven by a push to increase insurance coverage, especially in the rural area, product innovations/customisation and enabling corporate agents to take on additional companies.

CareEdge expects the life insurance industry to continue growing at around 11-13% over a three-to-five-year horizon. The growth drivers include prudent underwriting, high GDP growth, rapid urbanisation, demand for protection plans, younger demographic driving insurance coverage, intense push to increase insurance coverage. Furthermore, the supportive regulatory landscape (ease of doing business, Bima Sugan, Bima Vahak, Bima Vistaar, consolidating the expense of management limits) is expected to drive growth of life insurance industry. The launch of Bima Sugam Portal by IRDAI can facilitate more safety for the policyholders as there is no need to store the physical documents and it also reduces paperwork. This digital platform can act as a comprehensive solution to cater to all the insurance needs of the policyholders. Factors such as growing awareness about insurance, new product innovations, digitalisation for easier user interface and expansion of reach in rural areas are expected to contribute towards the growth of the industry.

As per CareEdge estimates, the health insurance segment crossed Rs 1 lakh crores mark, and Motor insurance premiums crossed Rs. 85,000 crore mark in FY24. CareEdge estimates that the Indian non-life insurance market would grow by approximately 13-15% over the medium term. The industry's growth will continue to be driven by the health and motor insurance segments as they account for around 68% of the premiums. The growth would be driven by macroeconomic factors such as higher GDP growth, and an expected rise in per capita / disposable income levels.

The overall business growth would also be supported by a favourable regulatory environment such as the denotification of tariffs can enable companies to design innovative products across segments, minimum rural, social and motor third-party obligations, and Bima Sugam platform. Further a stabilisation in loss ratios, and a focus on containing overall expenses (commission and operating expenses) and strengthening distribution networks can also contribute to the sector's growth. However, intensification of competition and an uncertain geopolitical environment and high inflation, can negatively impact economic growth and subsequently the non-life insurance sector.

Competitive Strengths

We believe the following are our core competitive strengths:

1. Broking house with PAN India reach.

Our Company is a full-service broking house in India. Our branch and Authorised Persons network, spread across 437 cities and towns and our online and digital platforms enable us to reach a large population of clients across India. As of March 31, 2024, we service our clients through a network of 188 branches including one international branch in Dubai and 2,327 registered Authorised Persons with a PAN-India presence. Over the years, our Equity Trading Volume has increased from 3,28,33,38,697 Equity Shares in Fiscal 2022 to 6,79,78,85,881 Equity Shares in Fiscal 2024. Between Fiscal 2023 and Fiscal 2024, the number of our active clients increased from 1.85 Lakh clients to 2.04 Lakh clients. We believe that we have promoted our belief “One Transaction Lifetime Relationship” by developing a dedicated client base due to our client-centric approach in respect of the services we provide, user-friendly online and digital interface; and the ability to provide seamless access to all segments of the stock markets.

2. Wide range of financial products under one roof.

Through a wide range of products and services, we cater to corporate, institutional, high net worth individuals and other retail clients. We offer broking and commission generating products and services across various asset classes such as equity, commodities and currency, and other services such as depository services, clearing services, insurance broking, and the distribution of third-party financial products. We also offer investment banking, research, wealth management and real estate advisory

services to our clients.

As one of the financial institutions in India in the broking and financial products distribution segment, we believe that our ability to identify emerging trends in the Indian capital markets sector and creating businesslines and service offerings around them, has given us a competitive edge over other participants in the industry. We believe the wide range of products and services that we offer enables us to build stronger relationships with our clients and cross sell our products. In addition, our diverse portfolio reduces our dependence on any product, service or customer and allows us to exploit synergies across our businesses.

3. Well established brand with strong reputation and good recall.

We believe that our clients associate our brand with high quality services, competitiveness as well as our corporate values of integrity, trust and honesty. Our expertise in our field and the individual solutions that we provide to our customers has aided us in increasing customer loyalty, earning repeat business and customer referrals. We believe that our brand marketing exercises over the years have helped us retain our existing customers and gain new ones.

4. An ever-growing database of corporate and retail clients.

Our broking services are offered through (i) our online and digital platforms, (ii) our network of more than 2,327 Authorised Persons, 7,040 Financial Distributors, 324 Clearing & Settlement trading members as of March 31, 2024 and (iii) dedicated dealer helpdesks at our service centers in New Delhi, Mumbai and Kolkata. Over time, we have focused on increasing our online and digital presence and providing our clients with a seamless experience. We believe that we have developed a strong retail client base, over time, with 2.04 Lakhs active clients as of March 31, 2024. The number of direct clients who have been acquired through our online and digital platforms has increased from 9.37 Lakhs clients in Fiscal 2023 to 10.57 Lakhs in Fiscal 2024.

5. Extensive corporate relationships.

Over the years, SMC has developed considerable relationships with corporate clients in different spheres of its businesses including (i) the corporates trading members getting clearing services in different segments; (ii) the corporate clients trading in different business segments; and (iii) the corporates registered with SMC as Authorised Persons and Independent Financial Distributors.

6. Consistent financial performance.

Our total consolidated Income and net profit has increased from ₹1,21,565.46 Lakhs and ₹12,039.62 Lakhs in Fiscal 2023 to ₹1,64,504.18 Lakhs and ₹18,827.65 Lakhs in Fiscal 2024, respectively, representing an increase of 35.32% and 56.38% respectively. As of Fiscal 2024, our return on net worth was 15.96%. We are also paying dividends to our shareholders consistently and our Dividend Payout Ratio was 17.82% in Fiscal 2024. While our revenues have been growing, we have focused on managing our costs by leveraging the efficiencies inherent in our technology-based business model, which we believe is evolving, scalable and asset-light.

7. Market share in the cash and commodity segment.

Our broking, distribution and advisory services are backed by robust infrastructure. We leverage our strong research capabilities and capitalize on proprietary analytical models to analyze information and make informed investment and trading recommendations to our clients. With our dedicated research team and experienced professionals to understand the needs of our clients, we believe that we are well positioned to provide value added investment advice.

8. Experienced board of directors and management team.

Presently our Board consists of 12 directors, most of whom possess experience in the financial services sector. Our individual Promoters, Subhash Chand Aggarwal and Mahesh C Gupta, are qualified

chartered accountants with over three decades of experience each in the financial services industry. We believe that our senior and middle management personnel have experience and in-depth industry knowledge and expertise and are supported by a capable and motivated pool of employees. We believe that our management's entrepreneurial spirit, leadership skills, insight into the market and customer needs provide us with a competitive advantage which will help us implement our business strategies.

9. Continuous Investment in Technology, Infrastructure & Innovation.

We have invested in technology, infrastructure and innovation to address the needs of our customers, partners and other stakeholders. Core platforms and applications have been developed in this regard which are as follows:

- a. **STOXXKART Mobile App** – It is a Discount broking platform launched in 2019 under the brand name StoxKart mobile app. The mobile app is owned and maintained by Moneywise Finvest Limited. It has been built using modern framework and backed by robust infrastructure. Launch of the app attracted a large volume of installs within 6 months post launch and is serving high MAU. App's high adoption rate is a testament to seamless and sleek design of the app.

StoxKart is also investing a lot in reliability, scale and performance and in order to enhance the customer experience, business continuity further and to take care of the growing scale, Stoxkart engineering is also working aggressively to migrate the stoxkart ecosystem from on-prem infrastructure to cloud.

- b. **SMC ACE Mobile App** – SMC ACE is an advanced mobile trading platform. It is a free digital platform, developed with an aim to provide a complete trading terminal with analytical solutions for traders. The platform provides quick, insightful data analytics for equity, futures and derivative segments with super advanced charting in a single share market software. It provides live streaming charts with more than 60 advanced technical indicators and drawing tools. It also provides tools like screeners and scanners along with live news. This enables traders to track investment performance in real time with live portfolio and enables them to take quick trading decisions on the go.

SMC is also investing a lot in reliability, scale and performance and in order to enhance the customer experience further and make investing seamless for customers, SMC engineering has also developed a nextgen version of SMC ACE app using modern frameworks and technology and the app will be hitting the market very soon.

- c. **Web trading platforms** – www.smctradeonline.com, a web-based trading platform with a simplified interface to meet clients' investment needs. It provides a medium for clients to invest in multiple investment classes using a single platform including equities, mutual funds, commodities, currency, bonds and in initial public offerings. It is a secure and robust platform which uses modern technology backed by robust infrastructure and dedicated disaster management system. On the website, clients can manage their investments, track and analyze market data, create watch lists, track stocks with technical chart indicators, make scheduled investments and can have a complete overview of the investment portfolio. The clients can also execute trades on a real time basis across stock exchanges including NSE, BSE and MCX and participate in initial public offerings, using ASBA facility.
- d. **Notifications/Messaging Platform** – In an effort to streamline numerous ways of sending customer communications and to enable better targeting via messaging, an in-house platform has been developed to send/manage customer communications. The platform enables uninterrupted communications and ongoing enhancements include integration with multiple third-party vendors in order to provide higher resiliency and superior customer experience.
- e. **Middleware & API Platform** – SMC engineering has launched an innovative platform to act as a layer between SMC/Stoxkart systems and various CTCLs. This will make the SMC group of companies function independent of the CTCLs, providing an interruption free experience to our customers even when there is a service interruption at the CTCL side.

Also, a new age API platform has been developed (Stoxkart-SuperAPI + SMC-AceAPI) using which third party platforms can fetch live data, automate trading strategies, and monitor portfolio in real time. It also helps in monitoring and executing multiple strategies and facilitates performance tracking in real time. The APIs are user friendly and easy to integrate and comply with the highest level of security standards.

- f. **Customer Onboarding Platforms** – The new cloud hosted EKYC platform, redesigned across SMC and STOXKART, now aligns with industry standards. Featuring advanced technology, a refined user interface, and enhanced integrations, the platform ensures minimal customer data entry while upholding top-notch security. Achieving a great onboarding experience, the entire journey takes less than 10 minutes. Ongoing enhancements include features like AA integration and Reverse Penny Drop, ensuring a cutting-edge onboarding process.

To augment our investment into mobile/web platforms, to gain personalized actionable insights and to leverage power of analytics to design new products for cross-selling, integrations with industry leaders like webengage, adjust etc. have been enabled.

- g. **Webengage** – Successful integration with SMC CRMs and lead sources is facilitating segmented and targeted communications to prospective leads. This has strengthened the marketing/branding capabilities of the group.
- h. **Adjust** – Successful integration with STOXKART mobile application, efficiently tracks the efficiency of marketing programs across channels, and helps in attracting new customers to the mobile application.
- i. **Market Mojo** – Successful integration has helped in gauging Market Data & Research Support Services across various channels of distribution.
- j. **Lead Square** – Successful integration with stoxkart ecosystem has helped in effective management of leads.

10. Infrastructure Capabilities.

As an engineering driven organization, we have ensured that all of our critical applications have high availability and are disaster recovery compliant as per the norms, for which we have invested in building active, co-location and disaster recovery sites, where all the critical infrastructure components (like server instances, databases, firewalls, switches etc.) in each of the sites run in high availability mode.

In order to provide interruption free experience to our customers, the company has migrated its data centres hosted applications from bare metal machines to Virtual Machines. This has increased the scaling capability of our platforms and has streamlined maintenance of our data centres. Best in class components like switches etc. have been leveraged to enable high speed communication between all the drives and networks etc. We as an organization understand the sensitivity of the data we host, so appropriate measures have been taken to ensure our infrastructure is completely secure. Audits, VAPT and other exercises dictated by norms are performed periodically to ensure our infrastructure and applications stay secure.

11. Investment into research-based products.

We believe our continuous emphasis to invest in advanced technology and research will help us in offering competitive pricing, value added services and better trading strategy ideas to our customers. Products like AutoTrender have developed to serve this purpose.

AutoTrender is an advanced trading analytics tool developed in-house, provides tickers for navigating the ever-changing market landscape. It helps customers in making informed decisions as it deciphers the complex world of options, pinpointing lucrative opportunities with clear and actionable buy/ sell signals, taps into the collective mood gauging investor sentiment and uncovering hidden trends before they erupt.

It also provides insights on the hottest sectors, helping customers identify the rising stars.

Our Strategies

1. Expand our financial products & Services distribution business through cross-selling.

“SMC” have benefited extensively from the brand. We also derive substantial benefit from synergies and cross-selling opportunities generated between our company and entities within SMC group. We intend to strengthen our offerings by distributing wide range of financial products including mutual funds, insurance products, mortgages and loans, portfolio management services, alternate investment funds, structured products, fixed income products and IPOs. We intend to cater to all financing needs of our customers under one roof thereby providing them a holistic wealth management experience.

We supply our products through a vast network of partners. We believe that our retail broking customer base presents us with potential to cross-sell third-party financial products and services. In particular, we believe that certain asset classes are underpenetrated among our customer base, and we will leverage our analytics capabilities to selectively target customers based on their likelihood to purchase such products. We also intend to continue working with third-party providers to increase the number of products available to our customers.

2. Increasing our service/product portfolio through expanding our geographical presence and reach.

As of March 31, 2024, we service our clients through a network of 188 branches including overseas office at Dubai and 2,327 registered Authorised Persons with a PAN-India presence. Additionally, to support our distribution of third-party financial products, we have 7,040 registered Independent Financial Distributors who are engaged with us on a non-exclusive basis under our banner. In order to expand our network in India and efficiently monitor our operations, we have established our own branches at major cities, which then look after the operations of the regional Authorised Persons network. The reach of our offices allows us to service our existing customers and attract new customers through personal relationships cultivated by proximity and frequent interaction by our employees and business partners. Our widespread office network allows us to apply best practices developed in one region to others. We service multiple products through our offices, which reduces operating costs and improves total sales.

We intend to continue exploring new potential locations to set up new offices to improve our service to existing and new customers.

3. Expand Financing Business.

Moneywise Financial Services Private Limited (MWFS) is registered with RBI as a middle layer NBFC having asset size of more than Rs. 1,20,000 Lakhs. MWFS is a wholly owned subsidiary of SMC Global Securities Limited.

MWFS offers a wide spectrum of financial products like SME- LAP (loan against property), SME-Onward-lending (to NBFC/MFI), SME Equipment Finance (Medical & Industrial Equipments), SMEWCTL (Unsecured Business Loans) and loan against securities. The Company has ventured into gold loan business in January 2023 and currently has 6 dedicated gold loan branches in Delhi. The company plans to open more Gold Branches across the Delhi NCR Region.

The Company plans to expand Gold Loan business by opening Branches across different geographies to tap the huge potential it offers.

The Company has also recently entered into its first Co-lending tie-up with a leading public sector bank. MWFS is rated by CARE Ratings and ICRA as A- (Stable). The Company has 27 lenders including some of the leading Public/Private sector banks and leading NBFC's. The Company being in expansion mode is continuously investing heavily in system up gradation along with hiring functional experts across the NBFC space. The Company currently has more than 383 employee workforce and around 5000 active customers.

The company is focusing on expanding its operations across MSME clusters PAN INDIA. The company currently has more than 23 branches majorly in North and West India covering 8 states and 16 major cities.

The company is venturing into Micro LAP Business with focus on Tier II and Tier III cities which will further provide impetus to AUM growth.

The company is in the process of upgrading its policies and procedures in order to facilitate the demand of growing business. The company being a responsible corporate citizen lays special emphasis on meeting regulatory and statutory compliances along with the business growth.

As part of its growing strategy, the company hires professionals having relevant experience within the NBFC/BFSI market. The operations of the company are centered on using digital tools in business along with successfully bringing in experienced professionals from top IT companies to mentor the next generation of talent and help shape their careers and business growth.

The business focus of the company for the coming years would be on retail/MSME portfolio i.e. Gold Loan, Affordable LAP, SME-Asset Finance and SME-Working Capital Term Loan (WCTL).

4. Expansion of Insurance Broking Business.

SMC Insurance Brokers Private Limited is a Direct Insurance Broker registered with IRDAI (Insurance Regulatory and Development Authority of India) offering a complete array of services in Life Insurance and General Insurance Category including consulting, risk analysis, policy servicing and claim settlement assistance.

It provides these services through 7 branches across the country with 601 employees, 15,308 Point of Sales person (POSP's) and 311 Motor Insurance Service Provider (MISP's).

The Company operates independently of insurance companies, representing clients and rendering impartial advice to protect client interests.

Competition

We face competition in all our businesses. We compete, directly or indirectly, with various companies in the financial services industry, including Indian and foreign brokers, discount brokers, public and private sector commercial banks, insurance companies, non-banking financial institutions, etc.

Risk Management

Risk Management is the backbone of any organization. Inadequate risk management can result in severe consequences for companies as well as individuals. To control the same, we have a well-documented Risk Management Policy. The Risk Management Policy is regularly reviewed by Management and same is updated from time to time as per changing Market conditions.

Exposure is allowed on the basis of collateral, of the client, available with us. As the dealer has direct contact with the client, he/she can decide whether to allow additional exposure to the client and the extent thereof as per the risk management policy. The limits provided to clients are monitored in real time by our head office to control excess exposure to the client, at any point of time.

The client needs to be educated and informed about the risk(s) involved. Training sessions are also conducted from time to time for New Authorised Persons, for clarification on RMS Policy. Our Risk Management Team continuously tracks the live market conditions & informs Branches/ Authorised Persons about the potential Risk of Clients and takes action accordingly.

Real-Time Risk Management

Risk Analysis and Management System is pro-active and real time solutions are required that provides advanced analytics and quantification of Value at Risk (VaR). This also enables the Exchanges to effectively identify and mitigate risks, associated with traders' portfolio. SMC is equipped with high degree control software called **SAVIOUR**. It provides live market impacts on net worth of Client. Some important reports of **SAVIOUR** that are used frequently:

- Client wise margin report
- Branch/party wise/scrip wise position

- Client wise short sell position
- Ban/illiquid client wise position
- Span shortage margin report
- Scrip wise/client wise price circuit report
- Ageing report-Exceed exposure limit
- Exchange wise UCC report
- Derivative violation report
- Client wise stock report

Back office & Operations

We have a centralized system for back-office and accounting procedures. We are using a back office software named FOCUS & Infor SunSystems, specifically designed as per our requirements. FOCUS & Infor SunSystems both are capable to cater to high transaction volume and has been developed with all the Reporting & Risk Management capabilities. It provides for:

- Errors free MIS for smooth functioning of various tasks;
- Margin shortage files for exchange reporting & penalties;
- Facility to intimate client via SMS for their margin shortage, proposed risks, ageing status and others; and
- Various reports for uploading in front office (ODIN) like Deposit, DP, Pool etc.

Insurance

We maintain a number of insurance policies to cover our assets and mitigate the risks that we face in various aspects of our operations. We are exposed to the risk of cybercrimes and errors and omissions by our employees. In addition, we are also exposed to the risks of equipment loss and damage from fire, burglary and other natural disasters which may lead to service interruption. We manage such risks through insurance that covers our electronic equipment, including other office equipment. We have insured our office branches along with office furniture and fixtures and have also obtained insurance cover for our directors and officers. We are also insured under stock brokers' indemnity insurance.

Employees

As of March 31, 2024, we have employed 4,264 persons including outsourced people across our Company and its subsidiaries. Our employees are not represented by trade unions and thus not covered by any collective agreements. We have not experienced any strikes, work stoppages, labour disputes or actions by or with our employees, and we believe that relations with our employees are satisfactory.

Intellectual Property

As on the date of this Prospectus, our Company has 29 trademarks and 2 copyrights to its name. Out of these 29, we have been assigned 25 trademarks, vide a deed for assignment of trademarks pursuant to which our Company has obtained ownership rights to the extent of 60%. Also, post-merger of SAM Global Securities Limited with our Company, our Company's ownership in the intellectual property rights has increased to 80%. The remaining interest is owned by two of our Promoters, Subhash Chand Aggarwal and Mahesh C Gupta.

Internet Based Trading

Online Trading is also known as Internet Trading, E-Broking and Internet Based Trading (IBT). Now Online Trading is not confined to equity trading only but products like commodities, currency, IPO, Mutual Funds and Bonds etc. are all available online. We have internet based online trading platform which is provided to the investors (both big and small) through the internet; to trade themselves (that is buy and sell) in the various financial instruments available with and through the stock exchange they choose to transact. These online trading platforms enable client(s) to transact on all exchanges.

Online Trading is also supported with Call-n-Trade facility to help customers trade over the Phone too. All the above is done in a seamless fashion; and aside from being very efficient for the investor, it also reduces the transaction cost for both the investor and the intermediary providing the service.

Current Information Technology Setup and Strength

Our Company is having two fully equipped data centres supporting company's different IT functions. We have also hosted our servers in different data centre i.e. NSE, BSE, VSNL etc. for efficient arbitrage trading and to provide seamless intranet trading to our online trading customers. All critical equipment has been recognized and redundancies have been built at each level to provide maximum uptime.

Cutting edge technology servers of IBM/DELL/HP are being used to deploy mission critical applications. CISCO routers, fortinet firewalls, Foundry Switches are being used in HA mode and cold standby mode to provide seamless network connectivity.

Network monitoring tools (NMS) has been deployed to monitor the network and bandwidth monitoring tools has been deployed to monitor the bandwidth of different links i.e. lease line, internet etc. As on March 31, 2024, the company has employed 270 professionals to support the IT infrastructure of the company.

Our Board of Directors in their meeting held on March 30, 2024 have approved the proposal of raising of funds through public issue secured, rated, listed, redeemable, of NCDs of the face value ₹1,000 each ("NCDs"), for an amount aggregating up to ₹ 7,500 Lakhs ("**Base Issue Size**") with an option to retain oversubscription up to ₹ 7,500 lakhs ("**Green Shoe Option**"), aggregating up to 15,00,000 NCDs for an aggregate amount up to ₹ 15,000 Lakhs ("**Issue Size**" or "**Issue Limit**"). Pursuant to a Special resolution passed by our Shareholders on June 30, 2023, our Board has been authorized to borrow any sum or sums of monies, which together with the monies already borrowed (apart from temporary loans obtained or to be obtained in the ordinary course of business), in excess of our Company's aggregate paid-up capital and free reserves, provided that the total amount which may be so borrowed and outstanding shall not exceed a sum of ₹30,000 lakhs. The NCDs pursuant to this Issue will be issued on terms and conditions as set out in this Prospectus.

Further, the Non-Convertible Debenture Committee of our Company has approved the Draft Prospectus in their meeting held on June 19, 2024 and this Prospectus in their meeting held on July 11, 2024.

Principal terms and conditions of this Issue

The NCDs being offered as part of this Issue are subject to the provisions of the SEBI NCS Regulations and the SEBI Master Circular, the relevant provisions of the Companies Act, our Memorandum and Articles of Association, the terms of this Prospectus, the Application Forms, the Abridged Prospectus, the terms and conditions of the Debenture Trustee Agreement and the Debenture Trust Deed, other applicable statutory and/or regulatory requirements including those issued from time to time by SEBI, the Government of India, the RBI, the Stock Exchanges, and/or any other statutory or regulatory authorities relating to the offer, issue and listing of securities and any other documents that may be executed in connection with the NCDs.

Ranking of the NCDs

The NCDs would constitute secured and senior obligations of our Company and subject to any obligations under applicable statutory and/or regulatory requirements, shall also with regard to amount invested, thereof shall be secured by way of a *pari passu* charge by way of hypothecation of the Trade Receivables and MTF under the Debenture Trust Deed. The NCDs proposed to be issued under this Issue and all earlier issues of debentures, bond issuances and loans outstanding in the books of our Company having corresponding assets as security, shall rank *pari passu* without preference of one over the other except that priority for payment shall be as per applicable date of redemption/ repayment. We have received the necessary permissions from the relevant lenders, debenture trustees and security trustees for creating a *pari passu* charge over Trade Receivables and MTF in favour of the Debenture Trustee in relation to the NCDs required in terms of the SEBI Master Circular for Debenture Trustees.

Security

The principal amount of the NCDs to be issued in terms of this Prospectus together with all interest due and payable on the NCDs, subject to any obligations under applicable statutory and/or regulatory requirements shall be secured by way of a *pari passu* charge over the Trade Receivables and MTF, created in favour of the Debenture Trustee, as specifically set out in and fully described in the Debenture Trust Deed, such that the security cover to the extent of at least 110% of the outstanding principal amounts of NCDs and all interest due and payable thereon in respect of the NCDs maintained at all times as security until the Final Settlement Date, issued pursuant to the Issue. The Security shall be created prior to the listing of the NCDs with the Stock Exchange.

Further, NCDs shall be considered as secured only if the charged asset is registered with sub-registrar and RoC or Central Registry of Securitisation Asset Reconstruction and Security Interest ("**CERSAI**") or Depository etc., as applicable, or is independently verifiable by the Debenture Trustee.

Our Company will create the security for the NCDs in favour of the Debenture Trustee for the Debenture Holders holding the NCDs on the assets to ensure 110% security cover or higher of the amount outstanding including interest in respect of the NCDs at any time.

In terms of the SEBI Master Circular for Debenture Trustees, our Company has entered into the Debenture Trustee Agreement with the Debenture Trustee and proposes to complete the execution of the Debenture Trust Deed before making the application for listing of the NCDs for the benefit of the NCD Holders, the terms of which shall govern the appointment of the Debenture Trustee and the issue of the NCDs.

Under the terms of the Debenture Trust Deed, our Company will covenant with the Debenture Trustee that it will pay the NCD Holders, the principal amount on the NCDs on the relevant redemption date and also that it will pay the interest due on NCDs on the rate specified in this Prospectus and in the Debenture Trust Deed.

The Debenture Trust Deed will also provide that our Company may withdraw any portion of the security and replace with another asset of the same or higher value ensuring the minimum security cover is maintained till the Final Settlement Date of the NCDs.

Without prejudice to the aforesaid, in the event our Company fails to execute the Debenture Trust Deed within the period specified in Regulation 18(1) of the SEBI NCS Regulations (i.e., prior to the filing of the application for listing the NCDs with the RoC, Stock Exchange and SEBI) or such other time frame as may be stipulated from time-to-time, our Company shall also pay interest of at least 2% (two per cent) per annum to the NCD holders, over and above the interest rate on the NCDs specified in this Prospectus, till the execution of the Debenture Trust Deed and in accordance with applicable laws.

Debenture Redemption Reserve

Pursuant to the amendment to the Companies (Share Capital and Debentures) Rules, 2014, notified on August 16, 2019, and as on the date of filing this Prospectus, our Company is not required to create DRR for the purpose of redemption of the NCDs. Accordingly, no debenture redemption reserve shall be created by our Company for the purpose of redemption of the NCDs or in connection with the Issue. The Company shall, as per the Companies (Share Capital and Debentures) Rules 2014 and other laws applicable from time to time, invest or deposit, as the case may be, the applicable amounts, within the specified timelines, in respect of debentures maturing during the year ending on the 31st day of March of the next year, in any one or more methods of investments or deposits stipulated under the applicable law. Provided that the amount remaining invested or deposited, as the case may be, shall not at any time fall below the specified percentage, which is presently stipulated at 15% (fifteen percent) of the amount of the debentures maturing during the year ending on March 31 of the next year, in any of the following instruments or such other instruments as may be permitted under the applicable laws.

1. in deposits with any scheduled bank, free from any charge or lien;
2. in unencumbered securities of the Central Government or any State Government;
3. in unencumbered securities mentioned in sub-clause (a) to (d) and (ee) of section 20 of the Indian Trusts Act, 1882;
4. in unencumbered bonds issued by any other company which is notified under sub-clause (f) of section 20 of the Indian Trusts Act, 1882;

Provided further that the amount invested or deposited as above shall not be used for any purpose other than for redemption of debentures maturing during the year referred above.

Face Value

The face value of each of the NCDs shall be ₹ 1,000 each.

Recovery Expense Fund

A fund created by our Company with the Designated Stock Exchange for an amount equal to 0.01% of the issue size, subject to a maximum of deposit of ₹2,500,000 at the time of making the application for listing of NCDs, created in the manner as specified by SEBI in the SEBI Master Circular for Debenture Trustees and Regulation 11 of SEBI NCS Regulations. The recovery expense fund may be utilised by the Debenture Trustee, in the event

of default by our Company under the terms of the Debenture Trust Deed, for taking appropriate legal action to enforce the security.

Debenture Holder not a shareholder

The NCD Holders will not be entitled to any of the rights and privileges available to the equity and/or preference shareholders of our Company, except to the extent as may be prescribed under the Companies Act, 2013, and the rules prescribed thereunder the SEBI LODR Regulations and any other applicable law.

Rights of the NCD Holders

Some of the significant rights available to the NCD Holders are as follows:

1. The NCDs shall not, except as provided in the Companies Act, 2013, our Memorandum and Articles of Association and/or the Debenture Trust Deed confer upon the NCD Holders thereof any rights or privileges available to our members/shareholders including, without limitation the right to receive notices, or to attend and/or vote, at any general meeting of our Company's members/shareholders. However, if any resolution affecting the rights attached to the NCDs is to be placed before the members /shareholders of our Company, the said resolution will first be placed before the concerned registered NCD Holders for their consideration. In terms of Section 136 of the Companies Act, 2013, the NCD Holders shall be entitled to inspect a copy of the financial statements, auditor's report and every other document required by law to be annexed or attached to the financial statements, and copy of the Debenture Trust Deed at the Corporate Office of our Company during business hours on a specific request made to the Company.
2. Subject to applicable statutory/ regulatory requirements and terms of Debenture Trust Deed, including requirements of the RBI, the rights, privileges and conditions attached to the NCDs may be varied, modified and/or abrogated with the consent in writing of the holders of at least three-fourths of the outstanding amount of the NCDs or with the sanction of a special resolution passed at a meeting of the concerned NCD Holders, provided that nothing in such consent or resolution shall be operative against us, where such consent or resolution modifies or varies the terms and conditions governing the NCDs, if the same are not acceptable to us.
3. Subject to applicable statutory/ regulatory requirements and terms of Debenture Trust Deed, in case of NCDs held in (i) dematerialised form, the person for the time being appearing in the register of beneficial owners of the Depositories; and (ii) physical form on account of re-materialization, the registered NCD Holders or in case of joint-holders, the one whose name stands first in the register of debenture holders shall be entitled to vote in respect of such NCDs, either in person or by proxy, at any meeting of the concerned NCD Holders and every such NCD Holder shall be entitled to one vote on a show of hands and on a poll, his/her voting rights on every resolution placed before such meeting of the NCD Holders shall be in proportion to the outstanding nominal value of NCDs held by him/her.
4. The NCDs are subject to the provisions of the SEBI NCS Regulations and the SEBI Master Circular, provisions of the Companies Act, 2013, our Memorandum and Articles of Association, the terms of this Prospectus, the terms and conditions of the Debenture Trust Deed, requirements of the RBI, other applicable statutory and/or regulatory requirements relating to this issue and listing, of securities and any other documents that may be executed in connection with the NCDs.
5. Subject to the SEBI RTA Master Circular, for NCDs in physical form on account of re-materialization, a register of debenture holders will be maintained in accordance with Section 88 and Section 94 of the Companies Act, 2013 and all interest and principal sums becoming due and payable in respect of the NCDs will be paid to the registered holder thereof for the time being or in the case of joint-holders, to the person whose name stands first in the register of debenture holders as on the Record Date. For NCDs in dematerialized form, all interest and principal sums becoming due and payable in respect of the NCDs will be paid to the person for the time being appearing in the register of beneficial owners of the Depositories. In terms of Section 88(3) of the Companies Act, 2013, the register of beneficial owners maintained by a Depository for any NCDs in dematerialized form under Section 11 of the Depositories Act shall be deemed to be a register of debenture holders for this purpose. The same shall be maintained

at the Registered Office of our Company under Section 94 of the Companies Act, 2013 unless the same has been moved to another location after obtaining the consent of the NCD Holders as given thereunder.

6. Subject to compliance with RBI, NCDs can be rolled over only with the consent of the NCD Holders of at least 75% of the outstanding amount of the NCDs after providing at least 15 days prior notice for such roll over and in accordance with the SEBI NCS Regulations. Our Company shall redeem the debt securities of all the debt securities holders, who have not given their positive consent to the roll-over.

The aforementioned rights of the NCD Holders are merely indicative. The final rights of the NCD Holders will be as per the terms of this Prospectus and the Debenture Trust Deed.

Debenture Trustees for the NCD holders

We have appointed IDBI Trusteeship Services Limited to act as the Debenture Trustee for the NCD Holder(s) in terms of Regulation 8 of the SEBI NCS Regulations and Section 71(5) of the Companies Act, 2013 and the rules prescribed thereunder.

Our Company and the Debenture Trustee will execute a Debenture Trust Deed, *inter alia*, specifying the powers, authorities and obligations of the Debenture Trustee and us with respect to NCDs. The NCD Holders shall, without further act or deed, be deemed to have irrevocably given their consent to the Debenture Trustee or any of its agents or authorised officials to do all such acts, deeds, matters and things in respect of or relating to the NCDs as the Debenture Trustee may in its absolute discretion deem necessary or require to be done in the interest of the NCD Holder(s). Market Lot and Trading Lot

The NCDs shall be allotted in dematerialized form. As per the SEBI NCS Regulations, the trading of the NCDs is in dematerialized form and the tradable lot is one NCD.

Please note that the NCDs shall cease to trade from the Record Date (for payment of the principal amount and the applicable interest for such NCDs) prior to redemption of the NCDs.

Allotment in this Issue will be in electronic form multiples of one NCD. For further details of Allotment, see the "*Issue Procedure*" on page 230 of this Prospectus.

Nomination facility to NCD Holders

In accordance with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014 ("**Rule 19**") and Section 72 of the Companies Act, 2013, the sole Debenture Holder, or first Debenture Holder, along with other joint Debenture Holders' (being individual(s)), may nominate, in the **Form No. SH.13**, any one person in whom, in the event of the death of Applicant the NCDs Allotted, if any, will vest. Where the nomination is made in respect of the NCDs held by more than one person jointly, all joint holders shall together nominate in **Form No. SH.13** any person as nominee. A nominee entitled to the NCDs by reason of the death of the original holder(s), will, in accordance with Rule 19 and Section 56 of the Companies Act, 2013, be entitled to the same benefits to which he or she will be entitled if he or she were the registered holder of the NCDs. Where the nominee is a minor, the holder(s) may make a nomination to appoint, in **Form No. SH.14**, any person to become entitled to NCDs in the event of the holder's death during minority. A nomination will stand rescinded on a sale/transfer/alienation of NCDs by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office, Corporate Office or with the Registrar to the Issue.

Debenture Holder(s) are advised to provide the specimen signature of the nominee to us to expedite the transmission of the NCD(s) to the nominee in the event of demise of the Debenture Holder(s). The signature can be provided in the Application Form or subsequently at the time of making fresh nominations. This facility of providing the specimen signature of the nominee is purely optional.

In accordance with the Section 72 read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014, any person who becomes a nominee by virtue of the above said Section, shall upon the production of such evidence as may be required by our Board, elect either:

- (a) To register himself or herself as the holder of the NCDs; or
- (b) To make such transfer of the NCDs, as the deceased holder could have done.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the NCDs, and if the notice is not complied with, within a period of 90 days, the Board may thereafter withhold payment of all interests or redemption amounts or other monies payable in respect of the NCDs, until the requirements of the notice have been complied with.

For all NCDs held in the dematerialized form, nominations registered with the respective Depository Participant of the Applicant would prevail. If the investors require changing their nomination, they are requested to inform their respective Depository Participant in connection with NCDs held in the dematerialized form.

A nomination may be cancelled or varied by nominating any other person in place of the present nominee, by the Debenture Holder who has made the nomination, by giving a notice of such cancellation or variation in the prescribed manner as per 306 applicable laws. The cancellation or variation shall take effect from the date on which the notice of such variation or cancellation is received.

Applicants who have opted for rematerialisation of NCDs and are holding the NCDs in the physical form should provide required details in connection with their nominee to our Company at the time of submitting rematerialisation request.

Jurisdiction

Exclusive jurisdiction for the purpose of the Issue is with the competent courts of jurisdiction in New Delhi.

Application in the Issue

Applicants shall apply in this Issue in dematerialized form only, through a valid Application Form filled in by the Applicant along with attachment, as applicable. Further, Applications in this Issue shall be made through the ASBA facility only (including Applications made by UPI Investors under the UPI Mechanism).

In terms of Regulation 7 of the SEBI NCS Regulations, our Company will make public issue of the NCDs in the dematerialized form only.

However, in terms of Section 8(1) of the Depositories Act, our Company, at the request of the Investors who wish to hold the NCDs in physical form will rematerialize the NCDs. However, any trading of the NCDs shall be compulsorily in dematerialized form only.

Form of Allotment and Denomination of NCDs

As per the SEBI NCS Regulations, the trading of the NCDs on the Stock Exchange shall be in dematerialized form only in multiples of one (1) NCD ("Market Lot"). Allotment in this Issue to all Allottees, will be in electronic form i.e., in dematerialized form and in multiples of one NCD.

For details of allotment please see "*Issue Procedure*" on page 230 of this Prospectus.

Transfer/Transmission of NCD(s)

The NCDs shall be transferred or transmitted freely in accordance with the applicable provisions of the Companies Act, 2013. The NCDs shall be transferred subject to and in accordance with the rules/procedures as prescribed by the Depositories and the relevant DPs of the transferor or transferee and any other applicable laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date.

In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with the Issuer or Registrar. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

For further details, see "*Issue Structure*" on page 219 of this Prospectus, for the implications on the interest applicable to NCDs held by individual NCD Holders on the Record Date and NCDs held by non-individual NCD Holders on the Record Date.

NCDs held in physical form, pursuant to any rematerialization, as above, cannot be transferred. Any trading of the NCDs issued pursuant to this Issue shall be compulsorily in dematerialized form only. The procedure for transmission of securities has been further simplified vide the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Fourth Amendment) Regulations, 2022 Gazette Notification no. SEBI/LAD-NRO/GN/2022/80 dated April 25th, 2022.

Title

In case of:

- NCDs held in the dematerialized form, the person for the time being appearing in the register of beneficial owners maintained by the Depositories; and
- the NCDs held in physical form pursuant to rematerialization, the person for the time being appearing in the register of NCD Holders shall be treated for all purposes by our Company, the Debenture Trustee, the Depositories and all other persons dealing with such person, as the holder thereof and its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or any interest in it or any writing on, theft or loss of the consolidated NCD certificates issued in respect of the NCDs and no person will be liable for so treating the NCD holder.

No transfer of title of an NCD will be valid unless and until entered on the register of NCD holders or the register of beneficial owners maintained by the Depositories prior to the Record Date. In the absence of transfer being registered, interest and/or maturity amount, as the case may be, will be paid to the person, whose name appears first in the register of the NCD Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be. In such cases, claims, if any, from the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar. The provisions relating to transfer and transmission and other related matters in respect of our Company's Equity Shares contained in the Articles of Association of our Company and the relevant provisions of the Companies Act, 2013, shall apply, mutatis mutandis (to the extent applicable) to the NCDs as well.

Succession

Where NCDs are held in joint names and one of the joint NCD Holder dies, the survivor(s) will be recognized as the NCD Holder(s). It will be sufficient for our Company to delete the name of the deceased NCD Holder after obtaining satisfactory evidence of his death. Provided, a third person may call on our Company to register his name as successor of the deceased NCD Holder after obtaining evidence such as probate of a will for the purpose of proving his title to the NCDs. In the event of demise of the sole or first holder of the NCDs, our Company will recognise the executors or administrator of the deceased NCD Holders, or the holder of the succession certificate or other legal representative as having title to the NCDs only if such executor or administrator obtains and produces probate or letter of administration or is the holder of the succession certificate or other legal representation, as the case may be, from an appropriate court in India. Our Board of Directors or any other person authorised by our Board of Directors in their absolute discretion may, in any case, dispense with production of probate or letter of administration or succession certificate or other legal representation. In case of death of NCD Holders who are holding NCDs in dematerialised form, third person is not required to approach our Company to register his name as successor of the deceased NCD Holder. The successor of the deceased NCD Holder shall approach the respective Depository Participant for this purpose and submit necessary documents as required by the Depository Participant.

Where a non-resident Indian becomes entitled to the NCDs by way of succession, the following steps have to be complied with:

1. Documentary evidence to be submitted to the legacy cell of the RBI to the effect that the NCDs were acquired by the non-resident Indian as part of the legacy left by the deceased NCD Holder.
2. Proof that the non-resident Indian is an Indian national or is of Indian origin.
3. Such holding by a non-resident Indian will be on a non-repatriation basis.

Joint holders

Where two or more persons are holders of any NCDs, they shall be deemed to hold the same as joint holders with benefits of survivorship subject to other provisions contained in the Articles of Association.

Procedure for re-materialisation of NCDs

Debenture Holders who wish to hold the NCDs in physical form may do so by submitting a request to their DP at any time after Allotment in accordance with the applicable procedure stipulated by the DP, in accordance with the Depositories Act and/or rules as notified by the Depositories from time to time. **Holders of NCDs who propose to rematerialize their NCDs, would have to mandatorily submit details of their bank mandate along with a copy of any document evidencing that the bank account is in the name of the holder of such NCDs and their Permanent Account Number to the Company and the DP. No proposal for rematerialization of NCDs would be considered if the aforementioned documents and details are not submitted along with the request for such rematerialization.**

Register of NCD Holders

No transfer of title of a NCD will be valid unless and until entered on the Register of NCD Holders (for re materialized NCDs) or the register and index of NCD Holders maintained by the Depository prior to the Record Date. In the absence of transfer being registered, interest and/or Redemption Amount, as the case may be, will be paid to the person, whose name appears first in the Register of NCD Holders maintained by the Depositories and/or our Company and/or the Registrar, as the case may be as on the Record Date. In such cases, claims, if any, by the purchasers of the NCDs will need to be settled with the seller of the NCDs and not with our Company or the Registrar. The provisions relating to transfer and transmission and other related matters in respect of our Company's Equity Shares contained in the Articles of Association of our Company, SEBI Listing Regulations and the Companies Act shall apply, mutatis mutandis (to the extent applicable) to the NCDs as well.

Restriction on transfer of NCDs

There are no restrictions on transfers and transmission of NCDs allotted pursuant to this Issue. Pursuant to the SEBI Listing Regulations and SEBI RTA Master Circular, NCDs held in physical form, pursuant to any rematerialization, as above, cannot be transferred except in dematerialised form. Any trading of the NCDs issued pursuant to this Issue shall be compulsorily in dematerialised form only.

Taxation

Income Tax is deductible at source at the rate of 10% on interest on debentures held by resident Indians as per the provisions of Section 193 of the IT Act (in case where interest is paid to Individual or HUF, no TDS will be deducted where interest paid is less than ₹ 5,000 and interest is paid by way of account payee cheque).

Further, Tax will be deducted at source at reduced rate, or no tax will be deducted at source in the following cases:

- a. When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the IT Act; and that a valid certificate is filed with the Company before the prescribed date of closure of books for payment of debenture interest;
- b. When the resident Debenture Holder with Permanent Account Number ("PAN") (not being a company or a firm) submits a declaration as per the provisions of section 197A(1A) of the IT Act in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the financial year in which such income is to be included in computing his total income will be NIL. However, under section 197A(1B) of the IT Act, Form 15G cannot be submitted nor considered for exemption from tax deduction at source if the dividend income referred to in section 194, interest on securities, interest, withdrawal from NSS and income from units of mutual fund or of 236 Unit Trust of India as the case may be or the aggregate of the amounts of such incomes credited or paid or likely to be credited or paid during the financial year in which such income is to be included exceeds the maximum amount which is not chargeable to income tax;
- c. Senior citizens, who are 60 or more years of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A(1C) of the Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax, provided that the tax due on the estimated total income of the year concerned will be Nil; and
- d. In all other situations, tax would be deducted at source as per prevailing provisions of the IT Act.

Form No.15G with PAN / Form No.15H with PAN / Certificate issued u/s 197(1) has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest without any withholding tax.

The aforesaid documents, as may be applicable, should be submitted at the office of the Registrar to the Issue quoting the name of the sole/ first NCD Holder, NCD folio number and the distinctive number(s) of the NCD

held, at least seven days prior to the Record Date to ensure non-deduction/lower deduction of tax at source from interest on the NCD. The investors need to submit Form 15H/ 15G/certificate in original with the Assessing Officer for each Fiscal during the currency of the NCD to ensure non-deduction or lower deduction of tax at source from interest on the NCD.

Tax exemption certificate/document, if any, must be lodged at the office of the Registrar to the Issue at least seven days prior to the Record Date or as specifically required, failing which tax applicable on interest will be deducted at source on accrual thereof in our Company's books and/or on payment thereof, in accordance with the provisions of the IT Act and/or any other statutory modification, enactment or notification as the case may be. A tax deduction certificate will be issued for the amount of tax so deducted.

Please also see, "*Statement of Possible Tax Benefits*" on page 79 of this Prospectus. Subject to the terms and conditions in connection with computation of applicable interest on the Record Date, please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of this Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs. Subject to the terms and conditions in connection with computation of applicable interest on the Record Date as stated in the section titled "*Issue Procedure*" on page 230 of this Prospectus. Please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of this Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the transferee of the deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs.

Payment of Interest

The amount of interest payable shall be rounded off to the nearest Rupee. In the event, the interest/ payout of total coupon /redemption amount is a fraction and not an integer, such amount will be rounded off to the nearest integer. By way of illustration if the redemption amount is ₹1,837.50 then the amount shall be rounded off to ₹1,838. If the date of payment of interest does not fall on a Working Day, then the interest payment will be made on succeeding Working Day, however the calculation for payment of interest will be only till the originally stipulated Interest Payment Date. The dates of the future interest payments would be as per the originally stipulated schedule. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force. In case the Redemption Date (also being the last Interest Payment Date) does not fall on a Working Day, the payment will be made on the immediately preceding Working Day, along with coupon/interest on the NCDs until but excluding the date of such payment.

Basis of payment of Interest

NCDs once Allotted under any particular category of NCDs shall continue to bear the applicable tenor, coupon/yield and Redemption Amount as at the time of original Allotment irrespective of the category of Debenture Holder on any Record Date, and such Tenor, Coupon/Yield and Redemption Amount as at the time of original Allotment will not be impacted by trading of any options of NCDs between the categories of persons or entities in the secondary market.

Payment of Interest/Maturity Amount will be made to those Debenture Holders whose names appear in the Register of Debenture Holders (or to first holder in case of joint-holders) as on Record Date.

We may enter into an arrangement with one or more banks in one or more cities for direct credit of interest to the account of the Investors. In such cases, interest, on the Interest Payment Date, would be directly credited to the account of those Investors who have given their bank mandate.

We may offer the facility of NACH, NEFT, RTGS, Direct Credit and any other method permitted by RBI and SEBI from time to time to help Debenture Holders. The terms of this facility (including towns where this facility would be available) would be as prescribed by RBI. Please see, "*Terms of the Issue - Manner of Payment of Interest / Redemption Amounts*" on page 212 of this Prospectus.

Day Count Convention

Interest shall be computed on an actual/actual basis i.e., on the principal outstanding on the NCDs as per the SEBI Master Circular.

Effect of holidays on payments

If the date of payment of interest does not fall on a Working Day, then the interest payment will be made on succeeding Working Day (the "**Effective Date**"), however the calculation for payment of interest will be only till the originally stipulated Interest Payment Date. The dates of the future interest payments would be as per the originally stipulated schedule. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force. In case the Maturity Date (also being the last Interest Payment Date) does not fall on a Working Day, the payment will be made on the immediately preceding Working Day, along with coupon/interest accrued on the NCDs until but excluding the date of such payment.

Illustration for guidance in respect of the day count convention and effect of holidays on payments

The illustration for guidance in respect of the day count convention and effect of holidays on payments, as required by SEBI Master Circular is as disclosed in "**Annexure D**" of this Prospectus.

Maturity and Redemption

The manner of payment of interest / refund / redemption in connection with the NCDs is set out below:

The bank details will be obtained from the Depositories for payment of interest / refund / redemption as the case may be. Applicants who have applied for or are holding the NCDs in electronic form, are advised to immediately update their bank account details as appearing on the records of the depository participant. Please note that failure to do so could result in delays in credit of interest / refund / redemption amounts to the Applicant at the Applicant's sole risk, and neither the Lead Manager, our Company nor the Registrar to the Issue shall have any responsibility and undertake any liability for the same.

Application Size

Each application should be for a minimum of 10 NCDs across all series collectively and multiples of 1 NCD thereafter (for all series of NCDs taken individually or collectively).

The minimum application size for each application for NCDs would be ₹10,000 across all series collectively and in multiples of ₹1,000 thereafter. Applicants can apply for any or all series of NCDs offered hereunder provided the Applicant has applied for minimum application size using the same Application Form.

Applicants are advised to ensure that applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and or regulatory provisions.

Terms of Payment

The entire issue price of ₹1,000/- per NCD, is blocked in the ASBA Account on application itself. In case of allotment of lesser number of NCDs than the number of NCDs applied for, our Company shall unblock the excess amount paid on application to the applicant in accordance with the terms of this Prospectus.

Manner of Payment of Interest / Redemption Amounts

The manner of payment of interest / redemption in connection with the NCDs is set out below:

For NCDs held in dematerialised form:

The bank details will be obtained from the Depositories for payment of interest / redemption amount as the case may be. Holders of the NCDs, are advised to keep their bank account details as appearing on the records of the Depository Participant updated at all points of time. Please note that failure to do so could result in delays in credit

of interest/redemption amounts at the Applicant's sole risk, and the Lead Manager, our Company or the Registrar shall have no responsibility and undertake no liability for the same.

For NCDs held in physical form on account of re-materialization:

In case of NCDs held in physical form, on account of rematerialization, the bank details will be obtained from the documents submitted to the Company along with the rematerialization request. For further details, please see "*Terms of the Issue - Procedure for Re-materialization of NCDs*" on page 209 of this Prospectus.

The Registrar to the Issue will issue requisite instructions to the relevant SCSBs to un-block amounts in the ASBA Accounts of the Applicants representing the amounts to unblocked for the Applicants.

The mode of payment of interest/redemption amount shall be undertaken in the following order of preference:

1. Direct Credit/ NACH/RTGS:

- i. **Direct Credit:** interest / redemption amount would be credited directly to the bank accounts of the Investors, if held with the same bank as the Company.
 - ii. **NACH:** National Automated Clearing House which is a consolidated system of ECS. Payment of interest / redemption amount would be done through NACH for Applicants having an account at one of the centres specified by the RBI, where such facility has been made available. This would be subject to the availability of complete bank account details including Magnetic Ink Character Recognition (MICR) code wherever applicable from the depository. The payment of interest/ redemption amount through NACH is mandatory for Applicants having a bank account at any of the centres where NACH facility has been made available by the RBI (subject to availability of all information for crediting the interest / redemption amount through NACH including the MICR code as appearing on a cheque leaf, from the depositories), except where Applicant is otherwise disclosed as eligible to get interest / redemption amount through NEFT or Direct Credit or RTGS.
 - iii. **RTGS:** Applicants having a bank account with a participating bank and whose interest / redemption amount exceeds ₹2 lakhs, or such amount as may be fixed by RBI from time to time, have the option to receive the interest / redemption amount through RTGS. Such eligible Applicants who indicate their preference to receive interest / redemption amount through RTGS are required to provide the IFSC code in the Application Form or intimate our Company and the Registrar to the Issue at least 7 (seven) days before the Record Date. Charges, if any, levied by the Applicant's bank receiving the credit would be borne by the Applicant. In the event the same is not provided, interest / redemption amount shall be made through NECS subject to availability of complete bank account details for the same as stated above.
 - iv. **NEFT:** Payment of interest / redemption amount shall be undertaken through NEFT wherever the Applicants' bank has been assigned the Indian Financial System Code ("IFSC"), which can be linked to a Magnetic Ink Character Recognition, if any, available to that particular bank branch. IFSC Code will be obtained from the website of RBI on a date immediately prior to the date of payment of the interest / redemption amounts, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the de-mat account, the same will be duly mapped with the IFSC Code of that particular bank branch and the payment of interest / redemption amount will be made to the Applicants through this method.
- 2. Registered Post/ Speed Post:** For all other Debenture Holders, including those who have not updated their bank particulars with the MICR code, the interest payment / redemption amount shall be paid by way of interest/ redemption warrants dispatched through speed post/ registered post only to Applicants that have provided details of a registered address in India.

Printing of bank particulars on interest / redemption warrants

As a matter of precaution against possible fraudulent encashment of refund orders and interest/ redemption warrants due to loss or misplacement, the particulars of the Applicant's bank account are mandatorily required to be given for printing on the orders/ warrants. In relation to NCDs applied and held in dematerialized form, these

particulars would be taken directly from the Depositories. In case of NCDs held in physical form on account of re-materialisation, the NCD Holders are advised to submit their bank account details with our Company/ Registrar to the Issue at least seven days prior to the Record Date failing which the orders/ warrants will be dispatched to the postal address of the NCD Holders as available in the records of our Company either through speed post, registered post.

Bank account particulars will be printed on the orders/ warrants which can then be deposited only in the account specified.

Buy Back of NCDs

Our Company may, at its sole discretion, from time to time, consider, subject to applicable statutory and/or regulatory requirements, buy-back the NCDs, upon such terms and conditions as may be decided by our Company.

Our Company may from time to time invite the NCD Holders to offer the NCDs held by them through one or more buy-back schemes and/or letters of offer upon such terms and conditions as our Company may from time to time determine, subject to applicable statutory and/or regulatory requirements. Such NCDs which are bought back may be extinguished, re-issued and/or resold in the open market with a view of strengthening the liquidity of the NCDs in the market, subject to applicable statutory and/or regulatory requirements.

Loan against NCDs

Pursuant to RBI Circular dated June 27, 2013, our Company, being an NBFC, is not permitted to extend any loans against the security of its NCDs.

Procedure for Redemption by NCD holders

The procedure for redemption is set out below:

NCDs held in physical form on account of re-materialisation of NCDs

No action would ordinarily be required on the part of the NCD Holder at the time of redemption and the redemption proceeds would be paid to those NCD Holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of Redemption. However, our Company may require that the NCD certificate(s), duly discharged by the sole holder/all the joint-holders (signed on the reverse of the NCD certificates) be surrendered for redemption on maturity and should be sent by the NCD Holders by Registered Post with acknowledgment due or by hand delivery to our office or to such persons at such addresses as may be notified by us from time to time. NCD Holders may be requested to surrender the NCD certificates in the manner as stated above, not more than three months and not less than one month prior to the redemption date so as to facilitate timely payment. We may at our discretion redeem the Secured NCDs without the requirement of surrendering of the NCD certificates by the holder(s) thereof. In case we decide to do so, the holders of NCDs need not submit the NCD certificates to us and the redemption proceeds would be paid to those NCD holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of redemption of NCDs. In such case, the Secured NCD certificates would be deemed to have been cancelled. Also see “- *Payment on Redemption*” given below.

Secured NCDs held in electronic form

No action is required on the part of Secured NCD holder(s) at the time of redemption of NCDs.

Payment on Redemption

The manner of payment of redemption is set out below:

NCDs held in physical form on account of rematerialization

The payment on redemption of the NCDs will be made by way of cheque/pay order/ electronic modes. However, if our Company so requires, the aforementioned payment would only be made on the surrender of NCD

certificates, duly discharged by the sole holder/ all the joint-holders (signed on the reverse of the NCD certificates). Dispatch of cheques/ pay orders, etc. in respect of such payment will be made on the redemption date or (if so requested by our Company in this regard) within a period of 30 days from the date of receipt of the duly discharged NCD certificate.

In case we decide to do so, the redemption proceeds in the manner stated above would be paid on the redemption date to those NCD Holders whose names stand in the register of debenture holders maintained by us on the Record Date fixed for the purpose of Redemption. Hence the transferees, if any, should ensure lodgment of the transfer documents with us at least seven days prior to the Record Date. In case the transfer documents are not lodged with us at least seven days prior to the Record Date and we dispatch the redemption proceeds to the transferor, claims in respect of the redemption proceeds should be settled amongst the parties inter se and no claim or action shall lie against us or the Registrar to the Issue.

Our liability to NCD Holder(s) towards their rights including for payment or otherwise shall stand extinguished from the redemption in all events and when we dispatch the redemption amounts to the NCD Holder(s).

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCDs.

NCDs held in electronic form

On the redemption date, redemption proceeds would be paid by cheque/ pay order/ electronic mode to those NCD Holders whose names appear on the list of beneficial owners given by the Depositories to us. These names would be as per the Depositories' records on the Record Date fixed for the purpose of redemption. These NCDs will be simultaneously extinguished to the extent of the amount redeemed through appropriate debit corporate action upon redemption of the corresponding value of the NCDs. It may be noted that in the entire process mentioned above, no action is required on the part of NCD Holders.

Our liability to NCD Holders towards his/their rights including for payment/ redemption in all events shall end when we dispatch the redemption amounts to the NCD Holders.

Further, we will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the NCDs.

Right to reissue NCD(s)

Subject to the provisions of the Companies Act, 2013, as applicable, on the date of this Prospectus, where we have fully redeemed or repurchased any NCDs, we shall have and shall be deemed always to have had the right to keep such NCDs in effect without extinguishment thereof, for the purpose of resale or re-issue and in exercising such right, we shall have and be deemed always to have had the power to resell or reissue such NCDs either by reselling or re-issuing the same NCDs or by issuing other NCDs in their place. The aforementioned right includes the right to reissue original NCDs.

Sharing of information

We may, at our option, use on our own, as well as exchange, share or part with any financial or other information about the NCD Holders available with us, with our Subsidiaries, if any and affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither we or our affiliates nor their agents shall be liable for use of the aforesaid information.

Notices

All notices to the NCD Holder(s) required to be given by us or the Debenture Trustee shall be published in one English language newspaper having wide circulation and one regional language daily newspaper at the place where the registered office of the Company is situated and/or will be sent by post/ courier or through email or other electronic media to the Registered Holders of the NCD(s) from time to time.

Issue of duplicate NCD certificate(s)

If NCD certificate(s), issued pursuant to re-materialisation, is/ are mutilated or defaced or the cages for recording transfers of NCDs are fully utilised, the same may be replaced by us against the surrender of such certificate(s). Provided that where the NCD certificate(s) are mutilated or defaced, the same will be replaced as aforesaid only if the certificate numbers and the distinctive numbers are legible.

If any NCD certificate is destroyed, stolen or lost then upon production of proof thereof to our satisfaction and upon furnishing such indemnity/ security and/or documents as we may deem adequate, duplicate NCD certificates shall be issued. Upon issuance of a duplicate NCD certificate, the original NCD certificate shall stand cancelled.

Future Borrowings

We shall be entitled to make further issue of secured debentures and/or raise term loans or raise further funds from time to time from any persons, banks, financial institutions or bodies corporate or any other agency by creating a charge on any assets, (a) subject to such consents and approvals and other conditions, as may be required under applicable law or existing financing agreements, including any intimation, if applicable under the Transaction Documents (b) provided the stipulated security cover for the Issue is maintained and compliance with other terms of the Transaction Documents (c) Non-violation of any SEBI Regulations and other applicable law.

Provided that such future borrowings shall not be detrimental to the interest of the debenture holders.

Impersonation

As a matter of abundant caution, attention of the Investors is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

"Any person who:

(a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or

(b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or

(c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447."

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹10 lakhs or 1.00% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹10 lakhs or 1.00% of the turnover of the Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹50 lakhs or with both.

Pre-closure

Our Company, in consultation with the Lead Manager reserves the right to close this Issue at any time prior to the Issue Closing Date, subject to receipt of minimum subscription or as maybe specified in this Propectus. Our Company shall allot NCDs with respect to the Application Forms received at the time of such pre-closure in accordance with the Basis of Allotment as described herein and subject to applicable statutory and/or regulatory requirements. In the event of such early closure of this Issue, our Company shall ensure that public notice of such early closure is published on or before such early date of closure or the Issue Closing Date for this Issue, as applicable, through advertisement(s) in all those newspapers in which pre-issue advertisement and advertisement for opening or closure of the Issue have been given.

Minimum Subscription

In terms of the SEBI NCS Regulations for an issuer undertaking a public issue of debt securities the minimum subscription for public issue of debt securities shall be 75% of the Base Issue Size in this case being ₹5,625 lakhs. If our Company does not receive the minimum subscription of 75% of the Base Issue Size being ₹5,625 lakhs, prior to the Issue Closing Date, the entire Application Amount shall be unblocked in the relevant ASBA Accounts of the Applicants within eight Working Days from the Issue Closing Date. In the event there is delay in unblocking of funds, our Company shall be liable to pay interest at the rate of 15% per annum for the delayed period.

Under Section 39(3) of the Companies Act read with Rule 11(2) of the Companies (Prospectus and Allotment of Securities) Rules, 2014 if the stated minimum subscription amount is not received within the specified period, the application money received is to be credited only to the bank account from which the subscription was remitted. Our Company and/or Registrar will follow the guidelines prescribed by SEBI in this regard included in the SEBI Master Circular.

Pre-Issue Advertisement

Subject to Regulation 30(1) of SEBI NCS Regulations, our Company will issue a statutory advertisement on or before the Issue Opening Date. This advertisement will contain the information as prescribed in Schedule V of SEBI NCS Regulations in compliance with Section 30 of Companies Act. Material updates, if any, between the date of filing of the Prospectus with RoC and the date of release of the statutory advertisement will be included in the statutory advertisement information as prescribed under SEBI NCS Regulations.

Listing

The NCDs proposed to be offered in pursuance of this Prospectus will be listed on the Stock Exchange. Our Company has received an 'in-principle' approval from BSE by way of its letter bearing reference number DCS/BM/PI-BOND/10/24-25 dated July 08, 2024. The application for listing the NCDs will be made to the Stock Exchange at an appropriate stage. For the purposes of the Issue, BSE shall be the Designated Stock Exchange.

If permissions to deal in and for an official quotation of our NCDs are not granted by the Stock Exchange, our Company will forthwith repay, without interest, all moneys received from the Applicants in pursuance of this Prospectus. Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at the Stock Exchange are taken within six Working Days from the Issue Closing Date. For the avoidance of doubt, it is hereby clarified that in the event of non-subscription to any one or more of the series, such series(s) of NCDs shall not be listed.

Category of Debenture Holder	Redemption Amount (₹ per NCD)	
	II	IV
All categories	1,210	1,338.27

Terms of Payment

The entire amount of face value of NCDs applied for will be blocked in the relevant ASBA Account maintained with the SCSB or under UPI mechanism (only for Retail Individual Investors), as the case may be, in the bank account of the Applicants that is specified in the ASBA Form at the time of the submission of the Application Form. In the event of Allotment of a lesser number of NCDs than applied for, our Company shall unblock the additional amount blocked upon application in the ASBA Account, in accordance with the terms as specified in "*Terms of the Issue*" on page 200 of this Prospectus.

Participation by any of the above-mentioned investor classes in this Issue will be subject to applicable statutory and/or regulatory requirements. Applicants are advised to ensure that Applications made by them do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable statutory and/or regulatory provisions.

The NCDs have not been and will not be registered, listed or otherwise qualified in any jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction. In particular, the NCDs have not been and will not be registered under the U.S. Securities Act, 1933, as amended (the "**Securities Act**") or the securities laws of any state of the United States and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. The Issuer has not registered and does not intend to register under the U.S. Investment Company Act, 1940 in reliance on section 3(c)(7) thereof. This Prospectus may not be forwarded or distributed to any other person and may not be reproduced in any manner whatsoever, and in particular may not be forwarded to any U.S. Person or to any U.S. address.

Applications may be made in single or joint names (not exceeding three). Applications should be made by Karta in case the Applicant is an HUF. If the Application is submitted in joint names, the Application Form should contain only the name of the first Applicant whose name should also appear as the first holder of the depository account held in joint names. In case of Application Form being submitted in joint names, the Applicants should ensure that the demat account is also held in the same joint names and the names are in the same sequence in which they appear in the Application Form. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form. Please ensure that such Applications contain the PAN of the HUF and not of the Karta. In the case of joint Applications, all payments will be made out in favour of the first Applicant. All communications will be addressed to the first

named Applicant whose name appears in the Application Form and at the address mentioned therein.

In the case of joint Applications, all payments will be made out in favour of the first Applicant. All communications will be addressed to the first named Applicant whose name appears in the Application Form and at the address mentioned therein.

Applicants are advised to ensure that they have obtained the necessary statutory and/or regulatory permissions/consents/approvals in connection with applying for, subscribing to, or seeking allotment of NCDs pursuant to this Issue.

For further details, see "*Issue Procedure*" on page 230 of this Prospectus.

Day Count Convention

Interest shall be computed on an actual/actual basis i.e. on the principal outstanding on the NCDs as per the SEBI Master Circular.

Please see "**Annexure D**" of the Prospectus for details pertaining to the cash flows of the Company in SEBI Debt Regulations.

Please note that in case the NCDs are transferred and/or transmitted in accordance with the provisions of the Prospectus read with the provisions of the Articles of Association of our Company, the transferee of such NCDs or the transferee of deceased holder of NCDs, as the case may be, shall be entitled to any interest which may have accrued on the NCDs subject to such Transferee holding the NCDs on the Record Date.

Effect of holidays on payments

If the date of payment of interest does not fall on a Working Day, then the interest payment will be made on succeeding Working Day, however the calculation for payment of interest will be only till the originally stipulated Interest Payment Date. The dates of the future interest payments would be as per the originally stipulated schedule. Payment of interest will be subject to the deduction of tax as per Income Tax Act or any statutory modification or re-enactment thereof for the time being in force. In case the Redemption Date (also being the last Interest Payment Date) does not fall on a Working Day, the payment will be made on the immediately preceding Working Day, along with coupon/interest accrued on the NCDs until but excluding the date of such payment. The interest/redemption payments shall be made only on Working Days.

ISSUE PROCEDURE

This chapter applies to all Applicants. Pursuant to the SEBI Master Circular, all Applicants are required to mandatorily apply for in the Issue through the ASBA process and an amount equivalent to the full Application Amount as mentioned in the Application Form will be blocked by the Designated Branches of the SCSBs. ASBA Applicants and Applicants applying through the Direct Online Application Mechanism (as defined hereinafter) should note that the ASBA process and the Direct Online Application Mechanism involve application procedures that are different from the procedure applicable to all other Applicants. Please note that all Applicants are required to pay the full Application Amount or to ensure that the ASBA Account has sufficient credit balance such that the entire Application amount can be blocked by the SCSB while making an Application. An amount equivalent to the full Application Amount will be blocked by the SCSBs in the relevant ASBA Accounts maintained with the SCSB or under UPI mechanism (only for Retail Individual Investors), as the case may be, in the bank account of the Applicants that is specified in the ASBA Form at the time of the submission of the Application Form. Applicants are advised to make their independent investigations and ensure that their Applications do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable law or as specified in this Prospectus.

Please note that this section has been prepared based on the SEBI Master Circular, as amended from time to time and other related circulars including notifications issued by BSE, in relation to the UPI mechanism. Retail Individual Investors should note that they may use the UPI mechanism to block funds for application value up to UPI Application Limit (to participate in the public issue for an amount up to ₹ 5,00,000 for issue of debt securities pursuant to SEBI Master Circular or any other investment limit, as applicable and prescribed by SEBI from time to time) submitted through the app/web interface of the Stock Exchanges or through intermediaries (Consortium Members, Registered Stockbrokers, Registrar and Transfer agent and Depository Participants).

ASBA Applicants must ensure that their respective ASBA Accounts can be blocked by the SCSBs, in the relevant ASBA accounts for the full Application Amount. Applicants should note that they may submit their Applications to the Designated Intermediaries Locations or the RTAs at the Designated RTA Locations or designated branches of SCSBs as mentioned on the Application Form. Applicants are advised to make their independent investigations and ensure that their Applications do not exceed the investment limits or maximum number of NCDs that can be held by them under applicable law or as specified in this Prospectus.

Specific attention is drawn to the SEBI Master Circular that provides for allotment in public issues of debt securities to be made on the basis of the date of upload of each application into the electronic book of the Stock Exchanges, as opposed to the date and time of upload of each such application.

Our Company and the Lead Managers do not accept any responsibility for the completeness and accuracy of the information stated in this section and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Investors are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws.

Applicants are advised to make their independent investigations and ensure that their Application does not exceed the investment limits or maximum number of NCDs that can be held by them under applicable law or as specified in this Prospectus.

Please note that this section has been prepared based on the requirements notified the SEBI Master Circular and the notifications issued by BSE, in relation to the UPI Mechanism, dated December 28, 2020 and May 19, 2022.

Further, our Company, the Lead Manager and the Members of the Consortium do not accept any responsibility for any adverse occurrence consequent to the implementation of the UPI Mechanism for application in the Issue.

Method of Application

As per the SEBI Master Circular, Eligible investor desirous of applying in the Issue can make Applications through the ASBA mechanism only.

All Applicants shall mandatorily apply in the Issue through the ASBA process only. Applicants intending to subscribe in the Issue shall submit a duly filled Application form to any of the Designated Intermediaries. Designated Intermediaries (other than SCSBs) shall submit/deliver the Application Form (except the Application Form from a retail individual investor bidding using the UPI mechanism) to the respective SCSB, where such investor has a bank account and shall not submit it to any non-SCSB bank or any Escrow Bank.

Further, the Application may also be submitted through the app or web interface developed by Stock Exchange wherein the Application is automatically uploaded onto the Stock Exchange bidding platform and the amount is blocked using the UPI mechanism, as applicable.

All Applicants shall mandatorily apply in the Issue through the ASBA process only. Applicants intending to subscribe in the Issue shall submit a duly filled Application form to any of the Designated Intermediaries. Designated Intermediaries (other than SCSBs) shall submit/deliver the Bid cum Application Form (except the Bid cum Application Form from a retail individual investor bidding using the UPI mechanism) to the respective SCSB with whom the relevant ASBA Accounts are maintained and shall not submit it to any non-SCSB bank or any Escrow Bank. The relevant Designated Intermediaries, upon receipt of physical Application Forms from Applicants, shall upload the details of these Application Forms to the online platform of the Stock Exchange and submit these Application Forms (except a Bid cum Application Form from retail individual investors using the UPI Mechanism) with the SCSB with whom the relevant ASBA Accounts are maintained.

Applicants should submit the Application Form only at the Bidding Centres, i.e., to the respective Consortium Members at the Specified Locations, the SCSBs at the Designated Branches, the Registered Broker at the Broker Centres, the RTAs at the Designated RTA Locations or CDPs at the Designated CDP Locations. Kindly note that Application Forms submitted by Applicants at the Specified Locations will not be accepted if the SCSB with which the ASBA Account, as specified in the Application Form is maintained has not named at least one branch at that location for the Designated Intermediaries for deposit of the Application Forms. A list of such branches is available at <http://www.sebi.gov.in>.

Designated Intermediaries (other than SCSBs) shall not accept any ASBA Form from a retail individual investor who is not Bidding using the UPI Mechanism.

For retail individual investors using UPI Mechanism, the Stock Exchange shall share the bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to retail individual investors for blocking of funds.

An Applicant shall submit the Application Form, which shall be stamped at the relevant Designated Branch of the SCSB. Application Forms in physical mode, which shall be stamped, can also be submitted to the Designated Intermediaries at the Specified Locations. The SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application Form.

The Sponsor Bank shall provide details of the UPI linked bank account of the Bidders to the Registrar to the Issue for purpose of reconciliation.

Retail individual investors using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

Retail individual investors using UPI Mechanism, submitting a Bid-cum Application Form to any Designated Intermediary (other than SCSBs) should ensure that only the UPI ID is mentioned in the field for Payment Details in the Bid cum Application Form. Application Forms submitted by retail individual investors using UPI Mechanism to Designated Intermediary (other than SCSBs) with ASBA Account details, are liable to be rejected.

Further, such Bidders including retail individual investors using the UPI Mechanism, shall ensure that the Bids are submitted at the Bidding Centres only on Bid cum Application Forms bearing the stamp of the relevant Designated

Intermediary (except in case of electronic Bid-cum-Application Forms) and Bid cum Application Forms (except electronic Bid-cum-Application Forms) not bearing such specified stamp may be liable for rejection. Bidders must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable, at the time of submitting the Bid. Designated Intermediaries (other than SCSBs) shall not accept any ASBA Form from a retail individual investor who is not Bidding using the UPI Mechanism.

Our Company, the Directors, affiliates, associates and their respective directors and officers, Lead Manager and the Registrar to the Issue shall not take any responsibility for acts, mistakes, errors, omissions and commissions etc. in relation to ASBA Applications accepted by the Designated Intermediaries, Applications uploaded by SCSBs, Applications accepted but not uploaded by SCSBs or Applications accepted and uploaded without blocking funds in the ASBA Accounts. It shall be presumed that for Applications uploaded by SCSBs, the Application Amount has been blocked in the relevant ASBA Account. Further, all grievances against Designated Intermediaries in relation to the Issue should be made by Applicants directly to the relevant Stock Exchange.

In terms of the SEBI Master Circular, an eligible investor desirous of applying in this Issue can make Applications through the following modes:

- 1. Through Self-Certified Syndicate Bank (SCSB) or intermediaries** (viz. Consortium members, Registered Stock Brokers, Registrar and Transfer agent and Depository Participants)
 - a. An investor may submit the bid-cum-application form, with ASBA as the sole mechanism for making payment, physically at the branch of a SCSB, i.e., investor's bank. For such applications, the existing process of uploading of bid on the Stock Exchange bidding platform and blocking of funds in investors account by the SCSB would continue.
 - b. An investor may submit the completed bid-cum-application form to intermediaries mentioned above along with details of his/her bank account for blocking of funds. The intermediary shall upload the bid on the Stock Exchange bidding platform and forward the application form to a branch of a SCSB for blocking of funds.
 - c. An investor may submit the bid-cum-application form with a SCSB or the intermediaries mentioned above and use his / her bank account linked UPI ID for the purpose of blocking of funds, if the application value is ₹5 lakhs or less. The intermediary shall upload the bid on the Stock Exchange bidding platform. The application amount would be blocked through the UPI mechanism in this case.
- 2. Through Stock Exchange**
 - a. An investor may submit the bid-cum-application form through the App or web interface developed by Stock Exchange (or any other permitted methods) wherein the bid is automatically uploaded onto the Stock Exchanges bidding platform and the amount is blocked using the UPI Mechanism.
 - b. BSE extended their web-based platforms i.e. 'BSE Direct' and 'NSE goBID' to facilitate investors to apply in public issues of debt securities through the web based platform and mobile app with a facility to block funds through Unified Payments Interface (UPI) mechanism for application value upto ₹ 5 lakhs to place bid through 'BSE Direct' and 'NSE goBID' platform/ mobile app the eligible investor is required to register himself/ herself with BSE Direct/ 'NSE goBID'.
 - c. An investor may use the following links to access the web-based interface developed by the Stock Exchanges to bid using the UPI Mechanism: BSE: <https://www.bsedirect.com> and NSE: <https://eipo.nseindia.com>.
 - d. The BSE Direct and NSE goBID mobile application can be downloaded from play store in android phones. Kindly search for 'BSE Direct' or 'NSE goBID' on Google Playstore for downloading mobile applications.
 - e. For further details on the registration process and the submission of bids through the App or web interface, the Stock Exchanges have issued operational guidelines and circulars available at BSE:

<https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-60>, and <https://www.bseindia.com/markets/MarketInfo/DispNewNoticesCirculars.aspx?page=20201228-61>; Similar circulars by NSE can be found here: <https://www1.nseindia.com/content/circulars/IPO46907.zip> <https://www1.nseindia.com/content/circulars/IPO46867.zip> Further, NSE has allowed its 'GoBid' mobile application which is currently available for placing bids for non-competitive bidding shall also be available for applications of public issues of debt securities.

Submission of Applications

Applicants can apply only through ASBA facility pursuant to the SEBI Master Circular. ASBA Applications can be submitted through either of the following modes:

- (a) Physically or electronically to the Designated Branches of the SCSB(s) with whom an Applicant's ASBA Account is maintained. In case of Application in physical mode, the Applicant shall submit the Application Form at the relevant Designated Branch of the SCSB(s). The Designated Branch shall verify if sufficient funds equal to the Application Amount are available in the ASBA Account and shall also verify that the signature on the Application Form matches with the Investor's bank records, as mentioned

in the Application Form, prior to uploading such Application into the electronic system of the Stock Exchange. If sufficient funds are not available in the ASBA Account, the respective Designated Branch shall reject such Application and shall not upload such Application in the electronic system of the Stock Exchange. If sufficient funds are available in the ASBA Account, the Designated Branch shall block an amount equivalent to the Application Amount and upload details of the Application in the electronic system of the Stock Exchange. The Designated Branch of the SCSBs shall stamp the Application Form and issue an acknowledgement as proof of having accepted the Application.

In case of Application being made in the electronic mode, the Applicant shall submit the Application either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for application and blocking funds in the ASBA Account held with SCSB, and accordingly registering such Application.

- (b) Physically through the Designated Intermediaries at the respective Collection Centres. Kindly note that above Applications submitted to any of the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account is maintained, as specified in the Application Form, has not named at least one branch at that Collection Center where the Application Form is submitted (a list of such branches is available at <https://www.sebi.gov.in>).
- (c) A UPI Investor making an Application in the Issue under the UPI Mechanism, where the Application Amount is upto ₹5 lakhs, can submit his Application Form physically to a SCSB or a Designated Intermediary. The Designated Intermediary shall upload the application details along with the UPI ID on the Stock Exchange's bidding platform using appropriate protocols. Kindly note that in this case, the Application Amount will be blocked through the UPI Mechanism.
- (d) A UPI Investor may also submit the Application Form for the Issue through 'BSE Direct' or 'NSE goBID', wherein the Application will be automatically uploaded onto the Stock Exchange's bidding platform and an amount equivalent to the Application Amount shall be blocked using the UPI Mechanism.

Upon receipt of the Application Form by the Designated Intermediaries, an acknowledgement shall be issued by the relevant Designated Intermediary, giving the counter foil of the Application Form to the Applicant as proof of having accepted the Application. Thereafter, the details of the Application shall be uploaded in the electronic system of the Stock Exchange. Post which:

- (i) ***for Applications other than under the UPI Mechanism*** - the Application Form shall be forwarded to the relevant branch of the SCSB, in the relevant Collection Center, named by such SCSB to accept such Applications from the Designated Intermediaries (a list of such branches is available at <https://www.sebi.gov.in>). Upon receipt of the Application Form, the relevant branch of the SCSB shall perform verification procedures including verification of the Applicant's signature with his bank records and check if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form. If sufficient funds are not available in the ASBA Account, the relevant Application Form is liable to be rejected. If sufficient funds are available in the ASBA Account, the relevant branch of the SCSB shall block an amount equivalent to the Application Amount mentioned in the Application Form.
- (ii) ***for Applications under the UPI Mechanism*** – once the Application details have been entered in the bidding platform through Designated Intermediaries or 'BSE Direct' or 'NSE goBID', the Stock Exchanges shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. Post uploading of the Application details on the Stock Exchange's platform, the Stock Exchange shall send an SMS to the Applicant regarding submission of the Application. Post undertaking validation with the Depository, the Stock Exchange shall, on a continuous basis, electronically share the bid details along with the Applicants UPI ID, with the Sponsor Bank appointed by our Company. The Sponsor Bank shall then initiate a UPI Mandate Request on the Applicant. The

request raised by the Sponsor Bank, would be electronically received by the Applicant as an SMS or on the mobile application, associated with the UPI ID linked bank account. The Applicant shall then be required to authorise the UPI Mandate Request. Upon successful validation of block request by the Applicant, the information would be electronically received by the Applicants' bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant's ASBA Account. The status of block request would also be shared with the Sponsor Bank, which in turn would be shared with the Stock Exchange. The block request status would also be displayed on the Stock Exchange platform for information of the Designated Intermediary.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/failure of this Issue or until withdrawal/ rejection of the Application Form, as the case may be.

Applicants must note that:

- (a) Application Forms will be available with the Designated Branches of the SCSBs and with the Designated Intermediaries at the respective Collection Centres; and electronic Application Forms will be available on the websites of the SCSBs and the Stock Exchange at least one day prior to the Issue Opening Date. Physical Application Forms will also be provided to the Trading Members of the Stock Exchange at their request. The Application Forms would be serially numbered. Further, the SCSBs will ensure that this Prospectus is made available on their websites. The physical Application Form submitted to the Designated Intermediaries shall bear the stamp of the relevant Designated Intermediary. In the event the Application Form does not bear any stamp, the same shall be liable to be rejected.
- (b) The Designated Branches of the SCSBs shall accept Application Forms directly from Applicants only during the Issue Period. The SCSBs shall not accept any Application Forms directly from Applicants after the closing time of acceptance of Applications on the Issue Closing Date. However, in case of Syndicate ASBA, the relevant branches of the SCSBs at Specified Cities can accept ASBA Applications from the Lead Managers or Trading Members of the Stock Exchanges, as the case may be, after the closing time of acceptance of Applications on the Issue Closing Date. For further information on the Issue programme, please see "*Issue Structure*" on page 219 of this Prospectus. However, the relevant branches of the SCSBs at Specified Locations can accept Application Forms from the Designated Intermediaries, after the closing time of acceptance of Applications on the Issue Closing Date, if the Applications have been uploaded. For further information on the Issue programme, please refer to "*Issue Structure*" on page 219 of this Prospectus.
- (c) In case of applications through Syndicate ASBA, the Physical Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected. Application Forms directly submitted to SCSBs should bear the stamp of SCSBs, if not, the same are liable to be rejected.

Please note that Applicants can make an Application for Allotment of NCDs in the dematerialised form only.

Submission of Direct Online Applications

In case of the Direct Online Application facility implemented by the Stock Exchanges, relevant "know your customer" details of such Applicants will be validated online from the Depositories, on the basis of the DP ID and Client ID provided by them in the Application Form. On successful submission of a Direct Online Application, the Applicant will receive a system-generated unique application number ("UAN") and an SMS or an email confirmation on credit of the requisite Application Amount paid through the online payment facility with the Direct Online Application. On Allotment, the Registrar to the Issue shall credit NCDs to the beneficiary account of the Applicant and in case of refund, the refund amount shall be credited directly to the Applicant's bank account. Applicants applying through the Direct Online Application facility must preserve their UAN and quote their UAN in: (a) any cancellation/withdrawal of their Application; (b) in queries in connection with Allotment of NCDs and/or refund(s); and/or (c) in all investor grievances/complaints in connection with the Issue.

Payment Instructions

Payment Mechanism for Applicants

An Applicant shall specify details of the ASBA Account Number in the Application Form and the relevant SCSB shall block an amount equivalent to the Application Amount in the ASBA Account specified in the Application Form.

An Applicant may submit the completed Application Form to Designated Intermediaries along with details of his/her bank account for blocking of funds. The intermediary shall upload the bid on the Designated Stock Exchanges bidding platform and forward the application form to a branch of a SCSB for blocking of funds.

ASBA Applicants should ensure that they have funds equal to the Application Amount in the ASBA Account before submitting the ASBA Application to the Members of Consortium or Trading Members of the Stock Exchanges, as the case may be, at the Specified Cities or to the Designated Branches of the SCSBs. An ASBA Application where the corresponding ASBA Account does not have sufficient funds equal to the Application Amount at the time of blocking the ASBA Account is liable to be rejected.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of the relevant Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is approved, and upon receipt of intimation from the Registrar, the controlling branch of the SCSB shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account. The balance amount remaining after the finalization of the Basis of Allotment shall be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the respective SCSB within 5 (five) Working Days of the relevant Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the relevant Issue or until rejection of the ASBA Application, as the case may be. In case of withdrawal/ failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue. An applicant (belonging to Category IV) may also submit the Application Form with a SCSB or the Designated Intermediaries mentioned above and use his / her bank account linked UPI ID for the purpose of blocking of funds, if the application value is up to the UPI Application Limit. The intermediary shall upload the bid on the Stock Exchanges bidding platform. The application amount would be blocked through the UPI Mechanism once the mandate request has been successfully accepted by the Applicant in this case.

An Applicant may submit the Application Form through the App or web interface developed by Stock Exchanges wherein the bid is automatically uploaded onto the Stock Exchanges bidding platform and the amount is blocked using the UPI Mechanism once the mandate request has been successfully accepted by the Applicant.

Upon receipt of an intimation from the Registrar to the Issue, the SCSBs shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account in terms of the Public Issue Account and Sponsor Bank Agreement. The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Issue to the respective SCSB within five Working Days of the Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application, as the case may be.

For ASBA Applications submitted to the Lead Managers or Consortium Members or Trading Members of the Stock Exchanges at the Specified Cities, the ASBA Application will be uploaded onto the electronic system of the Stock Exchanges and deposited with the relevant branch of the SCSB at the Specified City named by such SCSB to accept such ASBA Applications from the Lead Managers or Trading Members of the Stock Exchanges, as the case may be (a list of such branches is available at <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>). The relevant branch of the SCSB shall perform verification procedures and block an amount in the ASBA Account equal to the Application Amount specified in the ASBA Application.

For ASBA Applications submitted directly to the SCSBs, the relevant SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the ASBA Application, before entering the ASBA

Application into the electronic system of the Stock Exchanges. SCSBs may provide the electronic mode of application either through an internet enabled application and banking facility or such other secured, electronically enabled mechanism for application and blocking of funds in the ASBA Account.

Additional information for Applicants

Further, the collecting bank shall be responsible for addressing any investor grievances arising from non-confirmation of funds to the Registrar despite successful realization/blocking of funds, or any delay or operational lapse by the collecting bank in sending the Application forms to the Registrar to the Issue.

Applicants should note that neither the Designated Intermediaries nor the SCSBs, as the case may be, will be liable for error in data entry due to incomplete or illegible Application Forms. Our Company would allot the NCDs, as specified in this Prospectus for the Issue to all valid Applications, wherein the Applicants have not indicated their choice of the relevant series of NCDs.

Please note in accordance with SEBI Circular SEBI/HO/DDHS/PoD1/CIR/P/2023/150 dated September 4, 2023, instructions to investors for completing the application form as specified in Annex- II of the aforesaid circular shall be disclosed on the websites of the Company, Lead Managers and Consortium Member(s) during the Issue Period and a copy of the Abridged Prospectus shall be made available on the websites of Company, Lead Managers and Registrar to the Issue and a link for downloading the Abridged Prospectus shall be provided in issue advertisement for the Issue.

B. Applicant's Beneficiary Account Details

Applicants must mention their DP ID, Client ID and UPI ID (wherever applicable) in the Application Form and ensure that the name provided in the Application Form is exactly the same as the name in which the Beneficiary Account is held. In case the Application Form is submitted in the first Applicant's name, it should be ensured that the Beneficiary Account is held in the same joint names and in the same sequence in which they appear in the Application Form. In case the DP ID, Client ID, PAN and UPI ID (wherever applicable) mentioned in the Application Form and entered into the electronic system of the Stock Exchange do not match with the DP ID, Client ID, PAN and UPI ID (wherever applicable) available in the Depository database or in case PAN is not available in the Depository database, the Application Form is liable to be rejected. Further, Application Forms submitted by Applicants whose beneficiary accounts are inactive, will be rejected.

On the basis of the Demographic Details as appearing on the records of the DP, the Registrar to the Issue will take steps towards demat credit of NCDs. Hence, Applicants are advised to immediately update their Demographic Details as appearing on the records of the DP and ensure that they are true and correct, and carefully fill in their Beneficiary Account details in the Application Form. Failure to do so could result in delays in demat credit and neither our Company, Designated Intermediaries, SCSBs, Registrar to the Issue nor the Stock Exchange will bear any responsibility or liability for the same.

In case of Applications made under power of attorney, our Company in its absolute discretion, reserves the right to permit the holder of power of attorney to request the Registrar that for the purpose of printing

particulars on the Allotment Advice, the Demographic Details obtained from the Depository of the Applicant shall be used.

By signing the Application Form, the Applicant would have deemed to have authorized the Depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records. The Demographic Details given by Applicant in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to this Issue. Allotment Advice would be mailed by speed post or registered post at the address of the Applicants as per the Demographic Details received from the Depositories. Applicants may note that delivery of Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. Further, please note that any such delay shall be at such Applicants' sole risk and neither our Company, Registrar to the Issue, Public Issue Account Bank, Sponsor Bank nor the Lead Manager shall be liable to compensate the Applicant for any losses caused to the Applicants due to any such delay or liable to pay any interest for such delay. In case of refunds through electronic modes as detailed in this Prospectus, refunds may be delayed if bank particulars obtained from the Depository Participant are incorrect.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of NCDs pursuant to this Issue will be made into the accounts of such Applicants. Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the parameters, namely, DP ID, Client ID, PAN and UPI ID (wherever applicable) then such Application are liable to be rejected.

C. Permanent Account Number

The Applicant should mention his or her Permanent Account Number allotted under the IT Act. For minor Applicants, applying through the guardian, it is mandatory to mention the PAN of the minor Applicant. However, Applications on behalf of the Central or State Government officials and the officials appointed by the courts in terms of a SEBI circular dated June 30, 2008 and Applicants residing in the state of Sikkim who in terms of a SEBI circular dated July 20, 2006 may be exempt from specifying their PAN for transacting in the securities market. In accordance with Circular No. MRD/DOP/Cir-05/2007 dated April 27, 2007 issued by SEBI, the PAN would be the sole identification number for the participants transacting in the securities market, irrespective of the amount of transaction. **Any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction. It is to be specifically noted that the Applicants should not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.**

However, the exemption for the Central or State Government and the officials appointed by the courts and for investors residing in the State of Sikkim is subject to the Depository Participants' verifying the veracity of such claims by collecting sufficient documentary evidence in support of their claims. At the time of ascertaining the validity of these Applications, the Registrar to the Issue will check under the Depository records for the appropriate description under the PAN Field i.e., either Sikkim category or exempt category.

D. Joint Applications

Applications may be made in single or joint names (not exceeding three). In the case of joint Applications all interest / redemption amount payments will be made out in favour of the first Applicant. All communications will be addressed to the first named Applicant whose name appears in the Application Form and at the address mentioned therein. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.

E. Additional/Multiple Applications

An Applicant is allowed to make one or more Applications for the NCDs for the same or other option of

NCDs, subject to a minimum Application size as specified in this Prospectus and in multiples of thereafter as specified in this Prospectus. Any Application for an amount below the aforesaid minimum Application size will be deemed as an invalid Application and shall be rejected. However, multiple Applications by the same individual Applicant aggregating to a value exceeding ₹5 lakhs shall be deemed such individual Applicant to be an HNI Applicant and all such Applications shall be grouped in the HNI Portion, for the purpose of determining the Basis of Allotment to such Applicant. However, any Application made by any person in his individual capacity and an Application made by such person in his capacity as a Karta of a Hindu Undivided family and/or as Applicant (second or third Applicant), shall not be deemed to be a multiple Application. For the purposes of allotment of NCDs under this Issue, Applications shall be grouped based on the PAN, i.e., Applications under the same PAN shall be grouped together and treated as one Application. Two or more Applications will be deemed to be multiple Applications if the sole or first Applicant is one and the same. For the sake of clarity, two or more applications shall be deemed to be a multiple Application for the aforesaid purpose if the PAN number of the sole or the first Applicant is one and the same.

Do's and Don'ts

Applicants are advised to take note of the following while filling and submitting the Application Form:

Do's

1. Check if you are eligible to apply as per the terms of this Prospectus and applicable law, rules, regulations, guidelines and approvals.
2. Read all the instructions carefully and complete the Application Form in the prescribed form.
3. Ensure that you have obtained all necessary approvals from the relevant statutory and/or regulatory authorities to apply for, subscribe to and/or seek Allotment of NCDs pursuant to this Issue.
4. Ensure that the DP ID, the Client ID and the PAN mentioned in the Application Form, which shall be entered into the electronic system of the Stock Exchange are correct and match with the DP ID, Client ID and PAN available in the Depository database. Ensure that the DP ID, Client ID, PAN and UPI ID (wherever applicable) are correct and the depository account is active as Allotment of the Equity Shares will be in dematerialized form only. The requirement for providing Depository Participant details is mandatory for all Applicants.
5. Ensure that you have mentioned the correct ASBA Account number (for all Applicants other than UPI Investors applying using the UPI Mechanism) in the Application Form. Further, UPI Investors using the UPI Mechanism must also mention their UPI ID.
6. UPI Investors applying using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking, is certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries.
7. UPI Investors applying using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on the SEBI website. UPI Investors shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on the SEBI website. An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on the SEBI website is liable to be rejected.
8. Ensure that the Application Form is signed by the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) in case the Applicant is not the ASBA account holder. Applicants (except UPI Investors making an Application using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Application Form. UPI Investors applying using the UPI Mechanism should ensure that they have mentioned the correct UPI-linked bank account number and their correct UPI ID in the Application Form.

9. Ensure that you have funds equal to the Application Amount in the ASBA Account before submitting the Application Form to the respective Designated Branch of the SCSB, or to the Designated Intermediaries, as the case may be.
10. UPI Investors making an Application using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to Application Amount and subsequent debit of funds in case of Allotment, in a timely manner.
11. UPI Investors making an Application using the UPI Mechanism shall ensure that details of the Application are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorization of the mandate using their UPI PIN, the UPI Investor may be deemed to have verified the attachment containing the application details of the UPI Investor making an Application using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Application Amount and authorized the Sponsor Bank to issue a request to block the Application Amount mentioned in the ASBA Form in their ASBA Account.
12. UPI Investors making an Application using the UPI Mechanism should mention valid UPI ID of only the Applicants (in case of single account) and of the first Applicant (in case of joint account) in the ASBA Form.
13. UPI Investors making an Application using the UPI Mechanism, who have revised their Application subsequent to making the initial Application, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Application Amount in their account and in case of Allotment in a timely manner.
14. Ensure that the Application Forms are submitted at the Designated Branches of SCSBs or the Collection Centres provided in the Application Forms, bearing the stamp of the relevant Designated Intermediary/Designated Branch of the SCSB.
15. Before submitting the Application Form with the Designated Intermediaries ensure that the SCSB, whose name has been filled in the Application Form, has named a branch in that relevant Collection Centre.
16. Ensure that you have been given an acknowledgement as proof of having accepted the Application Form.
17. Ensure that signatures other than in the languages specified in the Eighth Schedule to the Constitution of India is attested by a Magistrate or a Notary Public or a Special Executive Magistrate under official seal.
18. In case of an HUF applying through its Karta, the Applicant is required to specify the name of an Applicant in the Application Form as 'XYZ Hindu Undivided Family applying through PQR', where PQR is the name of the Karta. However, the PAN number of the HUF should be mentioned in the Application Form and not that of the Karta.
19. Ensure that the Applications are submitted to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, before the closure of application hours on the Issue Closing Date. For further information on the Issue Programme, please see "**General Information – Issue Programme**" on page 61 of this Prospectus.
20. **Permanent Account Number:** Except for Application (i) on behalf of the Central or State Government and officials appointed by the courts, and (ii) (subject to SEBI circular dated April 3, 2008) from the residents of the state of Sikkim, each of the Applicants should provide their PAN. Application Forms in which the PAN is not provided will be rejected. The exemption for the Central or State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in "active status"; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.

21. Ensure that if the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form.
22. All Applicants should choose the relevant option in the column “Category of Investor” in the Application Form.
23. Choose and mark the option of NCDs in the Application Form that you wish to apply for. In terms of SEBI Circular no. CIR/CFD/DIL/1/2013 dated January 2, 2013, SCSBs making applications on their own account using ASBA facility, should have a separate account in their own name with any other SEBI registered SCSB. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for Applications.

Don'ts:

1. Do not apply for lower than the minimum Application size.
2. Do not pay the Application Amount in cash, by cheque, by money order or by postal order or by stock invest.
3. Do not send Application Forms by post. Instead submit the same to the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be.
4. Do not submit the Application Form to any non-SCSB bank or our Company.
5. Do not apply through an Application Form that does not have the stamp of the relevant Designated Intermediary or the Designated Branch of the SCSB, as the case may be.
6. Do not fill up the Application Form such that the NCDs applied for exceeds the Issue Size and/or investment limit or maximum number of NCDs that can be held under the applicable laws or regulations or maximum amount permissible under the applicable regulations.
7. Do not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.
8. Do not submit incorrect details of the DP ID, Client ID, PAN and UPI ID (wherever applicable) or provide details for a beneficiary account which is suspended or for which details cannot be verified by the Registrar to the Issue.
9. Do not submit the Application Form without ensuring that funds equivalent to the entire Application Amount are available for blocking in the relevant ASBA Account or in the case of UPI Investors making Application using the UPI Mechanism, in the UPI-linked bank account where funds for making the Application are available.
10. Do not submit Applications on plain paper or on incomplete or illegible Application Forms.
11. Do not apply if you are not competent to contract under the Indian Contract Act, 1872.
12. Do not submit an Application in case you are not eligible to acquire NCDs under applicable law or your relevant constitutional documents or otherwise.
13. Do not submit Applications to a Designated Intermediary at a location other than Collection Centres.
14. Do not submit an Application that does not comply with the securities law of your respective jurisdiction.
15. Do not apply if you are a person ineligible to apply for NCDs under this Issue including Applications by

Persons Resident Outside India, NRI (inter-alia including NRIs who are (i) based in the USA, and/or, (ii) domiciled in the USA, and/or, residents/citizens of the USA, and/or, (iv) subject to any taxation laws of the USA).

16. Do not make an Application of the NCD on multiple copies taken of a single form.
17. Payment of Application Amount in any mode other than through blocking of Application Amount in the ASBA Account shall not be accepted in the Issue.
18. Do not link the UPI ID with a bank account maintained with a bank that is not UPI 2.0 certified by the NPCI in case of Bids submitted by UPI Investors using the UPI Mechanism.
19. Do not submit more than five Application Forms per ASBA Account.

Kindly note that Applications submitted to the Designated Intermediaries will not be accepted if the SCSB where the ASBA Account, as specified in the Application Form, is maintained has not named at least one branch at that location for the Designated Intermediaries, to deposit such Application Forms (A list of such branches is available at <https://www.sebi.gov.in>).

Please see “*Issue Procedure - Rejection of Applications*” on page 255 of this Prospectus for information on rejection of Applications.

TERMS OF PAYMENT

The Application Forms will be uploaded onto the electronic system of the Stock Exchange and deposited with the relevant branch of the SCSB at the Collection Centres, named by such SCSB to accept such Applications from the Designated Intermediaries, as the case may be (a list of such branches is available at <https://www.sebi.gov.in>).

For Applications other than those under the UPI Mechanism, the relevant branch of the SCSB shall perform verification procedures and block an amount in the ASBA Account equal to the Application Amount specified in the Application. For Applications under the UPI Mechanism, i.e., up to ₹5 lakhs, the Stock Exchange shall undertake validation of the PAN and Demat account combination details of the Applicant with the Depository. The Depository shall validate the PAN and Demat account details and send response to the Stock Exchange which would be shared by the Stock Exchange with the relevant Designated Intermediary through its platform, for corrections, if any. The blocking of funds in such case (not exceeding ₹5 lakhs) shall happen under the UPI Mechanism.

The entire Application Amount for the NCDs is payable on Application only. The relevant SCSB shall block an amount equivalent to the entire Application Amount in the ASBA Account at the time of upload of the Application Form. In case of Allotment of lesser number of NCDs than the number applied, the Registrar to the Issue shall instruct the SCSBs or the Sponsor Bank (as the case maybe) to unblock the excess amount in the ASBA Account.

For Applications submitted directly to the SCSBs, the relevant SCSB shall block an amount in the ASBA Account equal to the Application Amount specified in the Application, before entering the Application into the electronic system of the Stock Exchange. SCSBs may provide the electronic mode of application either through an internet enabled application and banking facility or such other secured, electronically enabled mechanism for application and blocking of funds in the ASBA Account.

For Applications submitted under the UPI Mechanism, post the successful validation of the UPI Mandate Request by the Applicant, the information would be electronically received by the Applicants’ bank, where the funds, equivalent to Application Amount, would get blocked in the Applicant’s ASBA Account.

Applicants should ensure that they have funds equal to the Application Amount in the ASBA Account before submitting the Application. An Application where the corresponding ASBA Account does not have sufficient funds equal to the Application Amount at the time of blocking the ASBA Account is liable to be rejected.

A UPI Investor applying through the UPI Mechanism should ensure that, they check the relevant SMS

generated for the UPI Mandate Request and all other steps required for successful blocking of funds in the UPI linked bank account, which includes accepting the UPI Mandate Request by 5:00 pm on the third Working Day from the day of bidding on the Stock Exchange (except on the last day of the Issue Period, where the UPI Mandate Request not having been accepted by 5:00 pm of the next Working Day), have been completed.

The Application Amount shall remain blocked in the ASBA Account until approval of the Basis of Allotment and consequent transfer of the amount against the Allotted NCDs to the Public Issue Account(s), or until withdrawal/ failure of this Issue or until withdrawal/ rejection of the Application Form, as the case may be. Once the Basis of Allotment is approved, and upon receipt of intimation from the Registrar, the controlling branch of the SCSB shall, on the Designated Date, transfer such blocked amount from the ASBA Account to the Public Issue Account. The balance amount remaining after the finalisation of the Basis of Allotment shall be unblocked by the SCSBs or the Sponsor Bank (in case of Applications under the UPI Mechanism) on the basis of the instructions issued in this regard by the Registrar to the respective SCSB or the Sponsor Bank, within six Working Days of the Issue Closing Date. The Application Amount shall remain blocked in the ASBA Account until transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of this Issue or until rejection of the Application, as the case may be.

SUBMISSION OF COMPLETED APPLICATION FORMS

Mode of Submission of Application Forms	To whom the Application Form has to be submitted
ASBA Applications	(i) If using <u>physical Application Form</u> , (a) to the Designated Intermediaries at relevant Collection Centres, or (b) to the Designated Branches of the SCSBs where the ASBA Account is maintained; or (ii) If using <u>electronic Application Form</u> , to the SCSBs, electronically through internet banking facility, if available.
Applications under the UPI Mechanism	(i) Through the Designated Intermediary, physically or electronically, as applicable; or (ii) Through BSE Direct or NSE goBID

However, the Designated Intermediaries will acknowledge the receipt of the Application Forms by stamping the date and returning to the Applicants an Acknowledgement Slips which will serve as a duplicate Application Form for the records of the Applicant.

Electronic Registration of Applications

- a. The Designated Intermediaries and Designated Branches of the SCSBs, as the case may be, will register the Applications (including those under the UPI Mechanism) using the on-line facilities of the Stock Exchange. **The Members of Syndicate, our Company and the Registrar to the Issue or the Lead Manager is not responsible for any acts, mistakes or errors or omission and commissions in relation to, (i) the Applications accepted by the SCSBs, (ii) the Applications uploaded by the SCSBs, (iii) the Applications accepted but not uploaded by the SCSBs, (iv) with respect to Applications accepted and uploaded by the SCSBs without blocking funds in the ASBA Accounts, (v) any Applications accepted and uploaded and/or not uploaded by the Trading Members of the Stock Exchange or (vi) any Application made under the UPI Mechanism, accepted or uploaded or failed to be uploaded by a Designated Intermediary or through the app/web based interface of the Stock Exchange and the corresponding failure for blocking of funds under the UPI Mechanism.**

In case of apparent data entry error by the Designated Intermediaries or Designated Branches of the SCSBs, as the case may be, in entering the Application Form number in their respective schedules other things remaining unchanged, the Application Form may be considered as valid and such exceptions may be recorded in minutes of the meeting submitted to the Designated Stock Exchange. However, the option, mode of allotment, PAN, demat account no. etc. should be captured by the relevant Designated Intermediaries or Designated Branches of the SCSBs in the data entries as such data entries will be

considered for Allotment/rejection of Application.

- b. The Stock Exchange will offer an electronic facility for registering Applications for this Issue. This facility will be available on the terminals of Designated Intermediaries and the SCSBs during the Issue Period. The Designated Intermediaries can also set up facilities for off-line electronic registration of Applications subject to the condition that they will subsequently upload the off-line data file into the on-line facilities for Applications on a regular basis, and before the expiry of the allocated time on this Issue Closing Date. On the Issue Closing Date, the Designated Intermediaries and the Designated Branches of the SCSBs shall upload the Applications till such time as may be permitted by the Stock Exchange. This information will be available from the Designated Intermediaries and the Designated Branches of the SCSBs on a regular basis. Applicants are cautioned that a high inflow of high volumes on the last day of the Issue Period may lead to some Applications received on the last day not being uploaded and such Applications will not be considered for allocation. For further information on the Issue programme, please see “**General Information – Issue Programme**” on page 61 of this Prospectus.
- c. With respect to Applications submitted directly to the SCSBs at the time of registering each Application, the Designated Branches of the SCSBs shall enter the requisite details of the Applicants in the on-line system including:

 - Number of NCDs Applied for in each option of NCD
 - Price per NCD
 - Bank code for the SCSB where the ASBA Account is maintained
 - Bank account number
 - Location
 - Application amount
- e. A system generated acknowledgement (TRS) will be given to the Applicant as a proof of the registration of each Application. It is the Applicant’s responsibility to obtain the acknowledgement from the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be. The registration of the Application by the Designated Intermediaries and the Designated Branches of the SCSBs, as the case may be, does not guarantee that the NCDs shall be allocated/ Allotted by our Company. The acknowledgement will be non-negotiable and by itself will not create any obligation of any kind.

- f. Applications can be rejected on the technical grounds listed below or if all required information is not provided or the Application Form is incomplete in any respect.
- g. The permission given by the Stock Exchange to use its network and software of the online system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the Lead Manager are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the compliance with the statutory and other requirements nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Prospectus; nor does it warrant that the NCDs will be listed or will continue to be listed on the Stock Exchange
- h. **Only Applications that are uploaded on the online system of the Stock Exchange shall be considered for allocation/ Allotment.** The Designated Intermediaries and the Designated Branches of the SCSBs shall capture all data relevant for the purposes of finalizing the Basis of Allotment while uploading Application data in the electronic systems of the Stock Exchange. For information on certain procedures to be carried out by the Registrar to the Issue for finalization of the Basis of Allotment, please see "*Information for Applicants*" below.

Information for Applicants

Upon the closure of the Issue, the Registrar to the Issue will reconcile the compiled data received from the Stock Exchange and all SCSBs and match the same with the Depository database for correctness of DP ID, Client ID, UPI ID (where applicable) and PAN. The Registrar to the Issue will undertake technical rejections based on the electronic details and the Depository database and prepare list of technical rejection cases. In case of any discrepancy between the electronic data and the Depository records, our Company, in consultation with the Designated Stock Exchange, the Lead Manager and the Registrar to the Issue, reserves the right to proceed as per the Depository records for such Applications or treat such Applications as rejected.

Based on the information provided by the Depositories, our Company shall have the right to accept Applications belonging to an account for the benefit of a minor (under guardianship). In case of Applications for a higher number of NCDs than specified for that category of Applicant, only the maximum amount permissible for such category of Applicant will be considered for Allotment.

BASIS OF ALLOTMENT

For the purposes of the basis of Allotment:

- A. Applications received from Category I Applicants:** Applications received from Applicants belonging to Category I shall be grouped together, ("**Institutional Portion**");

- B. Applications received from Category II Applicants:** Applications received from Applicants belonging to Category II, shall be grouped together, (“**Non-Institutional Portion**”);
- C. Applications received from Category III Applicants:** Applications received from Applicants belonging to Category III shall be grouped together, (“**High Net-worth Individual Category Portion**”); and
- D. Applications received from Category IV Applicants:** Applications received from Applicants belonging to Category IV shall be grouped together, (“**Retail Individual Category Portion**”).

For removal of doubt, the terms “Institutional Portion”, “Non-Institutional Portion”, “High Net-worth Individual Category Portion” and “Retail Individual Category Portion” are individually referred to as “**Portion**” and collectively referred to as “**Portions**”.

Allocation Ratio

Particulars	Institutional Portion	Non-Institutional Portion	High Net Worth Individual Investors Portion	Retail Individual Investors Portion
% of Issue Size	10%	25%	25%	40%
Base Issue Size (₹ in Lakhs)	750	1,875	1,875	3,000
Total Issue Size (₹ in Lakhs)	1,500	3,750	3,750	6,000

- a) Allotments in the first instance:
- Applicants belonging to the Institutional Portion, in the first instance, will be allocated NCDs up to 10% of this Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications into the electronic platform of the Stock Exchange;
 - Applicants belonging to the Non-Institutional Portion, in the first instance, will be allocated NCDs up to 25% of this Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchanges;
 - Applicants belonging to the High Net Worth Individual Investors Portion, in the first instance, will be allocated NCDs up to 25% of this Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchanges; and
 - Applicants belonging to the Retail Individual Investors Portion, in the first instance, will be allocated NCDs up to 40% of this Issue Limit on first come first serve basis which would be determined on the date of upload of their Applications in to the electronic platform of the Stock Exchanges.

Allotments, in consultation with the Designated Stock Exchange, shall be made on date priority basis i.e. a first-come first-serve basis, based on the date of upload of each Application into the Electronic Book with the Stock Exchanges, in each Portion subject to the Allocation Ratio indicated at the section titled “**Issue Procedure – Basis of Allotment**” at this page 257 of this Prospectus.

As per the SEBI NCS Master Circular, the allotment in this Issue is required to be made on the basis of date of upload of each application into the electronic book of the Stock Exchange. However, on the date of oversubscription and thereafter, the allotments should be made to the applicants on proportionate basis.

- b) Under Subscription: If there is any under subscription in any Category, priority in Allotments will be given to the Retail Individual Investors Portion, High Net Worth Individual Investors Portion, and balance, if any, shall be first made to applicants of the Non-Institutional Portion, followed by the Institutional Portion on a first come first serve basis, on proportionate basis. If there is under subscription in the overall this Issue Limit due to undersubscription in each Portion, all valid Applications received till the end of last day of the Issue Closure Day shall be grouped together in each Portion and full and firm Allotments will be made to all valid Applications in each Portion.

- c) For each Category, all Applications uploaded on the same day onto the electronic platform of the Stock Exchanges would be treated at par with each other. Allotment would be on proportionate basis, where NCDs uploaded into the platform of the Stock Exchanges on a particular date exceeds NCDs to be Allotted for each portion respectively.
- d) Minimum Allotments of 1 (one) NCD and in multiples of 1 (one) NCD thereafter would be made in case of each valid Application to all Applicants.
- e) *Allotments in case of oversubscription:* In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription and proportionate allotment of NCDs to the Applicants on the date of oversubscription and thereafter (based on the date of upload of each Application on the electronic platform of the Stock Exchange, in each Portion).

For the purpose of clarity, in case of oversubscription please see the below indicative scenarios:

In case of an oversubscription in all Portions resulting in an oversubscription in the Issue Limit, Allotments to the maximum permissible limit, as possible, will be made on a first-come first serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants on the date of oversubscription and thereafter in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchanges in each Portion).

In case there is oversubscription in this Issue Limit, however there is under subscription in one or more Portion(s)

Allotments will be made in the following order:

- i. All valid Applications in the undersubscribed Portion(s) uploaded on the electronic platform of the Stock Exchanges till the end of the last day of the Issue Period, shall receive full and firm allotment
 - ii. In case of Portion(s) that are oversubscribed, allotment shall be made to valid Applications received on a first come first serve basis, based on the date of upload of each Application in to the electronic platform of the Stock Exchanges. Priority for allocation of the remaining undersubscribed Portion(s) shall be given to day wise Applications received in the Retail Individual Investors Portion followed by High Net Worth Individual Investors Portion, next Non-Institutional Portion and lastly Institutional Portion each according to the day of upload of Applications to the Electronic Book with Stock Exchange during this Issue period.
- f) *Proportionate Allotments: For each Portion, on the date of oversubscription and thereafter:*
- i. Allotments to the Applicants shall be made in proportion to their respective Application size, rounded off to the nearest integer.
 - ii. If the process of rounding off to the nearest integer results in the actual allocation of NCDs being higher than this Issue Limit, not all Applicants will be allotted the number of NCDs arrived at after such rounding off. Rather, each Applicant whose Allotment size, prior to rounding off, had the highest decimal point would be given preference.
 - iii. In the event, there are more than one Applicant whose entitlement remain equal after the manner of distribution referred to above, our Company will ensure that the basis of allotment is finalised by draw of lots in a fair and equitable manner.
- g) *Applicant applying for more than one Series of NCDs:* If an Applicant has applied for more than one Series of NCDs and in case such Applicant is entitled to allocation of only a part of the aggregate number of NCDs applied for, the Series-wise allocation of NCDs to such Applicants shall be in proportion to the number of NCDs with respect to each Series, applied for by such Applicant, subject to rounding off to the nearest integer, as appropriate in consultation with the Lead Manager and the Designated Stock Exchange. Further, in the aforesaid scenario, wherein the Applicant has applied for all the 6 (six) Series and in case such Applicant cannot be allotted all the 6 (six) Series, then the Applicant would be allotted NCDs, at the discretion of the Company, the Registrar and the Lead Manager as may be decided at the time of Basis of Allotment.

- h) *Unblocking of Funds for withdrawn, rejected or unsuccessful or partially successful Applications:* The Registrar shall, pursuant to preparation of Basis of Allotment, instruct the relevant SCSB to unblock the funds in the relevant ASBA Account for withdrawn, rejected or unsuccessful or partially successful Applications within 6 (six) Working Days of the Issue Closing Date.

All decisions pertaining to the basis of allotment of NCDs pursuant to this Issue shall be taken by our Company in consultation with the Lead Manager and the Designated Stock Exchange and in compliance with the aforementioned provisions of this Prospectus. Any other queries / issues in connection with the Applications will be appropriately dealt with and decided upon by our Company in consultation with the Lead Manager.

Our Company would allot Series III NCDs to all valid applications, wherein the applicants have not indicated their choice of the relevant series of the NCDs.

Applications where the Application Amount received is greater than the minimum Application Amount, and the Application Amount paid does not tally with the number of NCDs applied for may be considered for Allotment, to the extent of the Application Amount paid rounded down to the nearest ₹ 1,000.

Retention of oversubscription

Our Company shall have an option to retain over-subscription up to the Issue Limit.

Unblocking of Funds for withdrawn, rejected or unsuccessful or partially successful Applications

The Registrar shall, pursuant to preparation of Basis of Allotment, instruct the relevant SCSB or the Sponsor Bank (for Applications under the UPI Mechanism), as applicable, to unblock the funds in the relevant ASBA Account/UPI linkedbank account, for withdrawn, rejected or unsuccessful or partially successful Applications within six Working Days of the Issue Closing Date.

ISSUANCE OF ALLOTMENT ADVICE

Our Company shall ensure dispatch of Allotment Advice and/ or give instructions for credit of NCDs to the beneficiary account with Depository Participants upon approval of Basis of Allotment. The Allotment Advice for successful Applicants will be mailed by speed post/registered post to their addresses as per the Demographic Details received from the Depositories.

Our Company shall use best efforts to ensure that all steps for completion of the necessary formalities for commencement of trading at the Stock Exchange where the NCDs are proposed to be listed are taken within six Working Days from the Issue Closing Date. Application Amount shall be unblocked within six Working Days from the Issue Closing Date or such less time as may be specified by SEBI or else the Application Amount shall be unblocked in the ASBA Accounts or the UPI linked bank accounts (for Applications under the UPI Mechanism) of the Applicants forthwith, failing which interest shall be due to be paid to the Applicants in accordance with applicable law. Our Company will provide adequate funds required for dispatch of Allotment Advice to the Registrar to the Issue.

OTHER INFORMATION

Withdrawal of Applications during the Issue Period

Applicants can withdraw their Applications until the Issue Closing Date. In case an Applicant wishes to withdraw the Application during the Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite. In case of Applications (other than under the UPI Mechanism) were submitted to the Designated Intermediaries, upon receipt of the request for withdrawal from the Applicant, the relevant Designated Intermediary, as the case may be, shall do the requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and intimating the Designated Branch of the SCSB unblock of the funds blocked in the ASBA Account at the time of making the Application. In case of Applications (other than under the UPI Mechanism) submitted directly to the Designated Branch of the SCSB, upon receipt of the request for withdraw from the Applicant, the relevant Designated Branch shall do the

requisite, including deletion of details of the withdrawn Application Form from the electronic system of the Stock Exchange and unblocking of the funds in the ASBA Account, directly.

Withdrawal of Applications after the Issue Period

In case an Applicant wishes to withdraw the Application after the Issue Closing Date or early closure date, the same can be done by submitting a withdrawal request to the Registrar to the Issue prior to the finalisation of the Basis of Allotment.

Revision of Applications

Cancellation of one or more orders (option) within an Application is permitted during the Issue Period as long as the total order quantity does not fall under the minimum quantity required for a single Application. Please note that in case of cancellation of one or more orders (option) within an Application, leading to total order quantity falling under the minimum quantity required for a single Application will be liable for rejection by the Registrar.

Applicants may revise/ modify their Application details during the Issue Period, as allowed/permitted by the Stock Exchange, by submitting a written request to the Designated Intermediary and the Designated Branch of the SCSBs, as the case may be. For Applications made under the UPI Mechanism, an Applicant shall not be allowed to add or modify the details of the Application except for modification of either DP ID/Client ID, or PAN ID but not both. However, the Applicant may withdraw the Application and reapply.

However, for the purpose of Allotment, the date of original upload of the Application will be considered in case of such revision/ modification. In case of any revision of Application in connection with any of the fields which are not allowed to be modified on the electronic Application platform of the Stock Exchange as per the procedures and requirements prescribed by the Stock Exchange, Applicants should ensure that they first withdraw their original Application and submit a fresh Application. In such a case the date of the new Application will be considered for date priority for Allotment purposes.

Revision of Applications is not permitted after the expiry of the time for acceptance of Application Forms on the Issue Closing Date. However, in order that the data so captured is accurate, the Designated Intermediaries and/ or the Designated Branches of the SCSBs will be given up to one Working Day after the Issue Closing Date to modify/ verify certain selected fields uploaded in the online system during the Issue Period, after which the data will be sent to the Registrar for reconciliation with the data available with the NSDL and CDSL.

Early Closure

Our Company, in consultation with the Lead Managers reserves the right to close the Issue at any time prior to the Closing Date of respective Prospectus, subject to receipt of minimum subscription for NCDs aggregating to 75% of the Base Issue Size i.e. ₹5,625 Lakhs and subject to the Issue being kept open for minimum period of three Working Days. Our Company shall allot NCDs with respect to the Applications received at the time of such early closure in accordance with the Basis of Allotment as described hereinabove and subject to applicable statutory and/or regulatory requirements. In the event of such early closure of the Issue, our Company shall ensure that public notice of such early closure is published on or before such early date of closure is published on or before such early date of closure or the Issue Closing Date, as applicable, through advertisement(s) in all those newspapers in which pre-issue advertisement have been given.

Utilisation of Application Amounts.

The sum received in respect of the Issue will be kept in separate bank account(s) and we will have access to such funds only upon allotment of the NCDs, execution of Debenture Trust Deeds and on receipt of listing and trading approval from the Stock Exchange as per applicable provisions of law(s), regulations and approvals.

Impersonation

Attention of the Applicants is specifically drawn to the provisions of sub-Section (1) of Section 38 of the Companies Act, 2013, which is reproduced below:

“Any person who:

- (a) Makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.”*

The liability prescribed under Section 447 of the Companies Act 2013 for fraud involving an amount of at least ₹1 million or 1.00% of the turnover of our Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount. In case the fraud involves (i) an amount which is less than ₹1 million or 1.00% of the turnover of our Company, whichever is lower; and (ii) does not involve public interest, then such fraud is punishable with an imprisonment for a term extending up to five years or a fine of an amount extending up to ₹5 million or with both.

Depository Arrangements

We have made depository arrangements with NSDL and CDSL. Please note that Tripartite Agreements have been executed between our Company, the Registrar and both the depositories.

As per the provisions of the Depositories Act, 1996, the NCDs issued by us can be held in a dematerialised form. In this context:

- i. Tripartite agreement dated July 10, 2010 among our Company, the Registrar and CDSL and tripartite agreement dated August 3, 2010 among our Company, the Registrar and NSDL, respectively for offering depository option to the investors. Our Company undertakes to execute tripartite agreements with the Depositories and Registrar to the Issue prior to the Issue Opening Date.
- ii. An Applicant must have at least one beneficiary account with any of the Depository Participants (DPs) of NSDL or CDSL prior to making the Application.
- iii. The Applicant must necessarily provide the DP ID and Client ID details in the Application Form.
- iv. NCDs Allotted to an Applicant in the electronic form will be credited directly to the Applicant's respective beneficiary account(s) with the DP.
- v. Non-transferable Allotment Advice will be directly sent to the Applicant by the Registrar to this Issue.
- vi. It may be noted that NCDs in electronic form can be traded only on the Stock Exchange having electronic connectivity with NSDL or CDSL. The Stock Exchange has connectivity with NSDL and CDSL.
- vii. Interest or other benefits with respect to the NCDs held in dematerialised form would be paid to those Debenture Holders whose names appear on the list of beneficial owners given by the Depositories to us as on Record Date. In case of those NCDs for which the beneficial owner is not identified by the Depository as on the Record Date/ book closure date, we would keep in abeyance the payment of interest or other benefits, till such time that the beneficial owner is identified by the Depository and conveyed to us, whereupon the interest or benefits will be paid to the beneficiaries, as identified, within a period of 30 days.
- viii. Please note that the NCDs shall cease to trade from the Record Date (for payment of the principal amount and the applicable premium and interest for such NCDs) prior to redemption of the NCDs.

PLEASE NOTE THAT TRADING OF NCDs ON THE FLOOR OF THE STOCK EXCHANGE SHALL BE IN DEMATERIALISED FORM ONLY IN MULTIPLE OF ONE NCD.

Allottees will have the option to re-materialize the NCDs Allotted under the Issue as per the provisions of the

Companies Act, 2013 and the Depositories Act.

Communications

All future communications in connection with Applications made in this Issue (except the Applications made through the Trading Members of the Stock Exchange) should be addressed to the Registrar to the Issue, quoting the full name of the sole or first Applicant, Application Form number, Applicant's DP ID and Client ID, Applicant's PAN, number of NCDs applied for, ASBA Account number in which the amount equivalent to the Application Amount was blocked or the UPI ID (for UPI Investors who make the payment of Application Amount through the UPI Mechanism), date of the Application Form, name and address of the Designated Intermediary or Designated Branch of the SCSBs, as the case may be, where the Application was submitted. Applicants may contact our Compliance Officer and Company Secretary or the Registrar to the Issue in case of any pre-Issue or post-Issue related problems such as non-receipt of Allotment Advice or credit of NCDs in the respective beneficiary accounts, as the case may be.

Interest in case of delay

Our Company undertakes to pay interest, in connection with any delay in Allotment and demat credit, beyond the time limit as may be prescribed under applicable statutory and/or regulatory requirements, at such rates as stipulated under such applicable statutory and/or regulatory requirements.

Default in payment

In case of default (including delay) in payment of interest and/ or redemption of principal on the due dates for debt securities issued on private placement or public issue, additional interest of at least @ 2% p.a. over the coupon rate shall be payable by the issuer for the defaulting period.

Delay in listing

There has been no delay in the listing of any non-convertible securities issued by our Company. In the event of failure to list such securities within such days from the date of closure of issue as may be specified by the Board (scheduled listing date), all application moneys received or blocked in the public issue shall be refunded or unblocked forthwith within two working days from the scheduled listing date to the applicants through the permissible modes of making refunds and unblocking of funds. For delay in refund/unblocking of funds beyond the timeline as specified above, the issuer shall be liable to pay interest at the rate of fifteen percent per annum to the investors from the scheduled listing date till the date of actual payment.

Delay in execution of DTD

Where an issuer fails to execute the trust deed within the period specified in the sub-regulation (1), without prejudice to any liability arising on account of violation of the provisions of the Act and these regulations, the issuer shall also pay interest of at least two percent per annum or such other rate, as specified by the Board to the holder of debt securities, over and above the agreed coupon rate, till the execution of the trust deed.

 - iii. *five percent of the average of absolute value of profit after tax, as per the last three audited consolidated financial statements of our Company. The average of absolute value of profit after tax, as per the last three audited consolidated financial statements is ₹ 161.09 crore and five percent of the same is ₹ 8.05 crore.*

*Accordingly, all litigation involving monetary amount of claim exceeding ₹ 8.05 crore ("**Material Threshold**") has been considered as material;*

- b) *involving our Directors, Promoters, and Subsidiaries in which the aggregate monetary amount of claim by or against exceeds the amount of Material Threshold has been considered as material.*

It is clarified that for the purposes of the above, pre-litigation notices received by our Company, Directors, Promoter or Subsidiaries shall, unless otherwise decided by our Board of Directors, not be considered a litigation until such time that our Company, Directors, Promoter or Subsidiaries, as the case maybe, is impleaded as a defendant in litigation proceedings before any judicial forum.

Save as disclosed below, there are no:

- a) *litigation or legal action pending or taken by any Ministry or Department of the Government or a statutory body or regulatory body against the Promoters of our Company during the preceding three years immediately preceding the year of the issue of the Prospectus and any direction issued by such Ministry or Department or statutory body or regulatory body upon conclusion of such litigation or legal action;*
- b) *inquiry, inspections or investigations initiated or conducted under the securities laws or Companies Act or any previous companies law in the preceding three years immediately preceding the year of issue of offer document in the case of company; and if there were any prosecutions filed (whether pending or not); fines imposed, or compounding of offences done in the preceding three years immediately preceding the year of the prospectus for our Company;*
- c) *pending litigation involving the Company, Promoter, Directors, Subsidiaries, Group Companies or any other person, whose outcome could have material adverse effect on the financial position of the Company, which may affect the issue or the investor's decision to invest/continue to invest in the debt securities;*
- d) *acts of material frauds committed against our Company in the preceding three financial years*

and current financial year and the action taken by our Company;

- e) default and non-payment of statutory dues by our Company for preceding three financial years and current financial year; and*
- f) pending proceedings initiated against our Company for economic offences and default.*

Further from time to time, we have been and shall continue to be involved in legal proceedings filed by and/or against us, arising in the ordinary course of our business. We believe that the number of proceedings in which we are/were involved is not unusual for a company of our size doing business in India.

Unless stated to the contrary, the information provided below is as of the date of this Prospectus.

All terms defined in a particular litigation disclosure below are for that particular litigation only.

I. Litigation involving our Company.

A. Litigation filed against our Company

1. Criminal proceedings

i. *Ram Kanwar HUF vs. SMC Global Securities Limited - Crl M.C. 1794/2022*

Ram Kanwar HUF (the "**Petitioner**") has filed petition under section 482 of the Code of Criminal Procedure, 1973 before the Hon'ble High Court of Delhi ("**Hon'ble High Court**") bearing Crl M.C. 1794/2022, challenging the order dated November 10, 2021, in Crl. Revision No. 701/2019 and for allowing the summoning of the original books of accounts/documents and records, in connection with the trial of the case pending against the Petitioner under section 138 of the Negotiable Instrument Act, 1881 pending before the Learned Metropolitan Magistrate, Tis Hazari Court. The matter cannot be quantified. The case was disposed of; however, the petitioner has filed a clarification application which is pending for adjudication.

ii. *Sanju Kumari vs. State of Bihar & Others – Crl. Revision No. 298/2018*

Ms. Sanju Kumari ("**Complainant**") filed a Complaint bearing case No. 2977 of 2011 before the Chief Judicial Magistrate, Motihari, East Champaran against Mr. Subhash Chand Aggarwal (our Promoter and Managing Director), SMC Global Securities Limited (our Company) Mr. Prabhat Kumar and Mr. Santosh Kumar (partners of Militia Share & Securities) (collectively "**Accused**") under section 409, 420, 467, 468 120 (B), 387 of the Indian Penal Code, 1860 and sections 43, 44, 65, 66 and 71 of the Information Technology Act, 2000 ("**Complaint**"). The Complainant alleged that Mr. Prabhat Kumar and Mr. Santosh Kumar got the demat account of the Complainant transferred in the name of their firm, traded on Complainant's behalf and tried misappropriating her money. The Complainant also alleged that Mr. Subhash Chand Aggarwal did not take any action against Mr. Prabhat Kumar and Mr. Santosh Kumar, their sub-broker. The Complainant filed an arbitration petition dated November 22, 2011, which was dismissed by NSEIL, in favour of our Company. Subsequently, the Complainant filed application under section 156 (3) of Criminal Procedure Code, 1973 to direct the local police station at Chhattauni to register the First Information Report ("**FIR**"). Pursuant to order dated December 15, 2011, passed by Chief Judicial Magistrate, Motihari, East Champaran, a FIR bearing number 10 of 2012 was registered on January 09, 2012 ("**FIR 2012**"). Thereafter, the Accused filed an application bearing number 18589 of 2012 before the High Court of Patna ("**Hon'ble High Court**") under section 482 of the Code of Criminal Procedure, 1973. The High Court of Patna, vide order dated May 04, 2012, stayed further proceedings in the FIR 2012 and issued notices to opposite parties. x. ***Directorate of Enforcement vs. Kapil Wadhwan and Ors. - PMLA Special Case No. 1389 of 2021***

The Directorate of Enforcement, Mumbai ("**ED Mumbai**") filed a complaint in January 2022 against Mr. Kapil Wadhwan, promoter of DHFL, as the main accused, along with few others, including the Company, under Sections 3 and 4 of the Prevention of Money Laundering Act, 2002 ("**PMLA Act**"). The complaint, bearing reference PMLA Special Case No. 1389 of 2021, was filed before the Additional Sessions Judge, Court of Sessions for Greater Bombay ("**Hon'ble Court**") for various offences under the PMLA Act.

The Company is named as one of the accused in complaint. The PMLA matter is still to come up for hearing. While the Company was involved as a broker in the transaction, the Company was not involved in layering and receiving the proceeds of crime or involved in the laundering of proceeds of the crime or as otherwise alleged in the complaint. The Company played a limited role as a corporate broker to UPPCL for its investment of ₹7,60,00,00,000 in Dewan Housing Finance Corporation Ltd. ("**DHFL**") Fixed Deposits.

The ED Mumbai is in the process of obtaining witness statements and the complaint is still to come up for hearing in the Court of Sessions for Greater Bombay. As and when the complaint is heard, the Company will make its submissions to the Hon'ble Court. If the Hon'ble Court passes an order against the Company, the Company will file an appeal against such adverse order. Since the Company was involved only as a broker in the transaction, it does not expect that the Hon'ble Court will impose a monetary liability on it and, therefore, this litigation will not have any adverse effect on the business or operations of the Company.

2. **Outstanding actions by regulatory and statutory authorities**

i. ***Order passed under section 7 A of the EPF & MP Act, 1952 in respect of M/s SMC***

The Assistant Provident Fund Commissioner, Employees Provident Fund Organisation ("**APFC**") in a matter issued a show cause notice ("**SCN**") on July 27, 1999, to SMC Credits Limited ("**SMC Credits**"), SMC Global Securities Limited ("**SMC Global Securities**"), SMC Share Brokers Limited (now amalgamated with Pulin Investments Limited, one of our Group Companies) ("**SMC Share Brokers**") (collectively the "**aggrieved parties**") for alleged contravention of provisions of Employees' Provident Fund & Miscellaneous Provisions Act, 1952 ("**the Act**"). SMC Credits on August 06, 1999, requested the APFC to revoke the SCN and decide the matter of applicability. The APFC however without deciding the matter of applicability, issued summon to SMC Credits. On appearance, SMC Credits clarified that the

aggrieved parties have different business activities with SMC Credits being a NBFC, SMC Global being a stock broking company. They also have separate staff, separate books of accounts, different composition of directorship, telephonic numbers, employees working in established only for which he is employed, etc. The APFC without examination, passed a final order dated March 14, 2001, for the applicability of the Act and upheld the validity of clubbing of the aggrieved parties. SMC Credits filed an appeal before Employees Provident Fund Appellate Tribunal, New Delhi ("**EPFAT**") to decide the matter and urging that the clubbing of the aggrieved parties was not justified. However, EPFAT did not consider the arguments and dismissed the Appeal by order dated September 14, 2005.

Finally, SMC Credits filed a writ petition (*SMC Credits Limited vs Employees' Fund Appellate Tribunal and Asst. Provident Fund Commissioner* bearing no. W.P (C) No. 2289 of 2006) against APFC and FPFAT in the Delhi High Court where it is pending for further proceedings.

For further details please refer "*Outstanding Litigations and Defaults - Litigation filed against our Group Companies – Proceedings against our Group Companies that will have a material impact on our Company*" on page 284 of this Prospectus.

ii. *Show cause notice issued by Employee State Insurance Corporation*

Our Company received a show cause notice ("**SCN**") dated August 23, 2010, issued by the Joint Director ("**JD**") of Employee State Insurance Corporation ("**ESIC**"). The SCN stated that the principal employer (our company) must pay both employer and employee contributions as specified in the Employee State Insurance Corporation Act, 1948 ("**ESIC Act**") and ESI (General) Rules, 1950 ("**ESI Rules**"). Contributions must be deposited in an authorized bank within specified periods, with returns submitted in Form-6. Failure to pay timely contributions incurs 15% annual interest. The JD alleged non-payment and non-submission of required returns by our Company and determined an amount as ₹ 31,24,133/- under section 45-A of the ESIC Act which was due ("**outstanding amount**"). Our Company was ordered to show cause within 15 days, or the ESIC will finalize the assessment and recovery with applicable interest. Consequently, our Company filed a detailed reply to the ESIC explaining that they had not contravened with any provisions of the ESIC Acts and ESI Rules and made timely and proper contributions and requested the JD to provide with the entire material on the basis of which. The JD, without considering the various objections to the show cause notice, passed an order under section 45A of the ESIC Act, holding that actual contribution as ₹ 31,06,450/- on October 18, 2010 ("**impugned order**"). Aggrieved by the impugned order our Company sought an appeal under section 45 AA of the ESIC Act with the ESIC Appellate Authority i.e Additional Commissioner and Regional Director ("**Appellate Authority**") under Section 45-A dated January 06, 2012, passed an order where the Petitioner was asked to contribute ₹ 31,06,450/- for the period of September 2005 to December 2007 ("**subsequent order**") (impugned order and subsequent order collectively referred as "**orders**").

Our Company (the "**Petitioner**") filed a petition against ESIC (the "**Respondent**") under Section 75 of the ESIC Act to challenge the impugned order as well as the subsequent order in the Tis Hazari District Court ("**Hon'ble Court**"). Subsequently, the Hon'ble Court upheld the orders. The Petitioner finally filed an appeal bearing no 15190/2023 before the Hon'ble High Court of Delhi where the matter is admitted. The matter is pending for further proceedings with the Hon'ble Court.

iii. *Notice from Collector of Stamps to SMC Global Securities Limited*

The Collector of Stamps ("**Collector**") issued a notice dated July 22, 2011, to our Company directing them to appear in person along with entire set of records in respect to broker notes issued by our Company. Our Company submitted a detailed reply to the Collector on October 12, 2011. The Collector issued another notice dated April 26, 2013, to our Company again directing them to appear along with entire set of records in respect to broker notes issued by our Company from July 2010. Subsequently there were several rounds of notices and replies. The Collector issued a notice on November 21, 2014 ("**impugned notice**") and our Company sent a reply to the impugned notice on November 28, 2014. Finally, our Company, (the "**Petitioner**"), filed the Writ Petition before Delhi High Court ("**Hon'ble High Court**") bearing W.P(C) No. 8678/2014, challenging the notice dated November 21, 2014, whereby the Ld. Collector (the "**Respondent**") called upon Our Company to appear with complete records pertaining to the Stamp Duty chargeable on the basis of the brokers' notes for the period 2010 till

date of notice. The proceedings qua the said notice were stayed by the Hon'ble High Court. The matter cannot be quantified. The Hon'ble High Court has consolidated similar proceedings initiated by the Respondent against other parties which is pending for further proceedings.

iv. *SMC Global Securities Limited versus NSE Clearing Limited & Ors. (Hon'ble Supreme Court of India- Diary No.494/2024)*

That NCL issued a show cause notice dated August 24, 2021 ("NCL SCN"), wherein it was alleged that our Company had failed to comply with various SEBI Circulars and NCL Regulations. On December 7, 2021, the NCL directed our Company to reinstate the securities wrongfully disposed off and imposed a penalty of ₹1,00,000 on our Company.

Our Company preferred an appeal before the Hon'ble Securities Appellate Tribunal ("SAT") against the NCL SCN bearing Appeal No. 757 of 2021. Similar to our appeal, other brokers also preferred an appeal to the SAT and SAT clubbed these appeals to be heard together. On December 12, 2023, SAT dismissed all appeals, thereby confirming the directions in the NCL SCN ("SAT Order").

Our Company preferred an appeal before the Hon'ble Supreme Court against the SAT order. This appeal was first listed for hearing on July 9, 2024, when it was adjourned to and the next date of hearing is to be provided. Once again, our appeal has been clubbed with those of other brokers and will be heard together.

The value of the securities as per NCL SCN was ₹ 75,00,000. If the Hon'ble Supreme Court dismisses our appeal and directs us to reinstate the securities; the maximum liability on our Company is expected to be approximately ₹ 2,45,00,000/- as per market price as on the date of this Prospectus.

For further details please refer "*Outstanding Litigations and Defaults - Details of inquiries, inspections or investigations initiated or conducted under the Securities laws - SMC Global Securities Limited*" on page 285 of this Prospectus.

3. Material Tax Proceedings

Show cause Notice issued by The Department of Trade & Taxes

The Department of Trade & Taxes ("Tax authorities") have issued a show cause notice on May 31, 2024 ("SCN") alleging that our Company have incorrectly availed input tax credit (ITC) due to discrepancies in turnover reconciliation. The Tax authorities in the SCN have alleged that our Company has claimed excess ITC without proper apportionment between taxable and exempt supplies, violating Sections 16(2)(c) and 17(1) & (2) of the CGST Act. This miscalculation, reflected in GSTR-09 return filed by our Company for the financial year 2019-2020, led to an excess ITC claim. Additionally, the ITC claimed from our suppliers who have not paid the tax to the tax authorities, further contravening Section 16(2)(c). The Tax authorities have noted these issues based in their records and issued the SCN demanding an amount of ₹ 8,61,30,682/- (including the tax discrepancy, interest and penalty amount). The Tax authorities have sought our Company's response in this matter after which further action will be decided.

SEBI order cancelling the Certificate of Registration of Pulin Comtrade Limited

The SEBI passed an order against Pulin Comtrade Limited (earlier known as SMC Comtrade Limited) ("**Pulin**") for alleged violations in connection with the National Spot Exchange Limited ("**NSEL**"). The Designated Authority ("**DA**") recommended cancelling Pulin's stockbroker registration due to its involvement in trading '*paired contracts*' on the NSEL platform, which were deemed illegal financing transactions disguised as spot trades. Pulin challenged the allegations, raising concerns about procedural delays, lack of due process, and its compliance with regulations. Pulin asserted that it merely acted as a broker, following NSEL's rules and regulations, and was not involved in NSEL's decision-making processes. Pulin also argued that it was not aware of the true nature of the '*paired contracts*' and that it had no intention of violating any regulations.

The SEBI however, rejected Pulin's arguments and upheld the DA's recommendation to cancel the registration of Pulin. The order cited Supreme Court judgments that confirmed the illegal nature of '*paired contracts*' and highlighted Pulin's active participation in facilitating these transactions ("**SEBI order**"). The SEBI emphasized that Pulin, as a registered intermediary, had a responsibility to exercise due diligence and ensure compliance with regulations. The order concluded that Pulin's involvement in '*paired contracts*' raised serious concerns about its integrity, honesty, and ethical behaviour, warranting the cancellation of its registration to protect the interests of the securities market.

The Securities Appellate Tribunal ("**SAT**"/"**Hon'ble Tribunal**") in the matter of SEBI vs B.N. Rathi Comtrade Private Limited and other connected matters (Misc Application No. 284 of 2024) (NSEL

matters) passed a stay order on March 14, 2024, and has directed SEBI a four-month duration w.e.f. March 11, 2024, for coming out with a scheme under the Securities and Exchange Board of India (Settlement Proceedings Regulations) 2018 ("**SEBI Settlement Regulations**") ("**SAT order**"). The application was disposed off while the SAT order is in place and SEBI is forming a scheme as per the SEBI Settlement regulations.

Except as disclosed below there are no proceedings initiated against our Company for Economic Offences:

Directorate of Enforcement vs. Kapil Wadhwan and Ors. - PMLA Special Case No. 1389 of 2021

The Directorate of Enforcement, Mumbai ("**ED Mumbai**") filed a complaint in January 2022 against Mr. Kapil Wadhawan, promoter of DHFL, as the main accused, along with few others, including the Company, under Sections 3 and 4 of the Prevention of Money Laundering Act, 2002 ("**PMLA Act**"). The complaint, bearing reference PMLA Special Case No. 1389 of 2021, was filed before the Additional Sessions Judge, Court of Sessions for Greater Bombay ("**Hon'ble Court**") for various offences under the PMLA Act.

The Company is named as one of the accused in complaint. The PMLA matter is still to come up for hearing. While the Company was involved as a broker in the transaction, the Company was not involved in layering and receiving the proceeds of crime or involved in the laundering of proceeds of the crime or as otherwise alleged in the complaint. The Company played a limited role as a corporate broker to UPPCL for its investment of ₹7,60,00,00,000 in Dewan Housing Finance Corporation Ltd. ("**DHFL**") Fixed Deposits.

The ED Mumbai is in the process of obtaining witness statements and the complaint is still to come up for hearing in the Court of Sessions for Greater Bombay. As and when the complaint is heard, the Company will make its submissions to the Hon'ble Court. If the Hon'ble Court passes an order against the Company, the Company will file an appeal against such adverse order. Since the Company was involved only as a broker in the transaction, it does not expect that the Hon'ble Court will impose a monetary liability on it and, therefore, this litigation will not have any adverse effect on the business or operations of the Company.

The Company has amended its Articles of Association for the purpose of appointment of Nominee Director.

Terms of carrying out due diligence

As per the SEBI Master Circular for Debenture Trustees, the Debenture Trustee is required to exercise independent due diligence to ensure that the assets of the Issuer are sufficient to discharge the interest and principal amount with respect to the debt securities of the Issuer at all times.

Accordingly, the Debenture Trustee shall exercise due diligence as per the following process, for which our Company has consented to.

- (a) The Debenture Trustee, either through itself or its agents/ advisors/ consultants, shall carry out requisite diligence to verify the status of encumbrance and valuation of the assets and whether all permissions or consents (if any) as may be required to create the security as stipulated in this Prospectus and the Applicable Laws, have been obtained. For the purpose of carrying out the due diligence as required in terms of the Applicable Laws, the Debenture Trustee, either through itself or its agents / advisors/ consultants, shall have the power to examine the books of account of the Company and to have the Company's assets inspected by its officers and/or external auditors/ valuers/ consultants/ lawyers/ technical experts/ management consultants appointed by the Debenture Trustee. It is clarified that, while the Debenture Trustee may avail services of agents / advisors/ consultants or independent professionals, the responsibility shall rest with the Debenture Trustee.
- (b) The Company shall provide all assistance to the Debenture Trustee to enable verification from the ROC, sub-registrar of assurances (as applicable), CERSAI, depositories, information utility or any other authority, as may be required, where the assets and/or prior encumbrances in relation to the assets proposed to secure the Debentures, whether owned by the Company or any other person, are registered / disclosed.
- (c) Further, in the event that existing charge holders or the concerned trustee on behalf of the existing charge holders, have provided conditional consent / permissions to the Company to create further charge on the assets, the Debenture Trustee shall also have the power to verify such conditions by reviewing the relevant transaction documents or any other documents executed between existing charge holders and the Company. The Debenture Trustee shall also have the power to intimate the existing charge holders about proposal of creation of further encumbrance and seeking their comments/ objections, if any.

- (d) Without prejudice to the aforesaid, the Company shall ensure that it provides and procures all information, representations, confirmations and disclosures as may be required in the sole discretion of the Debenture Trustee to carry out requisite diligence in connection with the issuance and allotment of the Debentures, in accordance with the Applicable Laws.

The Debenture Trustee shall have the power to either independently appoint or direct the Company to (after consultation with the Debenture Trustee) appoint intermediaries, valuers, chartered accountant firms, practicing company secretaries, consultants, lawyers and other entities in order to assist in the diligence by the Debenture Trustee. All costs, charges, fees and expenses that are associated with and incurred in relation to the diligence as well as preparation of the reports/certificates/documentation, including all out of pocket expenses towards legal or inspection costs, travelling and other costs, shall be solely borne by the Company.

Process of Due Diligence to be carried out by the Debenture Trustee

Due Diligence will be carried out as per SEBI (Debenture Trustees) Regulations, 1993, SEBI NCS Regulations, as amended, SEBI Master Circular for Debenture Trustees and circulars issued by SEBI from time to time. This would broadly include the following:

- A Chartered Accountant ("CA") appointed by Debenture Trustee will conduct independent due diligence as per scope provided, regarding security offered by the Issuer.
- CA will ascertain, verify, and ensure that the assets offered as security by the Issuer is free from any encumbrances or necessary permission / consent / NOC has been obtained from all existing charge holders.
- CA will conduct independent due diligence based on the data / information provided by the Issuer.
- CA will periodically undertake due diligence as envisaged in SEBI circulars depending on the nature of security.
- On the basis of the CA's report / finding Due Diligence certificate will be issued by Debenture Trustee and will be filed with relevant Stock Exchange.
- Due Diligence conducted is premised on data / information made available to the Debenture Trustee appointed agency and there is no onus of responsibility on Debenture Trustee or its appointed agency for any acts of omission / commission on the part of the Issuer.

While the NCD is secured as per terms of the Offer Document and charge is held in favour of the Debenture Trustee, the extent of recovery would depend upon realization of asset value and the Debenture Trustee in no way guarantees / assures full recovery / partial of either principal or interest.

Other confirmations

The Debenture Trustee undertakes that the NCDs shall be considered as secured only if the charged asset is registered with sub-registrar and Registrar of Companies or CERSAI or depository, etc., as applicable, or is independently verifiable by the Debenture Trustee.

The Debenture Trustee confirms that they have undertaken the necessary due diligence in accordance with applicable law, including the SEBI (Debenture Trustees) Regulations, 1993, read with the SEBI Master Circular for Debenture Trustees.

REGULATIONS AND POLICIES

The following description is a summary of the important laws, regulations and policies in India, which are applicable to our company or its subsidiaries. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory and statutory bodies, and the byelaws of the respective local authorities which are available in the public domain. The description of the applicable regulations set out below may not be exhaustive and are merely intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The indicative summaries are based on the current provisions of applicable law, which are subject to change, modification, or amendment by subsequent legislative, regulatory, administrative, or judicial decisions.

In addition to the regulations and policies already specified herein, environmental laws, corporate laws and various labour laws, and other laws apply to us as they do to any other Indian Company. For the purposes of this section, references to any legislation, act, regulation, rule, guideline, policy, circular, notification or clarification are to such legislation, act, regulation, rule, guideline, policy, circular, notification or clarification as amended from time to time.

Given below is a summary of certain major sector specific and relevant statutes, rules and/or policies, which are applicable to our business operations in India.

A. Laws in relation to our business:

Securities and Exchange Board of India Act, 1992

The main legislation governing the activities in relation to the securities markets in India is the SEBI Act and the rules, regulations and notifications framed thereunder. The SEBI Act was enacted to provide for the establishment of SEBI whose function is to protect the interests of investors and to promote the development of, and to regulate, the securities market. The SEBI Act also provides for the registration and regulation of the function of various market intermediaries including stockbrokers, depository participants, merchant bankers, portfolio managers, investment advisers, and research analysts.

The SEBI Act, inter alia, deals with the powers and functions of the SEBI. Broadly, functions of SEBI include (i) protecting the interest of investors investing in the securities market; and (ii) regulating and promoting the development of the securities market, by such measures as it deems appropriate. With respect to depositories, SEBI Act entrusts upon SEBI the power to (a) register depositories with SEBI; (b) regulate their business activities; and (c) bar depositories from buying or selling or dealing in securities except in accordance with the conditions of a certificate of registration obtained from SEBI according to the SEBI (Depositories and Participants) Regulation, 2018.

SEBI (Listing Obligations and Disclosure Requirements), 2015

SEBI (Listing Obligations and Disclosure Requirements), 2015 as amended from time to time, lists the continuous disclosure obligations of a listed entity for securing transparency in process and ethical capital market dealing.

Securities Contracts (Regulation) Act, 1956

The SCRA was enacted to prevent undesirable transactions in securities by regulating the business of dealing in securities, by providing for certain matters connected therewith. The SCRA provides, amongst other things, the definition of 'securities', the manner and procedure for recognition of stock exchanges, and provides recognized stock exchanges the powers to make bye laws for regulation and control of contracts for, or relating to, the purchase or sale of securities.

Securities Contracts (Regulation) Rules, 1957

The SCRR provides, among other things, the requirements with respect to listing of securities on a recognised stock exchange, the manner of submitting applications for recognition of stock exchanges, and the qualifications for membership of a recognised stock exchange. It also empowers SEBI to appoint persons to inspect the books of accounts and other documents to be maintained and preserved by every member of a recognised stock exchange, in terms of these rules.

SEBI (Stockbrokers and Sub-Brokers) Regulations, 1992

The SEBI Stockbrokers Regulations provide that no person shall act as stockbroker or clearing member unless he holds a certificate granted by SEBI under these regulations. The SEBI Stockbrokers Regulations lay down, amongst other things, the eligibility criteria, the conditions for grant of certificate to a stockbroker or clearing member and their general obligations and responsibilities. Further, every stockbroker or clearing member is required to abide by the code of conduct specified under the SEBI Stockbrokers Regulations.

Pursuant to the SEBI circular dated August 3, 2018, SEBI decided to discontinue with sub-brokers as intermediaries to be registered with SEBI. Accordingly, no fresh registration has been granted to any person to act as a sub-broker and all registered sub-brokers were given time until March 31, 2019, to migrate to act as an 'Authorised Person' and/or a trading member. A sub-broker who failed to migrate to act as an 'Authorised Person' and/or a trading member was deemed to have surrendered their registration with SEBI as a sub-broker with effect from March 31, 2019. Upon the successful migration from a sub-broker to an 'Authorised Person', the certificate of registration as a sub-broker granted by SEBI stands withdrawn.

Apart from above, our company being a stockbroker is also required to comply with all the circulars/ notifications/ guidelines at all times issued by the exchanges in this regard.

SEBI (Intermediaries) Regulations, 2008

The SEBI Intermediaries Regulations regulate intermediaries which include stockbroker, sub-broker, share transfer agent, merchant banker, portfolio manager, a trading member of a derivative segment or currency derivatives segment of a stock exchange. The Intermediaries Regulations prescribe the criteria for determining whether an applicant or the intermediary is a 'fit and proper person' for the purposes of registrations granted by SEBI under various regulations issued by SEBI.

The Intermediaries Regulations empower SEBI to take actions against persons who have been granted a certificate of registration and have failed to comply with any conditions subject to which a certificate of registration has been granted to him or contravenes any of the provisions of the securities laws or directions, instructions or circulars issued thereunder. The actions include (a) disposing of the proceedings without any adverse action, (b) suspension of certificate of registration for a specified period, (c) cancellation of certificate of registration, (d) prohibition of taking up new assignment or contract or launch a new scheme for a specified period, debarment of a branch or an office from carrying out activities or an officer from being employed or associated with any registered intermediary or other registered person for the period specified in the order, or (f) issuance of a regulatory censure to the notice. Further the Intermediaries Regulations provide for special procedure for action on expulsion from membership of the stock exchange(s) or clearing corporation(s) or termination of all the depository participant agreements with depository(ies).

Pursuant to the SEBI (Regulatory Sandbox)(Amendment) Regulations, 2020, SEBI may exempt any person or class of persons from the operation of all or any of the provisions of these regulations for a period as may be specified but not exceeding 12 months, for furthering innovation relating to testing new products, processes, services, business models, etc. in live environment of regulatory sandbox in the securities markets. Under this regulatory sandbox framework, entities regulated by SEBI shall be granted certain facilities and flexibility to experiment with fintech solutions in a live environment and on limited set of customers for a limited time frame. These features shall be fortified with necessary safeguards for investor protection and risk mitigation.

SEBI Intermediaries Circular on Conflicts

The SEBI Intermediaries Circular on Conflicts prescribes comprehensive guidelines to intermediaries and their associated persons for elimination of conflicts of interest. It prescribes guidelines for avoiding, dealing with, or managing, conflict of interest, including, developing internal procedures, maintaining high standards of integrity in conduct of business and developing an internal code of conduct to govern operations, appropriately disclosing potential sources or areas of conflict to clients and formulating standards of appropriate conduct in performance of their activities, which are in addition to the codes of conduct prescribed under relevant regulations governing intermediaries.

SEBI (Depositories and Participants) Regulations, 2018

The SEBI Depositories Regulations provide, amongst other things, the manner of application for registration as a depository and a participant with SEBI. It provides the criteria for determining "fit and proper person" for the purposes of being considered as a depository. Further, the Depositories Regulations provide for the prescribed equity shareholding of a sponsor, a person or a participant in the capital of the depository. All depositories that have been granted a certificate of registration are required to make an application to SEBI for commencement of business. The SEBI Depositories and Participants Regulations provide for rights and obligations of depositories, participants, issuers, manner of surrender of certificate and creation of pledge. It further prescribes the mechanism for investor protection, evaluation of internal systems, manner for handling share registry work and liability of a participant or a depository in case of default.

SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021

SEBI, on August 9, 2021, notified the SEBI (Issue and Listing of Non-Convertible Securities) Regulations, 2021 ("**SEBI NCS Regulations**"), thereby merging the SEBI (Issue and Listing of Debt Securities) Regulations ("**SEBI Debt Regulations**") and the SEBI (Non-Convertible Redeemable Preference Shares) Regulations, 2013 ("**NCRPS Regulations**") into a single regulation and repealing the SEBI Debt Regulations and the NCRPS Regulations. The SEBI NCS Regulations have aligned the extant regulations with the provisions of the Companies Act 2013, and incorporate the enhanced obligations of debenture trustees, informal guidance and provisions of circulars issued by SEBI. The SEBI NCS Regulations apply to: (i) the issuance and listing of debt securities and non-convertible redeemable preference shares (NCRPS) by an issuer by way of public issuance; (ii) issuance and listing of non-convertible securities by an issuer issued on private placement basis which are proposed to be listed; and (iii) listing of commercial paper issued by an issuer in compliance with the guidelines framed by the RBI.

In addition to collating the existing provisions of the erstwhile regulations, the SEBI NCS Regulations, also provide for, change in disclosure requirements for financial and other information from past five years to three years; parameters for identification of risk factors; removal of restriction of four issuances in a year through a single shelf prospectus; and filing of shelf prospectus post curing of defaults.

SEBI (Prohibition of Insider Trading) Regulations, 2015

The Insider Trading Regulations prohibits an insider from trading in securities that are listed or proposed to be listed on a stock exchange when in possession of unpublished price sensitive information, relating to a company or securities listed or proposed to be listed. 'Insider' includes a connected person or a person in possession of unpublished price sensitive information. An insider can trade in the securities of the Company by formulating a trading plan and presenting it to the compliance officer, designated by the Board of Directors for ensuring compliance with the Insider Trading Regulations, for his approval and public disclosure pursuant to which trades may be carried out by the insider in accordance with the trading plan. Every person on being appointed as a key managerial person or a director of the Company or upon becoming a promoter or member of promoter group, shall disclose the holding of securities of the Company on the date of appointment or becoming a promoter, to the Company within 7 (seven) days from such appointment or becoming promoter. Further, every promoter, member of the promoter group, designated person and director of a company shall disclose to the Company the number of such securities acquired or disposed of within 2 (two) trading days of such transaction if the value of the transaction or series of transactions over any calendar quarter exceeds a traded value of 10 (ten) lakhs or such other

value as may be specified. Subsequently every Company shall notify the stock exchange on which such securities are listed within 2 (two) days of receipt of information pertaining to acquisition or disposal of securities of the Company.

SEBI Research Analysts Regulations, 2014

The SEBI Research Analysts Regulations ("**RA Regulations**") provide that no person shall act or hold itself out as a research analyst or a research entity unless such person holds a certificate granted by SEBI under these regulations. The RA Regulations lay down, amongst other things, the eligibility criteria, conditions for granting of certificate to research analyst and its general obligations and responsibilities. Further, every research analyst is required to abide by the code of conduct as specified under the RA Regulations.

SEBI Investment Advisers Regulations, 2014

SEBI IA Regulations as amended from time to time, inter alia specify conditions for registration, certification, capital adequacy, risk profiling and suitability, disclosures to be made, code of conduct, records to be maintained, manner of conducting inspection etc. with respect to Investment Advisers (as defined under the IA Regulations).

SEBI Certification of Associated Persons Regulations, 2007

The SEBI Certification of Associated Persons Regulations provide that any category of associated persons (as defined in terms of these regulations) may be required to obtain the requisite certifications for engagement or employment with intermediaries by SEBI. Through several notifications, SEBI has required approved users and sales personnel of trading members in currency derivative and equity derivative segments, distributors of mutual fund products, key managerial personnel of merchant bankers, compliance officers of intermediaries, research analysts and certain persons associated with stockbrokers, trading members or clearing members to obtain the prescribed certification from National Institute of Securities Markets.

SEBI Portfolio Managers Regulations, 2020

A portfolio manager is a body corporate which, pursuant to a contract or arrangement with a client, advises or directs or undertakes on behalf of the client (whether as a discretionary portfolio manager or otherwise), the management or administration of a portfolio of securities or the client's funds. Portfolio managers are registered and regulated under SEBI (Portfolio Managers) Regulations, 2020. According to SEBI guidelines, portfolio management services (PMS) can be offered only by SEBI registered entities.

SEBI (Merchant Bankers) Regulations, 1992

A merchant banker is one who is engaged in issue management either making arrangements regarding selling, buying or subscribing to securities or acting as manager, consultant, adviser or rendering corporate advisory service in relation to such issue management. The SEBI Merchant Banker regulations prescribed the criteria for registration, procedure for registration, general obligations and responsibilities of a Merchant Banker.

SEBI Mutual Funds Regulations and AMFI Guidelines

The SEBI Mutual Funds Regulations govern the law pertaining to the business of mutual funds in India. SEBI has made it mandatory for all mutual funds to appoint agents/distributors who are registered with Association of Mutual Funds in India ("AMFI"). In case of firms/companies, the requirement of certification from National Institute of Securities Markets is made applicable to the persons engaged in sales or distribution of mutual fund products.

AMFI has issued guidelines for intermediaries ("**AMFI Guidelines**") in consonance with the SEBI Master Circular for Mutual Funds dated August 24, 2020. The primary objective of the AMFI Guidelines

is to ensure that mutual fund intermediaries do not use unethical means to sell, market or induce any investor to buy units of their scheme(s) and mobilize funds on the strength of professional fund management and good practices. The AMFI Guidelines are mandatory, and all such intermediaries are required to strictly comply with the code of conduct prescribed by AMFI.

SEBI Circular on Mutual Fund Distributors

SEBI by way of its circulars no. CIR No.10 / 310 /01 dated September 25, 2001, MFD/CIR/20/23230/2002 dated November 28, 2002, SEBI/MFD/CIR No.01/6693/03 dated April 3, 2003, SEBI/IMD/CIR No.2/254/04 dated February 4, 2004 and Cir / IMD / DF / 5 / 2010 dated June 24, 2010, has amongst others directed that (a) agents/ distributors of mutual fund units are required to obtain certification from the National Institute of Securities Markets (“NISM”) and registration from AMFI, (b) AMFI shall create a unique identity number of the employee/ relationship manager/ sales person of the distributor interacting with the investor for the sale of mutual fund products, in addition to the AMFI Registration Number (“ARN”) of the distributor.

SEBI by way of its circular no MFD/CIR/ 06/210/2002 dated June 26, 2002, provided that all distributors and agents of mutual funds units are required to follow the code of conduct for intermediaries of mutual funds provided therein.

SEBI by way of circular no. SEBI/IMD/DF/13/2011 dated August 22, 2011, has provided guidance on the due diligence process to be conducted by AMCs on certain categories of distributors.

SEBI by way of its circular on “Facilitating transaction in mutual fund schemes through the stock exchange infrastructure” bearing reference number CIR/IMD/DSA/32/2013 dated October 4, 2013, has permitted a mutual fund distributor registered with the Association of Mutual Funds in India (“AMFI”) and who has been permitted by BSE to be eligible to use the stock exchanges’ infrastructure, to purchase and redeem mutual fund units directly from mutual fund and asset management companies (AMC), in addition to the existing channels of mutual funds distribution. The recognized stock exchange shall grant permission to a mutual fund distributor on a request made by a AMFI registered mutual fund distributor on the basis of criteria including fee, code of conduct as laid down by AMFI. Additionally, it clarified that a mutual fund distributor shall not handle payout and pay in of funds as well as units on behalf of investors. The recognized stock exchange shall put necessary system in place to ensure that pay in will be directly received by recognized clearing corporation and payout will be directly made to investor account. In the same manner, units shall be credited and debited directly from the demit account of investors. SEBI has also by way of its circulars bearing reference no. SEBI/HO/MRD/DSA/CIR/P/2016/113 dated October 19, 2016 and SEBI/HO/MRD1/DSAP/CIR/P/2020/29 dated February 26, 2020, permitted (a) investment advisers registered with SEBI to use infrastructure of the recognized stock exchanges to purchase and redeem mutual fund units directly from mutual fund and AMCs, on behalf of their clients, including direct plans; and (b) investors to directly access infrastructure of the recognized stock exchanges to purchase and redeem mutual fund units directly from mutual fund and AMCs.

SEBI by its circular on “Categorization and Rationalization of Mutual Fund Schemes”, bearing reference number SEBI/HO/IMD/DF3/CIR/P/2017/114 dated October 6, 2017 (“SEBI Circular”) has specified the framework for categorization and rationalization of mutual fund schemes. This circular is applicable to the open-ended schemes of the mutual funds, which are either existing, or are in the process of being launched, or of the scheme document has been filed/ will be filed with SEBI.

SEBI by its circular on “Asset Allocation of Multi Cap Funds”, bearing reference number SEBI/HO/IMD/DF3/CIR/P/2020/172, dated September 11, 2020, has partially modified the scheme characteristics of multi cap funds, such that requirement for minimum investment in equity and equity related instruments has been increased from 65 per cent. To 75 % of the total assets, with minimum investment of 25 per cent. Of the respective total assets in equity and equity related instruments of large cap, mid cap and small cap companies, each. Further, SEBI by its circular on “Introduction of “Flexi Cap Fund” as a new category under Equity Schemes”, bearing reference number SEBI/HO/IMD/DF3/CIR/P/2020/228, dated November 6, 2020, has introduced a new category of scheme named “Flexi Cap Fund” under equity schemes which requires to make a minimum investment

in equity and equity related instruments of 65% of total assets of the scheme and will be an open ended dynamic equity scheme investing across large cap, mid cap, small cap stocks.

SEBI by its circular on “Total Expense Ratio (TER) and Performance Disclosure for Mutual Funds” bearing reference number SEBI/HO/IMD/DF2/CIR/P/2018/137, dated October 22, 2018 provided that all scheme related expenses including commission paid to distributors is required to necessarily be paid from the scheme only within the regulatory limits and not from the books of the AMC, its associate, sponsor, trustee or any other entity through any route and that the AMCs should adopt full trail model of commission in all schemes without payment of any upfront commission to mutual fund distributors. Further, SEBI by its circular on “Review of Commission, Expenses, Disclosure norms etc. – Mutual Fund” bearing reference number SEBI/HO/IMD/DF2/CIR/P/2019/42 dated March 25, 2019, carved out for upfronting of trail commission for inflows through systematic investment plans from new investors to the mutual fund industry.

AMFI Directions

AMFI issues circulars from time to time to its members on various aspects relating to distribution of mutual fund schemes by distributors.

Regulations governing NBFCs

NBFCs are primarily governed by the RBI Act, the Master Direction –Reserve Bank of India (Non-Banking Financial Company –Scale Based Regulation) Directions, 2023, (Updated as at March 21,2024), Peer to Peer Lending Platform (Reserve Bank) Directions, 2017, Master Direction -Non-Banking Financial Company -Account Aggregator (Reserve Bank) Directions, 2016, and Reserve Bank Commercial Paper Directions, 2017, each as amended, modified and supplemented from time to time. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time. The major regulations governing our Company are detailed below:

SBR Framework:

RBI issued a Scale Based Regulation (SBR) through a Master Direction updated as at March 21, 2024: A Revised Regulatory Framework for NBFCs (“SBR Framework”), whereby NBFCs have been categorized into following four layers based on their size, activity, and perceived riskiness by the RBI:

- 1) NBFC-Base Layer(“NBFC-BL”);
- 2) NBFC-Middle Layer(“NBFC-ML”);
- 3) NBFC-Upper layer(“NBFC-UL”); and
- 4) NBFC-Top Layer(“NBFC-TL”)

Pursuant to the SBR Framework, the criteria of asset size of non-deposit NBFCs for classification as non-systemically important has been increased from ₹5 billion to ₹10 billion (“NBFC-ND”). The SBR Framework Master Directions came into effect from October 01, 2022, and was further amended from time to time, pursuant to which references to NBFC-ND shall mean NBFC-BL and all references to NBFC-D and NBFC-ND-SI shall mean NBFC-ML or NBFC-UL, as the case may be. The NBFC-BL consist of (a) non-deposit taking NBFCs below the asset size of ₹1,00,000 lakh and (b) NBFCs undertaking the following activities: (i) NBFC – Peer to Peer Lending Platform (NBFC-P2P), (ii) NBFC-Account Aggregator (NBFC-AA), (iii) Non-Operative Financial Holding Company (NOFHC), and (iv) NBFCs not availing public funds and not having any customer interface. The NBFC-ML consist of (a) all deposit-taking NBFCs (“NBFC-Ds”), irrespective of asset size, (b) non-deposit taking NBFCs with an asset size of ₹1,00,000 lakh and above, and (c) NBFCs undertaking the following activities: (i) Standalone Primary Dealers (SPDs), (ii) Infrastructure Debt Fund - Non-Banking Financial Companies (IDF-NBFCs), (iii) Core Investment Companies (CICs), (iv) Housing Finance Companies (HFCs), and (v) Infrastructure Finance Companies (NBFC-IFCs). The NBFC-UL consist of those NBFCs which are specifically identified by RBI as warranting enhanced regulatory requirement based on a set of parameters and scoring methodology as provided in appendix to SBR Framework. The top ten eligible NBFCs in terms of their asset size shall always reside in the upper layer, irrespective of any other factor. The NBFC-TL will ideally remain empty. This layer can get populated if RBI is of the opinion that there

is a substantial increase in the potential systemic risk from specific NBFC-UL. Such NBFCs shall move to the NBFC-TL.

Categorization of NBFCs carrying out specific activity

As the regulatory structure envisages scale-based as well as activity-based regulation under the SBR Framework, the following prescriptions shall apply in respect of the NBFCs:

- i) NBFC-P2P, NBFC-AA, NOFHC, and NBFCs without public funds and customer interface will always remain in the base layer of the regulatory structure.
- ii) ii) NBFC-D, CIC, IFC, and HFC will be included in the middle layer or the upper layer (and not in the base layer), as the case may be. SPD and IDF-NBFC will always remain in the middle layer. (to be confirmed with RBI SBR circular)
- iii) The remaining NBFCs, viz., Investment and Credit Companies (NBFC-ICC), Micro Finance Institution (NBFC-MFI), NBFC-Factors, and Mortgage Guarantee Companies (NBFC-MGC) could lie in any of the layers of the regulatory structure depending on the parameters of the scale-based regulatory framework.
- iv) Government-owned NBFCs shall be placed in the base layer or middle layer, as the case may be, and will not be categorized as upper layer unless notified by the Government.

Master Direction - Reserve Bank of India (Non-Banking Financial Company–Scale Based Regulation) Directions, 2023 dated October 19, 2023 (as updated from time to time) applicable to all NBFCs (both Deposit taking and Non-Deposit taking).

The NBFCs are governed by updated Master Direction - Reserve Bank of India (Non-Banking Financial Company–Scale Based Regulation) Directions, 2023 dated October 19, 2023 (as updated from time to time) applicable to all NBFCs (both Deposit taking and Non-Deposit taking) (“Master Directions-NBFCs-SBR”).

IRDAI (Registration of Corporate Agents) Regulations, 2015

Corporate agents are granted a certificate of registration by IRDAI in accordance with the IRDAI (Registration of Corporate Agents) Regulations. A corporate agent is permitted to act as a corporate agent for a maximum of three life, three general and three health insurers and is required to adopt a board policy on the same. The corporate agents are required to adhere to a code of conduct on soliciting and servicing of insurance policies as prescribed by these regulations. IRDAI has the power to inspect records of corporate agents, and review performance of their activities and initiate disciplinary action, in case of deficiencies.

IRDAI (Insurance Brokers) Regulations, 2018

The Insurance Regulatory and Development Authority of India (**IRDAI**) notified the IRDAI (Insurance Brokers) Regulations, 2018 (**Brokers Regulations**) on January 12, 2018. The Brokers Regulations provides the framework for the governance and regulation of insurance brokers- who act as significant intermediaries in the insurance sector. The brokers are required to adhere to a code of conduct which specifically provide that insurance brokers are required to obtain a “written mandate” from the client (i.e. the insured) to represent the client before the insurer and must communicate the grant of cover to the client after effecting insurance.

Real Estate (Regulation and Development) Act, 2016

RERA (Real Estate Regulatory Authority) was introduced in the year 2016. The purpose of the RERA Act, 2016, is to protect the homebuyer and increase the investments in the real estate industry. The RERA law is implemented in all the states to regulate the real estate sector. The law facilitates fast and effective dispute resolution.

The RERA Act makes it mandatory to register a project with RERA, for the launch of any residential or commercial real estate project where the land area is more than 500 square meters. Registering with RERA helps in creating transparency in the implementation of the projects launched. We are registered

under RERA in 9 states namely Delhi, Haryana, Punjab, Himachal Pradesh, Uttarakhand, Uttar Pradesh, Rajasthan, Karnataka and Maharashtra.

Stock Exchange Rules, Regulation, Byelaws and Notices issued from time to time

Being a trading and clearing member of BSE and NSE, we are governed by the rules, regulations, bye laws and notices of such exchanges, as amended from time to time. The relevant exchange is empowered under the SCRA to make its own bye laws and rules to deal with its members and regulations to govern/regulate the relations between the members and the constituents. Further, the SEBI Master Circular dated December 16, 2016, regarding stock exchanges and clearing corporations provides for, amongst other things, the manner of trading, trading software and technology, settlement exchange traded derivatives, the administration of stock exchanges and client-broker dispute resolution mechanism. Stock exchanges may undertake inspection of stockbrokers based on the inspection policy specified by SEBI.

Prevention of Money Laundering Act, 2002

The Prevention of Money Laundering Act, 2002 ("PMLA") was enacted to prevent money laundering and to provide for confiscation of property derived from, or involved, in money laundering, and for incidental matters connected therewith. Section 12 of the PMLA inter alia casts certain obligations on reporting entities (as defined under the PMLA) in relation to preservation of records and reporting of transactions.

In addition to the above, the following directions and circulars issued by the RBI are also relevant to our business:

- a. Directions on Managing Risks and Code of Conduct in Outsourcing of Financial Services by NBFCs, 2017 dated November 9, 2017;
- b. Circular dated June 24, 2021 on Declaration of Dividends by NBFCs;
- c. RBI's Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances – Clarifications dated November 12, 2021;
- d. RBI's Prompt Corrective Action Framework for NBFCs dated December 14, 2021;
- e. Master Direction on External Commercial Borrowings, Trade Credits and Structured Obligations dated March 26, 2019;
- f. Loans and Advances – regulatory restrictions – NBFCs, dated April 19, 2022 as amended;
- g. Registration of Factors (Reserve Bank) Regulations, 2022

Information Technology Act, 2000 and the rules made thereunder

The IT Act has been enacted with the intention of providing legal recognition to transactions that are undertaken electronically. The IT Act facilitates electronic commerce by recognizing contracts concluded through electronic means, protects intermediaries in respect of third-party information made available to or hosted by them and creates liability for failure to protect sensitive personal data. The IT Act has created a mechanism for authenticating electronic documentation by means of digital signatures and provides for civil and criminal liability including fines and imprisonment for various offences. By means of an amendment in 2008, the IT Act legalized the validity of contracts formed through electronic means. The IT Act prescribes various offences, including those offences relating to unauthorized access of computer systems, unauthorized disclosure of confidential information and frauds emanating from computer applications. The IT Act also empowers the Government of India to intercept, monitor or decrypt any information in the furtherance of sovereignty, integrity, defence and security of India. The IT Act empowers the Government of India to formulate rules with respect to electronic signatures, reasonable security practices and procedures and sensitive personal data.

In exercise of this power, the Department of Electronics and Information Technology under the Ministry of Communications & Information Technology, Government of India, promulgated the Use of Electronic Records and Digital Signatures Rules, 2004, Digital Signature (End Entity) Rules, 2015, and Information Technology (Certifying Authorities) Rules, 2000. These rules govern the issuance and creation of digital and electronic signatures, their verification, and issuance of license to issue digital signature certificates.

Digital Personal Data Protection Act, 2023

The Parliament passed the Digital Personal Data Protection Act, 2023 ("**DPDP Act**") on August 9, 2023. The DPDP Act, once notified, will replace the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act seeks to balance the rights of individuals to protect their personal data, with the need to process personal data for lawful and other incidental purposes. The DPDP Act provides that personal data may be processed only for a lawful purpose after obtaining the consent of the individual and a notice has to be given before seeking consent. It further imposes certain obligations on data fiduciaries including (i) make reasonable efforts to ensure the accuracy and completeness of data, (ii) build reasonable security safeguards to prevent a data breach, (iii) inform the Data Protection Board of India (the "**DPB**") and affected persons in the event of a breach, and (iv) erase personal data as soon as the purpose has been met and retention is not necessary for legal purposes (storage limitation). In case of government entities, storage limitation and the right of the data principal to erasure will not apply. The Central Government will establish the DPB. Key functions of the DPB include: (i) monitoring compliance and imposing penalties, (ii) directing data fiduciaries to take necessary measures in the event of a data breach, and (iii) hearing grievances made by affected persons. The DPB members will be appointed for two years and will be eligible for re-appointment. The Central Government will prescribe details such as the number of members of the DPB and the selection process.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("SHWW Act**")**

SHWW Act provides for the protection of women at work place and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behavior namely, physical contact and advances or a demand or request for sexual favors or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee.

(ii) Share capital and variation of rights

- (1)
 - (a) The Authorized share capital of the Company is as stated in Clause V of the Memorandum of Association of the Company and the same may be divided in any manner as may be thought expedient.
 - (b) Subject to the provisions of the Act and these Articles, the shares in the capital of the company shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may, from time to time, think fit.
- (2)
 - (i) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after incorporation, in case of subscribers to the memorandum or after allotment or within one month after the application for the registration of transfer or transmission or within such other period as the conditions of issue shall be provided: -
 - (a) One certificate for all his shares without payment of any charges; or
 - (b) Several certificates, each for one or more of his shares, upon payment of twenty rupees for each certificate after the first.
 - (ii) Every certificate shall be under the seal and shall specify the shares to which it relates and the amount paid-up thereon.
 - (iii) In respect of any share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.
- (3)
 - (i) If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of twenty rupees for each certificate.
 - (ii) The provisions of Articles (2) and (3) shall *mutatis mutandis* apply to debentures of the company.
- (4) Except as required by law, no person shall be recognized by the company as holding any share upon any trust, and the company shall not be bound by, or be compelled in any way to recognize (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these regulations or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.
- (5)
 - (i) the company may exercise the powers of paying commissions conferred by sub-section (6)

of section 40, provided that the rate per cent. or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rule made thereunder.

- (ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.
 - (iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares.
- (6) (i) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.
- (ii) To every such separate meeting, the provisions of these regulations relating general meetings shall *mutatis mutandis* apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.
- (7) The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further share ranking *pari passu* therewith.
- (8) Subject to the provisions of section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the company before the issue of the shares may, by special resolution, determine.

Lien

- (9) (i) **The company shall have a first and paramount lien—**
- (a) On every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and
 - (b) on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the company:
- Provided that the Board of directors may at any time declare any share to wholly or in part exempt from the provisions of this clause.
- (ii) The company's lien, if any, on a share shall extend to all dividend bonuses declared from time to time in respect of such shares.
- (10) The company may sell, in such manner as the Board thinks fit, any shares on which the company has a lien:
- Provided that no sale shall be made—
- (c) Unless a sum in respect of which the lien exists is presently payable; or
 - (d) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.
- (11) (i) To give effect to any such sale, the Board may authorize some person to transfer the shares sold to the purchaser thereof.
- (ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.

- (iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
- (12)
 - (i) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.
 - (ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.
- (iii) Calls on shares**
- (13)
 - (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times.
 - (ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.
 - (iii) A call may be revoked or postponed at the discretion of the Board
- (14) A call shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed and may be required to be paid by installments.
- (15) The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
- (16)
 - (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent per annum or at such lower rate, if any, as the Board may determine.
 - (ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.
- (17)
 - (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.
 - (ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
- (18) The Board—
 - (a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and
 - (b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the company in general meeting shall otherwise direct, twelve per cent. per annum, as may be agreed upon between the Board and the member paying the sum in advance.
- (iv) Transfer of shares**
- (19)
 - (i) The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.

- (ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.
 - (iii) No Transfer to any insolvent or to person of unsound mind:

The Board of Directors of the Company shall register or acknowledge any transfer or transmission of shares of the Company, not exceeding 10% shares of the Company held by the Promoter / Promoter Group, made/received pursuant to enforcement of rights under or in connection with any agreement arrangement entered into by the share-holders of the Company with any lender of such share-holders or creditors of the Company, in whose favour pledge/other arrangement over shares of the Company is credited (including but not limited to such lenders' or creditors' trustees) and with or without confirmation or undertaking issued at any time by the Company to support any such lending and security creation or arrangement transaction, shall be binding to the Company and then prevailing Directors and management of the Company at the time of enforcement of such security and shares.
- (20) The Board may, subject to the right of appeal conferred by section 58 decline to register—
- (a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve; or
 - (b) Any transfer of shares on which the company has a lien.
- (21) **The Board may decline to recognize any instrument of transfer unless—**
- (a) The instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;
 - (b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and
 - (c) The instrument of transfer is in respect of only one class of shares.
- (22) On giving not less than seven days' previous notice in accordance with section 91 and rules made there under, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:
- Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.
- (v) **Transmission of shares**
- (23) (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a shareholder, shall be the only persons recognized by the company as having any title to his interest in the shares.
 - (ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.
 - (24) (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board, elect, to be registered himself as holder of the share.
 - (25) A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder

of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have complied with.

(vi) Forfeiture of shares

- (26) If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.
- (27) The notice aforesaid shall—
- (e) Name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
- (f) State that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.
- (28) If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect
- (29) (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.
- (ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.
- (30) (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.
- (ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.
- (31) (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;
- (ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;
- (iii) The transferee shall thereupon be registered as the holder of the share; and
- (iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.
- (32) The provisions of these regulations as to forfeiture shall apply in the case of nonpayment of any sum

which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

(vii) Alteration of capital

(33) The company may, from time to time, by ordinary resolution increase the share capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.

(34) Subject to the provisions of the Act, the company may, by ordinary resolution, —

- (a) Increase the share capital by such sum, to be divided into shares of such amount as it thinks expedient
- (b) Consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;
- (c) Convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;
- (d) Sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;
- (e) Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

(35) Where shares are converted into stock—

- (a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit:

Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

- (b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.
- (c) Such of the regulations of the company as are applicable to paid-up shares shall apply to stock and the words “share” and “shareholder” in those regulations shall include “stock” and “stock-holder” respectively.

(36) The company may, by special resolution, reduce in any manner and with, and subject to, any incident authorized and consent required by law: -

- (a) Its share capital and /or;
- (b) Any capital redemption reserve account; or
- (c) Any share premium account.
- (d) any other reserve in the nature of share capital.

(viii) Capitalization of profits

(37) (i) The company in general meeting may, upon the recommendation of the Board, resolve:

- (a) that it is desirable to capitalize any part of the amount for the time being standing to the credit of any of the company’s reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and

- (b) That such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.
- (ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards:
 - (A) paying up any amounts for the time being unpaid on any shares held by such members respectively;
 - (B) paying up in full, unissued shares of the company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;
 - (C) Partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B);
 - (D) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the company as fully paid bonus shares;
 - (E) The Board shall give effect to the resolution passed by the company in pursuance of this regulation.
- (38) (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall—
 - (a) Make all appropriations and applications of the undivided profits resolved to be capitalized thereby, and all allotments and issues of fully paid shares if any; and
 - (b) Generally do all acts and things required to give effect thereto.
- (ii) The Board shall have power—
 - (a) To make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable in fractions; and
 - (b) to authorize any person to enter, on behalf of all the members entitled thereto, into an agreement with the company providing for the allotment to them respectively, credited as fully paid-up, of any further shares to which they may be entitled upon such capitalization, or as the case may require, for the payment by the company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalized, of the amount or any part of the amounts remaining unpaid on their existing shares;
- (iii) Any agreement made under such authority shall be effective and binding on such members.
- (ix) **Buy-back of shares**
- (39) Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the company may purchase its own shares or other specified securities.
- (x) **General meetings**
- (40) All general meetings other than annual general meeting shall be called extraordinary general meeting.
- (41) (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.
- (ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.
- (xi) **Proceedings at general meetings**

- (42) (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.
- (ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.
- (43) The chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the company.
- (44) If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one of their members to be Chairperson of the meeting.
- (45) If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.
- (46) A person may be appointed or reappointed as the chairperson of the company as well as the Managing Director or Chief Executive Officer of the company at the same time.
- (xii) **Adjournment of meeting**
- (47) (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.
- (ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
- (iii) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
- (iv) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.
- (xiii) **Voting rights**
- (48) Subject to any rights or restrictions for the time being attached to any class or classes of shares,
 - (a) on a show of hands, every member present in person shall have one vote; and

Independent Auditor's Report

To the Members of SMC Global Securities Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **SMC Global Securities Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matter

Key audit matter is those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in our opinion, there is no any such matter to be reported by us.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Business Responsibility Report and Report on Corporate Governance and

shareholder information, but does not include the standalone financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A, a statement on the matters specified in the paragraph 3 and 4 of the order.
- 2 As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books read with the matters stated in the paragraph 2(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on March 31, 2024, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. The modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2 (i)(VI) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Sec 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- I. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note no 34 to the standalone financial statements.
- II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses, and
- III. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- IV. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note 40(xv) to the Financial Statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in Note 40 (xv) to the Financial Statements, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- V As stated in Note 20 to the standalone financial statements: -
 - (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
 - (b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.
 - (c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

- VI Based on our examination which included test checks, the Company, has used accounting software for maintaining its books of account for the financial year ended 31 March 2024, which has a feature of recording audit trail (edit log) facility except that no audit trail enabled at the database level for accounting software relating to payroll and operations. Further, the audit trail facility has been operating throughout the year for all relevant transactions recorded in the software. During the course of our audit, we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014, as amended is applicable for the Company only w.e.f. 1 April 2023, therefore, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014, as amended, on preservation of audit trail as per the statutory requirements for record retention is not applicable for financial year ended 31 March 2024.

Annexure - B to the Auditors' Report

Report on the Internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **SMC Global Securities Limited** ("the Company") as of 31st March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: -

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31st March, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Further, the company is also a Trading-cum-Clearing member of the Multicommodity Exchange of India Ltd (MCX) and National Commodity Exchange of India Ltd. (NCDEX) in commodity segment of the Exchanges. The Company also holds depository participants registration of Central Depository Services (India) Limited (CDSL), National Securities Depository Limited (NSDL) and Comtrack. Further the company is also SEBI registered Research Analyst, Portfolio management service (PMS) and AMFI registered mutual fund distributor. The company is regulated by SEBI. The company has ten subsidiaries and one joint venture.

The company offers a wide range of services to meet client's needs including brokerage services, clearing services, depository services, distribution of third party financial products such as mutual fund and initial public offerings, fund management services, research support services and also engages in proprietary & commodity trading.

1.02 Statement of compliance

These standalone financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

1.03 Basis of preparation

These standalone financial statements are prepared under the historical cost convention on the accrual basis except for certain assets and liabilities which are measured at fair value / amortised cost / transaction price as stated in respective accounting policies / notes.

Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest lakhs, unless indicated otherwise

1.04 Use of estimates

The preparation of the financial statements, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Areas involving critical estimates and Judgements are:

- Estimation of useful lives of property, plant and equipment (Refer note no. 2.02 below)
- Estimation of current tax expenses (Refer note no. 2.04 below)
- Estimation of allowance for impairment of financial assets (Refer note no.2.06 below)
- Estimation of employee defined benefit obligations (Refer note no.2.07 below)
- Estimation of discount rate for lease asset (ROU assets) and lease liabilities (Refer note no. 2.08)

2 Material Accounting Policies information

2.01 Revenue recognition

The company derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of third party financial products such as mutual fund and initial public offerings, fund management services, research support services and also engages in proprietary & commodity trading.

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. Revenue on commission/brokerage on sale made on behalf of principals is accounted for at the time of purchase/sale made on their behalf.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the company but pending to be billed.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

(iii) **Depository services:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Ind AS 115 Revenue from Contract with Customer is not applicable on this business and hence the revenue is recognised as per Ind AS 109 Financial Instruments i.e. as and when trade is executed. Refer to the Policy on Financial Instruments w.r.t regular way purchase and sales of Financial Assets.

Commodity trading: In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(v) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets. For credit impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets. It also comprises of Interest on delayed payment/margin trading facility.

(vi) **Portfolio and Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(vii) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(viii) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

2.02 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. The company depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

Office building	60 years
Computer equipments	3-6 years
Office equipments	5 years
Furniture and fixtures	10 years
Vehicles	8-10 years

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013.

Addition to the, property plant and equipment have been accounted only when the item is in location and condition necessary for its use. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the assets not ready for use are disclosed under 'Capital work-in-progress'.

2.03 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

Computer software	40%
Trade mark logo	40%

2.04 Income tax

The income tax expense comprises of current and deferred tax.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

SMC GLOBAL SECURITIES LIMITED

Notes to standalone financial statements

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off current tax assets against current tax liabilities & the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

2.05 Investment in subsidiaries

Investment in subsidiaries are measured at cost less accumulated impairment, if any.

The Company assesses at the end of each reporting period if there are any indications of impairment on such investments. If so, the Company estimates the recoverable amount of the investment and provides for impairment.

2.06 Financial instruments

(a) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are adjusted from the fair value of financial asset or financial liabilities on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in Statement of profit and loss.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified at amortised cost are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are measured at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit and loss.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward looking information.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Simplified approach-The company follows 'simplified approach' for recognition of impairment loss allowance on loans, other receivables and other financial assets. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The company uses a provision matrix to determine impairment loss allowance. The provision matrix is based on its historically observed default rates over the expected life of financial assets and is adjusted for forward looking estimates. At every reporting date, the historically observed default rates are updated for changes in the forward looking estimates.

2.07 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a employee benefit expense in profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs.

Defined benefit obligation (DBO) is evaluated by actuary based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Remeasurement of the net defined benefit liability / asset recognised in OCI are presented as a separate component in SOCE.

(c) Short-term employee benefits

Short term benefits comprises of Salary with allowances, Incentives, Bonus, Personal accident and Medical benefit policies etc. are expensed as the related service is provided.

(d) Other long-term employee benefits

Liability for leave encashment

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the year in which they arise. The valuation of leave encashment are obtained from actuary.

2.08 Leases

The Company enters into hiring/service arrangements for various assets/services. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

The Company as a Lessee

As a lessee the Company has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date, the Company measures the right-of-use (ROU) asset applying a cost model, whereas the Company measures the right-of-use (ROU) asset at cost:

- (a) less any accumulated depreciation and any accumulated impairment losses; and
- (b) adjusted for any remeasurement of the lease liability.

The Company recognises the finance charges on lease expense on reducing balance of lease liability. The ROU asset is depreciated over the lease term on straight line basis.

The Company applies the above policy to all leases except:

- (a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;
- (b) leases for which the underlying asset is of low value.

The Company as a Lessor

As a lessor the Company identifies leases as operating and finance lease. A lease is classified as a finance lease if the Company transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

At the commencement date, the Company recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

The lease payments on operating leases are recognised as income on straight-line basis.

2.09 Statement of cash flows

Cash flows from operating activities are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

***The investments in subsidiaries are strategic in nature and it is expected to be held for a long period of time. The company is carrying the investment at cost though the net worth has fully eroded as it is hopeful of turnaround in near future based on strategic initiatives of the management and plan of restructuring which is expected to result in positive cashflows and revival of the business. Further, the company has carried out impairment testing and on the basis of the valuation report from a SEBI Registered Category -1 Merchant Banker obtained in revious year, the fair value of shares is much more than the carrying amount.

36.05 Financial risk management

Financial risk factors

This note presents the information about the Company's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Financial risk management within the Company is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Company's risk management policies. Company policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Company.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

The Company's risk management policies and procedures are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Company above have been explained below:

(i) Credit risk

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Company is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Company due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Company is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Company's financial position, and ability to borrow in the credit markets and ability to operate the business. For the risk management purposes, the Company considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

Management / mitigation of credit risk

The Company operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Company collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Company monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Company's Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Company's credit risk, including the following:

- (i) Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- (ii) Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrator as appropriate.
- (iii) Providing advice, guidance and specialist skills to business units through periodic reviews to promote best practices throughout the Company in the management of credit risk.

(iv) The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.

(v) Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).

(vi) Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

The Board of Directors has also constituted Audit Committee, which is responsible for evaluation of internal financial controls and risk management systems. The company conducts regular internal audits of various business units to identify scope of improvement/enhancement of the Company's processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Company's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges. The principal portion of the working capital requirement is utilized by :

- (a) depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- (b) payments to stock exchanges/clearing houses towards settlement obligations;
- (c) payment towards purchase of various trading assets; and
- (d) meeting expenses incurred for operations.

Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Company's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To fund the working capital requirements, the Company currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of derivative assets, term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Company comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Company believes that the above monetary mechanism adequately addresses the liquidity risk.

(iii) Market risk

The Company participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the Company's income or the value of its holdings of financial instruments.

The Company segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Company's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolios include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Company manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Company is exposed to volatility in the price of the underlying securities.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements
(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Company's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the Company has come from overdraft facility with banks. The business of the Company is exposed to fluctuation in interest rate for the following activities:

- (i) Term deposits placed with banks are generally for short term on fixed interest rates;
- (ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;
- (iii) Interest paid by Company on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Company does not use derivative financial instruments to hedge its interest rate risk.

The Company's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the Company to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the company.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Company is not significantly exposed to currency risk as there is no mismatch between the currencies in which sales of services, purchase of goods/services and borrowings are dominated and the respective functional currencies of Company. Further, the functional currency of the Company is primarily the Indian Rupee and do not expose the Company to significant currency risk. The Company considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

*The Company engages in proprietary transactions of equities, commodities and derivatives of equities, commodities & currencies. These transactions are primarily undertaken using various arbitrage models to capitalize pricing inefficiencies in the markets. Any change in the market prices of their underlying would result in changes in the fair value of these trading assets, trading liabilities and inventories and also result in profit/loss on futures positions.

36.06 Capital Management

Risk Management

The Company manages its capital structure and makes necessary adjustments in light of changes in economic conditions and the requirement of financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return on capital to shareholders, issue new shares or raise / repay debt.

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value and to ensure the Company's ability to continue as a going concern. 39 Segment reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources based on analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. Secondary segmental reporting is performed on the basis of the geographical location of customers. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the note on significant accounting policies.

a. Business Segment

The Company's primary business comprises of dealing in shares, securities, commodities, derivatives and portfolio management services either on its own or on behalf of its constituents and other related ancillary services.

Accordingly the primary business segment has been identified as below:

Broking, Distribution & Trading : Comprises of brokerage income earned on secondary market transactions done on behalf of clients, services rendered as depository participant, clearing services, research support services, proprietary trading in securities, commodities, derivatives portfolio and fund management services.

b. Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

**Independent Auditors' Report****To the Members of SMC Global Securities Limited****Report on the Audit of the Consolidated Financial Statements****Opinion**

We have audited the accompanying consolidated financial statements of **SMC Global Securities Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its jointly controlled entity, which comprise the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in and in our opinion, there is no any such matter to be reported by us.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's

Information, but does not include the consolidated financial statements and our auditor's report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and Joint venture are also responsible for overseeing the financial reporting process of the Group and Joint venture.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements, which have been audited by other auditors; such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the holding company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

Annexure - A to the Independent Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2024, we have audited the internal financial controls with reference to financial statements of SMC Global Securities Limited ("the Holding Company") and its subsidiaries company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matter

Our aforesaid reports u/s 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding company, in so far as it relates to six subsidiaries which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Nature and purpose of reserves :

(A) Securities premium reserve

Securities premium is used to record the premium received on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(B) Retained earnings

Retained earnings are the profits that the Group has earned till date, less any transfers to generate reserve, dividends or other distributions paid to shareholders.

(C) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations however, the same is not required to be created under Companies Act, 2013. This reserve can be utilised only in accordance with the specified requirements of Companies Act, 2013.

(D) Capital redemption reserve

The Companies Act, 2013 requires that when a Company purchases its own shares out of free reserves or securities premium account, a sum equal to the nominal value of the shares so purchased shall be transferred to a capital redemption reserve. The reserve is utilised in accordance with the provisions of Section 69 of the Companies Act, 2013.

(E) Capital reserve

A capital reserve is created out of capital profits and cannot be used for the distribution of profits and dividend.

(F) Reserve fund u/s 45-IC of RBI act 1934

As required by section 45-IC of the RBI Act 1934, the company listed at 'c' in note no. 1.05 is required to maintain a reserve fund and transfers therein a sum not less than twenty per cent of its net profit every year as disclosed in the statement of profit and loss and before any dividend is declared. 1.02 Statement of compliance

These Consolidated financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

1.03 Basis of preparation

These Consolidated financial statements are prepared under the historical cost convention on the accrual basis except for certain assets and liabilities which are measured at fair value / amortised cost / transaction price as stated in respective accounting policies / notes. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or '₹.') which is also the Group's functional currency. All amounts are rounded-off to the nearest lakhs, unless indicated otherwise. There are certain companies in the group which have USD as their functional currency.

1.04 Principles of consolidation

(a) The financial statements of the Parent Company and its subsidiaries are combined on a line by line basis by adding together sums of like nature, comprising assets, liabilities, income and expenses (including taxes) and after fully eliminating intra-group balances/ transactions.

(b) Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant and equipment are eliminated in full.

(c) In case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in other comprehensive income (OCI).

(d) Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date of disposal.

(e) The Company's cost of its investment in its subsidiaries has been eliminated against the Company's portion of equity of each subsidiary as on the date of investment in that subsidiary. The excess/short is recognized as 'Goodwill' or 'Capital Reserve', as the case may be.

(f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

(g) Investment in joint venture has been accounted under equity method as per Ind AS 28 - Investments in joint ventures and associates.

(h) Non controlling interest's share of profit/loss of consolidated subsidiaries for the years identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the company.

(i) Non controlling interest's share of net assets of consolidated subsidiaries is identified and presented in consolidated balance sheet.

1.06 Use of estimates

The preparation of the financial statements in conformity with Ind AS 8, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Areas involving critical estimates and Judgements are:

Estimation of useful lives of property, plant and equipment (Refer note no. 2.02 below)

Estimation of current tax expenses (Refer note no. 2.04 below)

Estimation of allowance for impairment of financial assets (Refer note no.2.06 below)

Estimation of employee defined benefit obligations (Refer note no.2.07 below)

Estimation of discount rate for lease asset (ROU assets) and lease liabilities (Refer note no. 2.08)

2 Material Accounting Policy Information

2.01 Revenue recognition

The group derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of financial products such as mutual fund and initial public offerings, proprietary trading, fund management services, research support services, management and consultancy and interest income from financing business.

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. In real estate broking, the performance obligation is satisfied as and when the property is booked by the customer and a minimum threshold amount specified in the agreement is paid to the developer. The revenue is recorded when the threshold limit is achieved and the same is confirmed by the Real Estate developer. In insurance broking, the performance obligation satisfies as and when the policy is logged in/placed in case of general insurance and on Weighted Received Premium (WRP) basis in case of life insurance. Unbilled revenue regarding insurance broking is the income that has become due on account of policy issued by the company but pending to be billed. Further contract liabilities are recognized for cancellation of Life Insurance business on the basis of past trend of business cancellation owing to the very peculiar nature of Life Insurance business and is netted off from revenue.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the Group but pending to be billed.

(iii) **Depository:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Refer to note 2.06 on the Policy on Financial Instruments w.r.t regular way purchase and sales of Financial Assets

(v) **Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(vi) **Management and consultancy:** Revenue from management & advisory services is accounted for when the rendering of service under a contract is completed or substantially completed.

(vii) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance).

Interest income on credit-impaired loan assets, unless realized, is not being recognised as a matter of prudence

It also comprises of Interest on delayed payment/margin trading facility.

(viii) **Commodity trading:** In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(ix) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(x) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

2.02 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. The Group depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

Medical Equipments	13	years
Office Building	60	years
Computer equipment	3-6	years
Office equipment	5	years
Furniture and fixtures	10	years
Vehicles	8-10	years

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013.

Addition to the, property plant and equipment have been accounted for when the item is in location and condition necessary for its use irrespective of date of invoice. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the assets not ready for use are disclosed under 'Capital work-in-progress'.

2.03 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

Computer software	40%
Trade mark logo	40%

2.04 Income tax

The income tax expense comprises of current and deferred tax.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Group's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India.

2.05 Investment in joint venture

Investment in joint venture is accounted for under equity method.

2.06 Financial instruments

(a) Initial recognition

All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to or subtracted from the fair value of financial asset or financial liabilities on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, loan, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not subsequently measured at amortised cost are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are valued at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in profit or loss.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Simplified approach—The company follows 'simplified approach' for recognition of impairment loss allowance on loans, other receivables and other financial assets. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The company uses a provision matrix to determine impairment loss allowance. The provision matrix is based on its historically observed default rates over the expected life of financial assets and is adjusted for forward-looking estimates. At every reporting date, the historically observed default rates are updated for changes in the forward looking estimates.

2.07 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a employee benefit expense in profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs. Gratuity liability is a defined obligation and is partly funded.

Defined benefit obligation (DBO) is evaluated by actuary based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

(c) Short-term employee benefits

Short term benefits comprises of Salary with allowances, Incentives, Bonus, Personal accident and Medical benefit policies etc. are expensed as the related service is provided.

(d) Other long-term employee benefits

Liability for leave encashment

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the year in which they arise. Un-availed leave liability is a defined obligation and is not funded. The valuation of the leave encashment are obtained from actuary.

2.08 Leases

The Group enters into hiring/service arrangements for various assets/services. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

As a lessee, the group has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date. The group measures the right-of-use asset applying a cost model, where the group measures the right-of-use asset at cost:

- (a) less any accumulated depreciation and any accumulated impairment losses; and
- (b) adjusted for any remeasurement of the lease liability

The group recognises the finance charges on lease expense on reducing balance of lease liability. The ROU asset is depreciated over the lease term on straight line basis.

The group applies the above policy to all leases except:

- (a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;
- (b) leases for which the underlying asset is of low value.

Lease payments for such leases are recognised as expensed on straight-line basis.

At the commencement date, the group recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the group recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

For Operating leases as a lessor the Group recognises lease payments from/for operating leases as income/expense on straight-line basis.

2.09 Statement of cash flows

Cash flows from operating activities are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the group are segregated.

*Pursuant to the public announcement dated May 10, 2022 in respect of buy back of shares from the open market through stock exchange mechanism as prescribed under SEBI (Buy Back of Securities) Regulation, 2018, the Buy back of shares commenced on 20th May, 2022 and ended on 16th August, 2022. The Company under the scheme, bought back a total of 84,34,450 shares from the open market. A total sum of ₹ 9,242.06 lakhs was incurred on the shares bought back (including ₹ 1,769.21 lakhs towards buy back distribution tax and other expenses). Consequently the total number of paid up equity shares of the company (₹ 2/- nominal value of per share) reduced from 11,31,34,450 shares to 10,47,00,000 shares as at the end of 16th August, 2022. The consideration paid towards buy-back of shares is adjusted against share capital by ₹ 168.69 lakhs and the balance in share premium by ₹ 9,073.37 lakhs in the previous year.

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share. The Board of Directors has proposed an equity dividend @ 60% i.e. ₹ 1.20 (P.Y. ₹ 1.20) per share for the financial year ending March 31, 2024 at their meeting held on dated May 13, 2024, which is subject to approval by the shareholders in the ensuing Annual General Meeting. The amount of per share dividend recognised as distribution to equity shareholders for Interim dividend is ₹ 1.20 (P.Y. ₹ 1.20).

In the event of Liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

38.04 Financial risk management

Financial risk factors

This note presents the information about the Group's exposure to financial risks, the Group's objectives, policies and processes for measuring and managing risk and the group's management of capital.

The Group has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Financial risk management within the Group is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Group's risk management policies. Group policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Group.

The Group's risk management policies and procedures are established to identify and analyse the risks faced by the Group within the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Group above have been explained below:

(i) Credit risk

The credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Group is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Group due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Group is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Group's financial position, and ability to borrow in the credit markets and ability to operate the business.

For the risk management purposes, the Group considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

SMC GLOBAL SECURITIES LIMITED
Notes to Consolidated financial statements
Management / mitigation of credit risk

The Group operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Group collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Group monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Group's credit risk, including the following:

- (i) Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- (ii) Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrator as appropriate.
- (iii) Providing advice, guidance and specialist skills to business units through periodic reviews to promote best practices throughout the Group in the management of credit risk.
- (iv) The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.
- (v) Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).
- (vi) Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

The Board of Directors has also constituted Audit Committee, which is responsible for evaluation of internal financial controls and risk management systems. The Group conducts regular internal audits of various business units to identify scope of improvement/enhancement of the processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

Loan to Value (LTV) for loan and advances to customer

The general creditworthiness of a customer tends to be the most relevant indicator of credit quality of a loan extended to it. However, collateral provides additional security and the Company generally requests borrowers to provide it. The Company may take collateral in the form of a charge over immovable/ movable property, floating charges over pledge of securities or other assets and other liens and guarantees.

The table below stratify secured credit exposures. LTV is calculated as the ratio of the gross amount of the loan to the value of the collateral. The gross amounts exclude any impairment allowance. The valuation of the collateral excludes any adjustments for obtaining and selling the collateral.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Group's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges. The principal portion of the working capital requirement is utilized by :

- depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- payments to stock exchanges/clearing houses towards settlement obligations;
- payment towards purchase of various trading assets; and
- meeting expenses incurred for operations.

Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Group's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

To fund the working capital requirements, the Group currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of derivative assets, term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Group comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Group believes that the above monetary mechanism adequately addresses the liquidity risk.

(III) Market risk

The Group participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the Group's income or the value of its holdings of financial instruments.

The Group segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Group's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolios include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Group manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Group is exposed to volatility in the price of the underlying securities.

(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Group's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the Group has come from overdraft facility with banks. The business of the Group is exposed to fluctuation in interest rate for the following activities:

- (i) Term deposits placed with banks are generally for short term on fixed interest rates;
- (ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;
- (iii) Interest paid by Group on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Group does not use derivative financial instruments to hedge its interest rate risk.

The Group's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the Group to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the Group.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Group is not significantly exposed to currency risk as there is no mismatch between the currencies in which sales of services, purchase of goods/services and borrowings are dominated and the respective functional currencies of Group. Further, the functional currency of the Group is primarily the Indian Rupee and do not expose the Group to significant currency risk. The Group considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

*The group engages in proprietary transactions into equities, commodities and derivatives (equities, commodities and currencies). These transactions are primarily undertaken using various arbitrage models to capitalize pricing differences in the markets. Any change in the market prices of their underlying would result in changes in the fair value of these trading assets, trading liabilities and inventories and also result in profit/loss on futures positions.

38.05 Capital Management

Risk Management

The Group manages its capital structure and makes necessary adjustments in light of changes in economic conditions and the requirement of financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return on capital to shareholders, issue new shares or raise / repay debt.

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Group's capital management is to maximise the shareholder value and to ensure the Group's ability to continue as a going concern. There is no non compliance with any covenants of borrowings.

40 Segment reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the group's performance and allocates resources based on analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. Secondary segmental reporting is performed on the basis of the geographical location of customers. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the note on significant accounting policies.

Business Segment:

The Group has three reportable segments, as described below, which are the Group's Lines of Business (LoBs). The LoBs offer different products and services, and are managed separately because the nature of products and method used to distribute the services are different.

The following summary describes the operations in each of the Group's reportable segments:

1. Broking, distribution and trading primarily comprises
 - a. Brokerage on dealing in shares, commodities, currency, derivatives and other securities on behalf of customers;
 - b. Proprietary trading in shares, commodities, currency, derivatives and other securities;
 - c. Clearing services;
 - d. Depository services rendered as depository participant;
 - e. Distribution of third party financial products;
 - f. Fund management services and research support services
 - g. Portfolio and wealth management;
 - h. Real estate broking and
 - i. Mortgage and loan advisory and investment banking services
2. Insurance broking services primarily comprises providing services in life and non-life insurance products.
3. Financing services primarily comprises business of providing loans.

For these LoBs, the Group's Leadership Team comprising of Chairman, Vice-Chairman, Chief Executive Officer and Group Chief Financial Officer, reviews internal management reports. Accordingly, the leadership team is construed to be the Chief Operating Decision Maker (CODM).

**Independent Auditor's Report****To the Members of SMC Global Securities Limited****Report on the Audit of the Standalone Financial Statements****Opinion**

We have audited the accompanying standalone financial statements of **SMC Global Securities Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matter

Key audit matter is those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in our opinion, there is no any such matter to be reported by us.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Business Responsibility Report and Report on Corporate Governance and shareholder information, but does not include the standalone financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A, a statement on the matters specified in the paragraph 3 and 4 of the order.
- 2 As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
- d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
- e. On the basis of the written representations received from the directors as on March 31, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act.
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Sec 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- I. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note no 33 to the standalone financial statements.
- II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses, and
- III. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- IV. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in Note 40 (xvi) to the Financial Statements, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in Note 40 (xvi) to the Financial Statements, no funds (which are material either individually or in the aggregate) have

been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

V As stated in Note 19 to the standalone financial statements: -

- (a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.
- (b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.
- (c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

VI Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

Annexure - B to the Auditors' Report

Report on the Internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **SMC Global Securities Limited** ("the Company") as of 31st March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external

purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: -

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31st March, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

1 Significant accounting policies and measurement basis

1.01 Company overview

SMC Global Securities Limited (CIN- L74899DL1994PLC063609) ("the company" or "SMC Global"), a limited liability company is domiciled in India, incorporated in the year 1994 having its registered office at 11/6B, Shanti Chambers, Pusa Road, New Delhi-110005. The Company's equity shares are listed and traded on National Stock Exchange ("NSE") and Bombay Stock Exchange ("BSE") in India with effect from February 24, 2021. The Company is a trading and clearing member of the National Stock Exchange of India Limited ("NSE"), BSE Limited ("BSE") and Metropolitan Stock Exchange of India Limited ("MSEI") in the capital market. Further, the company is a trading member of NSE, BSE and MSEI in the futures and options of currency, commodity and equity derivative segment. The Company also holds depository participants registration of Central Depository Services (India) Limited and National Securities Depository Limited, participants of NCDEX, Comtrack, AMFI registered mutual fund distribution and portfolio management service (PMS) registration from Securities and Exchange Board of India ("SEBI"). The company is regulated by SEBI. The company has ten subsidiaries and one joint. The company offers a wide range of services to meet client's needs including brokerage services, clearing services, depository services, distribution of third party financial products such as mutual fund and initial public offerings, fund management services, research support services and also engages in proprietary & commodity trading.

1.02 Statement of compliance

These standalone financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

1.03 Basis of preparation

These standalone financial statements are prepared under the historical cost convention on the accrual basis except for certain assets and liabilities which are measured at fair value / amortised cost / transaction price as stated in respective accounting policies / notes. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest lakhs, unless indicated otherwise.

1.04 Use of estimates

The preparation of the financial statements, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.05 Revenue recognition

The company derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of third party financial products such as mutual fund and initial public offerings, fund management services, research support services and also engages in proprietary & commodity trading. The company follows Ind AS 115 Revenue from Contract with Customer, which prescribed the core principle to recognise revenue. This core principle is delivered in a five-step model framework:

- (a) Identify the contract(s) with a customer.
- (b) Identify the performance obligations in the contract.
- (c) Determine the transaction price.
- (d) Allocate the transaction price to the performance obligations in the contract.
- (e) Recognise revenue when (or as) the entity satisfies a performance obligation.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

Based on the above principle the company recognise the revenue as follows:

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. Revenue on commission/brokerage on sale made on behalf of principals is accounted for at the time of purchase/sale made on their behalf.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the company but pending to be billed.

(iii) **Depository services:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Ind AS 115 Revenue from Contract with Customer is not applicable on this business and hence the revenue is recognised as per Ind AS 109 Financial Instruments i.e. as and when trade is executed.

(v) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

It also comprises of Interest on delayed payment/margin trading facility.

(vi) **Commodity trading:** In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(vii) **Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(viii) **Dividend:** Dividend income is recognised when the shareholders right to receive payment is established.

(ix) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(x) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

1.06 Inventories

The Company mainly has inventory of commodities (agri and non-agri), which is held for the purpose of trading. The Company measures Inventories at fair value less cost to sell.

1.07 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of applicable GST credit thereon. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013. Depreciation methods, useful lives and residual values are reviewed at each year end.

Addition to the, property plant and equipment have been accounted only when the item is in location and condition necessary for its use. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the assets not ready for use are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognised in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale and the resultant gains or losses are recognised in profit or loss.

1.08 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of GST credit thereon. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

1.09 Impairment of Assets other than financial assets

At each reporting date, the Company reviews the carrying amounts of its property, plant and equipment, intangible assets and right of use assets and investment in subsidiaries to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating Units ('CGUs'). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

1.10 Income tax

The income tax expense comprises of current and deferred tax. Tax on item recognised in profit or loss is recognised in profit or loss and for items recognised in other comprehensive income or equity, the corresponding tax is recognised in other comprehensive income or equity respectively.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off current tax assets against current tax liabilities & the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

1.11 Investment in subsidiaries

Investment in subsidiaries are measured at cost less accumulated impairment, if any.

The Company assesses at the end of each reporting period if there are any indications of impairment on such investments. If so, the Company estimates the recoverable amount of the investment and provides for impairment (refer note no. 1.09).

1.12 Financial instruments

(a) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are adjusted from the fair value of financial asset or financial liabilities on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in Statement of profit and loss.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are measured at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in statement of profit and loss.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward looking information.

1.13 Foreign currency translations

Items included in financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR).

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in Statement of profit and loss.

1.14 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a employee benefit expense in statement of profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements. Defined benefit obligation (DBO) is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The Company determines net interest on the net defined benefit liability (asset) by multiplying the net defined benefit liability (asset) by the discount rate.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit or loss.

(c) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(d) Other long-term employee benefits

Liability for long service leave

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in statement of profit or loss in the year in which they arise. The valuation of the long service leave are obtained from actuary.

1.15 Leases

The Company account for the leases in accordance with Ind AS 116 Leases.

The Company enters into hiring/service arrangements for various assets/services. The Company evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

The Company as a Lessee

As a lessee the Company has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date, the Company measures the right-of-use asset applying a cost model, whereas the Company measures the right-of-use asset at cost:

- (a) less any accumulated depreciation and any accumulated impairment losses; and
- (b) adjusted for any remeasurement of the lease liability.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

The Company recognises the finance charges on lease expense on reducing balance of lease liability. The lease asset is depreciated over the lease term on straight line basis.

The Company applies the above policy to all leases except:

- (a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;
- (b) leases for which the underlying asset is of low value.

The Company as a Lessor

As a lessor the Company identifies leases as operating and finance lease. A lease is classified as a finance lease if the Company transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

At the commencement date, the Company recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease

The lease payments on operating leases are recognised as income on straight-line basis.

1.16 Borrowing costs

Borrowing costs that are attributable to acquisition, construction or production of qualifying assets, are capitalized as part of the cost of such qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss. Expenses related to borrowing cost are accounted using effective interest rate.

1.17 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank deposits having maturity more than 12 months have been classified as other bank balances.

1.18 Provision, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- (a) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (b) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed where an inflow of economic benefit is probable.

1.19 Statement of cash flows

Cash flows are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

1.20 Dividend

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the board for interim dividend and by the shareholders in case of final dividend. A corresponding amount is recognised directly in equity.

1.21 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.22 Standards issued but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 vide notification no. G.S.R 242(E) dated 31st March 2023. Given below are the amendment made to Ind AS 1, Ind AS 8, Ind AS 12 in brief and their possible impact on the financial statements of the company. Rest of the amendments are consequential in nature and have no material impact on the financial statements:

Ind AS 1 – Presentation of Financial Statements:

Disclosure of Accounting Policies, amended paragraphs 7, 10, 114, 117 and 122, added paragraphs 117A–117E and deleted paragraphs 118, 119 and 121. The amendments to Ind AS 1 are applicable for annual reporting periods beginning on or after 1 April 2023. The amendment seeks to replace significant accounting policies with material accounting policy information and provides guidance on material accounting policy information. The amendments require complete review of existing disclosure of accounting policies and may involve redrafting, removing some of the accounting policies now being disclosed or adding new accounting policy disclosures. The company is reviewing its accounting policy disclosure to change the same as per the amendments.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors:

Definition of Accounting Estimates amended paragraphs 5, 32, 34, 38 and 48 and added paragraphs 32A, 32B and 34A. These amendments are applicable for annual reporting periods beginning on or after 1 April 2023. The amendment replaces the definition of changes in accounting estimates with a new definition of accounting estimates and provides guidance on that definition, what are regarded as changes in accounting estimates and how to apply changes in accounting estimates. The amendments shall be applied to changes in accounting estimates and changes in accounting policies that occur on or after 1 April 2023. Therefore, the amendments have no impact on the financial position, financial performance or the cash flows of the entity in the current and previous year.

Ind AS 12– Income Tax:

Deferred Tax related to Assets and Liabilities arising from a Single Transaction, amended paragraphs 15, 22 and 24 and added paragraph 22A. The amendment clarifies that in case, where at the time of initial recognition, equal amount of taxable and deductible temporary differences arise, the initial recognition exemption does not apply and the company shall recognise deferred tax liability and deferred tax asset on gross basis on that date of initial recognition depending on the applicable tax law. This happens typically when a lease liability and right-of-use asset is recognised initially or when decommissioning obligations are initially recognised and the same is added to the cost of the item of property, plant and equipment. If the application of this requirement results in unequal amount of deferred tax asset and deferred tax liability, the difference shall be recognised in profit or loss. These amendments are to be applied for annual reporting periods beginning on or after 1 April 2023 to transactions that occur on or after the beginning of 1 April 2022. The amendment also requires deferred tax assets and deferred tax liabilities to be recognised on 1 April 2022 based on the carrying amounts of the lease liability and right-of-use asset as on 1 April 2022 and recognise any difference in opening balance of retained earnings or another component of equity, where appropriate, if the company has applied the initial recognition exemption requirements earlier or had recognised deferred tax assets and deferred tax liabilities on net basis. The same is also required for decommissioning obligations recognised initially and added to the cost of the item of property, plant and equipment. As the company has recognised deferred tax assets and deferred tax liabilities on gross basis on lease liability and right-of use assets, the amendment has no impact of the financial statements. Further, the requirements relating to decommissioning obligations are not applicable to the company.

*The Company's holding of number of equity shares has reduced from 404.00 lakhs to 135.00 lakhs due to following reasons:

1. Pursuant to the scheme for capital reduction filed with NCLT vide CP number 128/ND/2021/dated 23rd November 2022, the equity shares of SMC Insurance Brokers Private Limited has been reduced from ₹ 4140 lakhs to ₹ 1500 lakhs on payment to the equity shareholders of the company on proportionate basis at face value of ₹ 10 each on 30.11.2022. which has become effective and operative on that date and accordingly to that extent share capital stand cancelled and extinguished upon approval from MCA. Accordingly, company's shares has been reduced by 2,57,63,000 shares.

2. Further, the company has sold 11,37,000 equity shares during the year.

** The investments in subsidiaries are strategic in nature and it is expected to be held for a long period of time. The company is carrying the investment at cost though the net worth has fully eroded as it is hopeful of turnaround in near future based on strategic initiatives of the management and plan of restructuring which is expected to result in positive cashflows and revival of the business. Further, the company has carried out impairment testing and on the basis of the valuation report from a SEBI Registered Category -1 Merchant Banker, the fair value of shares is much more than the carrying amount.

***These preference shares were potential equity shares invested with the aim of converting them into equity shares and accordingly the said preference shares have been converted into equity shares during the year.

*Pursuant to the public announcement dated May 10, 2022 in respect of buy back of shares from the open market through stock exchange mechanism as prescribed under SEBI (Buy Back of Securities) Regulation, 2018, the Buy back of shares commenced on 20th May, 2022 and ended on 16th August, 2022. The Company under the scheme, bought back a total of 84,34,450 shares from the open market. A total sum of ₹ 9,242.06 lakhs was incurred on the shares bought back (including ₹ 1,769.21 lakhs towards buy back distribution tax and other expenses). Consequently the total number of paid up equity shares of the company (₹ 2/- nominal value of per share) reduced from 11,31,34,450 shares to 10,47,00,000 shares as at the end of 16th August, 2022. The consideration paid towards buy-back of shares is adjusted against share capital by ₹ 168.69 lakhs and the balance in share premium by ₹ 9,073.37 lakhs.

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share. The Board of Directors has proposed an equity dividend @ 60% i.e. ₹ 1.20 (P.Y. ₹ 1.20) per share for the financial year ending March 31, 2023 at their meeting held on dated May 18, 2023, which is subject to approval by the shareholders in the ensuing Annual General Meeting. The amount of per share dividend recognised as distribution to equity shareholders for Interim dividend is ₹ 1.20 (P.Y. ₹ 1.20). In the event of Liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholder.

35.05 Financial risk management

Financial risk factors

This note presents the information about the Company's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Financial risk management within the Company is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Company's risk management policies. Company policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Company.

The Company's risk management policies and procedures are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Company above have been explained below:

(i) Credit risk

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Company is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Company due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Company is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Company's financial position, and ability to borrow in the credit markets and ability to operate the business.

For the risk management purposes, the Company considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

Management / mitigation of credit risk

The Company operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Company collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Company monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Company's Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Company's credit risk, including the following:

- (i) Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- (ii) Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrator as appropriate.
- (iii) Providing advice, guidance and specialist skills to business units through periodic reviews to promote best practices throughout the Company in the management of credit risk.

(iv) The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.

(v) Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).

(vi) Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

The Board of Directors has also constituted Audit Committee, which is responsible for evaluation of internal financial controls and risk management systems. The company conducts regular internal audits of various business units to identify scope of improvement/enhancement of the Company's processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

Credit Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Company's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges. The principal portion of the working capital requirement is utilized by :

- (a) depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- (b) payments to stock exchanges/clearing houses towards settlement obligations;
- (c) payment towards purchase of various trading assets; and
- (d) meeting expenses incurred for operations.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements
Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Company's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To fund the working capital requirements, the Company currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of derivative assets, term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Company comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Company believes that the above monetary mechanism adequately addresses the liquidity risk.

(iii) Market risk

The Company participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the Company's income or the value of its holdings of financial instruments.

The Company segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Company's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolios include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Company manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Company is exposed to volatility in the price of the underlying securities.

(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Company's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the Company has come from overdraft facility with banks. The business of the Company is exposed to fluctuation in interest rate for the following activities:

- (i) Term deposits placed with banks are generally for short term on fixed interest rates;
- (ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;
- (iii) Interest paid by Company on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Company does not use derivative financial instruments to hedge its interest rate risk.

The Company's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the Company to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the company.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Company is not significantly exposed to currency risk as there is no mismatch between the currencies in which sales of services, purchase of goods/services and borrowings are dominated and the respective functional currencies of Company. Further, the functional currency of the Company is primarily the Indian Rupee and do not expose the Company to significant currency risk. The Company considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

**Independent Auditors' Report****To the Members of SMC Global Securities Limited****Report on the Audit of the Consolidated Financial Statements****Opinion**

We have audited the accompanying consolidated financial statements of **SMC Global Securities Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its jointly controlled entity, which comprise the Consolidated Balance Sheet as at March 31, 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in and in our opinion, there is no any such matter to be reported by us.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's

Information, but does not include the consolidated financial statements and our auditor's report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and Joint venture are also responsible for overseeing the financial reporting process of the Group and Joint venture.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements, which have been audited by other auditors; such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the holding company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public

disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements / financial information of 9 subsidiaries whose financial statements reflect the total assets of Rs 123,072.44 lakhs as at 31.03.2023, and total revenue of Rs 21,212.01 lakhs, net profit after tax of Rs 2,644.54 lakhs, total comprehensive income Rs 3,167.77 lakhs and net cash outflow of Rs (2511.66) lakhs for the year ended 31.03.2023 as considered in the consolidated financial statements. The Consolidated financial statements include the financial results of 1 jointly controlled entity which reflect groups share of net gain of Rs 0.14 lakh for the year ended 31.03.2023. These Financial Statements have been audited by other auditors have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and Jointly controlled entity, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, and jointly controlled entity, are based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the consolidated financial statements.

Annexure - A to the Independent Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the
Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2023, we have audited the internal financial controls with reference to financial statements of SMC Global Securities Limited ("the Holding Company") and its subsidiary company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matter

Our aforesaid reports u/s 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding company, in so far as it relates to seven subsidiaries which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Nature and purpose of reserves :

(A) Securities premium reserve

Securities premium is used to record the premium received on issue of shares. The reserve can be utilised only for limited purposes in accordance with the provisions of the Companies Act, 2013.

(B) Retained earnings

Retained earnings are the profits that the Group has earned till date, less any transfers to generate reserve, dividends or other distributions paid to shareholders.

(C) General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations however, the same is not required to be created under Companies Act, 2013. This reserve can be utilised only in accordance with the specified requirements of Companies Act, 2013.

(D) Capital reserve

A capital reserve is created out of capital profits and cannot be used for the distribution of profits and dividend.

(E) Capital redemption reserve

The Companies Act, 2013 requires that when a Company purchases its own shares out of free reserves or securities premium account, a sum equal to the nominal value of the shares so purchased shall be transferred to a capital redemption reserve. The reserve is utilised in accordance with the provisions of Section 69 of the Companies Act, 2013.

(F) Debt redemption reserve

The debt redemption reserve is created to be utilised towards redemption of debentures issued by the Group listed at 'c' in note no. 1.05. The reserve will be utilised in accordance with provisions of the Companies Act, 2013.

(G) Reserve fund u/s 45-IC of RBI act 1934

As required by section 45-IC of the RBI Act 1934, the company listed at 'c' in note no. 1.05 is required to maintain a reserve fund and transfers therein a sum not less than twenty per cent of its net profit every year as disclosed in the statement of profit and loss and before any dividend is declared. The company cannot appropriate any sum from the reserve fund except for the purpose specified by Reserve Bank of India from time to time. Till date, RBI has not specified any purpose for appropriation of Reserve fund maintained under section 45-IC of RBI Act, 1934.

1.02 Statement of compliance

These Consolidated financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

1.03 Basis of preparation

These Consolidated financial statements are prepared under the historical cost convention on the accrual basis except for certain assets and liabilities which are measured at fair value / amortised cost / transaction price as stated in respective accounting policies / notes.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest lakhs, unless indicated otherwise

1.04 Principles of consolidation

(a) The financial statements of the Holding Company and its subsidiaries are combined on a line by line basis by adding together sums of like nature, comprising assets, liabilities, income and expenses (including taxes) and after fully eliminating intra-group balances/ transactions.

(b) Profits or losses resulting from intra-group transactions that are recognised in assets, such as inventory and property, plant and equipment are eliminated in full.

(c) In case of foreign subsidiaries, revenue items are consolidated at the average rate prevailing during the year. All assets and liabilities are converted at rates prevailing at the end of the year. Any exchange difference arising on consolidation is recognised in other comprehensive income (OCI).

(d) Subsidiaries are consolidated from the date on which effective control is transferred to the Group and are no longer consolidated from the date of disposal.

(e) The Company's cost of its investment in its subsidiaries has been eliminated against the Company's portion of equity of each subsidiary as on the date of investment in that subsidiary. The excess/short is recognized as 'Goodwill' or 'Capital Reserve', as the case may be.

(f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

(g) Investment in joint venture has been accounted under equity method as per Ind AS 28 - Investments in joint ventures and associates.

(h) Non controlling interest's share of profit/loss of consolidated subsidiaries for the years identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the company.

(i) Non controlling interest's share of net assets of consolidated subsidiaries is identified and presented in consolidated balance sheet.

1.06 Use of estimates

The preparation of the financial statements in conformity with Ind AS 8, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.07 Revenue recognition

The group derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of financial products such as mutual fund and initial public offerings, proprietary trading, fund management services, research support services, management and consultancy and interest income from financing business. The group follows Ind AS 115 Revenue from Contract with Customer, which prescribed the core principle to recognise revenue. This core principle is delivered in a five-step model framework:

- (a) Identify the contract(s) with a customer.
- (b) Identify the performance obligations in the contract.
- (c) Determine the transaction price.
- (d) Allocate the transaction price to the performance obligations in the contract.
- (e) Recognise revenue when (or as) the entity satisfies a performance obligation.

Based on the above principle the group recognises the revenue as follows:

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. In real estate broking, the performance obligation is satisfied as and when the property is booked by the customer and a minimum threshold amount specified in the agreement is paid to the developer. The revenue is recorded when the threshold limit is achieved and the same is confirmed by the developer. In insurance broking, the performance obligation satisfies as and when the policy is logged in/placed in case of general insurance and on Weighted Received Premium (WRP) basis in case of life insurance. Unbilled revenue regarding insurance broking is the income that has become due on account of policy issued by the company but pending to be billed. Further it makes provision for contractual liabilities for cancellation of Life Insurance business on the basis of past trend of business cancellation owing to the very peculiar nature of Life Insurance business and is netted off from revenue.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the Group but pending to be billed.

(iii) **Depository:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Ind AS 115 Revenue from Contract with Customer is not applicable on this business and hence the revenue is recognised as per Ind AS 109 Financial Instruments i.e. as and when trade is executed.

(v) **Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(vi) **Management and consultancy:** Revenue from management & advisory services is accounted for when the rendering of service under a contract is completed or substantially completed.

(vii) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

It also comprises of Interest on delayed payment/margin trading facility.

(viii) **Commodity trading:** In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(ix) **Dividend:** Dividend income is recognised when the shareholders right to receive payment is established.

(x) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(xi) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

1.08 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of applicable GST credit thereon. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The Group depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

Office Building	60	years
Computer equipment	3-6	years
Office equipment	5	years
Furniture and fixtures	10	years
Vehicles	8-10	years
Medical Equipments	13	years

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013. Depreciation methods, useful lives and residual values are reviewed at each year end.

Addition to the, property plant and equipment have been accounted for on the date of installation and only when the item is in location and condition necessary for its use irrespective of date of invoice. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the assets not ready for use are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably. Repairs and maintenance costs are recognised in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale and the resultant gains or losses are recognised in profit or loss. Assets classified as held for sale are reported at the lower of the carrying value and the fair value less cost to sell.

1.09 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of GST credit thereon. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

Computer software	40%
Trade mark logo	40%

1.10 Impairment of property, plant and equipment, intangible assets and right of use assets

At each reporting date, the Group reviews the carrying amounts of its property, plant and equipment, intangible assets and right of use assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating Units ('CGUs'). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

1.11 Inventories

The Group mainly has inventory of commodities (agri and non-agri), which is held for the purpose of trading. The Group measures Inventories at fair value less cost to sell.

1.12 Income tax

The income tax expense comprises of current and deferred tax. Tax on item recognised in profit or loss is recognised in profit or loss and for items recognised in other comprehensive income or equity, the corresponding tax is recognised in other comprehensive income or equity respectively.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Group's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

1.13 Investment in joint venture

Investment in joint venture is under equity method.

1.14 Financial instruments

(a) Initial recognition

The group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to or subtracted from the fair value of financial asset or financial liabilities on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in Statement of profit and loss.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are valued at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in statement of profit and loss.

When determining whether credit risk of a financial asset has increased significantly since initial recognition an when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

1.15 Foreign currency translations

The functional and presentation currency of the Company is Indian Rupee. However there are certain companies in the group which have USD as their functional currency.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains / losses arising on settlement as also on translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Translation difference on conversion of foreign operations is recognised in the other comprehensive income.

1.16 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a employee benefit expense in statement of profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs. Gratuity liability is a defined obligation and is non-funded except in case of the holding company where it is partly funded.

The calculation of defined benefit obligations are performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements. Defined benefit obligation (DBO) is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The group determines the net interest expense (income) on the net defined benefit liability (asset) for the year by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual year to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the year as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in employee benefits expenses in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit or loss.

(c) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(d) Other long-term employee benefits

Liability for long service leave

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in statement of profit or loss in the year in which they arise. Un-availed leave liability is a defined obligation and is not funded. The valuation of the long service leave are obtained from actuary.

1.17 Leases

The Group account for the leases in accordance with Ind AS 116 Leases.

The Group enters into hiring/service arrangements for various assets/services. The group evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

As a lessee, the group has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date. The group measures the right-of-use asset applying a cost model, whereas the group measures the right-of-use asset at cost:

- (a) less any accumulated depreciation and any accumulated impairment losses; and
- (b) adjusted for any remeasurement of the lease liability

The group recognises the finance charges on lease expense on reducing balance of lease liability. The Lease asset is depreciated over the lease term on straight line basis.

The group applies the above policy to all leases except:

(a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;

(b) leases for which the underlying asset is of low value.

As a lessor the Group identifies leases as operating and finance lease. A lease is classified as a finance lease if the Group transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

At the commencement date, the group recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the group recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

For Operating leases as a lessor the Group recognises lease payments from/for operating leases as income/expense on straight-line basis.

1.18 Borrowing costs

Borrowing costs that are attributable to acquisition, construction or production of qualifying assets, are capitalized as part of the cost of such qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss. Expenses related to borrowing cost are accounted using effective interest rate.

1.19 Assets held for sale

Assets held for sale are carried on balance sheet at the lower of carrying amount and fair value less cost to sell and no depreciation is charged on them as per Ind AS 105.

1.20 Cash and cash equivalents

cash and cash equivalents includes cash on hand, demand deposits, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank deposits having maturity more than 12 months have been classified as other bank balances.

1.21 Provision, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

(a) Possible obligations which will be confirmed only by future events not wholly within the control of the Group or

(b) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed where an inflow of economic benefit is probable.

1.22 Statement of cash flows

Cash flows are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the group are segregated.

1.23 Dividend

The Group recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the board for interim dividend and by the shareholders in case of final dividend. A corresponding amount is recognised directly in equity.

1.24 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.25 Standards issued but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 vide notification no. G.S.R 242(E) dated 31st March 2023. Given below are the amendment made to Ind AS 1, Ind AS 8, Ind AS 12 in brief and their possible impact on the financial statements of the Group. Rest of the amendments are consequential in nature and have no material impact on the financial statements:

Ind AS 1 – Presentation of Financial Statements:

Disclosure of Accounting Policies, amended paragraphs 7, 10, 114, 117 and 122, added paragraphs 117A–117E and deleted paragraphs 118, 119 and 121. The amendments to Ind AS 1 are applicable for annual reporting periods beginning on or after 1 April 2023. The amendment seeks to replace significant accounting policies with material accounting policy information and provides guidance on material accounting policy information. The amendments require complete review of existing disclosure of accounting policies and may involve redrafting, removing some of the accounting policies now being disclosed or adding new accounting policy disclosures. The Group is reviewing its accounting policy disclosure to change the same as per the amendments.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors:

Definition of Accounting Estimates amended paragraphs 5, 32, 34, 38 and 48 and added paragraphs 32A, 32B and 34A. These amendments are applicable for annual reporting periods beginning on or after 1 April 2023. The amendment replaces the definition of changes in accounting estimates with a new definition of accounting estimates and provides guidance on that definition, what are regarded as changes in accounting estimates and how to apply changes in accounting estimates. The amendments shall be applied to changes in accounting estimates and changes in accounting policies that occur on or after 1 April 2023. Therefore, the amendments have no impact on the financial position, financial performance or the cash flows of the entity in the current and previous year.

Ind AS 12– Income Tax:

Deferred Tax related to Assets and Liabilities arising from a Single Transaction, amended paragraphs 15, 22 and 24 and added paragraph 22A. The amendment clarifies that in case, where at the time of initial recognition, equal amount of taxable and deductible temporary differences arise, the initial recognition exemption does not apply and the Group shall recognise deferred tax liability and deferred tax asset on gross basis on that date of initial recognition depending on the applicable tax law. This happens typically when a lease liability and right-of-use asset is recognised initially or when decommissioning obligations are initially recognised and the same is added to the cost of the item of property, plant and equipment. If the application of this requirement results in unequal amount of deferred tax asset and deferred tax liability, the difference shall be recognised in profit or loss. These amendments are to be applied for annual reporting periods beginning on or after 1 April 2023 to transactions that occur on or after the beginning of 1 April 2022. The amendment also requires deferred tax assets and deferred tax liabilities to be recognised on 1 April 2022 based on the carrying amounts of the lease liability and right-of-use asset as on 1 April 2022 and recognise any difference in opening balance of retained earnings or another component of equity, where appropriate, if the Group has applied the initial recognition exemption requirements earlier or had recognised deferred tax assets and deferred tax liabilities on net basis. The same is also required for decommissioning obligations recognised initially and added to the cost of the item of property, plant and equipment. As the Group has recognised deferred tax assets and deferred tax liabilities on gross basis on lease liability and right-of use assets, the amendment has no impact of the financial statements. Further, the requirements relating to decommissioning obligations are not applicable to the Group.

*Pursuant to the public announcement dated May 10, 2022 in respect of buy back of shares from the open market through stock exchange mechanism as prescribed under SEBI (Buy Back of Securities) Regulation, 2018, the Buy back of shares commenced on 20th May, 2022 and ended on 16th August, 2022. The Company under the scheme, bought back a total of 84,34,450 shares from the open market. A total sum of ₹ 9,242.06 lakhs was incurred on the shares bought back (including ₹ 1,769.21 lakhs towards buy back distribution tax and other expenses). Consequently the total number of paid up equity shares of the company (₹ 2/- nominal value of per share) reduced from 11,31,34,450 shares to 10,47,00,000 shares as at the end of 16th August, 2022. The consideration paid towards buy-back of shares is adjusted against share capital by ₹ 168.69 lakhs and the balance in share premium by ₹ 9,073.37 lakhs.

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each holder of equity shares is entitled to one vote per share. The Board of Directors has proposed an equity dividend @ 60% i.e. ₹ 1.20 (P.Y. ₹ 1.20) per share for the financial year ending March 31, 2023 at their meeting held on dated May 18, 2023, which is subject to approval by the shareholders in the ensuing Annual General Meeting. The amount of per share dividend recognised as distribution to equity shareholders for Interim dividend is ₹ 1.20 (P.Y. ₹ 1.20).

In the event of Liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 50bps, keeping all other actuarial assumptions constant.

Gratuity is applicable only to employees drawing salary in Indian rupees.

36.04 Financial risk management

Financial risk factors

This note presents the information about the Group's exposure to financial risks, the Group's objectives, policies and processes for measuring and managing risk and the group's management of capital.

The Group has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Financial risk management within the Group is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Group's risk management policies. Group policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Group.

The Group's risk management policies and procedures are established to identify and analyse the risks faced by the Group within the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Group above have been explained below:

(i) Credit risk

The credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Group is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Group due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Group is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Group's financial position, and ability to borrow in the credit markets and ability to operate the business.

For the risk management purposes, the Group considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

SMC GLOBAL SECURITIES LIMITED
Notes to Consolidated financial statements

Management / mitigation of credit risk

The Group operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Group collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Group monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Group's credit risk, including the following:

- (i) Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- (ii) Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrator as appropriate.
- (iii) Providing advice, guidance and specialist skills to business units through periodic reviews to promote best practices throughout the Group in the management of credit risk.

(iv) The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.

(v) Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).

(vi) Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

The Board of Directors has also constituted Audit Committee, which is responsible for evaluation of internal financial controls and risk management systems. The Group conducts regular internal audits of various business units to identify scope of improvement/enhancement of the processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

Credit Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Loan to Value (LTV) for loan and advances to customer

The general creditworthiness of a customer tends to be the most relevant indicator of credit quality of a loan extended to it. However, collateral provides additional security and the Group generally requests borrowers to provide it. The Group may take collateral in the form of a charge over real estate, floating charges over pledge of securities or other assets and other liens and guarantees.

The table below stratify credit exposures from secured loans and advances to customers which has become non performing assets by ranges of loan-to-value (LTV) ratio. LTV is calculated as the ratio of the gross amount of the loan-to the value of the collateral. The gross amounts exclude any impairment allowance. The valuation of the collateral excludes any adjustments for obtaining and selling the collateral.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Group's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges. The principal portion of the working capital requirement is utilized by :

- (a) depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- (b) payments to stock exchanges/clearing houses towards settlement obligations;
- (c) payment towards purchase of various trading assets; and
- (d) meeting expenses incurred for operations.

Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Group's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

To fund the working capital requirements, the Group currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of derivative assets, term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Group comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Group believes that the above monetary mechanism adequately addresses the liquidity risk.

(iii) Market risk

The Group participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the Group's income or the value of its holdings of financial instruments.

The Group segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Group's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolios include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Group manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Group is exposed to volatility in the price of the underlying securities.

(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Group's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the Group has come from overdraft facility with banks. The business of the Group is exposed to fluctuation in interest rate for the following activities:

(i) Term deposits placed with banks are generally for short term on fixed interest rates;

(ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;

(iii) Interest paid by Group on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Group does not use derivative financial instruments to hedge its interest rate risk.

The Group's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the Group to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the Group.

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Group is not significantly exposed to currency risk as there is no mismatch between the currencies in which sales of services, purchase of goods/services and borrowings are dominated and the respective functional currencies of Group. Further, the functional currency of the Group is primarily the Indian Rupee and do not expose the Group to significant currency risk. The Group considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

38 Segment reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the group's performance and allocates resources based on analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. Secondary segmental reporting is performed on the basis of the geographical location of customers. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the note on significant accounting policies.

Business Segment:

The Group has three reportable segments, as described below, which are the Group's Lines of Business (LoBs). The LoBs offer different products and services, and are managed separately because the nature of products and method used to distribute the services are different.

The following summary describes the operations in each of the Group's reportable segments:

1. Broking, distribution and trading primarily comprises
 - a. Brokerage on dealing in shares, commodities, currency, derivatives and other securities on behalf of customers;
 - b. Proprietary trading in shares, commodities, currency, derivatives and other securities;
 - c. Clearing services;
 - d. Depository services rendered as depository participant;
 - e. Distribution of third party financial products;
 - f. Fund management services and research support services
 - g. Portfolio and wealth management;
 - h. Real estate broking and
 - i. Mortgage and loan advisory and investment banking services
2. Insurance broking services primarily comprises providing services in life and non-life insurance products.
3. Financing services primarily comprises business of providing loans.

For these LoBs, the Group's Leadership Team comprising of Chairman, Vice-Chairman, Chief Executive Officer and Group Chief Financial Officer, reviews internal management reports. Accordingly, the leadership team is construed to be the Chief Operating Decision Maker (CODM).

**Independent Auditor's Report****To the Members of SMC Global Securities Limited****Report on the Audit of the Standalone Financial Statements****Opinion**

We have audited the accompanying standalone financial statements of **SMC Global Securities Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matter

Key audit matter is those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in our opinion there is no any such matter to be reported by us.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Business Responsibility Report and Report on Corporate Governance and shareholder information, but does not include the standalone financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We audited the restatement adjustments, as disclosed in Note No. 32 to the financial statements, which have been made to the comparative financial information presented for the Year ended March 2021 in accordance with the

requirements of applicable Ind AS. In our opinion, such adjustments are appropriate and have been properly applied. Our Opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure-A, a statement on the matters specified in the paragraph 3 and 4 of the order.
- 2 As required by Section 143(3) of the Act, based on our audit we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e. On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Sec 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- I. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer Note no 34 to the standalone financial statements.
- II. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses, and

III. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

IV. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

V. As stated in Note 19 to the standalone financial statements: -

(a) The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable.

(b) The interim dividend declared and paid by the Company during the year and until the date of this report is in compliance with Section 123 of the Act.

(c) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

Annexure A to the Independent Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31st March 2022, we report that:

(i) In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant & Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of Intangible Assets.

(b) Property, Plant & Equipment are physically verified by the management according to a phased manner to cover all the items over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant & Equipment have been physically verified by the management during the year and no material discrepancies have been noticed on such verification.

Annexure - B to the Auditors' Report

Report on the Internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **SMC Global Securities Limited** ("the Company") as of 31st March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: -

- 1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at 31st March, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 Significant accounting policies and measurement basis

1.01 Company overview

SMC Global Securities Limited ("the company" or "SMC Global"), a limited liability company is domiciled in India, incorporated in the year 1994 having its registered office at 11/6B, Shanti Chambers, Pusa Road, New Delhi-110005. The Company's equity shares are listed and traded on National Stock Exchange ("NSE") and Bombay Stock Exchange ("BSE") in India with effect from February 24, 2021. The Company is a trading and clearing member of the National Stock Exchange of India Limited ("NSE"), BSE Limited ("BSE") and Metropolitan Stock Exchange of India Limited ("MSEI") in the capital market. Further, the company is a clearing and trading member of NSE, BSE, MSEI, MCX and NCDEX in the futures and options of currency, commodity and equity derivative segment. The Company also holds depository participants registration of Central Depository Services (India) Limited and National Securities Depository Limited, participants of NCDEX, Comtrack, AMFI registered mutual fund distribution and portfolio management service (PMS) registration from Securities and Exchange Board of India ("SEBI"). The company is regulated by SEBI. The company has ten subsidiaries and one jointly controlled entity.

The company offers a wide range of services to meet client's needs including brokerage services, clearing services, depository services, distribution of financial products such as mutual fund and initial public offerings, fund management services, research support services and also engages in proprietary transactions.

1.02 Statement of compliance

These standalone financial statements are prepared in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

1.03 Basis of preparation

These standalone financial statements are prepared under the historical cost convention on the accrual basis except for certain assets and liabilities which are measured at fair value / amortised cost / transaction price as stated in respective accounting policies / notes.

The financial statements are presented in Indian Rupees in lakhs and all values are rounded off to the nearest two decimal points except otherwise stated.

1.04 Use of estimates

The preparation of the financial statements in conformity with Ind AS, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.05 Revenue recognition

The company derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of financial products such as mutual fund and initial public offerings, interest income and proprietary trading. The company follows Ind AS 115 Revenue from Contract with Customer, which prescribed the core principle to recognise revenue. This core principle is delivered in a five-step model framework:

- Identify the contract(s) with a customer.
- Identify the performance obligations in the contract.
- Determine the transaction price.
- Allocate the transaction price to the performance obligations in the contract.
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Based on the above principle the company recognises the revenue as follows:

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. Revenue on commission/brokerage on sale made on behalf of principals is accounted for at the time of purchase/sale made on their behalf.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the company but pending to be billed.

SMC GLOBAL SECURITIES LIMITED
Notes to standalone financial statements

(iii) **Depository:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Ind AS 115 Revenue from Contract with Customer is not applicable on this business and hence the revenue is recognised as per Ind AS 109 Financial Instruments i.e. as and when trade is executed.

(v) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument. The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For creditimpaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs). It also includes Delayed payment charges.

(vi) **Commodity trading:** In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(vii) **Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(viii) **Dividend:** Dividend income is recognised when the shareholders right to receive payment is established.

(ix) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(x) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

1.06 Inventories

The Company mainly has inventory of commodities (agri and non-agri), which is held for the purpose of trading. The Company follows Ind AS 2 "Inventories" for valuation of inventory held in trade, accordingly, the company value its inventories at fair value less cost to sell.

1.07 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of applicable GST credit thereon. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

Office building	60	years
Computer equipment	3-6	years
Office equipment	5	years
Furniture and fixtures	10	years
Vehicles	8-10	years
VSAT	13	years

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013. Depreciation methods, useful lives and residual values are reviewed at each year end.

Addition to the, property plant and equipment have been accounted for on the date of installation and its use irrespective of date of invoice. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognised in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale and the resultant gains or losses are recognised in net profit in the statement of profit and loss. Assets classified as held for sale are reported at the lower of the carrying value and the fair value less cost to sell.

1.08 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of GST credit thereon. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

Computer software	40%
Trade mark logo	40%

1.09 Impairment of property, plant and equipment, intangible assets and right of use assets

At each reporting date, the Company reviews the carrying amounts of its property, plant and equipment, intangible assets and right of use assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating Units ('CGUs'). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

1.10 Income tax

The income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognised in statement of profit and loss and the corresponding impact is taken to the current tax asset/ liability and deferred tax asset/liability respectively in balance sheet. The tax impact on the item of OCI are recognised in OCI.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

1.11 Investment in subsidiaries

Investment in subsidiaries are carried at cost less accumulated impairment, if any.

1.12 Financial instruments

(a) Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are measured at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in statement of profit and loss.

1.13 Foreign currency translations

The functional and presentation currency of the Company is Indian Rupee.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains / losses arising on settlement as also on translation of monetary items are recognised in the statement of profit and loss.

1.14 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a personnel expense in statement of profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements. Defined benefit obligation (DBO) is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the year by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual year to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the year as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in personnel expenses in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit or loss.

(c) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(d) Other long-term employee benefits

Liability for long service leave

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in statement of profit or loss in the year in which they arise. The valuation of the long service leave are obtained from actuary.

1.15 Leases

The Company account for the leases in accordance with Ind AS 116 Leases. The Company has adopted Ind AS 116 with effect from 1st April 2019 and followed Appendix C to the Ind AS 116 for the purpose of transition. Accordingly as a practical expedient, company have not reassessed whether a contract is, or contains, a lease at the date of initial application. Instead, the company has :

- (a) applied this Standard to contracts that were previously identified as leases applying Ind AS 17, Leases.
- (b) not applied this Standard to contracts that were not previously identified as containing a lease applying Ind AS 17.

The Company enters into hiring/service arrangements for various assets/services. The Company evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

As a lessee the Company has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date, the Company measures the right-of-use asset applying a cost model, whereas the Company measures the right-of-use asset at cost:

- (a) less any accumulated depreciation and any accumulated impairment losses; and
- (b) adjusted for any remeasurement of the lease liability.

The Company recognises the finance charges on lease expense on reducing balance of lease liability. The lease asset is depreciated over the lease term on straight line basis.

The Company applies the above policy to all leases except:

- (a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;
- (b) leases for which the underlying asset is of low value.

As a lessor the Company identifies leases as operating and finance lease. A lease is classified as a finance lease if the Company transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

At the commencement date, the Company recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

For operating leases as a lessor the Company recognises lease payments from operating leases as income on straight-line basis.

1.16 Borrowing costs

Borrowing costs that are attributable to acquisition, construction or production of qualifying assets, are capitalized as part of the cost of such qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss.

1.17 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits and short-term highly liquid investments that are readily convertible into known amount of cash and which are subject to an insignificant risk of changes in value.

1.18 Provision, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

- (a) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (b) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed where an inflow of economic benefit is probable.

1.19 Statement of cash flows

Cash flows are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

1.20 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year is adjusted for events including a bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.21 Standards issued but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2022 vide notification no. G.S.R 255(E) dated 23rd March 2022. Given below are the amendment made in brief and their possible impact on the financial statements of the company. The company will be apply the amendments from 1 April 2022 being the effective date of the amendments:

Ind AS 101 – First-time adoption of Indian Accounting Standards:

The amendment removes the conflict between the requirements of paragraph D16(a) of Ind AS 101 which provides exemptions where a subsidiary adopts Ind AS later than its parent and the exemptions on cumulative translation differences. The amendment permits the subsidiary to measure cumulative translation differences at the carrying amount included in the parent's consolidated financial statements. Similar exemption is available to associate and joint venture that uses the exemption in paragraph D16(a) of Ind AS 101. Paragraph D16(a) of Ind AS 101 provides that the subsidiary can measure its assets and liabilities at the carrying amounts in parent's consolidated financial statements. The amendment is applicable for entities adopting Ind AS from 1 April 2022. As the company has already adopted Ind AS, there is no impact of this amendment on the company.

Ind AS 103 – Business Combinations:

The amendments are made to enable change of reference to Conceptual Framework for Financial Reporting under Indian Accounting Standards issued by The Institute of Chartered Accountants of India and have no impact on the financial statements of the company. The amendments are applicable for business combinations having acquisition date on or after 1 April 2022.

Ind AS 109 – Financial Instruments:

The amendments clarify that only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf will be included in calculating the discounted present value of the cash flow under the new terms on modification of financial liability. The amendment is applicable for modification / exchange of financial liabilities on or after 1 April 2022. The amendment has no impact on the financial statements of the company.

Ind AS 16 – Property, Plant and Equipment:

The amendment creates a carve-out from IAS 16. IAS 16 requires any sale proceeds and cost of samples produced when testing whether the asset is functioning properly to be recognised in profit or loss whereas the amendment clarifies that the same shall be deducted from the cost of the property, plant and equipment. No transition provisions have been specified and therefore, this amendment shall be applicable retrospectively. The company has been following the practice as clarified by the amendment and hence no impact on the financial statements of the company.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets:

The paragraph clarifies what cost needs to be considered in the costs to fulfil a contract while determining whether the contract is onerous. Changes previous practice of considering only incremental costs in the costs to fulfil a contract for determination of onerous contract. Now apart from incremental costs, the costs to fulfil a contract includes an allocation of directly attributable costs. The amendments apply to unfulfilled onerous contracts as on 1 April 2022. As the company does not have any onerous contract, the said amendment has no impact on the financial statements of the company.

Ind AS 41 – Agriculture:

The amendment removes taxation cash flows from paragraph 22 indicating tax cash flows must be included in the fair value less costs to sell. The amendment is applicable to fair value measurements on or after 1 April 2022. Ind AS 41 is not applicable to the company and hence has no impact on the financial statements of the company.

32 Restatement of financial statements

In Accordance with Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' and Ind AS 1 'Presentation of Financial Statement', the Company has retrospectively restated –

Statement of Profit and Loss for the year ended March 31, 2021;

Statement of Changes in Equity for the year ended March 31, 2021 and as on April 1, 2020; and

Statement of Cash Flows for the year ended March 31, 2021

Notes for the year ended March 31, 2021 from classification of equity and debt instruments at fair value through OCI (FVTOCI) to FVTPL in accordance with Ind AS 109, Financial Instruments.

As per Ind AS 109 Investments in equity instruments should be classified as fair value through other comprehensive income (FVTOCI) only when the investment is of strategic and long term in nature and the company doesn't intend to sell over a long period. Further, debt instruments are to be classified as at fair value through other comprehensive income if the debt instrument is held within a business model of hold to collect contractual cash flows and sell. The company does not hold the equity investment for strategic purposes and there could be frequent purchases and sales in those instruments. The company holds debt instruments for trading. Accordingly, the classification of equity and debt investments have been restated retrospectively to reflect the business model of the company resulting in more relevant and faithful representation of the financial statements. Such restatement did not have any impact in the balance sheet as the equity and debt instruments were already stated at fair value. Also there is no change in total comprehensive income for the year ended March 31, 2021. The impact of the same have been given in the Statement of Profit and Loss and Statement of Cash Flows for the comparative period, and Statement of Changes in Equity at the beginning of the comparative period and for the comparative period. Further the statement of cash flows has been restated for the effects of non cash items. Moreover, the Balance Sheet at the beginning of the comparative period as on 01 April 2020 is not required as per Para 40A of Ind AS 1, as there is no change on the information in the balance sheet at the beginning of the comparative period.

Assumptions regarding future mortality experience are set in accordance with the published statistics by the Life Insurance Corporation of India.

The company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The discount rate is based on the government securities yield.

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by 50bps, keeping all other actuarial assumptions constant.

Gratuity is applicable only to employees drawing salary in Indian rupees.

36.05 Financial risk management
Financial risk factors

This note presents the information about the Company's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Financial risk management within the Company is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Company's risk management policies. Company policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Company.

The Company's risk management policies and procedures are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Company above have been explained below:

(i) **Credit risk**

The credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Company is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Company due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Company is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Company's financial position, and ability to borrow in the credit markets and ability to operate the business.

For the risk management purposes, the Company considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

Management / mitigation of credit risk

The Company operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Company collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Company monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Company's Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Company's credit risk, including the following:

- Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrator as appropriate.
- Providing advice, guidance and specialist skills to business units through periodic reviews to promote best practices throughout the Company in the management of credit risk.
- The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.
- Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).
- Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

The Board of Directors has also constituted Audit Committee, which is responsible for evaluation of internal financial controls and risk management systems. The company conducts regular internal audits of various business units to identify scope of improvement/enhancement of the Company's processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

Credit Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Company's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges. The principal portion of the working capital requirement is utilized by :

- depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- payments to stock exchanges/clearing houses towards settlement obligations;
- payment towards purchase of various trading assets; and
- meeting expenses incurred for operations.

Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Company's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To fund the working capital requirements, the Company currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of derivative assets, term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Company comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the Company believes that the above monetary mechanism adequately addresses the liquidity risk.

(iii) Market risk

The Company participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the Company's income or the value of its holdings of financial instruments.

The Company segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Company's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolios include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Company manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Company is exposed to volatility in the price of the underlying securities.

(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Company's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the Company has come from overdraft facility with banks. The business of the Company is exposed to fluctuation in interest rate for the following activities:

- (i) Term deposits placed with banks are generally for short term on fixed interest rates;
- (ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;
- (iii) Interest paid by Company on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Company does not use derivative financial instruments to hedge its interest rate risk.

The Company's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the Company to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the company.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Company is not significantly exposed to currency risk as there is no mismatch between the currencies in which sales of services, purchase of goods/services and borrowings are dominated and the respective functional currencies of Company. Further, the functional currency of the Company is primarily the Indian Rupee and do not expose the Company to significant currency risk. The Company considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

**Independent Auditors' Report****To the Members of SMC Global Securities Limited****Report on the Audit of the Consolidated Financial Statements****Opinion**

We have audited the accompanying consolidated financial statements of **SMC Global Securities Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its jointly controlled entity, which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, the consolidated profit, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in and in our opinion there is no any such matter to be reported by us.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's

Information, but does not include the consolidated financial statements and our auditor's report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and Joint venture are also responsible for overseeing the financial reporting process of the Group and Joint venture.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies which are companies incorporated in India, has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements, which have been audited by other auditors; such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the holding company of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore

the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We audited the restatement adjustments, as disclosed in Note No 34 to the financial statements, which have been made to the comparative financial information presented for the Year ended March 2021 in accordance with the requirements of applicable Ind AS. In our opinion, such adjustments are appropriate and have been properly applied. Our opinion is not modified in respect of this matter.

We did not audit the financial statements / financial information of 9 subsidiaries whose financial statements reflect the total assets of Rs 97,892.53 lakhs as at 31.03.2022, and 10 subsidiaries whose financial statements reflect the total revenue of Rs 18,593.37 lakhs, net profit after tax of 2,870.13 lakhs, total comprehensive income Rs 3,027.01 lakhs and net cash inflow Rs 1,909.09 lakhs for the year ended 31.03.2022 as considered in the consolidated financial statements. The Consolidated financial statements include the financial results of 1 jointly controlled entity which reflect groups share of net loss of Rs 0.96 lakhs for the year ended 31.03.2022. These Financial Statements have been audited by other auditors have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and Jointly controlled entity , and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries , and jointly controlled entity , are based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Annexure - A to the Independent Auditors' Report
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2022, we have audited the internal financial controls with reference to financial statements of SMC Global Securities Limited ("the Holding Company") and its subsidiaries company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matter

Our aforesaid reports u/s 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding company, in so far as it relates to seven subsidiaries which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

1.06 Use of estimates

The preparation of the financial statements in conformity with Ind AS, requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the year in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

1.07 Revenue recognition

The group derives its revenue primarily from the brokerage services, clearing services, depository services, distribution of financial products such as mutual fund and initial public offerings, proprietary trading, management and consultancy and interest income from financing business. The group follows Ind AS 115 Revenue from Contract with Customer, which prescribed the core principle to recognise revenue. This core principle is delivered in a five-step model framework:

- (a) Identify the contract(s) with a customer.
- (b) Identify the performance obligations in the contract.
- (c) Determine the transaction price.
- (d) Allocate the transaction price to the performance obligations in the contract.
- (e) Recognise revenue when (or as) the entity satisfies a performance obligation.

Based on the above principle the group recognise the revenue as follows:

(i) **Broking:** In these types of contract performance obligation is to provide the platform to traders for trading in securities, commodities and the performance obligation satisfies point in time i.e. as and when the trade is executed. In real estate broking, the performance obligation is satisfied as and when the property is booked by the customer and a minimum threshold amount specified in the agreement is paid to the developer. The revenue is recorded when the threshold limit is achieved and the same is confirmed by the developer. In insurance broking, the performance obligation satisfies as and when the policy is logged in/placed in case of general insurance and on Weighted Received Premium (WRP) basis in case of life insurance. Unbilled revenue regarding insurance broking is the income that has become due on account of policy issued by the company but pending to be billed. Further it makes provision for cancellation for Life Insurance business on the basis of past trend of business cancellation owing to the very peculiar nature of Life Insurance business. Provision for cancellation is netted off from revenue.

(ii) **Distribution of third party financial products:** In these types of contract performance obligation is to sell the third party financial products to the subscriber and the performance obligation satisfies point in time i.e. as and when subscription is ensured and target based incentives are confirmed by registrar / respective companies. Unbilled revenue is the income that has become due on account of services rendered by the company but pending to be billed.

(iii) **Depository:** In these types of contract performance obligation is periodic maintenance of customer account as depository participant and the performance obligation satisfies over time i.e. over the period and there is reasonable certainty of recovery.

(iv) **Proprietary trading:** Ind AS 115 Revenue from Contract with Customer is not applicable on this business and hence the revenue is recognised as per Ind AS 109 Financial Instruments i.e. as and when trade is executed.

(v) **Fund management services:** In these types of contracts the performance obligation satisfies over time i.e. the services are rendered on continuous basis and the revenue is recognised on periodical basis and also considering performance based criteria of fund (as applicable).

(vi) **Management and consultancy:** Revenue from management & advisory services is accounted for when the rendering of service under a contract is completed or substantially completed.

(vii) **Interest income:** Interest income on a financial asset at amortised cost is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate ('EIR'). The EIR is the rate that exactly discounts estimated future cash flows of the financial assets through the expected life of the financial asset or, where appropriate, a shorter period, to the net carrying amount of the financial instrument. The internal rate of return on financial assets after netting off the fees received and cost incurred approximates the effective interest rate method of return for the financial asset. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For creditimpaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for ECLs).

It also includes Delayed payment charges.

(viii) **Commodity trading:** In these types of contracts the performance obligation satisfies in time i.e. when the sale is executed or ownership is transferred. Accordingly the revenue is recognised on whenever the transaction is executed.

(ix) **Dividend:** Dividend income is recognised when the shareholders right to receive payment is established.

(x) **Research support services:** In these types of contract performance obligation is periodic input to participants on the basis of capital market analysis and the performance obligation satisfies over time i.e. over the period.

(xi) **Incentives from exchange:** Incentives from exchange are recognised on point in time basis.

1.08 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of applicable GST credit thereon. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The group depreciates property, plant and equipment over their estimated useful lives on written down value method. The estimated useful lives of assets are as follows:

Office Building	60	years
Computer equipment	3-6	years
Office equipment	5	years
Furniture and fixtures	10	years
Vehicles	8-10	years
VSAT	13	years

The useful lives for these assets is in compliance with the useful lives as indicated under Part C of Schedule II of the Companies Act, 2013. Depreciation methods, useful lives and residual values are reviewed at each year end.

Addition to the, property plant and equipment have been accounted for on the date of installation and its use irrespective of date of invoice. Depreciation on asset added/sold/discarded during the year is being provided on prorata basis from / upto the date on which such assets are added/sold/discarded.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non financial assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognised in the statement of profit and loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale and the resultant gains or losses are recognised in net profit in the statement of profit and loss. Assets classified as held for sale are reported at the lower of the carrying value and the fair value less cost to sell.

1.09 Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Cost includes taxes, duties, identifiable direct expenses, expense on installation and net of GST credit thereon. Intangible assets are amortized on a written down value basis, from the date that they are available for use. The rates used are as follows :

Computer software	40%
Trade mark logo	40%

1.10 Impairment of property, plant and equipment, intangible assets and right of use assets

At each reporting date, the group reviews the carrying amounts of its property, plant and equipment, intangible assets and right of use assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash flows are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating Units ('CGUs'). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs of disposal. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss.

1.11 Inventories

The group mainly have inventory of commodities (agri and non-agri), which is held for the purpose of trading. The group follows Ind AS - 2 "Inventories" for valuation of inventory held in trade, accordingly, values its inventories at fair value less cost to sell.

1.12 Income tax

The income tax expense comprises of current and deferred tax. Current tax and deferred tax are recognised in statement of profit and loss and the corresponding impact is taken to the current tax asset/ liability and deferred tax asset/liability respectively in balance sheet. The tax impact on the item of OCI are recognised in OCI.

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the group's income tax obligation for the year are recognised in the balance sheet as current income tax assets / liabilities.

Deferred tax is recognised based on the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. Deferred tax is determined using tax rates that have been enacted or substantively enacted at the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability. Accordingly, MAT is recognised as deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with asset will be realised.

1.13 Investment in joint venture

Investment in joint venture is under equity method.

1.14 Financial instruments

(a) Initial recognition

The group recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognised at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Purchase and sale of financial assets are accounted for at trade date.

(b) Subsequent measurement

(i) Financial assets at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Advances, security deposits, rental deposits, cash and cash equivalents etc. are classified for measurement at amortised cost.

(ii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss. All investment held for trading, derivative financial instruments are valued at fair value through profit and loss.

(iii) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognised in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(c) Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the group's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(d) Impairment

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognised as an impairment gain or loss in statement of profit and loss.

1.15 Foreign currency translations

The functional and presentation currency of the Company is Indian Rupee. However there are certain companies in the group which have USD as their functional currency.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains / losses arising on settlement as also on translation of monetary items are recognised in the statement of profit and loss.

Translation difference on conversion of foreign operations is recognised in the other comprehensive income.

1.16 Employee benefits

(a) Defined contribution plans

Obligations for contributions to defined contribution plans (provident fund and employees state insurance) are recognized as a employee benefit expense in statement of profit or loss in the years during which services are rendered by employees.

(b) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's gratuity scheme is a defined benefit plan and in accordance with Payment of Gratuity Act, 1972. As per the plan, employee is entitled to get 15 days of basic salary for each completed year of service with a condition of minimum tenure of 5 years subject to a maximum amount of INR 20.00 lakhs. Gratuity liability is a defined obligation and is non-funded except in case of the holding company where it is partly funded.

The calculation of defined benefit obligations are performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements. Defined benefit obligation (DBO) is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI. The group determines the net interest expense (income) on the net defined benefit liability (asset) for the year by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual year to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the year as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in employee benefits expenses in statement of profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in statement of profit or loss.

(c) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(d) Other long-term employee benefits

Liability for long service leave

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior years. That benefit is discounted to determine its present value. Remeasurements are recognised in statement of profit or loss in the year in which they arise. Un-availed leave liability is a defined obligation and is not funded. The valuation of the long service leave are obtained from actuary.

1.17 Leases

The Group account for the leases in accordance with Ind AS 116 Leases. The Company has adopted Ind AS 116 with effect from 1st April 2019 and followed Appendix C to the Ind AS 116 for the purpose of transition. Accordingly as a practical expedient, group have not reassessed whether a contract is, or contains, a lease at the date of initial application. Instead, the group has

(a) applied this Standard to contracts that were previously identified as leases applying Ind AS 17, Leases.

(b) not applied this Standard to contracts that were not previously identified as containing a lease applying Ind AS 17.

The Group enters into hiring/service arrangements for various assets/services. The group evaluates whether a contract contains a lease or not, in accordance with the principles of Ind AS 116. This requires significant judgements including but not limited to, whether asset is implicitly identified, substantive substitution rights available with the supplier, decision making rights with respect to how the underlying asset will be used, economic substance of the arrangement, etc.

As a lessee, the group has measured lease liability at the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application. After the commencement date / transition date. The group measures the right-of-use asset applying a cost model, whereas the group measures the right-of-use asset at cost:

(a) less any accumulated depreciation and any accumulated impairment losses; and

(b) adjusted for any remeasurement of the lease liability

The group recognises the finance charges on lease expense on reducing balance of lease liability. The Lease asset is depreciated over the lease term on straight line basis.

The group applies the above policy to all leases except:

(a) leases for which the lease term (as defined in Ind AS 116) ends within 12 months of the acquisition date;

(b) leases for which the underlying asset is of low value.

As a lessor the Company identifies leases as operating and finance lease. A lease is classified as a finance lease if the Company transfers substantially all the risks and rewards incidental to ownership of an underlying asset.

At the commencement date, the group recognises assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. After the initial recognition the group recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease.

For Operating leases as a lessor the group recognises lease payments from operating leases as income on straight-line basis.

1.18 Borrowing costs

Borrowing costs that are attributable to acquisition, construction or production of qualifying assets, are capitalized as part of the cost of such qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are charged to the statement of profit and loss.

1.19 Assets held for sale

Assets held for sale are carried on balance sheet at the lower of carrying amount and fair value less cost to sell and no depreciation is charged on them as per Ind AS 105.

1.20 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, demand deposits which are free from any lien and short-term highly liquid investments that are readily convertible into known amount of cash and which are subject to an insignificant risk of changes in value.

1.21 Provision, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

Contingent liability is disclosed for:

(a) Possible obligations which will be confirmed only by future events not wholly within the control of the group or

(b) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are disclosed where an inflow of economic benefit is probable.

1.22 Statement of cash flows

Cash flows are reported using the indirect method where by the profit after tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the group are segregated.

1.23 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the year. The weighted-average number of equity shares outstanding during the year is adjusted for events including a bonus issue. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted-average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.24 Standards issued but not yet effective

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2022 vide notification no. G.S.R 255(E) dated 23rd March 2022. Given below are the amendment made in brief and their possible impact on the financial statements of the company. The company will be apply the amendments from 1 April 2022 being the effective date of the amendments:

Ind AS 101 – First-time adoption of Indian Accounting Standards:

The amendment removes the conflict between the requirements of paragraph D16(a) of Ind AS 101 which provides exemptions where a subsidiary adopts Ind AS later than its parent and the exemptions on cumulative translation differences. The amendment permits the subsidiary to measure cumulative translation differences at the carrying amount included in the parent's consolidated financial statements. Similar exemption is available to associate and joint venture that uses the exemption in paragraph D16(a) of Ind AS 101. Paragraph D16(a) of Ind AS 101 provides that the subsidiary can measure its assets and liabilities at the carrying amounts in parent's consolidated financial statements. The amendment is applicable for entities adopting Ind AS from 1 April 2022. As the company has already adopted Ind AS there is no impact of this amendment on the company.

Ind AS 103 – Business Combinations:

The amendments are made to enable change of reference to Conceptual Framework for Financial Reporting under Indian Accounting Standards issued by The Institute of Chartered Accountants of India and have no impact on the financial statements of the company. The amendments are applicable for business combinations having acquisition date on or after 1 April 2022.

Ind AS 109 – Financial Instruments:

The amendments clarify that only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf will be included in calculating the discounted present value of the cash flow under the new terms on modification of financial liability. The amendment is applicable for modification / exchange of financial liabilities on or after 1 April 2022. The amendment has no impact on the financial statements of the company.

Ind AS 16 – Property, Plant and Equipment:

The amendment creates a carve-out from IAS 16. IAS 16 requires any sale proceeds and cost of samples produced when testing whether the asset is functioning properly to be recognised in profit or loss whereas the amendment clarifies that the same shall be deducted from the cost of the property, plant and equipment. No transition provisions have been specified and therefore, this amendment shall be applicable retrospectively. The company has been following the practice as clarified by the amendment and hence no impact on the financial statements of the company.

Ind AS 37 – Provisions, Contingent Liabilities and Contingent Assets:

The paragraph clarifies what cost needs to be considered in the costs to fulfil a contract while determining whether the contract is onerous. Changes previous practice of considering only incremental costs in the costs to fulfil a contract for determination of onerous contract. Now apart from incremental costs, the costs to fulfil a contract includes an allocation of directly attributable costs. The amendments apply to unfulfilled onerous contracts as on 1 April 2022. As the company does not have any onerous contract, the said amendment has no impact on the financial statements of the company.

Ind AS 41 – Agriculture:

The amendment removes taxation cash flows from paragraph 22 indicating tax cash flows must be included in the fair value less costs to sell. The amendment is applicable to fair value measurements on or after 1 April 2022. Ind AS 41 is not applicable to the company and hence has no impact on the financial statements of the company.

34 Restatement of financial statements

In Accordance with Ind AS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' and Ind AS 1 'Presentation of Financial Statement', the Company has retrospectively restated -

Statement of Profit and Loss for the year ended March 31, 2021;
Statement of Changes in Equity for the year ended March 31, 2021 and as on April 1, 2020;
Statement of Cash Flows for the year ended March 31, 2021; and
Segment for the year ended March 31, 2021

Notes for the year ended March 31, 2021 from classification of equity and debt instruments at fair value through OCI (FVTOCI) to FVTPL in accordance with Ind AS 109, Financial Instruments.

As per Ind AS 109 Investments in equity instruments should be classified as fair value through other comprehensive income (FVTOCI) only when the investment is of strategic and long term in nature and the company doesn't intend to sell over a long period. Further, debt instruments are to be classified as at fair value through other comprehensive income if the debt instrument is held within a business model of hold to collect contractual cash flows and sell. The company does not hold the equity investment for strategic purposes and there could be frequent purchases and sales in those instruments. The company holds debt instruments for trading. Accordingly, the classification of equity and debt investments have been restated retrospectively to reflect the business model of the company resulting in more relevant and faithful representation of the financial statements. Such restatement did not have any impact in the balance sheet as the equity and debt instruments were already stated at fair value. Also there is no change in total comprehensive income for the year ended March 31, 2021. The impact of the same have been given in the Statement of Profit and Loss and Statement of Cash Flows for the comparative period, and Statement of Changes in Equity at the beginning of the comparative period and for the comparative period. Further the statement of cash flows has been restated for the effects of non cash items. Moreover, the Balance Sheet at the beginning of the comparative period as on 01 April 2020 is not required as per Para 40A of Ind AS 1, as there is no change on the information in the balance sheet at the beginning of the comparative period.

39.04 Financial risk management
Financial risk factors

This note presents the information about the group's exposure to financial risks, the Company's objectives, policies and processes for measuring and managing risk and the Company's management of capital.

The group has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk and
- Market risk

Financial Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Financial risk management within the Group is governed by policies and guidelines approved by the management. The Board has established a Risk Management Committee which is responsible for developing and monitoring the Group's risk management policies. Group's policies and guidelines cover areas such as cash management, investment of excess funds and raising of debt and are managed by segregated functions within the Group.

The Group's risk management policies and procedures are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees and stakeholders understand their roles and obligations.

Different types of risks arising from financial instruments as identified by the Group above have been explained below:

(i) Credit risk

The credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivable from clients and exchange and trading members, loan and advances, investments other than the quoted securities given. Credit risk in respect of quoted securities is expected to have a direct correlation with the quoted market prices and risk.

The Group is exposed to the risk that third parties that owe money or securities will not perform their obligations. Such third parties include clients/customers, trading members, exchanges, clearing houses, and other financial intermediaries. These parties may default on their obligations owed to the Group due to insolvency, lack of liquidity, operational failure, government or other regulatory intervention or other reasons. In these circumstances, the Group is exposed to risks arising, for example, from holding securities of third parties; executing securities trades that fail to settle at the required time due to non-delivery by the counterparty trading members, exchanges, clearing houses or other financial intermediaries. Significant failures by third parties to timely perform their obligations owed could materially and adversely affect the Group's financial position, and ability to borrow in the credit markets and ability to operate the business.

For the risk management purposes, the Company considers and consolidates all elements of credit risk exposures such as individual obligator default risk, country and sector risk.

Management / mitigation of credit risk

The Group operates in a highly regulated environment which limits its credit risk against exchanges and clearing houses. The Group collects upfront margins in form of funds and/or securities/commodities from clients and trading members against their trading positions. The Group monitors positions, margins, mark to market losses and risks on real time basis through risk management systems and policies specially designed to mitigate the credit risk.

The Company's Board of Directors has delegated responsibility for the oversight of credit risk to the Risk Management Committee ("the Committee"). The Committee is responsible for management of the Group's credit risk, including the following:

- Formulating credit policies in consultation with business units, covering collateral requirements, credit assessment, risk grading and reporting, documentary and legal procedures, and compliance with regulatory and statutory requirements.
- Establishing the organizational structure for the approval of new customers or counter parties. Authorization limits are allocated to business unit credit officers or the Arbitrager as appropriate.
- Providing advice, guidance and specialised skills to business units through periodic reviews to promote best practices throughout the Company in the management of credit risk.
- The Committee assesses the credit worthiness of client or counterparties, prior to taking exposure on them. Accordingly, limits are assigned and the monitoring mechanism ensures that exposure to single client does not cross the laid down threshold limits. Collateral securities are also collected from clients to cover the exposure.
- Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances and similar exposures), and by issuer, credit rating bond, market liquidity and country (for investment securities and trading assets).
- Reviewing compliance of business units with agreed exposure limits, including those for selected industries, country risk and product types. Regular reports on the credit quality of local portfolios are provided to the management, which may require appropriate corrective action to be taken.

SMC GLOBAL SECURITIES LIMITED
Notes to consolidated financial statements

The Board of Directors has also constituted Audit Committee as required under the Companies Act, 2013, which is responsible for evaluation of internal financial controls and risk management systems. The internal auditors of the Group conduct regular internal audits (as required) of various business units to identify scope of improvement/enhancement of the Group's processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board.

The Group also run the financing business through its subsidiary Moneywise Financial Services Private Limited. The Company is exposed to high credit risk due to the inherent limitation of the business. The Company lends both secured and unsecured loans to its customer. To mitigate the credit risk the Company has implemented a loan policy to identify the broad principles which the Company follows to accept borrowers and loan proposals, to manage loan portfolio, and recover its dues so as to protect business revenues with consumer satisfaction. To reduce the credit risk in financing, the Company performs a detail credit assessment on the prospective borrower or seek security over some assets of the borrower or a guarantee from a third party. The Company takes all reasonable and business precautions through policies and procedures to mitigate and manage the credit risk. The senior management in the Company is responsible for evaluation of internal financial controls and risk management systems. The Company conducts regular internal audits of various business units to identify scope of improvement/enhancement of the Company's processes, quality control, fraud prevention and legal compliance. The internal audit reports are reviewed by audit committee and also placed with the Board. While considering loan proposals, the Company also manages risk through limiting concentration of exposure to individual borrowers, industry, underlying collateral, etc. All Loans to customers are sanctioned based on various factors like financials analysis, credit worthiness of the customer, market references, and historical client relations with Company and future business prospects. The Company collects upfront collateral and pledge securities for the loans and advances granted wherever required. Despite all the measure taken by the Company and its management it is inherent in the financing business that the customer may default in the repayment of the loan granted to them. The Company creates charge with Registrar of Company (ROC) on all secured loans granted to the corporate customers & also with Central Registry of Securitization Asset Reconstruction and Security Interest of India (CERSAI) for all customers. The Company employs all recovery procedures including follow up with customer for payment, legal remedies for recovery, invocation and sale of collateral.

Credit exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Loan to Value (LTV) for loan and advances to customer

The general creditworthiness of a customer tends to be the most relevant indicator of credit quality of a loan extended to it. However, collateral provides additional security and the Company generally requests borrowers to provide it. The Company may take collateral in the form of a charge over real estate, floating charges over pledge of securities or other assets and other liens and guarantees.

The table below stratify credit exposures from secured loans and advances to customers which has become non performing assets by ranges of loan-to-value (LTV) ratio. LTV is calculated as the ratio of the gross amount of the loan-to the value of the collateral. The gross amounts exclude any impairment allowance. The valuation of the collateral excludes any adjustments for obtaining and selling the collateral.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group require sufficient liquidity to meet their obligations. Individual companies are generally responsible for their own fund management, including the short-term investment of surpluses and the raising of loans to cover deficits from third parties/companies.

The Group's primary liquidity requirements are to finance the working capital needs, which are typically towards margin maintenance at various exchanges and repayment of borrowings and disbursement of Loans to customer. The principal portion of the working capital requirement is utilized by :

- depositing funds with banks to obtain term deposits and guarantees towards margins payable to the exchanges/clearing houses;
- payments to stock exchanges/clearing houses towards settlement obligations;
- payment towards purchase of various trading assets;
- disbursement of loans to customers;
- repayment of borrowings/credit lines taken; and
- meeting expenses incurred for operations.

Management of liquidity risk

Working capital requirements fluctuate on a regular basis depending on the business requirements. The Group's approach to managing liquidity is to ensure, as far as possible to have sufficient funds to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

To fund the working capital requirements, the Group currently relies principally on internal accruals and short term credit facilities from banks and financial institutions against pledge of term deposits, receivables from clients and investments carried at fair value through profit and loss. By maintaining sufficient liquid funds and drawing facilities with banks, the Group comfortably meets the foreseeable liabilities in the present and immediate future, as well as unforeseeable contingencies.

Central treasury receives information from business units regarding the liquidity profile of their financial assets and liabilities and projected cash flows. Central treasury maintains surplus funds in cash and cash equivalents including term deposits with banks and in investment securities for which there is an active and liquid market. These assets can be readily sold to meet liquidity requirements. Hence, the group believes that the above monetary mechanism adequately addresses the liquidity risk.

(iii) Market risk

The certain companies in Group participates in trading and investing in various asset classes such as equity, debt securities, commodities, foreign currency and derivatives. These assets classes experience volatility due to economic growth levels, inflation, prices, interest rates, foreign exchange rates and other macro-economic factors. Any changes in market prices of these asset classes will affect the group's income or the value of its holdings of financial instruments. The Group segregates its exposure to market risks between price risk, interest rate risk and currency risk.

Management of market risks:

The objective of market risk management is to manage and minimize market risk exposures within acceptable parameters, while optimizing the return on risk. The Group's exposure to market risk is determined by a number of factors, including size, composition and diversification of positions held and market volatility.

(a) Price risk

Trading and investment portfolio include proprietary positions taken in equities, fixed income securities, commodities, foreign currency and their derivatives mainly for availing arbitrage opportunities. All financial assets and liabilities are accounted on fair value basis. Management actively monitors its market risk by reviewing the effectiveness of arbitrage and setting outstanding position limits. The Group manages market risk with central oversight, analysis and formation of risk policy, specific maximum risk levels to which the individual trader must adhere to and real time continuous monitoring by the senior management.

In respect of the proprietary positions, the Group is exposed to volatility in the price of the underlying securities, though substantial part of it is safeguarded by matching counter trade.

(b) Interest rate risk

Interest rate risk arises from movements in interest rates which could have effects on the Group's net income or financial position. Changes in interest rates may cause variations in interest income and expenses resulting from interest-bearing assets and liabilities. Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk relates to the loans taken from banks, investment in term deposits placed with banks, investment in debt securities and investments of its excess funds in liquid instruments. A majority of the financing of the group has come from overdraft facility with banks. The business of the Group is exposed to fluctuation in interest rate for the following activities:

- (i) Term deposits placed with banks are generally for short term on fixed interest rates;
- (ii) Facilities availed from banks and other financial institutions generally include short term working capital loans on floating interest rates;
- (iii) Interest paid by Company on clients' funds earmarked as fixed margin are generally for short term on fixed interest rates.
- (iv) Loans and advances on fixed interest rate basis does not expose the Company to interest rate risk.

Management of Interest Rate Risk

Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for re-pricing bands. However the Group does not use derivative financial instruments to hedge its interest rate risk.

The Group's investments in majority of term deposits with banks are for both short and long duration, and therefore do not expose the group to significant interest rate risk. Further significant portion of exposure on term deposits with banks is offset with clients' funds earmarked as margins on fixed rate basis. The interest rates on the overdraft facility availed are marginally higher than the interest rates on term deposits with the banks and generally linked to the term deposit rates with the bank. Accordingly, there is limited interest rate risk exposure on the group.

The Group's exposure to the risk of changes in market interest rates relates primarily to the group's short-term and long-term debt obligations with floating / fixed interest rates, which are included in loans and borrowings. The loans and borrowings represent loans and borrowing taken both fixed and floating interest rate.

(c) Currency risk

The Group operates internationally and have two foreign subsidiary namely SMC Comex international DMCC and SMC Global USA Inc. Also the Group has one subsidiary whose functional currency is USD based out of Gift city, Gandhinagar, Gujarat, India. The Group does not take any hedge for the investment in the foreign subsidiary accordingly the Group is exposed to the foreign currency risk. However as the size of the companies is not big the foreign currency risk is contained. The Group companies also trade in the foreign currency derivatives. The Group considers the valuation changes in foreign currency derivatives it trades in as part of investment/price risk as those derivatives are exchange traded, managed and monitored based on exchange price and are settled in near term in Indian Rupees.

41 Segment reporting

Ind AS 108 establishes standards for the way that public business enterprises report information about operating segments and related disclosures about products and services, geographic areas, and major customers. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the group's performance and allocates resources based on analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented both along industry classes and geographic segmentation of customers, industry being the primary segment. Secondary segmental reporting is performed on the basis of the geographical location of customers. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual segments, and are as set out in the note on significant accounting policies.

Business Segment:

The Group has three reportable segments, as described below, which are the Group's Lines of Business (LoBs). The LoBs offer different products and services, and are managed separately because the nature of products and method used to distribute the services are different.

The following summary describes the operations in each of the Group's reportable segments:

1. Broking, distribution and trading primarily comprises
 - a. Brokerage on dealing in shares, commodities, currency, derivatives and other securities on behalf of customers;
 - b. Proprietary trading in shares, commodities, currency, derivatives and other securities;
 - c. Clearing services;
 - d. Depository services rendered as depository participant;
 - e. Distribution of third party financial products;
 - f. Portfolio and wealth management;
 - g. Real estate broking and
 - h. Mortgage and loan advisory and investment banking services
2. Insurance broking services primarily comprises providing services in life and non-life insurance products.
3. Financing services primarily comprises business of providing loans.

For these LoBs, the Group's Leadership Team comprising of Chairman, Vice-Chairman, Chief Executive Officer and Group Chief Financial Officer, reviews internal management reports. Accordingly, the leadership team is construed to be the Chief Operating Decision Maker (CODM).

Detailed Rationale

CRISIL Ratings has assigned its '**CRISIL A/Stable**' rating to the non-convertible debentures (NCD) of SMC Global Securities Limited (SMC).

The rating factors in established presence and track record of the group in capital market businesses, healthy diversification in revenue across multiple segments, adequate capital position and the extensive experience of the promoters in the business.

These strengths are partially offset by a moderate albeit improving earnings profile and susceptibility to risks associated with capital market-related businesses.

The group has been in the broking business since 1994 with presence in both cash equity and derivatives market segments, including the currency and commodity derivatives division. The group's other key offerings include lending through a non-banking financial company (NBFC), insurance broking, wealth management and real estate advisory services. The group also distributes third-party products such as mutual funds, corporate fixed deposits (FDs), bonds and initial public offerings. The broking business had a large retail client base of over 10.0 lakh customers as on September 30, 2023 (grew at 19.4% on-year in fiscal 2023). Active clients for the broking business stood at 1.86 lakh as on September 30, 2023.

SMC was co-founded by the promoters – Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who are chartered accountants and have more than four decades of experience in the capital market industry. The promoters along with their family members, collectively own 67.4% of equity shares as on September 30, 2023.

The group has adequate capitalization, with reported networth of Rs 933 crore as on March 31, 2023 (Rs 991 crore as on Sep 2023), compared to Rs 926 crore as on March 31, 2022. The networth remained nearly flat in fiscal 2023 on account of Rs 92 crore (including tax and other expenses) share buyback made by the company and 120% dividend paid per share. In terms of earning profile, profit after tax (PAT) stood at Rs 120 crore on total income of Rs 1,221 crore in fiscal 2023 (against Rs 175 crore and Rs 1,121 crore, respectively, for the previous fiscal). Profitability moderated in fiscal 2023 owing to increase in operating expenses to strengthen the information technology (IT) infrastructure and due to absence of one-time income earned on the investment book of Rs ~30 crore in fiscal 2022. For the half year ended September 30, 2023, the company reported PAT of Rs 70 crore on total income of Rs 704 crore.

Analytical Approach

For arriving at the ratings, CRISIL Ratings has combined the business and financial risk profiles of SMC Global Securities Limited and its subsidiaries. That is because the entities, collectively referred to as the SMC group, have integrated operations and operate under a common brand name.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- **Track record in capital market business, supported by experienced management and robust risk management systems**

The group has been in the broking business since 1994 and has an established operational track record. The group's senior management team comprises the promoters -- Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who have more than four decades of experience in the capital market industry. Further, the group has hired professionals having significant relevant expertise. The CEO and head of the broking division, Mr Ajay Garg, has more than 25 years of experience in the capital market industry. The promoter and top management have witnessed several cycles in the capital markets business. This has led to building sound risk management systems that partially offset risks arising from uncertainties inherent in the trading and broking business.

All the Securities and Exchange Board of India (SEBI) and exchange-prescribed regulations have been adhered to by instilling requisite systems and processes. The group sets client trading limits upfront and monitors client exposure on a real-time basis. It also sets scrip-wise exposure limit to keep a check on illiquid scrips or scrips under any kind of surveillance. Upfront margin along with peak margin is collected necessarily and clients are required to maintain adequate margin as prescribed by exchanges. In case of adverse/volatile price movements real-time risk-based square off could be initiated at any time during the day.

On the trading side the group engages largely in arbitrage strategies, which limits likelihood of losses. A dedicated surveillance team monitors trader limits, outstanding exposures, and mark to market on real-time basis. The sound risk management system has resulted in nil quarterly losses since inception. The group also set up an in-house technology team in fiscal 2023 to strengthen their IT infrastructure.

- **Increasing diversification across financial services businesses, supporting stability in earnings profile**

SMC is an established player in the retail equity broking segment. The market share of the combined volumes of the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in both the cash and derivatives segments stood at 0.49% for fiscal 2023, with higher market share in the retail cash segment at 0.83%. It has a modest presence in the commodity and currency segment and earns ~11% of its total broking income from these two segments. Furthermore, amidst high competition from discount brokers, the group started its own discount broking platform in 2019 under the brand name 'Stoxkart' where customers are charged only for profitable transactions. The platform has a client base of over 2.3 lakh customers as on September 30, 2023 (grew at 83.5% on-year in fiscal 2023). With gradual scale up of fund-based business (NBFC) and the presence of fee-based businesses, such as insurance broking, distribution (financial products), wealth management, advisory, revenue streams have become more diverse. Contribution from these businesses to overall revenue has increased in the last few fiscals. The group is focusing on scaling up its insurance broking and distribution businesses by strengthening the technology infrastructure.

The wealth management business had assets under management (AUM) worth Rs 797 crore as on September 30, 2023 (Rs 610 crore as on March 31, 2023). The AUM of mutual funds under the distribution business was over Rs 3,300 crore as on September 30, 2023. The company has been able to create a niche for itself in distributing FDs and had distributed FDs worth Rs 3,012 crore for the half year period ended September 30, 2023. For their insurance broking business, it has sold over 4.5 lakh policies worth Rs 1,257 crore of insurance premium for the half year period ended September 30, 2023.

The group provides lending through its wholly owned subsidiary, Moneywise Financial Services Private Limited (Moneywise). The lending business commenced operations in 2008 and offers a wide bouquet of small and medium-sized enterprises (SME)-focused loan products such as working capital term loans, loan against property, asset financing, loan to other NFBCs, capital market funding, consumer durable loans, supply chain financing and gold loan. AUM grew 30% (on-year) in fiscal 2023 and stood at Rs 900 crore as on March 31, 2023, against Rs 690 crore a year ago; AUM further increased to Rs 1,016 crore as on September 30, 2023. The asset quality of the book remains stable as gross non-performing assets stood at 2.3% as on September 30, 2023, against 2.3% as on March 31, 2023. The subsidiary reported PAT of Rs 36 crore and return on assets of 4.0% for fiscal 2023, compared to Rs 22 crore and 3.3%, respectively, in the previous year. The management plans to grow the loan book aggressively and targets an AUM of Rs 5,000 crore in the next five years.

- **Adequate capitalisation**

The group is adequately capitalised for its current and planned scale of operations. The group reported network of Rs 991 crore and gearing of 1.1 times as on September 30, 2023, as against Rs 933 crore and 1.0 times, respectively as on March 31, 2023 (Rs 926 crore and 0.5 times respectively as on March 31, 2022). Absolute network includes investment of Rs 382 crore in subsidiaries (of which Rs 230 crore is deployed in Moneywise). Capital augmentation has largely been driven by internal cash accrual since SMC operates in capital light businesses where borrowing needs are largely to meet working capital requirement and for margin trade funding business. But with plans to scale up the non-capital market related NBFC business, gearing is expected to increase gradually over the near to medium term. However, with gearing of the NBFC business modest at 1.7 times as on September 30, 2023, the need for raising capital is not immediate in the near term. Hence, the capital position is expected to remain adequate over the medium term.

Weaknesses:

- **Moderate-albeit-improving earnings profile**

The earnings profile of the group is well diversified on a consolidated basis. The income from traditional broking (capital market) comprises ~22% of total income in fiscal 2023 while insurance broking contributes ~28%. The group earns 21% of its total income through interest income (float and delayed interest charges, interest income from margin trade funding and NBFC business). Income from proprietary trading contributes another 14% of total income. Contribution from other fee-based income streams, such as distribution of financial products, research, wealth management, portfolio management is around 13% while other miscellaneous income comprises the rest 2% of total income.

The group reported total income of Rs 1,221 crore in fiscal 2023, vis-à-vis Rs 1,121 crore in the previous fiscal. In terms of expenses, variable expenses constitute 52-53% of the total expenses due to sub-brokerage model of various

businesses (traditional broking, insurance broking, distribution). The rest 47-48% cost is fixed, of which ~30% comprises employee and finance costs and the rest (~18%) cost includes other operational expenses. The cost to income (net of sub-brokerage expenses) ratio is elevated in comparison to similar or larger-size peers; the ratio increased to 73.4% in fiscal 2023 from 62.9% in fiscal 2022 owing to higher operating expenses incurred in fiscal 2023 to strengthen the IT infrastructure. The operating efficiency is likely to remain in similar range over the next few years as technology infrastructure expenses will continue to remain a drag on earnings. The group reported net profit of Rs 120 crore in fiscal 2023 vis-à-vis Rs 175 crore in the previous fiscal. Going forward, the ability of the group to improve its operating leverage, and in turn profitability, will remain a key monitorable.

- **Highly competitive landscape, exposure to risks associated with capital market-related businesses**

Most businesses of the group are confined to the capital market industry, which faces intense competition from multiple players offering low-cost products. Additionally, competition from various proprietary trading businesses has increased considerably. Given that trading volumes are the highest for most arbitrage players, trader retention will remain a challenge with the entrance of various players in the futures and options trading business.

The broking industry has seen a huge transformation in the last three years, with technology-based discount brokers entering and dominating the market. The key broking business remains exposed to economic, political and social factors that drive investor sentiments. Given the volatility in the business, brokerage volume and earnings are highly dependent on the level of trading activity in capital markets. Specifically, since March 2020, the stock markets have seen high retail participation and daily trading volume coinciding with the Covid-19 pandemic-led lockdown and people remaining at home. A significant proportion of client additions in the industry are of the 25-30 year age demographic, without significant savings surplus. The upward movement of the key benchmark indices during this period, too, has further contributed to the lure of stock market trading and potential gains. While this has benefited the group as well as other broking players, sustainability of this market momentum will remain a key monitorable.

- **Susceptibility to regulatory risks**

Over the past couple of years, the broking industry has witnessed a dynamic regulatory environment. With the objective of enhancing transparency, limiting misuse of funds and safeguarding investor interests, SEBI has introduced several changes. Some of these include margin pledge/re-pledge mechanism, daily client collateral reporting and disclosure, collateral allocation at clearing corporations by brokers, and upfront margin collection for intraday positions. More recently, SEBI has approved blocking of funds facility for trading in secondary markets, and non-usage of client deposits for availing bank guarantees (BG) by brokers, which aim to prevent misuse of client funds, broker defaults and consequent risk to investor capital. This is similar to the Application Supported by Blocked Amount (ASBA) facility already available for the primary market, which ensures movement of money only when an allotment happens.

With increasing compliance intensity, associated costs are expected to increase. CRISIL Ratings understands that most large brokers and some mid-sized companies including the SMC group have streamlined their systems in accordance with the revised regulations. However, this could impact small and mid-sized brokers with not-so-advanced IT infrastructure and risk management systems.

Fundamentally, while these revised regulations will benefit the broking industry in the long term by increasing transparency and lowering risks for customers, the changes do increase the compliance costs for brokers and require them to adapt their business models to keep pace.

Liquidity: Adequate

Liquidity of SMC is comfortable for the current scale of operations. The company had cash and cash equivalents of Rs 55 crore as on September 30, 2023. Additionally, the company has deposited margins with exchanges amounting to Rs ~607 crore as on same date. Against this, company has scheduled repayments of Rs 14 crore over the next six months.

Liquidity of Moneywise is also comfortable as the asset liability management profile had positive cumulative mismatches across all buckets as on September 30, 2023. Further, the company had cash and cash equivalents and liquid investments aggregated to Rs 64 crore as on September 30, 2023, sufficient to cover the principal debt obligation of Rs 48 crore for the three months ended December 31, 2023.

Outlook: Stable

CRISIL Ratings believes the SMC group will continue to maintain healthy capitalisation metrics while benefitting from the modest presence across the financial services businesses and its adequate risk management systems. The ability to improve its market position and profitability will have to be monitored.

Rating Sensitivity factors

Upward factors

- Cost-to-income ratio (net of sub-brokerage expense) improving to below 60% on a steady-state basis
- Improvement in income diversity and profitability on a sustained basis
- Significant scale-up in market position of the NBFC businesses while maintaining asset quality and profitability

Downward factors

- Weakening of the earnings profile or sustained increase in cost-to-income ratio (net of sub-brokerage expense) to over 80%
- Impact on business risk profile, indicated by sustained drop in market share impacting revenue from the core broking operations
- Significant deterioration in asset quality of the NBFC business on a sustained basis impacting group's profitability

Detailed Rationale

CRISIL Ratings has assigned its '**CRISIL A/Stable**' rating to the non-convertible debentures (NCD) of SMC Global Securities Limited (SMC).

The rating factors in established presence and track record of the group in capital market businesses, healthy diversification in revenue across multiple segments, adequate capital position and the extensive experience of the promoters in the business.

These strengths are partially offset by a moderate albeit improving earnings profile and susceptibility to risks associated with capital market-related businesses.

The group has been in the broking business since 1994 with presence in both cash equity and derivatives market segments, including the currency and commodity derivatives division. The group's other key offerings include lending through a non-banking financial company (NBFC), insurance broking, wealth management and real estate advisory services. The group also distributes third-party products such as mutual funds, corporate fixed deposits (FDs), bonds and initial public offerings. The broking business had a large retail client base of over 10.0 lakh customers as on September 30, 2023 (grew at 19.4% on-year in fiscal 2023). Active clients for the broking business stood at 1.86 lakh as on September 30, 2023.

SMC was co-founded by the promoters – Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who are chartered accountants and have more than four decades of experience in the capital market industry. The promoters along with their family members, collectively own 67.4% of equity shares as on September 30, 2023.

The group has adequate capitalization, with reported networth of Rs 933 crore as on March 31, 2023 (Rs 991 crore as on Sep 2023), compared to Rs 926 crore as on March 31, 2022. The networth remained nearly flat in fiscal 2023 on account of Rs 92 crore (including tax and other expenses) share buyback made by the company and 120% dividend paid per share. In terms of earning profile, profit after tax (PAT) stood at Rs 120 crore on total income of Rs 1,221 crore in fiscal 2023 (against Rs 175 crore and Rs 1,121 crore, respectively, for the previous fiscal). Profitability moderated in fiscal 2023 owing to increase in operating expenses to strengthen the information technology (IT) infrastructure and due to absence of one-time income earned on the investment book of Rs ~30 crore in fiscal 2022. For the half year ended September 30, 2023, the company reported PAT of Rs 70 crore on total income of Rs 704 crore.

Analytical Approach

For arriving at the ratings, CRISIL Ratings has combined the business and financial risk profiles of SMC Global Securities Limited and its subsidiaries. That is because the entities, collectively referred to as the SMC group, have integrated operations and operate under a common brand name.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- **Track record in capital market business, supported by experienced management and robust risk management systems**

The group has been in the broking business since 1994 and has an established operational track record. The group's senior management team comprises the promoters – Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who have more than four decades of experience in the capital market industry. Further, the group has hired professionals having significant relevant expertise. The CEO and head of the broking division, Mr Ajay Garg, has more than 25 years of experience in the capital market industry. The promoter and top management have witnessed several cycles in the capital markets business.

This has led to building sound risk management systems that partially offset risks arising from uncertainties inherent in the trading and broking business.

All the Securities and Exchange Board of India (SEBI) and exchange-prescribed regulations have been adhered to by instilling requisite systems and processes. The group sets client trading limits upfront and monitors client exposure on a real-time basis. It also sets scrip-wise exposure limit to keep a check on illiquid scrips or scrips under any kind of surveillance. Upfront margin along with peak margin is collected necessarily and clients are required to maintain adequate margin as prescribed by exchanges. In case of adverse/volatile price movements real-time risk-based square off could be initiated at any time during the day.

On the trading side the group engages largely in arbitrage strategies, which limits likelihood of losses. A dedicated surveillance team monitors trader limits, outstanding exposures, and mark to market on real-time basis. The sound risk management system has resulted in nil quarterly losses since inception. The group also set up an in-house technology team in fiscal 2023 to strengthen their IT infrastructure.

- **Increasing diversification across financial services businesses, supporting stability in earnings profile**

SMC is an established player in the retail equity broking segment. The market share of the combined volumes of the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in both the cash and derivatives segments stood at 0.49% for fiscal 2023, with higher market share in the retail cash segment at 0.83%. It has a modest presence in the commodity and currency segment and earns ~11% of its total broking income from these two segments. Furthermore, amidst high competition from discount brokers, the group started its own discount broking platform in 2019 under the brand name 'Stoxkart' where customers are charged only for profitable transactions. The platform has a client base of over 2.3 lakh customers as on September 30, 2023 (grew at 83.5% on-year in fiscal 2023). With gradual scale up of fund-based business (NBFC) and the presence of fee-based businesses, such as insurance broking, distribution (financial products), wealth management, advisory, revenue streams have become more diverse. Contribution from these businesses to overall revenue has increased in the last few fiscals. The group is focusing on scaling up its insurance broking and distribution businesses by strengthening the technology infrastructure.

The wealth management business had assets under management (AUM) worth Rs 797 crore as on September 30, 2023 (Rs 610 crore as on March 31, 2023). The AUM of mutual funds under the distribution business was over Rs 3,300 crore as on September 30, 2023. The company has been able to create a niche for itself in distributing FDs and had distributed FDs worth Rs 3,012 crore for the half year period ended September 30, 2023. For their insurance broking business, it has sold over 4.5 lakh policies worth Rs 1,257 crore of insurance premium for the half year period ended September 30, 2023.

The group provides lending through its wholly owned subsidiary, Moneywise Financial Services Private Limited (Moneywise). The lending business commenced operations in 2008 and offers a wide bouquet of small and medium-sized enterprises (SME)-focused loan products such as working capital term loans, loan against property, asset financing, loan to other NFBCs, capital market funding, consumer durable loans, supply chain financing and gold loan. AUM grew 30% (on-year) in fiscal 2023 and stood at Rs 900 crore as on March 31, 2023, against Rs 690 crore a year ago; AUM further increased to Rs 1,016 crore as on September 30, 2023. The asset quality of the book remains stable as gross non-performing assets stood at 2.3% as on September 30, 2023, against 2.3% as on March 31, 2023. The subsidiary reported PAT of Rs 36 crore and return on assets of 4.0% for fiscal 2023, compared to Rs 22 crore and 3.3%, respectively, in the previous year. The management plans to grow the loan book aggressively and targets an AUM of Rs 5,000 crore in the next five years.

- **Adequate capitalisation**

The group is adequately capitalised for its current and planned scale of operations. The group reported networth of Rs 991 crore and gearing of 1.1 times as on September 30, 2023, as against Rs 933 crore and 1.0 times, respectively as on March 31, 2023 (Rs 926 crore and 0.5 times respectively as on March 31, 2022). Absolute networth includes investment of Rs 382 crore in subsidiaries (of which Rs 230 crore is deployed in Moneywise). Capital augmentation has largely been driven by internal cash accrual since SMC operates in capital light businesses where borrowing needs are largely to meet working capital requirement and for margin trade funding business. But with plans to scale up the non-capital market related NBFC business, gearing is expected to increase gradually over the near to medium term. However, with gearing of the NBFC business modest at 1.7 times as on September 30, 2023, the need for raising capital is not immediate in the near term. Hence, the capital position is expected to remain adequate over the medium term.

Weaknesses:

- **Moderate-albeit-improving earnings profile**

The earnings profile of the group is well diversified on a consolidated basis. The income from traditional broking (capital market) comprises ~22% of total income in fiscal 2023 while insurance broking contributes ~28%. The group earns 21% of its total income through interest income (float and delayed interest charges, interest income from margin trade funding and NBFC business). Income from proprietary trading contributes another 14% of total income. Contribution from other fee-based income streams, such as distribution of financial products, research, wealth management, portfolio management is around 13% while other miscellaneous income comprises the rest 2% of total income.

The group reported total income of Rs 1,221 crore in fiscal 2023, vis-à-vis Rs 1,121 crore in the previous fiscal. In terms of expenses, variable expenses constitute 52-53% of the total expenses due to sub-brokerage model of various businesses (traditional broking, insurance broking, distribution). The rest 47-48% cost is fixed, of which ~30% comprises employee and

finance costs and the rest (~18%) cost includes other operational expenses. The cost to income (net of sub-brokerage expenses) ratio is elevated in comparison to similar or larger-size peers; the ratio increased to 73.4% in fiscal 2023 from 62.9% in fiscal 2022 owing to higher operating expenses incurred in fiscal 2023 to strengthen the IT infrastructure. The operating efficiency is likely to remain in similar range over the next few years as technology infrastructure expenses will continue to remain a drag on earnings. The group reported net profit of Rs 120 crore in fiscal 2023 vis-à-vis Rs 175 crore in the previous fiscal. Going forward, the ability of the group to improve its operating leverage, and in turn profitability, will remain a key monitorable.

- **Highly competitive landscape, exposure to risks associated with capital market-related businesses**

Most businesses of the group are confined to the capital market industry, which faces intense competition from multiple players offering low-cost products. Additionally, competition from various proprietary trading businesses has increased considerably. Given that trading volumes are the highest for most arbitrage players, trader retention will remain a challenge with the entrance of various players in the futures and options trading business.

The broking industry has seen a huge transformation in the last three years, with technology-based discount brokers entering and dominating the market. The key broking business remains exposed to economic, political and social factors that drive investor sentiments. Given the volatility in the business, brokerage volume and earnings are highly dependent on the level of trading activity in capital markets. Specifically, since March 2020, the stock markets have seen high retail participation and daily trading volume coinciding with the Covid-19 pandemic-led lockdown and people remaining at home. A significant proportion of client additions in the industry are of the 25-30 year age demographic, without significant savings surplus. The upward movement of the key benchmark indices during this period, too, has further contributed to the lure of stock market trading and potential gains. While this has benefited the group as well as other broking players, sustainability of this market momentum will remain a key monitorable.

- **Susceptibility to regulatory risks**

Over the past couple of years, the broking industry has witnessed a dynamic regulatory environment. With the objective of enhancing transparency, limiting misuse of funds and safeguarding investor interests, SEBI has introduced several changes. Some of these include margin pledge/re-pledge mechanism, daily client collateral reporting and disclosure, collateral allocation at clearing corporations by brokers, and upfront margin collection for intraday positions. More recently, SEBI has approved blocking of funds facility for trading in secondary markets, and non-usage of client deposits for availing bank guarantees (BG) by brokers, which aim to prevent misuse of client funds, broker defaults and consequent risk to investor capital. This is similar to the Application Supported by Blocked Amount (ASBA) facility already available for the primary market, which ensures movement of money only when an allotment happens.

With increasing compliance intensity, associated costs are expected to increase. CRISIL Ratings understands that most large brokers and some mid-sized companies including the SMC group have streamlined their systems in accordance with the revised regulations. However, this could impact small and mid-sized brokers with not-so-advanced IT infrastructure and risk management systems.

Fundamentally, while these revised regulations will benefit the broking industry in the long term by increasing transparency and lowering risks for customers, the changes do increase the compliance costs for brokers and require them to adapt their business models to keep pace.

Liquidity; Adequate

Liquidity of SMC is comfortable for the current scale of operations. The company had cash and cash equivalents of Rs 55 crore as on September 30, 2023. Additionally, the company has deposited margins with exchanges amounting to Rs ~607 crore as on same date. Against this, company has scheduled repayments of Rs 14 crore over the next six months.

Liquidity of Moneywise is also comfortable as the asset liability management profile had positive cumulative mismatches across all buckets as on September 30, 2023. Further, the company had cash and cash equivalents and liquid investments aggregated to Rs 64 crore as on September 30, 2023, sufficient to cover the principal debt obligation of Rs 48 crore for the three months ended December 31, 2023.

Outlook: Stable

CRISIL Ratings believes the SMC group will continue to maintain healthy capitalisation metrics while benefitting from the modest presence across the financial services businesses and its adequate risk management systems. The ability to improve its market position and profitability will have to be monitored.

Rating Sensitivity factors

Upward factors

- Cost-to-income ratio (net of sub-brokerage expense) improving to below 60% on a steady-state basis
- Improvement in income diversity and profitability on a sustained basis
- Significant scale-up in market position of the NBFC businesses while maintaining asset quality and profitability

Downward factors

- Weakening of the earnings profile or sustained increase in cost-to-income ratio (net of sub-brokerage expense) to over 80%
- Impact on business risk profile, indicated by sustained drop in market share impacting revenue from the core broking operations

- Significant deterioration in asset quality of the NBFC business on a sustained basis impacting group's profitability

Detailed Rationale

CRISIL Ratings has assigned its '**CRISIL A/Stable**' rating to the non-convertible debentures (NCD) of SMC Global Securities Limited (SMC).

The rating factors in established presence and track record of the group in capital market businesses, healthy diversification in revenue across multiple segments, adequate capital position and the extensive experience of the promoters in the business.

These strengths are partially offset by a moderate albeit improving earnings profile and susceptibility to risks associated with capital market-related businesses.

The group has been in the broking business since 1994 with presence in both cash equity and derivatives market segments, including the currency and commodity derivatives division. The group's other key offerings include lending through a non-banking financial company (NBFC), insurance broking, wealth management and real estate advisory services. The group also distributes third-party products such as mutual funds, corporate fixed deposits (FDs), bonds and initial public offerings. The broking business had a large retail client base of over 10.0 lakh customers as on September 30, 2023 (grew at 19.4% on-year in fiscal 2023). Active clients for the broking business stood at 1.86 lakh as on September 30, 2023.

SMC was co-founded by the promoters – Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who are chartered accountants and have more than four decades of experience in the capital market industry. The promoters along with their family members, collectively own 67.4% of equity shares as on September 30, 2023.

The group has adequate capitalization, with reported networth of Rs 933 crore as on March 31, 2023 (Rs 991 crore as on Sep 2023), compared to Rs 926 crore as on March 31, 2022. The networth remained nearly flat in fiscal 2023 on account of Rs 92 crore (including tax and other expenses) share buyback made by the company and 120% dividend paid per share. In terms of earning profile, profit after tax (PAT) stood at Rs 120 crore on total income of Rs 1,221 crore in fiscal 2023 (against Rs 175 crore and Rs 1,121 crore, respectively, for the previous fiscal). Profitability moderated in fiscal 2023 owing to increase in operating expenses to strengthen the information technology (IT) infrastructure and due to absence of one-time income earned on the investment book of Rs ~30 crore in fiscal 2022. For the half year ended September 30, 2023, the company reported PAT of Rs 70 crore on total income of Rs 704 crore.

Analytical Approach

For arriving at the ratings, CRISIL Ratings has combined the business and financial risk profiles of SMC Global Securities Limited and its subsidiaries. That is because the entities, collectively referred to as the SMC group, have integrated operations and operate under a common brand name.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- **Track record in capital market business, supported by experienced management and robust risk management systems**

The group has been in the broking business since 1994 and has an established operational track record. The group's senior management team comprises the promoters – Mr. Subhash Chand Aggarwal and Mr. Mahesh C Gupta, who have more than four decades of experience in the capital market industry. Further, the group has hired professionals having significant relevant expertise. The CEO and head of the broking division, Mr Ajay Garg, has more than 25 years of experience in the capital market industry. The promoter and top management have witnessed several cycles in the capital markets business.

This has led to building sound risk management systems that partially offset risks arising from uncertainties inherent in the trading and broking business.

All the Securities and Exchange Board of India (SEBI) and exchange-prescribed regulations have been adhered to by instilling requisite systems and processes. The group sets client trading limits upfront and monitors client exposure on a real-time basis. It also sets scrip-wise exposure limit to keep a check on illiquid scrips or scrips under any kind of surveillance. Upfront margin along with peak margin is collected necessarily and clients are required to maintain adequate margin as prescribed by exchanges. In case of adverse/volatile price movements real-time risk-based square off could be initiated at any time during the day.

On the trading side the group engages largely in arbitrage strategies, which limits likelihood of losses. A dedicated surveillance team monitors trader limits, outstanding exposures, and mark to market on real-time basis. The sound risk management system has resulted in nil quarterly losses since inception. The group also set up an in-house technology team in fiscal 2023 to strengthen their IT infrastructure.

- **Increasing diversification across financial services businesses, supporting stability in earnings profile**

SMC is an established player in the retail equity broking segment. The market share of the combined volumes of the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in both the cash and derivatives segments stood at 0.49% for fiscal 2023, with higher market share in the retail cash segment at 0.83%. It has a modest presence in the commodity and currency segment and earns ~11% of its total broking income from these two segments. Furthermore, amidst high competition from discount brokers, the group started its own discount broking platform in 2019 under the brand name 'Stoxkart' where customers are charged only for profitable transactions. The platform has a client base of over 2.3 lakh customers as on September 30, 2023 (grew at 83.5% on-year in fiscal 2023). With gradual scale up of fund-based business (NBFC) and the presence of fee-based businesses, such as insurance broking, distribution (financial products), wealth management, advisory, revenue streams have become more diverse. Contribution from these businesses to overall revenue has increased in the last few fiscals. The group is focusing on scaling up its insurance broking and distribution businesses by strengthening the technology infrastructure.

The wealth management business had assets under management (AUM) worth Rs 797 crore as on September 30, 2023 (Rs 610 crore as on March 31, 2023). The AUM of mutual funds under the distribution business was over Rs 3,300 crore as on September 30, 2023. The company has been able to create a niche for itself in distributing FDs and had distributed FDs worth Rs 3,012 crore for the half year period ended September 30, 2023. For their insurance broking business, it has sold over 4.5 lakh policies worth Rs 1,257 crore of insurance premium for the half year period ended September 30, 2023.

The group provides lending through its wholly owned subsidiary, Moneywise Financial Services Private Limited (Moneywise). The lending business commenced operations in 2008 and offers a wide bouquet of small and medium-sized enterprises (SME)-focused loan products such as working capital term loans, loan against property, asset financing, loan to other NFBs, capital market funding, consumer durable loans, supply chain financing and gold loan. AUM grew 30% (on-year) in fiscal 2023 and stood at Rs 900 crore as on March 31, 2023, against Rs 690 crore a year ago; AUM further increased to Rs 1,016 crore as on September 30, 2023. The asset quality of the book remains stable as gross non-performing assets stood at 2.3% as on September 30, 2023, against 2.3% as on March 31, 2023. The subsidiary reported PAT of Rs 36 crore and return on assets of 4.0% for fiscal 2023, compared to Rs 22 crore and 3.3%, respectively, in the previous year. The management plans to grow the loan book aggressively and targets an AUM of Rs 5,000 crore in the next five years.

- **Adequate capitalisation**

The group is adequately capitalised for its current and planned scale of operations. The group reported networth of Rs 991 crore and gearing of 1.1 times as on September 30, 2023, as against Rs 933 crore and 1.0 times, respectively as on March 31, 2023 (Rs 926 crore and 0.5 times respectively as on March 31, 2022). Absolute networth includes investment of Rs 382 crore in subsidiaries (of which Rs 230 crore is deployed in Moneywise). Capital augmentation has largely been driven by internal cash accrual since SMC operates in capital light businesses where borrowing needs are largely to meet working capital requirement and for margin trade funding business. But with plans to scale up the non-capital market related NBFC business, gearing is expected to increase gradually over the near to medium term. However, with gearing of the NBFC business modest at 1.7 times as on September 30, 2023, the need for raising capital is not immediate in the near term. Hence, the capital position is expected to remain adequate over the medium term.

Weaknesses:

- **Moderate-albeit-improving earnings profile**

The earnings profile of the group is well diversified on a consolidated basis. The income from traditional broking (capital market) comprises ~22% of total income in fiscal 2023 while insurance broking contributes ~28%. The group earns 21% of its total income through interest income (float and delayed interest charges, interest income from margin trade funding and NBFC business). Income from proprietary trading contributes another 14% of total income. Contribution from other fee-based income streams, such as distribution of financial products, research, wealth management, portfolio management is around 13% while other miscellaneous income comprises the rest 2% of total income.

The group reported total income of Rs 1,221 crore in fiscal 2023, vis-à-vis Rs 1,121 crore in the previous fiscal. In terms of expenses, variable expenses constitute 52-53% of the total expenses due to sub-brokerage model of various businesses (traditional broking, insurance broking, distribution). The rest 47-48% cost is fixed, of which ~30% comprises employee and

finance costs and the rest (~18%) cost includes other operational expenses. The cost to income (net of sub-brokerage expenses) ratio is elevated in comparison to similar or larger-size peers; the ratio increased to 73.4% in fiscal 2023 from 62.9% in fiscal 2022 owing to higher operating expenses incurred in fiscal 2023 to strengthen the IT infrastructure. The operating efficiency is likely to remain in similar range over the next few years as technology infrastructure expenses will continue to remain a drag on earnings. The group reported net profit of Rs 120 crore in fiscal 2023 vis-à-vis Rs 175 crore in the previous fiscal. Going forward, the ability of the group to improve its operating leverage, and in turn profitability, will remain a key monitorable.

- **Highly competitive landscape, exposure to risks associated with capital market-related businesses**

Most businesses of the group are confined to the capital market industry, which faces intense competition from multiple players offering low-cost products. Additionally, competition from various proprietary trading businesses has increased considerably. Given that trading volumes are the highest for most arbitrage players, trader retention will remain a challenge with the entrance of various players in the futures and options trading business.

The broking industry has seen a huge transformation in the last three years, with technology-based discount brokers entering and dominating the market. The key broking business remains exposed to economic, political and social factors that drive investor sentiments. Given the volatility in the business, brokerage volume and earnings are highly dependent on the level of trading activity in capital markets. Specifically, since March 2020, the stock markets have seen high retail participation and daily trading volume coinciding with the Covid-19 pandemic-led lockdown and people remaining at home. A significant proportion of client additions in the industry are of the 25-30 year age demographic, without significant savings surplus. The upward movement of the key benchmark indices during this period, too, has further contributed to the lure of stock market trading and potential gains. While this has benefited the group as well as other broking players, sustainability of this market momentum will remain a key monitorable.

- **Susceptibility to regulatory risks**

Over the past couple of years, the broking industry has witnessed a dynamic regulatory environment. With the objective of enhancing transparency, limiting misuse of funds and safeguarding investor interests, SEBI has introduced several changes. Some of these include margin pledge/re-pledge mechanism, daily client collateral reporting and disclosure, collateral allocation at clearing corporations by brokers, and upfront margin collection for intraday positions. More recently, SEBI has approved blocking of funds facility for trading in secondary markets, and non-usage of client deposits for availing bank guarantees (BG) by brokers, which aim to prevent misuse of client funds, broker defaults and consequent risk to investor capital. This is similar to the Application Supported by Blocked Amount (ASBA) facility already available for the primary market, which ensures movement of money only when an allotment happens.

With increasing compliance intensity, associated costs are expected to increase. CRISIL Ratings understands that most large brokers and some mid-sized companies including the SMC group have streamlined their systems in accordance with the revised regulations. However, this could impact small and mid-sized brokers with not-so-advanced IT infrastructure and risk management systems.

Fundamentally, while these revised regulations will benefit the broking industry in the long term by increasing transparency and lowering risks for customers, the changes do increase the compliance costs for brokers and require them to adapt their business models to keep pace.

Liquidity; Adequate

Liquidity of SMC is comfortable for the current scale of operations. The company had cash and cash equivalents of Rs 55 crore as on September 30, 2023. Additionally, the company has deposited margins with exchanges amounting to Rs ~607 crore as on same date. Against this, company has scheduled repayments of Rs 14 crore over the next six months.

Liquidity of Moneywise is also comfortable as the asset liability management profile had positive cumulative mismatches across all buckets as on September 30, 2023. Further, the company had cash and cash equivalents and liquid investments aggregated to Rs 64 crore as on September 30, 2023, sufficient to cover the principal debt obligation of Rs 48 crore for the three months ended December 31, 2023.

Outlook: Stable

CRISIL Ratings believes the SMC group will continue to maintain healthy capitalisation metrics while benefitting from the modest presence across the financial services businesses and its adequate risk management systems. The ability to improve its market position and profitability will have to be monitored.

Rating Sensitivity factors

Upward factors

- Cost-to-income ratio (net of sub-brokerage expense) improving to below 60% on a steady-state basis
- Improvement in income diversity and profitability on a sustained basis
- Significant scale-up in market position of the NBFC businesses while maintaining asset quality and profitability

Downward factors

- Weakening of the earnings profile or sustained increase in cost-to-income ratio (net of sub-brokerage expense) to over 80%
- Impact on business risk profile, indicated by sustained drop in market share impacting revenue from the core broking operations

- Significant deterioration in asset quality of the NBFC business on a sustained basis impacting group's profitability

About CRISIL Ratings Limited (A subsidiary of CRISIL Limited, an S&P Global Company)

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ('CRISIL Ratings') is a wholly-owned subsidiary of CRISIL Limited ('CRISIL'). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Rationale

While arriving at the ratings, ICRA has taken a consolidated view of SMC Global Securities Limited (SMC) and its subsidiaries (collectively referred to as the SMC Group/the Group), given the synergies and operational linkages between the entities. The ratings factor in SMC's long track record in the capital market segment and its well-established network of branches and sub-brokers. The ratings also factor in the company's established market position along with the synergistic benefits arising from the Group's integrated presence across broking, clearing, distribution, wealth and lending activities.

The ratings also derive comfort from the Group's comfortable capitalisation profile with a gearing of 1x and a net worth of Rs. 932.7 crore on a consolidated basis as on March 31, 2023. ICRA notes that the leverage could go up from the current level, with the additional requirement of funding for SMC following the change in the regulations regarding segregation of client funds and scale-up in the lending business (housed in the non-banking financial company (NBFC) – Moneywise Financial Services Pvt. Ltd.), though the overall capitalisation levels is expected to remain adequate. The ratings also factor in the adequate liquidity profile of the group, the healthy level of margin utilisation with the exchanges (average utilisation was around 56% as at March 2023), sufficient unencumbered cash and bank balance of Rs. 20.6 crore as on March 31, 2023 and adequate sanctioned and unutilised bank lines. The asset quality indicators remain under control on a consolidated basis with negligible write-offs. ICRA also notes the recovery in the asset quality indicators at the NBFC level in FY2023, following some deterioration witnessed in FY2021 and FY2022 due to the impact of the Covid-19 pandemic. The performance of the lending business, in terms of growth and asset quality, would have a bearing on the overall credit profile of the Group. ICRA has taken note of the moderation in the Group's profitability in FY2023 with a return on average net worth (RoNW) of 13% on a consolidated basis (21% in FY2022 and 14% in FY2021), majorly driven by increase in operating expenses resulting from strengthening of IT infrastructure and one-time fair value impact on the investment book during FY2022.

The strengths for the group are partially offset by the inherent volatility in capital markets and the highly competitive and fragmented nature of the broking industry. The risk is somewhat augmented as a significant portion of SMC group's revenues (approximately 69%* in FY2023) is from capital market related activities (broking and trading activities). However, ICRA has noted some improvement in diversification over the years with the increasing share of lending and other fee-based businesses (such as asset management, insurance broking) in the overall revenue mix. In lending business, the steps taken by the management to strengthen the risk management and underwriting processes & the calibrated growth approach provide comfort. Going forward, the company's ability to diversify its revenue stream, expand its operations while leveraging its wide geographical reach, ability to manage prudent capitalisation with increased working capital requirements, scale up its risk management systems in line with the business growth and improve its profitability remains critical.

*Approximately 69% includes 11% from insurance broking activities which is not dependent on capital markets

Key rating drivers and their description

Credit strengths

Long track record and established market position – The company has a long track record of over three decades in the capital market segment. The company caters to both the retail and the institutional clients; however, the bulk of the business remains retail focused. The company has well established market position in the capital markets and has seen improvement in the market share over the past two years. In FY2023, Company recorded an increase of 9.72% in the client base of equity broking segment, and the discount broking segment recorded an increase of 83.52% in the number of clients; though the overall market share remains limited.

Comfortable liquidity position and capitalisation profile – SMC's broking business has a comfortable liquidity profile with adequate unutilized margins placed at the exchanges (average margin utilization at around 56% during FY2023), sufficient unencumbered cash and bank balance of Rs. 20.59 crore as on March 31, 2023 and adequate sanctioned and unutilised bank lines. The capitalization profile on consolidated levels stood comfortable with SMC's reported gearing at 1x on a net worth of Rs. 932.7 crore as on March 31, 2023. With the NBFC operating at modest gearing levels, the company may not require capital for growth in the near term.

Good asset quality indicators – SMC's asset quality remains largely under control with negligible write-offs in FY2023. It is further supported by the company's risk management policy with automated margin monitoring systems. ICRA has taken note that the asset quality indicators for the NBFC (Moneywise Financial Services Pvt. Ltd.) also recovered with GNPA improving from 2.8% in FY2022, to 2.3% in FY2023. The ability of the NBFC to grow the business while controlling the slippages going forward would be critical for maintaining the credit profile of the group.

Credit challenges

Moderation in profitability – The profitability for the group declined in FY2023 with the group reporting a net profit of Rs. 120 crore in FY2023 as compared with Rs. 175 crore in FY2022. This decline was largely on account of increase in operating expenses resulting from strengthening of IT infrastructure and one-time fair value impact on the investment book during FY2022. While similar impact from investment book is not expected in FY2024, there could be some moderation in the net interest margins given the higher working capital requirements and lower interest income, thus leading to some moderation in profitability in the broking business. Further, the NBFC business of the group continues to be in an expansion mode and hence operating expenses would remain high.

High dependence on capital markets is likely to keep the earnings profile volatile – The revenue profile of the group continues to be dominated by the capital market (approximately 69%* of the total revenues from brokerage segment and trading segment in FY2023) which are inherently vulnerable to market cycles. Net Brokerage income (35%), Net Interest income (32%) and the fee income received as a commission on selling of insurance and mutual funds to the clients (31%) along with other miscellaneous income (income from advisory services, delayed payment charges/Interest on MTF book of the company and the dividends received) accounted for the remaining 2% of the total operating revenue. While the company has demonstrated the ability to report profitability through cycles, nevertheless, the dependence on capital markets is likely to remain. In this regard, the Group's ability to profitably improve the diversification would be a key monitorable.

**Approximately 69% includes 11% from insurance broking activities which is not dependent on capital markets. Revised revenue composition: Net Brokerage income (25%), Net Interest income(32%), Fee income(41%) along with other miscellaneous income(2%).*

Competitive intensity likely to keep broking yields under pressure – The blended yields of the company in equity broking have been under pressure as a result of the highly competitive intensity along with the substantial share of the low yielding F&O segment in the overall equity trading volumes. Given the industry dynamics, the brokerage yields are expected to remain at similar levels going forward.

Environmental and social risks

SMC Global Securities Ltd. did not face material physical climate risks; however, they are exposed to environmental risks indirectly through their portfolio of assets. If the entities or businesses on whom banks and financial institutions have an exposure face business disruption because of physical climate adversities, or if such businesses face climate transition risks because of technological, regulatory, or customer behaviour changes, it could translate into credit risks for financial institutions. Further, the business activities are typically short-to-medium term in nature, that will allow it to adapt and take incremental exposure on businesses that face relatively lesser downside environmental risks.

With regard to the social risks, data security and customer privacy are among the key sources of vulnerabilities for financial institutions as any material lapses could be detrimental to the reputation and invite regulatory censure. As majority of SMC's services are digitally driven with high utility of information technology, SMC faces the risk of data breaches, cyber-attack and other operational risks affecting the customer data, trading, broking etc. However, SMC had no such instances in the past which indicates the risk management and processes are adequate.

Liquidity position: Adequate

SMC's broking business has adequate liquidity profile with unutilized margins placed at the exchanges (average margin utilisation of around 56% during the period of FY2023, sufficient unencumbered cash and bank balance of Rs. 20.6 crore as on March 31, 2023 along with an adequate amount of sanctioned and unutilised bank lines. The liquidity position of Moneywise Financial Services Pvt. Ltd., SMC's NBFC subsidiary, remains comfortable with positive cumulative mismatches across all its buckets due to its low gearing during FY2023. As on March 31, 2023, MFSPL had debt repayments (excluding interest) of Rs. 243.1 crore[^] in next twelve months compared to expected inflows from advances of Rs. 484.2 crore during this period.

[^]Rs 158 crore (excluding WCDL, OD/CC)

Rating sensitivities

Positive factors – A significant improvement in the Group's revenue diversification along with improvement in profitability on a sustained basis may result in a rating upgrade.

Negative factors – The ratings could be revised downwards if there is a significant deterioration in the Group's profitability indicators, thereby adversely affecting its financial risk profile. The ratings could also face significant pressure if the credit quality of the NBFC deteriorates.

Rationale

While arriving at the ratings, ICRA has consolidated SMC Global Securities Limited (SMC) and its subsidiaries (collectively referred to as the SMC Group/the Group). The ratings factor in SMC's long track record in the capital market segment and its well-established network of branches and sub-brokers. The ratings also factor in the company's established market position along with the synergistic benefits arising from the Group's integrated presence across broking, clearing, distribution, wealth and lending activities.

The ratings also derive comfort from the Group's comfortable capitalisation profile with a gearing of 1x and a net worth of Rs. 932.7 crore on a consolidated basis as on March 31, 2023. ICRA notes that the leverage could go up from the current level, with the additional requirement of funding for SMC following the change in the regulations regarding segregation of client funds and scale-up in the lending business (housed in the non-banking financial company (NBFC) – Moneywise Financial Services Pvt. Ltd.), though the overall capitalisation levels is expected to remain commensurate with the rating level. The ratings also factor in the adequate liquidity profile of the group, with sufficient buffers in terms of margin utilisation with the exchanges (average utilisation was around 56% as at March 2023), sufficient unencumbered cash and bank balance of Rs. 20.6 crore as on March 31, 2023 and adequate sanctioned and unutilised bank lines. The asset quality indicators remain under control on a consolidated basis with negligible write-offs. ICRA also notes the recovery in the asset quality indicators at the NBFC level in FY2023, following some deterioration witnessed in FY2021 and FY2022 due to the impact of the Covid-19 pandemic. The performance of the lending business, in terms of growth and asset quality, would have a bearing on the overall credit profile of the Group. ICRA has taken note of the moderation in the Group's profitability in FY2023 with a return on average net worth (RoNW) of 13% on a consolidated basis (21% in FY2022 and 14% in FY2021), majorly driven by increase in operating expenses resulting from strengthening of IT infrastructure and adverse fair value changes in the investment book during FY2023.

The strengths for the group are partially offset by the inherent volatility in capital markets and the highly competitive and fragmented nature of the broking industry. The risk is somewhat augmented as a significant portion of SMC group's revenues (approximately 69%¹ in FY2023) is from capital market related activities (broking and trading activities). However, ICRA has noted some improvement in diversification over the years with the increasing share of lending and other fee-based businesses (such as asset management, insurance broking) in the overall revenue mix. In lending business, the steps taken by the

¹ Approximately 69% includes 11% from insurance broking activities which is not dependent on capital markets

management to strengthen the risk management and underwriting processes & the calibrated growth approach provide comfort. Going forward, the company's ability to diversify its revenue stream, expand its operations while leveraging its wide geographical reach, ability to manage prudent capitalisation with increased working capital requirements, scale up its risk management systems in line with the business growth and improve its profitability remains critical.

Key rating drivers and their description

Credit strengths

Long track record and established market position – The company has a long track record of over three decades in the capital market segment. The company caters to both the retail and the institutional clients; however, the bulk of the business remains retail focused. The company has well established market position in the capital markets and has seen improvement in the market share over the past two years. In FY2023, Company recorded an increase of 9.72% in the client base of equity broking segment, and the discount broking segment recorded an increase of 83.52% in the number of clients; though the overall market share remains limited.

Comfortable liquidity position and capitalisation profile – SMC's broking business has a comfortable liquidity profile with sufficient buffers in terms of margin utilisation with the exchanges (average margin utilization at around 56% during FY2023), sufficient unencumbered cash and bank balance of Rs. 20.59 crore as on March 31, 2023 and adequate sanctioned and unutilised bank lines. The capitalization profile on consolidated levels stood comfortable with SMC's reported gearing at 1x on a net worth of Rs. 932.7 crore as on March 31, 2023. With the NBFC operating at modest gearing levels, the company may not require capital for growth in the near term.

Good asset quality indicators – SMC's asset quality remains largely under control with negligible write-offs in FY2023. It is further supported by the company's risk management policy with automated margin monitoring systems. ICRA has taken note that the asset quality indicators for the NBFC (Moneywise Financial Services Pvt. Ltd.) also recovered with GNPA improving from 2.8% in FY2022, to 2.3% in FY2023. The ability of the NBFC to grow the business while controlling the slippages going forward would be critical for maintaining the credit profile of the group.

Credit challenges

Moderation in profitability – The profitability for the group declined in FY2023 with the group reporting a net profit of Rs. 120 crore in FY2023 as compared with Rs. 175 crore in FY2022. This decline was largely on account of increase in operating expenses resulting from strengthening of IT infrastructure and adverse fair value changes in the investment book during FY2023. While similar impact from investment book is not expected in FY2024, there could be some moderation in the net interest margins given the higher working capital requirements and lower interest income, thus leading to some moderation in profitability in the broking business. Further, the NBFC business of the group continues to be in an expansion mode and hence operating expenses would remain high.

High dependence on capital markets is likely to keep the earnings profile volatile – The revenue profile of the group continues to be dominated by the capital market (approximately 69%² of the total revenues from brokerage segment and trading segment in FY2023) which are inherently vulnerable to market cycles. Net Brokerage income (35%), Net Interest income (32%) and the fee income received as a commission on selling of insurance and mutual funds to the clients (31%) along with other miscellaneous income (income from advisory services, delayed payment charges/Interest on MTF book of the company and the dividends received) accounted for the remaining 2% of the total operating revenue. While the company has demonstrated the ability to report profitability through cycles, nevertheless, the dependence on capital markets is likely to remain. In this regard, the Group's ability to profitably improve the diversification would be a key monitorable.

² Approximately 69% includes 11% from insurance broking activities which is not dependent on capital markets. Revised revenue composition: Net Brokerage income (25%), Net Interest income(32%), Fee income(41%) along with other miscellaneous income(2%).

Competitive intensity likely to keep broking yields under pressure – The blended yields of the company in equity broking have been under pressure as a result of the highly competitive intensity along with the substantial share of the low yielding F&O segment in the overall equity trading volumes. Given the industry dynamics, the brokerage yields are expected to remain at similar levels going forward.

Environmental and social risks

SMC Global Securities Ltd. did not face material physical climate risks; however, they are exposed to environmental risks indirectly through their portfolio of assets. If the entities or businesses on whom banks and financial institutions have an exposure face business disruption because of physical climate adversities, or if such businesses face climate transition risks because of technological, regulatory, or customer behaviour changes, it could translate into credit risks for financial institutions. Further, the business activities are typically short-to-medium term in nature, that will allow it to adapt and take incremental exposure on businesses that face relatively lesser downside environmental risks.

With regard to the social risks, data security and customer privacy are among the key sources of vulnerabilities for financial institutions as any material lapses could be detrimental to the reputation and invite regulatory censure. As majority of SMC's services are digitally driven with high utility of information technology, SMC faces the risk of data breaches, cyber-attack and other operational risks affecting the customer data, trading, broking etc. However, SMC had no such instances in the past which indicates the risk management and processes are adequate.

Liquidity position: Adequate

SMC's broking business has adequate liquidity profile with sufficient buffers in terms of margin utilisation with the exchanges (average margin utilisation of around 56% during the period of FY2023), sufficient unencumbered cash and bank balance of Rs. 20.6 crore as on March 31, 2023 along with an adequate amount of sanctioned and unutilised bank lines. The liquidity position of Moneywise Financial Services Pvt. Ltd., SMC's NBFC subsidiary, remains comfortable with positive cumulative mismatches across all its buckets due to its low gearing during FY2023. As on March 31, 2023, MFSPL had debt repayments (excluding interest) of Rs. 243.1 crore[^] in next twelve months compared to expected inflows from advances of Rs. 484.2 crore during this period.

[^]Rs 158 crore (excluding WCDL, OD/CC)

Rating sensitivities

Positive factors – A significant improvement in the Group's revenue diversification along with improvement in profitability on a sustained basis may result in a rating upgrade.

Negative factors – The ratings could be revised downwards if there is a significant deterioration in the Group's profitability indicators, thereby adversely affecting its financial risk profile. The ratings could also face significant pressure if the credit quality of the NBFC deteriorates.
